

## MITCHELL'S WAYS ARE CRITICIZED.

Prest. Pat Dolan Says Miners Have Never Won a Great Strike Under Him.

### SOUTHWEST STRIKE FIZZLE.

He Cites Three Instances Where the Great Leader Scored Big Failures.

Pittsburg, Feb. 11.—President Patrick Dolan of the local district United Mine-Workers of America, whose resignation was demanded last week at the convention of delegates from the local union in the district because he voted with the operators at Indianapolis to maintain the present wage scale, tonight issued a statement in which he gives his reasons for so voting.

"Let us be honest about these things. Our wages have been increased more than 100 per cent and our hours of labor have been decreased from ten to eight hours since 1897. Is it right under this Ryan resolution to jeopardize all these things, and let me tell you the miners of the country have never won a prominent soft coal strike under the direction of President Mitchell.

"Mark Hanna settled the first anthracite strike for us, and President Roosevelt settled the second. Nobody has settled our big soft coal strikes, because we have lost them.

President Mitchell's big soft coal strike was in the southwest. It lasted 18 months and ended in utter failure. Hundreds of good men were victimized.

"The second soft coal strike was in Maryland, where our people of the entire state were utterly defeated. "His other disastrous soft coal strike was in Kentucky, where our people were beaten.

"In Colorado, where the organization spent over \$500,000, our union was wiped out on the face of the earth. In West Virginia, central district, we were defeated; in the Cabin Creek district, in West Virginia, where the organization spent \$300,000, we lost; in the Mayfield division we spent \$400,000 and were defeated.

"At the present time we have a strike of 8,000 miners in Alabama, which has been on for 19 months. They are striking against a 10 per cent reduction. Under the Ryan resolution, which says all districts must get 12 1/2 per cent advance over the present scale, the Alabama operators will have to withdraw their demand for a 10 per cent reduction and give the 12 1/2 per cent advance, or a total difference of 22 1/2 per cent, before any other district in the country can settle. How is this to be brought about?

"The Pittsburgh district has been criticized because it has not more than 18,000 members. President Mitchell is as much at fault as any living man. He refuses to help us.

"He came into the non-union Irvin district at the very height of its popularity and widely advertised two meetings. At one he had 15 men and the other adjourned because there was not anybody there. When Mitchell can't get a meeting what can a fellow like me do?

"I have been in the trades union movement for 35 years in Scotland and America, and I have sat at the feet of the greatest labor leaders the world has ever known, including the great Alexander McDonald. From boyhood I learned that it is a leader's duty to tell his people, not what they would like to hear, but what they should know. They must be told when they are in the wrong as well as applauded when they are in the right. This is my platform, and I am willing to rise and fall with it before the miners and the public of this country."

### MITCHELL IS SILENT.

New York, Feb. 11.—John Mitchell, president of the United Mine-Workers of America, arrived in this city tonight, having come in from Indianapolis. After registering at the Ashland house, Mr. Mitchell retired. He refused to say anything regarding the coal situation.

### GUESTS HAVE NARROW ESCAPE.

Los Angeles, Cal., Feb. 11.—Fire broke out in a storeroom beneath the Louise lodging house, 520 South Broadway, tonight, and a number of guests at the lodging house had narrow escapes. Nearly a dozen were taken from the windows of the house by firemen, although no one was injured. One woman was rendered unconscious. Samuel Wood, an aged man, who was at the house, was carried out on a stretcher, and taken to the hospital. He was nearly suffocated, and it is feared that the excitement of his experience may prove fatal.

### BAER'S STATEMENT ON OWNING COAL LANDS.

Philadelphia, Feb. 11.—George F. Baer, president of the Reading company, has issued a statement in relation to the action of the house of representatives of Pennsylvania last Friday in adopting a resolution instructing the attorney general to bring court proceedings against the anthracite coal carrying roads. If on inquiry he finds they are violating the constitution of the state, the resolution names the Pennsylvania railroad, the Philadelphia & Reading Railway company.

## Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free. The Bradford Regulator Co., Atlanta, Ga.

## BAD STOMACH MAKES BAD BLOOD.

You can't make sweet butter in a foul churn. Every farmer's wife knows this. Your stomach churns and digests the food you eat, and if foul, torpid or out of order, your whole system suffers from blood poisoning. You will have foul breath, coated tongue, bad taste, poor appetite and a whole train of disagreeable symptoms. Dr. Pierce's Golden Medical Discovery, which is not a beverage composed of whisky or alcohol, being entirely free from intoxicants, is a great regulator and invigorator of the stomach, liver and bowels.

"About a year ago I was ill with blood poisoning," writes Miss Eveline Louis, of 20 Walter Street, Buffalo, N. Y. "I had what seemed to be a small cold sore on my lip. It became very angry in appearance and began to spread until it nearly covered my face. I was a frightful sight and could not go out side the house because of my appearance. I used a blood medicine which did not give me any relief. I began to take your Golden Medical Discovery. I was greatly benefited with the first bottle and after taking several more I have felt better than I did for some time before. Dr. Pierce's Golden Medical Discovery is certainly the most remarkable medicine."

Don't accept a substitute for a medicine which performs such cures and which has a uniformly successful record of nearly forty years to its credit. It's an insult to your intelligence for a dealer to try to over-persuade you to palm off upon you his cheap inferior article with no record to back it up. You know what you want; it is his business to meet that want.

**\$50,000 GIVEN AWAY.** In copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 40,000 copies a few years ago, at \$1.00 per copy. Last year we gave away \$50,000 worth of these invaluable books. This year we shall give away \$50,000 worth of them. Buy one in this issue. If so, send only 21 one-cent stamps to cover cost of mailing and book. We will send you a copy of our book in return for 21 stamps.

Constipation although a little ill, he gets big ones if neglected. Dr. Pierce's Pellets cures constipation.

pany, and the Delaware, Lackawanna & Western Railroad company. In his statement President Baer says that the Reading company's right to the second share in coal companies and secured under charter was granted before the adoption of the new constitution of the company. He says that the constitution explicitly declares that the Reading company is not to be allowed to increase its share in the company. He says that the price of anthracite coal has been raised since the last anthracite coal strike \$1.50 per ton, yet the Reading company is refusing to allow the miners an increase in wages, thus another strike is threatened. "President Baer cites figures showing that the Reading company has increased its profits per ton in the last year by \$1.50 per ton. He says that the Reading company has increased its profits per ton in the last year by \$1.50 per ton. He says that the Reading company has increased its profits per ton in the last year by \$1.50 per ton.

### MUNICIPAL OWNERSHIP.

M. R. Maltbie Goes Abroad to Study Its Merits.

New York, Feb. 11.—Milo R. Maltbie, one of the expert members of the public ownership committee of the National Civic Federation, which is organized to examine into the relative merits of municipal and private ownership of quasi-public utilities in this country and abroad, sailed for London yesterday on the steamer Minneapolis, to make arrangements for the visit of the entire commission to England in May. The commission has completed all its plans and has actively begun its work of investigation in this country.

As the commission is composed of men representing different views on the subject of municipal ownership and operation, two sets of engineers, accountants and other experts have been secured, one of which is inclined toward public ownership and operation and the other toward private control. In that way only the commission determined could all the facts for and against municipal ownership and operation be brought out and report secured that would have appreciable value.

Expert accountants this week will begin work on the accounts of municipal gas plants of Wheeling, W. Va., and the municipal electric light works of Allegheny, Pa.

A. E. Porsell of New York City and E. L. Merrifield of Toronto, will investigate the gas works of Wheeling. Dabney Maury of Peoria, Ill., will also begin a study of the Chicago waterworks, and Prof. John H. Gray of the Northwestern university will begin a study of the social and political conditions in connection with the quasi-public utilities in Chicago, New York City, Philadelphia, Boston and other large cities.

Speaking of the work of the commission in Great Britain, Mr. Maltbie said before sailing:

"The commission has selected England as the country in which to begin the work of investigation abroad, for the reason that conditions there are more like those in the United States than in any other foreign country. The purpose of the investigation is merely to find in what respect each system has been satisfactory."

### ITALIAN WITH A BOMB ARRESTED AFTER A FIGHT.

Chicago, Feb. 12.—An Italian, said by the police to be an agent of an Italian secret society, was arrested after a hard fight with detectives in the yards of the Pittsburgh, Fort Wayne & Chicago railroad last night. A bottle of nitroglycerine, a bomb six inches long, a double-edged stiletto, a foot long, and six vials, containing colored liquids of unknown composition, were taken from the man before he was locked up. Three companions escaped capture. In addition to the formidable collection of explosives and liquids taken from the Italian, he was found to have five \$100 Confederate bills and a saw, 12 inches long, made for the purpose of cutting iron. He gave his name as Frank Perigian. According to the police he hinted that he was on a mission and referred to the Mafia society.

## Mother's Friend

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free. The Bradford Regulator Co., Atlanta, Ga.

## CASTRO WILL TEST MONROE DOCTRINE.

Such is Said to be the Boast of The President of Venezuela.

### COUNTRY RIPE FOR REVOLT.

Gomez, Vice President, Reported to Be Plotting One in Case of French Blockade.

Willemstad, Friday, Feb. 9.—Conditions in Venezuela are assuming a grave turn, according to the latest advices from that country. The censorship is rigid. One report is that the attitude of Vice President Vicente Gomez, who is said to be plotting a revolution against President Castro in case of a French blockade, is causing some anxiety.

It is reported also that Gen. Antonio Velutini, second vice president, has a secret understanding with France, and that he aspires to the presidency. All the turmoil over the French Cable company's concessions is attributed to Gen. Velutini, and it is expected he will soon abandon President Castro.

The total strength of the Venezuelan army is reported to be 8,000 men, and not 23,000, as the army accounts state. The total armament is 5,000 Mauser rifles, 20,000,000 ball cartridges, 30 pieces of small artillery of old-fashioned type and 10 modern guns in position at the ports. The treasury shows a balance of \$200,000.

President Castro is said to be boasting that he will test the Monroe doctrine.

The report says that the best information in Venezuela shows that France or any other power can rely upon almost the entire population to fight President Castro, and that anxiety is everywhere expressed for the arrival of the French, to solve the problem, which is beyond the resources of the Venezuelans.

Money will be decidedly scarcer if a war should break out, and the Venezuelan government has made no preparation whatever for the commiseration.

President Castro continues his campaign against foreigners and has expelled a man named Van Kestern.

### ICE BEGAN TO BREAK.

Three Thousand People Had a Narrow Escape from a Drowning.

Chicago, Feb. 11.—At the close of a skating tournament on the Humboldt park lagoon here today the ice slowly gave way beneath 2,000 people, causing a panic in which many were injured. The ice sank slowly and the crowd reached the bank in safety. During the progress of the tournament the police had kept the crowd behind ropes which guarded the course, but at the last the great gathering got beyond control, overrunning the ice in all directions. Suddenly there was a crackling sound and a cleft appeared stretching across the lagoon. In the panic which ensued women and girls were trampled upon or were dragged to places of safety by their escorts. The ice sank until it was covered by five feet of water.

### BANKER MAY GUILTY.

Spokane, Wash., Feb. 11.—Charles C. May, president of the defunct Big Bend National bank of Chicago, was today found guilty by a jury in the federal court. The jury was out 24 hours.

The conviction came after one of the most stubborn legal battles in Spokane. May's downfall is said to have been caused by efforts to develop with funds of depositors the Palmer Mountain mine.

The minimum penalty is five years in the penitentiary, the maximum 10 years.

May is probably the best-known citizen of Big Bend and until this affair confidence in his integrity was absolute.

### AN IMPATIENT PATIENT.

Jumped Off Operating Table, Climbed A Ladder and Broke Several Bones.

Chicago, Feb. 12.—A dispatch to the Record-Herald from New Orleans says: After having been placed on the operating table at the charity hospital yesterday to undergo an operation which was supposed to keep him alive or death to him, Joseph Donahue broke away from the surgeons and nurses, sprang from the table, climbed a ladder to a skylight which he smashed and was chased about the roof of the building for ten minutes before he was captured. Although several bones were broken and he was internally injured in an accident, the patient still had great strength, and the attendants had great difficulty in overpowering him.

### THEATER TRAIN CRASHES INTO STREET CAR, KILLS TWO

Chicago, Feb. 12.—A theater train on the Pennsylvania railroad, running at 20 miles an hour, crashed into a crowded street car in South Chicago last night, causing a killing and wounding several. The train, carrying 120 passengers, crashed into the street car, which was carrying 100 passengers. The train was carrying 120 passengers, and the street car was carrying 100 passengers. The train was carrying 120 passengers, and the street car was carrying 100 passengers.

### THE DEAD.

Mrs. William Bacon, South Chicago. Minnie Warsaw, 12 years old, Chicago.

### THE INJURED.

J. C. Mack, East Chicago, engineer, severely cut about the face and head. Edward M. Day, notorman of the street lagoon, cut about the head by C. B. Bolter, conductor of the street car, cut about neck and head.

Mrs. Blanche Warsaw, severely injured about the body.

Mrs. Louis Lucy, injured internally. W. B. Lynch, injured internally.

The passenger train was a local, leaving Chicago at 11:34 p. m. for East Chicago, Ind. It was well filled with passengers who were thrown into a panic by the collision. The street car was hurled into the air, overturned and ground to splinters before the locomotive. The crash came almost without warning and but few seconds before the street car had an opportunity to jump from the car before it was struck. The passengers of the railway train hurried to the assistance of those carried in the debris and aided the work of rescue. Calls for assistance were sent to the nearest police station and physicians were summoned to aid the injured.

The engineer of the passenger train and the crew of the street car were placed under arrest.

## FRANCO-GERMAN DEADLOCK NOW ON

Germany's Claim Regarding Policing of Morocco Causes Much Uneasiness.

### CONFERENCE MAY BE FAILURE

Dispatches From Algiers Show Situation Critical and Foreboding Abortive Result.

Paris, Feb. 11.—A semi-official note emanating from Germany and claiming that Germany's amour propre demands that the police of Morocco be either regulated by the zone system under the various powers or entirely entrusted to neutral nations, has attracted much attention here.

The Temps points out that either the special rights of France, which were recognized before the opening of the Algiers conference must be confirmed without thereby injuring the general rights of the other powers, or France's claim must be entirely rejected and the general rights of the other powers thus remain unguaranteed. In other words, the resumption of the former situation.

If, however, the paper says, the conference at Algiers gives its mandate to France, it would be in the nature of a guarantee for the integrity of Morocco, and the possibility of French military domination and permitting all nations to reap an equal advantage from the open door.

As a whole the powers represented at the conference would guarantee the proper carrying out of its decisions. This solution of the question, the Temps declares, is the only one acceptable to France.

### LONDON IS UNEASY.

London, Feb. 12.—Telegrams from continental capitals and editorials in the London newspapers this morning reflect the renewal of uneasiness over the anticipated failure of the Algiers conference on Moroccan reforms, in consequence of the deadlock of the French and German contentions with regard to the question of police.

A long Algerian dispatch of a semi-official nature, published in Paris today, seems to foreshadow an abortive result, if not the actual rupture of the conference, and declares that the lines have been reached beyond which it is impossible that France can go.

Special dispatches from Algiers to the London newspapers admit the critical aspect of the situation but counsel patience. They are inclined to the view that Germany, having called the conference, cannot allow it to break down.

### ANOTHER FOOTBALL FATALITY.

Chicago, Feb. 12.—Another name was added to the list of football fatalities for the 1905 season yesterday by the death of John Smith of Austin at St. Anne's hospital. Smith, who is 18 years old, died as the result of injuries received in a game Oct. 25.

He was kicked in the stomach and although he played several games after that, serious complications followed, which necessitated his going to the hospital several weeks ago. Death came after three operations had been performed.

### DROWNED WHILE ICE YACHTING.

New York, Feb. 12.—While ice yachting yesterday on the Navesink river, N. J., Charles Hendrickson, a Fair Haven boy, lost his life by the boat breaking through the ice. He was with his brother, Benjamin, who sailed the boat. When the yacht broke through a thin spot Charles fell into the water and was under the ice. Benjamin saved himself by climbing upon the windward runner, which continued to remain in the ice and was rescued by men in a batteau. The body of Charles was recovered. The drowned boy was 17 years old.

### ITS MERIT IS PROVED

### RECORD OF A GREAT MEDICINE

A Prominent Cincinnati Woman Tells How Lydia E. Pinkham's Vegetable Compound Completely Cured Her.

The great good Lydia E. Pinkham's Vegetable Compound is doing among the women of America is attracting the attention of many of our leading scientists, and thinking people generally.

"About nine months ago I was a great sufferer with female trouble, which caused me severe pain, extreme nervousness and frequent headaches, from which the doctor failed to relieve me. I tried Lydia E. Pinkham's Vegetable Compound, and within a short time felt better, and after taking five bottles of it I was entirely cured. I therefore heartily recommend your Compound as a splendid female tonic. It makes the monthly periods regular and without pain; and what a blessing it is to find such a remedy after so many doctors fail to help you. I am pleased to recommend it to all suffering women."

Mrs. Sara Wilson, 31 East 84 Street, Cincinnati, Ohio.

If you have suppressed or painful periods, weakness of the stomach, indigestion, bloating, pelvic catarrh, nervous prostration, dizziness, faintness, "don't-care" and "want-to-be-left-alone" feeling, excitability, backache or the blues, these are sure indications of female weakness, or some derangement of the organs. In such cases there is one tried and true remedy—Lydia E. Pinkham's Vegetable Compound.

The following letter is only one of many thousands which are on file in the Pinkham office, and go to prove beyond question that Lydia E. Pinkham's Vegetable Compound must be a remedy of great merit, otherwise it could not produce such marvelous results among sick and ailing women.

Dear Mrs. Pinkham—

"About nine months ago I was a great sufferer with female trouble, which caused me severe pain, extreme nervousness and frequent headaches, from which the doctor failed to relieve me. I tried Lydia E. Pinkham's Vegetable Compound, and within a short time felt better, and after taking five bottles of it I was entirely cured. ## ARCHBISHOP KEANE SPEAKS ON UNIONS.

Says Some Are Organized to Bring Competent Men to Level of Unskilled Ones.

### GOES FOR ORGANIZED CAPITAL

Effort to Deprive Man of His Natural Rights He Declared to Be Wrong.

Dubuque, Ia., Feb. 11.—From the pulpit of St. Raphael's cathedral, Archbishop Keane, a metropolitan of the Dubuque archdiocese, today hit the principle of unionism by declaring that it is a school for thievery. He said: "There are unions organized to bring competent men down to the level of workmen who are not as well skilled. The workmen who should receive more do not because they are bound in union to hold up incompetent men."

"They force employers to pay poor laborers more than they earn. Their aim is to get shorter hours and do as little work for the employer as possible. They do not earn salaries. This practice in unionism is a school for thievery."

The speaker then took organized capital to task and said that the efforts of the big financiers to deprive man of his natural rights is wrong.

"Such organized capital is a school of thievery," he said in conclusion. "This employer who does not pay his employee for the amount of his hire is a thief. The employee who does not give to his employer the labor he is paid for is also a thief."

He made an appeal to men to take an active interest in politics, adding: "As your duty to your family is sacred, so it is to your country, and state."

### No Tongue Can Tell

My sufferings with eczema until Cuticura cured me.—Mrs. A. Elton, Bellevue, Mich.

Feel languid, weak, run-down? Headache? Stomach "off"? Just a plain case of lazy liver. Burdock Blood Bitters tones liver and stomach, promotes indigestion, purifies the blood.
