

annum, but it has had some duties to perform in supervising the election of approximately 2,000 local officers annually. Passing over the fact that Mr. J. Randolph Tucker in 1887 vehemently opposed the creation of this commission, the question to be explained is how the party of retrenchment had the nerve, in face of its protestations, to pass Mr. Tucker's substitute for the Edmunds

**ANTI-POLYGAMY BILL,**  
which continues this commission in office, and at the same time practically abolishes all its duties. Instead of 2,000 to be elected annually there are left, by this substitute, but twenty-five to be voted for biennially. As the commission draws \$85,000 a year, it will cost the United States at least \$4,000 each to supervise the election of twenty-five men, the salary of twenty-four of whom—the members of the legislature—is only \$240 each, and that but once in two years. Is this Mr. Tucker's idea of retrenchment?

**Editor Deseret News:**  
As Rasmus Neilson, of Weston, Idaho, has many friends in Northern Utah and Southwestern Idaho, we wish to say to them, through the medium of the News, that he was taken very ill last Saturday night, and has continued to grow rapidly worse up to this writing. Still we entertain hope of his recovery, as the officers manifest an unusual degree of kindness, giving him all the comforts the prison affords. We wish all the Saints to take this matter to heart and exercise their faith for Brother Neilson. Should his illness result seriously we will try and acquaint you.  
The rest of the brethren here, as far as I know, are enjoying tolerable health at present, and we are waiting patiently, though anxiously, for the day of our deliverance.

**INJUSTICE CORRECTED.**  
**CONVINCING VERIFICATION OF WIDECAST PUBLIC STATEMENTS.**

In common with many publishers and editors, we have been accustomed to look upon certain statements which we have seen in our columns as merely adroit advertising.  
Consequently we feel justified in taking the liberty of printing a few points from a private letter recently received from one of our largest patrons, as a sort of confession of faith to our readers. We quote:

"We have convinced ourselves that by telling what we know to be true, we have produced at least a permanent conviction in the public mind. Seven years ago we stated what the national disease of this country was, and that it was rapidly increasing. Three years ago we stated that a marked check had been given it.

"The statistics of one of the largest life insurance companies of this country shows that in 1883 and 1884, the mortality from kidney disorders did not increase over the previous year; other companies stated the same thing. It is not presumptuous for us to claim credit for checking these ravages.

"Seven years ago we stated that the condition of the kidneys was the key to the condition of health within the past five years (all careful life insurance companies have conceded the truth of this statement, for, whereas, ten years ago, chemical analysis to determine the condition of the kidneys was not required, to-day millions of dollars in risks are refused, because chemical examination discovers unsuspected diseases of the kidneys.

"Seven years ago we stated that the ravages of Bright's Disease were insignificant compared with other unsuspected disorders of the kidneys of many misleading names; that ninety-three per cent. of human ailments are attributable to deranged kidneys, which fill the blood with uric acid, or kidney poison, which causes these many fatal diseases.

"The uric acid, or kidney poison, is the real cause of the majority of cases of paralysis, apoplexy, heart disease, convulsions, pneumonia, consumption, and insanity; over half the victims of consumption are first the victims of diseased kidneys.

"When the recent death of an honored ex-official of the United States was announced, his physician said that although he was suffering from Bright's Disease, that was not the cause of death. He was not frank enough to admit that the apoplexy which overtook him in his bed, was the fatal effect of the kidney poison in the blood, which had eaten away the substance of the arteries and brain; nor was Logan's physician honest enough to state that his fatal rheumatism was caused by kidney acid in the blood.

"If the doctors would state in official reports the original cause of death, the people of this country would be alarmed, yea, nearly panic-stricken, at the fearful mortality from kidney disorders."

The writers of the above letter give these facts to the public simply to justify the claims that they have made, that "if the kidneys and liver are kept in a healthy condition by the use of Warner's safe cure, which hundreds of thousands have proved to be a specific,

when all other remedies failed, and that has received the endorsement of the highest medical talent in Europe, Australasia and America, many a life would be prolonged and the happiness of the people preserved. It is successful with so many different diseases because it and it alone, can remove the uric acid from the blood through the kidneys."

Our readers are familiar with the preparation named.  
Commendation thereof has often appeared in our columns.

We believe it to be one of the best, if not the best ever manufactured. We know the proprietors are men of character and influence.

We are certain they have awakened a wide-spread interest in the public mind concerning the importance of the kidneys. We believe with them that they are the key to health, and that for their restoration from disease and maintenance in health, there is nothing equal to this great remedy.

The proprietors say they "do not glory in this universal prevalence of disease, but having started out with the purpose of spreading the merits of Warner's safe cure before the world, because it cured our senior proprietor, who was given up by doctors as incurable; we feel it our duty to state the facts and leave the public to its own inferences. We point to our claims, and to their public and universal verification with pride, and if the public does not believe what we say, we tell them to ask their friends and neighbors what they think about our preparations."

As we stated above, we most cordially commend the perusal of this correspondence by our readers, believing that in so doing, we are fulfilling a simple public obligation.—[Adv't.

**A CAPTAIN'S FORTUNATE DISCOVERY.**  
Capt. Coleman, schr. Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for Consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is the now standard remedy in the Coleman household and on board the schooner. Free Trial Bottles of this Standard Remedy at Z. C. M. I. Drug Store.

**Working People**  
are often too ill to labor, but they haven't time to take medicine and lay off. **Simmons' Liver Regulator** can be taken without causing any loss of time, and the system will be built up and invigorated by it. It has no equal as a preparatory medicine, and can be safely used when a doctor cannot be called in. In all common diseases it will, unassisted by any other medicine, effect a speedy cure.

**You who Lead Sedentary Lives** will find great relief from constipation, headache and nervousness, by taking **Simmons' Liver Regulator**. It is a simple, harmless, vegetable compound, sure to relieve you. Persons of sedentary habits often suffer with kidney affections. If they would maintain the strength of the digestive organs and improve the quality of the blood by taking the **Regulator**, it would restore the kidneys to health and vigor.
