LOCAL AND OTHER MATTERS.

Theatricals.—Manager David McKean informs us that the theatrical outlook for December is exceedingly dull. Nothing at all on the taps, unless Jeffrey Lewis appears unexpectedly after her recent postponement. In January there is a flood of prospects, too far in the future to particularize.
 Would like to hear from Him.—Henry Golden would like to hear from Elder Norman, of this city, who recently returned from a mission to England. Brother Golden's address is Nephi, San Juan County. Browning Brothers Burglarized.

On Tuesday night, we learn from the Ogdin Herald, that the store of Browning Brothers, in that city, was burglarized. For some time previous some one or other of the boys had slept in the establishment at night. After the close of business on the evening mentioned, Matthew B. Browning went to supper. He returned to the store shortly after nine o'clock, and found it had been broken into and robbed. The burglars, who doubtless had been watching their opportunity, went to the rear of the building, pried the door of the engine room off its hinges, entered that apartment, reached the middle door, pried that, and broke the glass. They then entered the front room or store, opened the show-case and took out from fifteen to twenty revolvers. They were of Colt's and Smith & Weston's manufacture. The rascals got away with their booty "steak and clean."
 The property stolen is valued at over two hundred dollars. Mr. Math. Browning went in search of a policeman, whom he found, and they started at once to hunt for the plunderers.
 For a number of months past, the Browning Bros., who have been robbed in this way several times, have had a spring gun set in their engine room, which, if a house-breaker forced open the rear door, would be discharged and the contents lodged in the burglar's body. They also had a large bulldog tied in the engine room at night. Tuesday night, the gun was not set, the dog was absent, and had been for a day or two. It is supposed the burglars knew the facts and watched until the boys were all absent, then made their entry and got off with the plunder.

The Hodgson Case.

On Wednesday last, old man Hodgson, arrested for beating his daughter, was brought before the police magistrate, but as he appeared to be suffering somewhat severely from the alleged drubbing a neighbor gave him, his case was continued until he should recover. On Monday last it came up, the old dodger having almost if not entirely recovered. He pleaded guilty to the charge, showed no disposition to relent, but intimated that he might repeat the offense unless his daughter were taken away. The justice sentenced him to pay a fine of \$30 and costs, or in default to be imprisoned thirty days. The old fellow was inarguable and said the justice might as well send him up for life while he was about it. From representations made to the officers it was deemed proper and just to proceed against the party who hurt the old man. His case was tried at the same time as Hodgson's. He stated that he was standing near the old man's daughter when her father approached her, and struck her knocking her down. The defendant interposed and gave the old man a shove for the purpose of preventing him from continuing the assault on his daughter. The old man, on being pushed by defendant, fell over a water bucket, and must in that way have received the injuries he complained of. This was the full extent of defendant's assault on the old man and on that showing the justice discharged him. —Logan Journal.

Moab Mentions.

An Emery County correspondent, O. W. Warner by name, writing from Moab on the 1st inst., gives a pretty good idea of the productive capacity of the soil in that region. He says he has poplars grown from cuttings this year, eleven feet six inches; grape vines twenty feet; squash vines fifty feet.
 Frederick Powell, a neighbor, raised a squash six feet four inches in circumference, weight 138 pounds. Several others each weighed from 100 to 125 lbs. Watermelons are also very large, some weighing as high as sixty pounds each. They have eight months without frost.
 The machinery has arrived for a mill at the railroad station, thirty-five miles distant. Some good mining prospects exist thereabouts. Ore intended to be shipped next summer, assays 75 per cent. copper, 20 per cent. silver and 30 per cent. gold.
 The general health is good, no sickness in the settlement. A good school teacher is wanted. President Larsen and Counselors visited the place on the 13th ult. and gave good instructions to the people. Those in authority were called on to keep the word of wisdom, and thus set an example to others.

Sketch of the City.

This morning Mr. Charles Oster, formerly of Boise City, but now a resident of Salt Lake, showed us a sketch of this city. The object of the artist was more to exhibit the landscape, and the architectural features of the scene are not displayed. The picture includes a representation of the grand mountains surrounding the city. The point of view from which the artist made his sketch was Fort Douglas.
 Mr. Oster has also made drawings of Boise City and several other of the more important towns of the Rocky Mountain Region.

Lightning Responses.

Assistant Sup. of Z. M. L. S. W. Sears, Esq., has inaugurated a system with three boys in the grocery department that has cured any tendencies to dilly-dallying and shirking that may have existed among those precocious juveniles. They are now paid in proportion to the number of responses they make to calls of "cash." Whenever they hear that familiar cry, accompanied by the counter-top of the clerk, they make a dash for the objective point like a squad of light infantry on a sortie.
 Occasionally the rash boys like a regular juvenile go-to-you-please. The clerks and customers do not have to wait the pleasure of the careless cash boy under this new regime. Time being money, it must be made convertible cash. Nothing like putting a little lightning into the legs of the boys.
 A civil suit, Bank vs. Hodge, is before Justice Spiers this afternoon.

Arrived in Mexico.

A private letter from Elder Heleman Pratt, dated at the city of Mexico, November 10th, states that himself and companion, Elder Frank Snow, reached there on the preceding day, and had held one meeting with the Saints and Elders in that city.
 The two left here together, and when last heard from (Saturday Nov. 24), were approaching New Orleans, doubtful as to whether they would get there in time to catch the steamer next morning for Vera Cruz. We are pleased to state that they succeeded. In doing so, and landed at the latter port on the 6th of last month, and left the same evening for the city of Mexico. The brethren were quite well.

A locky can be had at this office.

An error last evening in the notice of *Morgan's* from the number of its last year's subscribers at 24. It should have been 2,400.

President W. B. Preston, of Coosho State,

was killed by a mare last Monday, knocking him about twelve feet, against a pole fence, and cutting his hand and arm. He lay insensible for a minute and then recovered. The accident occurred at Portneuf, Idaho.

A GENUINE AFFAIR.

Our readers can rely upon it that if they have any rheumatism in the system, they can by using Britannia become entirely cured. This is no fiction. A great many persons have tried it in Salt Lake City and Ogden, and other parts of Utah whose testimony can be privately obtained, and who say that no remedy ever cured the disease before. It removes pain at once. It cures the cause of the pain, and removes it, builds up the general health, it acts mildly on the bowels, and strengthens the kidneys. It gives an appetite and a relish for food, and prevents its souring on the stomach. Just try a bottle, and you will never want to be without it. The house as a family medicine. Sold at Z. C. M. I. Drug Store.

TO ALL WHO IT MAY CONCERN.
