FRUIT OUTLOOK IS GOOD.

County Fruit Tree Inspector R. E. Wilson, who has been making an inspection of the orchards of the county, setated last evening that the present outlook for a good fruit crop is very favorable. The frosts we have had up to the present time, he states, have not been severe enough to do any great damage to the fruit crop. The only error that will have suffered to any noticeable extent is peaches of certain varieties. The cherry trees he revorts are loaded with buds as are also the pear and apple, so that unless more severe frosts come than we have had so far this soing the fruit harvest will be heavy. Mr. Wilson states, however, that the San Jose scale is doing a great deal of damage in the orchards in certain parts of the country. County Fruit Tree Inspector R. E. parts of the country.

WHAT SALT LAKE IS DOING.

Salt Lake City Will Be a Great Metropolis. Population 1907-200,000.

Salt Lake City stands today where Denver did just before she took her great growth.

Mining in all parts of the state is very active and all industries in the state and city are enjoying great prosperity. There is no other city in the Union which has so many wonderful resources to draw on. Mining agriculture, manufacturing, smelting, railroad center and a health and pleasure resort, and all of these resources are fast being developed.

Many fine business blocks will be built this year. The Herald Block, which is being built by Senator W. A. Clark of Montana will be five stories and cost \$100,000, the J. R. Walker estate block will be nine stories and cost \$350,000, a new theater, \$60,000, a new packing house, \$150,000, O. S. L. and San Pedro, Los Angeles & Sait Lake Ry, new Union depot to cost \$300,000 the Rio Grande Western new depot to cost \$250,000 and new shops, \$1,000,000. Many new homes are under construction in all parts of the city, and, as stated by several contractors, there will be many more new homes built this year than

The three new railroads now under construction from Denver, Los Angeles and San Francisco to Salt Lake City will make her one of the greatest railroad centers west of Chicago, and with her present big facilities will bring in many new manufactories, which will refine the raw materials of which we have an abundance.

With suburban electric car lines which are to be built at once, at a cost of several million dollars, to reach nearly every important town in Utah will be another great resource to our city.

The improvements to be made by the city this year will cost \$500,000. The new Public Library now being completed will cost \$140,000, the new Presbyterian Church will be completed this year at a cost of \$125,000 and the extension of the sewer system together with connections will be over \$350,000.

Just think for a moment what is going on in Salt Lake City and you can see the opoprtunity that you are missing by not making an investment in choice property while the prices are still low.
