HEAVY JUDGMENT AGAINST O. S. L.

Utah Construction Company Wins The Leamington Cut-Off Suit.

McKAY IS COMMISSIONER.

New York Life Insurance Company Refuses to Pay a Policy.

Ogden, Dec. 11.—The Utah Construction company was given a verdict against the Oregon Short Line Railroad company in the Second district court for \$112,536.33. This is one of the heaviest suits tried in the local district court and was fought hard by both sides all last week. The construction company built the Leamington cut-off for the railroad company under contract, and when the work was completed and the engineers' reports were submitted, a difference of \$39,710.14 existed, the railroad company's engineer having his report for that amount by the builders of the road. The week was spent in introducing the testimony, and yesterday, when the case was submitted to the jury a verdict for that sum together with interest at the rate of 8 per cent per annum was rendered. The interest alone amounts to \$22,826.24.

Ogden, Dec. 11.—The board of county commissioners is again complete, Hon. David McKay having filed his bond in the sum of \$10,000, and taken the oath of office, and sat with the board at its regular session yesterday.

county fruit tree inspector, was received and accepted by the board, but no action was taken on his recommendation for the appointment of Orson Badger to fill the vacancy.

WITHOUT A WARDEN.

Joseph Hogg of West Weber asked the board to reappoint him fish and game warden for the county, and Com. Wilson moved that the appointment be made, and his salary increased to \$45 per month. Com. Madison opposed the increase of salary, and there was no second to the motion, so it was lost and the county is without a game warden at present.

AS TO REDEMPTION SALES.

The board decided that all money received for redemption sales on property be distributed to the various funds, according to law, but the county attorney said the law is not clear as to what should be done with the money received from quit claim deeds, and it will therefore be retained by the county until the legislature meets and the law is improved.

On recommendation of the county attorney, James H. Devine was paid \$120 for assisting in prosecuting criminal cases.

LADIES FOR DEPUTIES.

Sheriff Sebring was allowed to appoint two lady deputies, to serve during the holidays for the purpose, if possible, of catching shop lifters in the stores of the city, their compensation not to exceed \$2 per day each.

IN THE COURTS.

The First National Bank Sues N. C. Mortenson.

Ogden, Dec. 11.—The First National bank of Ogden has instituted suit in the district court against N. C. Mortenson to recover \$750. The complaint

alleges that one year ago yesterday the defendant made his promissory note in favor of the bank for \$750, and gave as security for the same a chattel mortgage on a bunch of stock. The note has not been paid and the bank asks that the mortgage be foreclosed, the stock sold and the proceeds derived therefrom be applied on the judgment asked for.

MARY SIMER VS. N. Y. LIFE.

Suit to recover \$2,000 from the New York Life Insurance company has been commenced by Mrs. Mary Simer, the amount due on a policy carried by her husband, Mr. Simer, died Sept. 13, at Butte, Montana, very suddenly, while taking a bath, and his remains were brought to Ogden for burial, his wife and two children being here on a visit with relatives when he died. The insurance policy had only been taken out a short time and now the insurance company refuses to pay the amount due.

They were married in Salt Lake City Sept. 18, 1905, and on the 27th of the same month she alleges he deserted her. She asks for a decree of divorce and return of her maiden name, Roseline Christensen.

CHILDREN CAUSE OF DIVORCE.

Mrs. Lillian Allen has filed an action for divorce in the district court against M. A. Allen, on the grounds of improper treatment. The differences between them, it is alleged, arose over the plaintiff correcting the children of defendant by a former wife, when she claims he took the part of the children and told her to get out of the house if she so desired. The defendant is an employee of the D. & R. G. railroad company and it is made a defendant to the suit to restrain the payment of wages of his wages, pending the settlement of the suit.

He was of the opinion that the legality of such an ordinance was questionable. Accepted and filed, and the report of the committee which called forth the opinion of the attorney was referred back to the committee.

D. P. Pei appeared before the city council and asked that the city take space for a write-up in the Christmas "News." Councilman Evans was of the opinion that such an expenditure was illegal, and was in favor of referring the matter to the city attorney for his opinion of the legality of making such an appropriation. It was so referred.

R. C. Kirkwood, sealer of weights and measures, presented his annual report, which showed that he had visited 71 pieces of business, and collected \$68.70 in fees. Referred back for a more detailed report.

An affidavit for the state engineer made by City Recorder Harding and Chairman Bot of the electric light committee, asking for an extension of time to complete appropriation of water for power plant purposes, and showing that \$1,170.40 had been expended on the work, was read for the information of the council.

The street supervisor was instructed to repair Center street, between Fourth and Fifth West streets, and to place a bridge across Dry creek on Ninth West and Second North streets. Mayor Frisby called attention to the unsanitary condition of the inside of the blocks bounded on the east by Academy

The Mutual Improvement associations of this stake held their quarterly conference at this place Sunday. Dr. Wallace and other officers addressed the meetings held during the afternoon and evening.

BYRON.

FINE OIL WELL.

Rich Find on the Farm of E. E. Jones, Near Town.

Special Correspondence.

Byron, Big Horn Co., Wyo., Dec. 2.—On Monday Elders Geo. F. Richards and Joseph W. McMarrin, who were here at stake conference, were taken by the stake presidency to the oil well which is situated three-quarters of a mile west of Byron. Here at a depth of six hundred feet oil has been struck that will flow six barrels per day. The oil is of a very fine quality. There is also a great flow of natural gas, sufficient to give light and fuel to the towns of Byron, Cowley and Lovell.

The oil well was discovered on the farm of E. E. Jones recently. Mr. Sidney Keoughan, who is an expert in the development of oil fields, claims that this oil is running high in gasoline and he feels confident that in drilling down he will get a flow that will be among the strongest flows that has ever been discovered. This means much for the people of our colonies. The well is closed for the season, while preparations are being made for opening an oil field.

PLYMOUTH.

A Few Items About a Box Elder Town—Schools Well Attended.

Special Correspondence.

Plymouth, Boxelder Co., Dec. 10.—Perhaps your readers are not aware that there is a Plymouth in Utah. Well there is, and it is situated 10 miles north of Garland on a beautiful slope of a spur of the Wasatch mountains.

It is about two miles east of the Malad branch of the O. S. L. railroad, which has lately been built.

There is a fine two room rock school-house here and it is as well furnished as any district school in the state. It is 100 per cent of the school population enrolled, and we have a few from other districts.

Though the people are scattered, the attendance at school and other gatherings is excellent.

Lately a brass band of 17 members was organized and the instruments sent for.

Marriages are a constant thing here lately, five within the past two weeks, and two or three more within the next two or three weeks are promised.

The dramatic association is preparing to present a few dramas, etc., for the entertainment of the public.

the bishopric and an excellent feeling exists throughout the ward.

Mail matters are very unsatisfactory, —we get the Deseret News once in a while—sometimes two at a time sometimes none. Our Bishop says that he had not received a daily for a week.

Your correspondent wrote a letter to Ogden, which should have been delivered on Wednesday morning, it reached its destination on Friday.

Others are complaining of the delays and want it remedied. The fault seems to be at Malad city, as our mail matter is supposed to go there in the evening and come down here the next morning, but it does not come until two or three days after it is due.

If you can assist us to get the matter remedied you will oblige many subscribers by doing so.

REDMOND.

Young Ladies Entertain—Lectures by Elder Christensen and Prof. Paul.

Special Correspondence.

Redmond, Utah, Dec. 10.—Tuesday evening, Dec. 4, the young ladies of this ward gave an entertainment at the Opera House for the purpose of securing means to meet expenses of the association. A crowded house greeted the performers, who took their parts in such a manner as to call forth frequent applause. The affair was a financial success.

Wednesday evening, Christensen gave a very interesting lecture in the meetinghouse. He spoke of his missionary experiences among the Indians, with whom he has been laboring for about thirty years. He spoke four different languages used by various tribes of the Indians.

The public schools closed Friday, as the teachers were in attendance at institute, which was held in Salt Lake.

Saturday evening Prof. J. H. Paul of the University of Utah, came over from Salt Lake, where he had been called to lecture to the teachers of Sevier Co., and delivered a most interesting lecture to the school patrons of this district. He spoke upon the "Dream of Youth," and portrayed very beautifully how the dreams of early life might be realized. He illustrated his subject by citing instances in his own life. In his talk to the teachers at institute he stated that nature should be correlated with other branches, principally language, reading, and geography. He not only said this should be done, but showed how it could be done.

The articles appearing in the "News" each week from the pen of Dr. Paul are read with interest by some of the farmers here, and if carefully studied by the people, they would prove a source of much benefit to them.

It's Your Kidneys.

Don't Mistake the Cause of Your Troubles—A Salt Lake City Citizen Shows How to Cure Them.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Salt Lake City people testify to permanent cures.

John W. West, of 160 South Twelfth East Street, Salt Lake City, Utah, says: "Doan's Kidney Pills which were procured at the F. J. Hill Drug Co.'s store proved of great benefit to me in relieving kidney complaint. I had been bothered considerably with pains in my joints and back and too frequent action of the kidney secretions, especially noticeable at night, when I would have to get up three or four times. The use of your remedy stopped all that, removed the aching and pains and benefited me generally. I can conscientiously recommend Doan's Pills to every sufferer from kidney ailment in any form."
