## PREPARATIONS FOR SCHOOL ELECTION

Will Not Be Non-Partisan—Many Well Known Candidates.

### REVOLTING CRIME UNCOVERED

Negro Found With Young White Girl Whom He Had Drugged—Damage And Other Suits Filled in Court.

Ogden, Nov. 14.—Preparations are being made by the board of education of Ogden city for the coming school election. The judges of election have been appointed but the names have not been announced as there are a few changes to be made.

The method of election was first to have been non-partisan but the board of education arrived at the conclusion that each political party shall name its candidates, the primaries in the various wards to be held in the immediate future. On election day, Dec. 2, the board will furnish the ballots for the nominees. Therefore the nominees furnished their own ballots.

With the election very close at hand neither party has thus far signified any intention of naming a ticket. Some of the candidates who have been mentioned for the position besides those who are at present on the board are: Hyrum Pingree, A. E. Weatherly, J. E. Williams, James Mack, M. L. Jones, Harold J. Peery, Dr. C. E. Coulter, B. G. Blackman, J. C. Nye and Joseph Seowcroft.

When found the girl had in her possession a bottle of carbolic acid which she was prevented from drinking by the officers. A portion of the fluid she had taken on her from before it was taken from her by Detective Hutchins.

The negro was up before the justice's court and waived preliminary hearing. He was held to the district court without bail.

## The Last Great Fire

Did not cause so much suffering to the homeless as many a case of eczema causes its miserable victim. And the relief fund did not bring so much joy as Hood's Sarsaparilla has given thousands of times, in relieving the agonizing itching and burning of eczema-tortured people.

In a Bed of Fire—"I lived in a bed of fire for years, owing to blood poison, all over my body itching intensely. Hospital treatment did not help me. I tried Hood's Sarsaparilla and continued taking it until I was entirely cured." Mrs. J. T. Williams, Carbondale, Pa.

This move may bring out

## Laxative for Women Free

There is a great difference in the purposes to which a laxative should be put. Tablets and pills, salts, etc., are usually violent purgatives or cathartics, and altogether too powerful for the average person. A woman at all times needs only a mild laxative—in fact, none other is needed by anyone, weak or strong, though they may be, for the object is simply to move the bowels, and if a gentle laxative will do it, what is the use of a violent one?

Dr. Caldwell's Syrup Pepsin has earned a well-deserved vogue among women and children and old folks—people who need gentle action make it an ideal remedy for women in constipation, torpid liver, sour stomach, sick headache, heartburn and such like digestive complaints. Its use for a short time will remove the trouble entirely so that future medication will be unnecessary. Its tonic properties build up the stomach and naturally again. That this is so is the experience of many heads of families, like Mrs. William H. Ayward, of Val, Mrs. K. L. Stout, of Louisville, Ky., and numerous others, in fact, Mrs. J. E. Blackmore of this place, writes that she who is a mother of five children, if the remedy is new to you and you want to make a trial of it before buying, send your name to the doctor, address as below and a free test bottle will be sent you. Then, if results are satisfactory, you can buy it of your druggist.

If there is anything about your ailment that you do not understand, or if you want any medical advice, write to the doctor, address as below. There is no charge for this service. Dr. J. C. Caldwell, 518 Caldwell Bldg., Monticello, Ill.

some idea not yet thought of, and it is therefore considered advisable to postpone any action for another week.

After a thorough investigation of the original agreement upon which the Progress company acquired a franchise to operate a water distributing system within Murray city, and also the agreements and communications that have passed between the city and the Progress company since then, the attorney gives his opinion to the effect that there is little ground upon which the city can seek for a forfeiture of the franchise, but recommends, inasmuch as the Progress company is willing to turn over to the city at actual cost, that the city buy and own its water distributing system at as early date as possible.

A communication from the Oregon Short Line Railway company gives the information that the three incandescent lights opposite its crossings on Seventeenth street and on the street south of the old Germania smelter will be installed at an early date.

A resolution was passed approving the expenditure of \$135 for the heating of the city hall, connecting it with the present heating plant of the city hall. The resolution awaits the signature of the mayor before going into effect.

As the greater number of feet favor the paving and covering the present ditch on the sidewalk between east Murray street and J. Beatty's residence on the east side of State street, the representative citizens affected by this move have petitioned the city council to make this a paving district, setting forth the convenience and beauty it would add to the city and therefore pray that the proposition may carry.

The auditing committee reported that the recorder's books have been carefully inspected and audited and were found to be without error.

## COUNTERFEIT BILLS.

Chicago, Nov. 13.—As a result of a great number of counterfeit \$5 bills in circulation in Chicago, Chief Wilkie, of the secret service has renewed his efforts to secure an amendment to the federal statute which would impose a fine of \$50 on all national banks failing to stamp the words "counterfeit" on all spurious bills offered to them. According to Chief Wilkie the failure of the banks to do this is the cause of much of the trouble. As no other country has stamped the words "counterfeit" on its spurious bills, the failure of the banks to do this is the cause of much of the trouble. As no other country has stamped the words "counterfeit" on its spurious bills, the failure of the banks to do this is the cause of much of the trouble.

## ASSERTED STANDARD

### OIL GOT SPECIAL RATE

New York, Nov. 13.—A tariff sheet quoting a rate of 6 cents a hundred pounds for oil in carload lots between Whiting, Ind., and Chicago, was sent to the agent of the Standard Oil company in 1903 and to no other concern, according to Fred O. Holladay, the Chicago & Alton staff clerk, who gave testimony today in the government's suit to dissolve the Standard Oil company of New Jersey.

The witness declared it was the practice to send tariff sheets only to shippers interested in the transportation of the particular kind of goods mentioned in the rates. As no other concern was shipping oil from the points spoken of but the Standard, said the witness, the tariff sheet in question went only to them.

Holladay said that hardly a month passed that the road did not have difficulty in complying with the requirements of the interstate commerce commission in the matter of filing rates. In the event of conflicting rates, he said, as when the listed tariff for oil was 10 cents and the actual shipping rate 6 cents, the lower rate was permitted to govern all oil shipments. The highest rate was always done away with, added the witness.

It is understood that Surgeon Mearns will be the president's chief adviser on natural history subjects during the expedition. It is further understood that Mr. Roosevelt will do little more shooting.
