# MINING, BUSINESS AND STOCKS.

## PRICES WERE VERY STEADY.

Muctuations in Mining Stocks Were Closely Confined.

\$27,492.50 CHANGED HANDS.

Carisa, California and May Day Were The Principal Participants In the Trading.

Over \$27,000 dollars changed hands at the mining exchange in this morning's trading, and while there was considerable life in the business, a steady tendency characterized the stocks dealt in. Prices were somewhat stiff and the fluctuations were limited to a narrow space.

Carisa started the ball rolling with 4,300 shares going under the hammer at prices running from \$1.13% to \$1.16, at which latter figure the first 200 shares were disposed of. It never reached so high again in the trading and closed at the first-named figure, with a ten-day privilege to the seller. California started out boldly at 97, but was hammered down to 95c, subsequently re-gaining three-fourths of a cent of its shrinkage. A total of 7,000 shares were sold, the largest lots bringing from 95c to 96c a share. May Day was also quite a participant in the sales, dropping 3,700 shares at \$1.07 to \$1.08%.

Sampler at Reno.

George W. Clinton, a practical smel-ter constructor and operator of Salt Lake City, has arrived in Reno with the intention of making this town his place of residence, says the Reno, Nev.,

He proposes to erect a sampling works and purchase ore in lots from pounds up, and thus give prospect ors and mine owners an opportunity to grub stake themselves.

At first he will ship the ore in car-load lots to either Selby or Salt Lake and in the meantime will tabulate his analyses in order to arrive at a conclusion as to whether it is possible to obtain an admixture of local ores that will be sufficiently self-duxing to justify the erection of a reduction

### Mammoth Mining Matters.

Mammoth Record: The two cars of boilers and stacks which arrived last week for the Grand Central have been safely landed at the mine. boiler rooms of the Sloux mill are being cleaned up and the accumulation of mud is being removed from the machinery. P. J. Donahue is said to have purchased the property at a

The Old Colony holst is completed and was steamed up for the first time on Wednesday. Eight hundred feet on Wednesday. Eight hundred feet of steel cable have been wound on the drum and everything is in readiness to push the shaft another seven hun-

dred feet from its present depth of one hundred feet.
At the West Morning Glory the new hoist has been completed and the pumps were started up this weck. After the enforced closing of the mine on account of the hoist burning down,

pects much more encouraging than they had expected to find them. The shaft

is now down over thirty feet and the force of miners now at work are mak-

ing excellent headway. Some new samples were brought back but re-turns have not yet been received from

Kemmerer Ore.

The Kemmerer, Wyo., Camera reports that during the first of last week Mr.

John Fader, who is opening up the prospect in Rock Creek canyon, sent

samples of the ore taken from his pros-

pect to Salt Lake to be assayed. The report of the assay which came back to

It is expected that some valuable unds will be made in that country, as it has

Oil Exchange in Ogden.

The rapid progress which the oil bust-

ness has been making during the past

tew months is very remarkable, and great interest is being taken in the oil

fields in this state and Wyoming, also in the price which the oil stock in the

various companies is bringing. Many of Utah's most progressive business men have taken great interest in oil.

At Ogden on Saturday some prominent Salt Lake and Ogden gentlemen opened

that shipments of ore will continue as heretofore. The whole district is in a

properous condition and will soon see

increased production.

other places in the state.

on account of the hoist burning down, work will be pushed with renewed vigor and the stockholders are waiting the shipment of the car of ore which has been promised for some time.

D. A. Depue and A. J. Underwood visited the Bonanza property in West Tintic on Tuesday and report the pros-

is a model of neatness and order.

mines, celebrated in Spanish annals as having produced \$80,000,000 in sliver and gold in the seventeenth century, which are described on Spanish maps as being situated in northwestern Mexico, about fifty leagues from the sea, near Dos Pilares, have been found.

report of the assay which came back to him was very encouraging, being 5 per cent copper, 5 per cent silver, and some gold. Mr. Fader will send extra help out to the prospect the first of the week, and if it pans out as he expects, a lot of one will be taken out. There are other parties here who have claims on the same hillside. They expect to do some work right away. by the ancients.

Mining company's property at Park Valley, says that development work is ed as rapidly as possible. Some men were sent out to the mine today and it is expected that in a short time good news will be heard from them.

every indication necessary.

Dr. Lovejoy, who has had years of experience in the gold mines of Wyoming and Montana, is taking an interest in this discovery, and it is attracting the attention of experienced miners in the stars. ing district, which they consider very valuable, and from which have brought rich samples carrying copper and lead.

> Winnemucca Silver State: A test run of Tonopah ore is to be made at the Rock Point mill and cyanide plant at Dayton, Lyon county.

a capacity of 100 barrels a day.

Idaho World: The St. Charles shaft louse and one set of timbers in the chaft at Pearl, were wrecked by dynamite Saturday. This work was repeated Morday night, doing more damage. Culp and Lynch, of Bolse, the owners of the st. Charles, will have suspected dynamiters arrested.

White Pine News: As will be seen by reference to the list of real estate solidated company, compares as follows for the past three months, in pounds, says the Boston News:

transfers elsewhere in this issue, the copper claims in this district which were deeded in trust to E. P. Jennings have been conveyed to P. L. Kimberley, the millionnaire mine owner of Sharon, Pa.

Tonopah Bonanza: There is no work here to be had. All the miners that can be worked are employed. So keep away. Every good, practical miner that has arrived up to last Monday has secoad. So, workingmen, keep away.

Butte Mining World: The News comes from Great Falls that in a few lays the great smelting plant of the Boston & Montana will again be in full operation. It was thought that next Monday would be the day for starting up, but it has been found that the repairs and improvements cannot be completed for several days later. Or course, with the works in operation. mines here must also resume full

long since, are very encouraging. An 18-inch ledge of \$200 ore has been developed to such an extent that as \$1,400 a ton. Several leases have been let in the new district, and every few

once. Churchill county is fast coming

ings are now being erected at Pilot Knob for the accommodation of the men employed in the Giroux group and an addition is being built to the boarding house. Work is being prosecuted on the Pilot Knob, Morris, Glory and Riepe, the combined force at the pres-ent time numbering thirty six men, ent time numbering thirty six men, which number will be increased as soon as additional accommodations can be provided. On the Glory a new boiler has been installed, and a tunnel is to be driven, in addition to sinking a new shaft. During the winter work will be continued without interruption ties will be in a good state of develop

Idaho World: The Little Sammle mine on Ross Fork of Elk creek, and near the Elkhorn mine, is a bonanza. A drift has been run on the shoot 250 feet and the end is not yet. The depth on the vein at the face of the tunnel is about 100 feet. The hanging wall is about 100 feet. The hanging wall vein averages about twenty inches in width of \$40 ore. All the way in pay veins cut across from wall to wall. These are worked by square setting, in some places for a width of twenty feet. The ledge carries a great quantity of ore that will run \$5 a ton. The mill is a light one of only three stamps. and this grade of ore will not pay. It is the intention of the owners to put up a larger mill for the purpose of working all the ore. The present level only about 100 feet deep on the dip of the ledge, has kept the mill running for two seasons on the high-grade ore and enough has been opened for another season's run.

For all fresh cuts or wounds, either on the human subject or on animals, BALLARD'S SNOW LINIMENT IS excellent; while for corn-huskers' sprained wrists, barbed-wire cuts and

Very Active and Strong at Opening, Many Transfers of Big Blocks of Leading Stocks.

New York, Nov. 11 .- The market was strong and active at the opening and there were transfers of blocks of 1,000 to 4,000 shares of many leading stocks, Metropolitan Street Railway was lifted 1% on the purchase of 1,500 shares and 4,000 shares of United States Steel solu at 44% to 44, compared with 43% on Saturday. Atchison preferred rose nearly a point on the sale of 1,000 shares and Pacific Mail was up 11/4. The dealings were well distributed and only one or two stocks failed to share in the advance.

There was an absence of any decided tendency to the early dealings, strength and weakness alternating in different sections of the active market. In general the promintent stocks were inclined to yield on realizing and the pressure against Amalgamated Copper, Metropolitan Street rallway lost its opening rise and Amalgamated Copper fell below 86. Elsewhere there was a confident buying which advanced American Car, American Locomotive, Wisconsin Central Issues, Pressed Steel Car preferred, Chicago Terminal preferred, Republic Steel preferred, Tennessee Coal, General Electric, Distilling prferred, Rock Island, Hocking Valley, Chicago and Eastern Illinois, Atchison preferred, St. Louis and San Franciso, first and second preferred and Manhattan from 1 to 4 points. Amalgamated Copper and Metropolitan Street railway later railied a point and United States Steef rose nearly a point.

Gains were in some cases materially extended by stocks which had risen to the first hour and in addition were improvements from 1 to 3 points in the Readings, and coslers, Chicago, Indianapolis and Louisville issues, and in Buffalo, Rochester & Pittsburg, Union Pacific preferred, the Denver & Rio Grande stocks, Chicago & Alton, Hocking Valley preferred, St. Louis Southwestern preferred, Chicago Great Western, Sugar, Glucose preferred and Sloss Steel preferred. There was not much interest manifested in the grang-ers or Pacifics, but the Atchisons were bought heavily, lifting the common above 85. Amalgamated Copper, which had sold at 85% became buoyant to-

ward noon and touched 884.

Bonds were irregular.

The bulls bid up the Pacifics and St.

Paul well above Saturday's close, the rise from the lowest reaching abo point in St Paul and Union Pacific, This did not check the tendency to realize elsewhere which cost a fraction in quotations generally. gained one and the preferred 2 and Pullman advanced 1½. Rutland pre-ferred lost 6% and Colorado Fuel 1½. Baltimore & Ohio rose 1½ and steadled the market.

Sugar was taken in hand and lifted 2½ to 122½. Tennessee coal gained 2¾ and Colorado Fuel 2½. These movements were without strengthening effect on the general market, which was somewhat easier, Chicago & Eastern Illinois juomped 9 points to 140 and reacted 5. Union Pacific preferred was taken in large blocks and advanced 34.

fissure that cuts the York, Petro, Yampa and Highland Boy mines will be

Vein in El Amigo. El Amigo at Park valley has struck the big vein in the main tunnel at a depth of 550 feet. Values of \$19.22 per ton have been extracted from the ore for a good mining property are said to be bright.

The rock he assayed was taken from the ground two days ago.
Assayer W. G. Brown makes a different return. His assay was from rock taken out late yesterday. While he will not give out the figures tonight, he says the assay shows values something

this vicinity in a long time.

Assayer Fisk says there might be value in the rock at depth, but he in-sists there is none now.

Wyoming's Coal Mines. Young, of Wyoming, has been visiting the western part of the state, where he inspected a number of coal mines. The new coal camp of Cumberland, on the Wyoming & Western, is destined to be one of the largest mining towns in Wyoming, he says. Twelve months ago there was nothing at Cumberland but a prespect hole, but today there is a town of abou 1,000 people, 300 residences, a \$7,000 school house in course of construction, and numerous other buildings in addition to those owned by the

One of the finest veins of steam coal in the state has been opened up at Cumberland, the company having al-ready spent over \$709,000 in develop-ment work, machinery, buildings, etc. The school house is being built by the coal company, and arrangements have already been made for a \$200,000 water

houses of the miners are built differ-ently and painted various colors, so that the monotony of color and form usually seen in coal camps is eliminat-

The present output of coal from the mines at Cumberland is about 1,600 tons

A. J. Davis of the company, and that gentleman left for the property Saturday night. Highland Boy Tunnel. The main tunnel of the Highland Boy Consolidated property has been run 900 feet, says the Bingham Bulletin. For the last fifty feet it states two feet of ore has been followed that gives from

Conflicting Assays. Two assayers made their returns Saturday on the ore found while excavating for the federal building in Helena, Mont. Assayer Emmett R. Fisk's return showed there was no gold in the rock. He says the rock is not quartz, but crystallzed lime, stained with iron.

less than \$50, and he says it is as good a prospect as has been uncovered in

State Coal Mine Inspector Noah

As far back as 1859 Robert L. D'Au-malie, a celebrated French expert, de-clared the location of the Cieneguita in the Sahuria district, Sonora, to be identical with the lost Tayapa. The Spanish owners are said to have been mur-dered by their Indian slaves near the close of the seventeenth century, and it is stated that for 100 years thereafter no one was allowed to enter that region. Explorers who have recently returned ered the old stone prisons, old smelters and also stupendous work accomplished

MINING NOTES.

Tonopah Bonanza: Late reports from new strike south of town, mention of which was made in our columns not ermanency to considerable depth has been assured. This ledge extends practically the length of three or four claims, and in places carries a scam of ale along one wall that assays as high
