

PROVO LETTER.

A potential reformer.—World's Fair Debates.—In Council and Court.

Special Correspondence of the News.

Provo, Nov. 22.—McAlister L. C. (the coming man?) in a small, cramped room was on Sunday evening placed in the register of the Hotel Roberts by a man about thirty years of age, a man in a neat business suit and wearing a light-gray overcoat. The man took his seat by the stove and commenced a conversation with several of the guests. A peculiar conversation it was. "Yes, I am Christ," he said, "and I don't have to work for a living, any man I ask for anything will give it to me," etc. And in the midst of his assertions, he persuaded one of the guests to give him a dollar. Subsequently, he went to the Baptist church, where services were being held, and interrupted the pastor in his midst, accusing him of preaching false doctrine. He then went to the hotel and retired for the night. During the whole of yesterday he persisted in the same proclaiming the doctrine that he was great supernatural power. He had been a resident of New Johnson's place in this city for about three years. It is said that he has become demoralized because the lady whom he adored has failed to reciprocate. At a late hour last night McAlister was locked up in jail.

A city dollar prize has been awarded to Hammond Simmons of Southport for raising the last five acres of corn in the city. The five acres yielded 29 bushels, 50 pounds, for which he received \$10.00. Noll Gardner, of the same city, raised 22 tons, 75 pounds, an increase of 100 bushels.

Mrs. F. B. Richards and Mrs. Hall were in the city yesterday in attendance at the meeting of the Ladies' County World's Fair association. They expressed themselves as being well pleased with the progress being made in the county. After the meeting they were driven about the city for viewing the various points of interest.

Mrs. Anna K. Smith, president of the Primary association for Utah State, has suggested a revised design for the emblem of the State of Utah at the World's Fair. She suggests a globe and silver sheaves, containing corn, wheat and other grain, and in the center, a shield with a star, and the words "Utah State School, 1892" and "The People's School, 1892" on the sides.

The meeting of the Utah county World's Fair association (yesterday) was held in the city hall today, and was adjourned until Friday next, at 2 o'clock, a quorum not being present.

At the session of the city council held last night, the following items of business were transacted: F. B. Richards asked that he be permitted to operate a refreshment stand on the National Grounds, property owned by the city. Referred to the committee on streets and alleys. Also were referred for reading, city propositions, and the contract was awarded to Thomas Fowler at 10-25 cents per meal.

The mayor was added to the committee on revision of ordinances. The committee on fire department was authorized to have a fire alarm bell placed in the western part of the city, the telephone company having consented to the use of their telephone system without charge.

The recorder and treasurer were instructed to report to the council the amounts, if any, they had paid for printing or publishing out of their municipal funds, without submitting same for the approval of the council. This order was issued, Mr. Malen explained, on account of an article which had appeared in a public journal (Examiner) charging that printing was being done and paid for by city funds, and that the council, without the knowledge of the council.

Chief Justice Zane came down from Salt Lake last night and opened the regular term of the First district court.

The following business was transacted: In the divorce case of Sarah Jane Hunt vs. Philip Hunt, defendant was restrained from disposing of his farm until a hearing could be had.

Chas. Hall, of Springfield, was granted a divorce from J. Hall on the grounds of cruelty and drunkenness. Plaintiff was given the custody of the children and the home, consisting of a house and lot.

Ray Westwood, of Springfield, aged 17, the son of J. M. Westwood, and who was recently arrested in a gambling hall in Salt Lake, at Marsfield Hall, for having stolen \$111 from his father, was held sent to the Reformatory school.

In the case of W. H. Gage vs. Geo. Hartman a decree of foreclosure of mortgage was rendered.

The case of the People vs. Bartholomew, and of the People vs. L. A. Postill were ordered dismissed on motion of Prosecuting Attorney Zane. A court was adjourned until December 10th, by which time Judge Blackburn will have returned from his vacation.

Provo, Nov. 22.—School was commenced yesterday morning in the new school house (Chimney) with 171 pupils. The principal is S. P. Eggerston, Jr., and the assistants are Mrs. Hattie Abbott and Mrs. Mary M. Smith. The school house is a new, sturdy building, but the second story is not yet finished. In each story are three class rooms, 24 by 12 ft. and a teacher's room 7 by 9. When completed, the building will accommodate 400 pupils. It is constructed of red sandstone and brick.

Mr. Fritz, employed at the Spectator meat market, met with an accident yesterday afternoon, of a rather ludicrous nature, but which might have been of a much more serious nature. A sausage mill has been placed in position at the meat market, and he was up among the belt and shafting, putting the belt on the proper wheel, his feet were caught in the machinery, and he was thrown over against a piece of frame work. He braced himself as best he could and struggled hard to get away, but the machinery set on one piece of clothing after another, until he had nothing left on his person but shoes, stockings and a strip of undershirting. He escaped, however, without sustaining any more serious injuries than a few lacerations. The foundryman

NERVOUS DEBILITY.

The McKinley child, Spanish Fork, tendered their friends a reception last night. A sympathetic request was served at six o'clock and dancing commenced at eight.

The Provo Republican drove camp gave the 100th of the season in this city last evening. It is the second that Mrs. Frank J. Cannon will be in attendance.

Several cases of diphtheria have appeared in Pleasant Grove. Pearson, the little daughter of Mr. and Mrs. J. H. Clark, has fallen a victim to the dread disease.

On Sunday, Emma, the two years old daughter of Mr. and Mrs. James L. Brown, of Pleasant Grove, passed away; and the next day at almost the same hour, another little daughter arrived in the family.

The board of education held a session last night and transacted the usual routine business. In response to a report of the committee on finance, setting forth that more funds were needed, the president was authorized to negotiate for a loan of \$2000. The committee on finance was further instructed to ascertain the amount of interest necessary to meet the school expenses of the coming year.

HOW TO TREAT CHOLERA.

A Simple Remedy That Was Successful Last Year in 1891 and 1892.

The following simple remedy was used during the severe visitation of the cholera in 1891, and was successful in saving thousands of lives. It was also used with valuable effect in 1892.

Discontinue one ounce of sugar in six ounces of spirits of wine and give a small bottle of it to any intelligent person who will undertake to administer it to his poor neighbors when they are seized with cholera. It is of the greatest value, without causing in the slightest degree any of the following symptoms: When any person is seized with symptoms of cholera, such as vomiting, purging, sudden weakness, confusion, or stupor, do not give them brandy or whiskey, or any kind of medicine whatever. Put them to bed at once, covering them warmly, but not swathing them with blankets, and as soon as you possibly can let the patient take a small dose of two drops of most of the camphor mixture, or a little powdered sugar in a spoonful of cold water, in five minutes after let him take a second dose of two drops in the same way, and again repeat in fifteen minutes. If he will not swallow the mixture, use a syringe or let him take a spoonful of returning warm water, with a disposition toward perspiration and gradual decrease of sickness, cramps, etc., when, if necessary, he must take two more doses, as before, and repeat the dose every five minutes until further drops have been taken.

In administering this remedy you must particularly observe that if the patient takes anything of any sort or kind, except cold or hot water, while the medicine is operating, its effect will be destroyed, for the least foreign medicine neutralizes the camphor, which is given to check vomiting and to produce a free, warm perspiration. The use of cold or hot water is given on the advice of the late celebrated and successful Dr. P. B. Dock, of London, who always allowed his patients to drink cold or hot water, as it tends to produce free perspiration, and also the abundant discharge of yellow bile.

The patient must not be allowed to lie and become exposed to the slightest draft of cold, wet, or wind, and be covered with light, clean, or rubbering of any kind, but be permitted to lie still, as he will fall asleep when perspiration comes on. After some hours the patient will awake well, although weak, but languid and perhaps a little feverish, in such case he may get a dose, say a teaspoonful, of Gregory's powder or rhubarb and magnesia, with a little peppermint water, and wash the stomach with cold water, and wash it down, but he must be kept quiet, taking only a little thin soup, broth or gruel for a day or two.

How to Remove the Stain of Tea or Coffee. These stains will usually come out of the article as immediately put in clean, cold water, but if the stains are of long standing, rub pure glycerine on them, and then after washing this out wash the article in the usual way.

How to Wash Blankets. Subject a warm, clean cloth for washing. Dip the blankets in hot suds, rub and rinse them in good hot water. Hang in the sun until dry.

How to Clean Oil or Greasy Bottles. Pour in some strong sulphuric acid, and keep it there about five minutes, moving the bottle so that the acid will reach every part. Rinse repeatedly with cold water.

How to Make Good Tea or Coffee. When nearly ready to serve, fill a pitcher or other receptacle with lukewarm water. Over this pour a strong infusion of either tea or coffee, letting it stand a little for the tea to soak. Pour out and sweeten to taste.

How to Blanch Almonds. Soak the almonds in water over night, the skin can be removed easily by pressing each nut between the thumb and forefinger. Then dry them by laying them on a soft cloth or laying them in the sun or fire.

How to Cure Box or Insect Rings. Wet some wet tobacco and apply at once to the wound for a few minutes.

How to Exterminate Fleas. Sprinkle equal parts of red lead, sugar and flour in the places infested.

JAPANESE LIVER PILLS.

THE SOUTHERN WHITE LEAD IS manufactured entirely from the best refined pig lead, and is ground in Pure Linseed Oil, and the company manufacture only SOUTHERN WHITE LEAD, the buying White Lead brand "Southern Company" are absolutely sure of obtaining a FINEST PURE WHITE LEAD.

For Sale by All Dealers in White Lead.

DR. GUNN'S LIVER PILLS.

IS YOUR STOMACH SOUR?

LOOK OUT FOR THE HAND BOOK OF REPUBLICANISM.

A Full Record of the History, Principles and Policy of the Republican Party, with a Review of the Career and Principles of the Democratic Party, issued under the auspices of the Republican Party of Utah, Ready next Wednesday, 100 Pages.

Price, 25 Cents.

HENRY WAGNER CALIFORNIA BREWERY.

LAGER BEER, ALE AND PORTER.

Wholesale and Retail.

24 N. 1ST, FIRST SOUTH STREET.

Star Horse Nails.

Published or Blued.

Have been used by C. M. L. for over 10 years. They are the BEST NAILS MADE, and guaranteed to give the best of collection. Will hold a nail in any surface you desire.

MADE BY THE UNION HORSE NAIL CO., Chicago, Ill.

For sale by C. M. L. and Southern States.

WE HEREBY PROMISE To refund all money paid for HALLER'S REMEDIES if you are not benefited by their use. These preparations consist of: CURE FOR COUGHS, CURE FOR BRONCHITIS, CURE FOR ASTHMA, CURE FOR CONSUMPTION, CURE FOR LUNG DISEASE, CURE FOR TUBERCULOSIS, CURE FOR PHTHISIS, CURE FOR SCROFULA, CURE FOR
