

MINING, BUSINESS AND STOCKS.

CARISA CLOSED STRONG TODAY.

Stock Sold as High as 12 1/2% on
The Exchange.

AJAX WAS FIRMER TODAY.

Daily-West Sold at Better Figures—May
Day in the Ascendant—Uncle Sam
Closed a Little Softer.

Business was much more brisk on the
mining exchange this morning. The
sales represented a selling value of
\$37,913, while the shares sold footed up
\$2,575 shares. Prices were generally
stronger, though some of them eased
off after reaching the high point.
Carisa was an exception, closing strong
at \$1.21. Ajax sold up to \$2.25, but
weakened to \$2.00 on the closing sale.
Daily-West was traded in at \$32.55,
while May Day advanced from \$1.14 to
\$1.17 and closed around \$1.15. Uncle
Sam opened strong, but there were evi-
dently more selling than buying orders
as the price fell away to \$1.05 on the
closing sale. Ben Butler hung around
15 1/2. Ingot released 1,000 at 2. Tesora
sold from 5 1/2 to 5 1/4. Silver Shield was
traded in at 2 1/2. Sunshine loosened up
600 at 10. Tetra sold at 25 and 25 1/2.
Little Chief was traded in at 25 and 25 1/2.
Closing quotations were posted as fol-
lows:

DIVIDEND OF \$60,000 TODAY

Daly-West Directors Ordered the
November Distribution 15th Inst.

NEW STATE DEVELOPMENT.

Good Ore in East Drift—Century Bul-
lion—Neptune Tunnel Suit—
Elkton Mine Sold.

The directors of the Daly-West Min-
ing company met this afternoon and de-
clared the second monthly dividend of
10 cents a share or \$60,000 payable on
the 15th inst., the books to close on the
16th. The payment of this sum raises
the total paid by the Daly-West to
\$1,155,000. The mine began paying divi-
dends in October, 1899, so that it has
since paid more than \$500,000 a year.
Manager J. E. Bamberger returned
from the mine Saturday night after
thoroughly examining the develop-
ments in the bonanza since his last
visit nine weeks ago. Mr. Bamberger
reports the mine to be looking very
fine. The ore reserves are holding out
well. The project to install an iron
pipe line to convey the concentrates
from the surface to the 1,300 or tunnel
level has been decided on. A pipe line
will also be established from the 900 to
the 1,200 to facilitate the extraction of
shipping ore from that level. Mr. Bam-
berger does not expect by this means
to greatly increase the production,
though it could be done if necessary. At
present, however, the company is ship-
ping to the full limit of its contract
with the smelting company.
Questioned regarding the Park City
rumors that a conflict is inevitable be-
tween the Quinby and Daly-West
companies, Mr. Bamberger said that he
had not received an intimation that
such a thing was being considered.

NEW STATE ORE BODY.

Is Now Furnishing About Two Tons
of \$250-Ore per Week.

Mr. Hoock, of the firm of Galloway,
Hoock and Francis, was very much
pleased this morning with the good
news he received from the New State
company at the mouth of Little Cotton-
wood canyon. H. L. Benner, who is in
charge, reports three streaks of high
grade ore from four to six inches wide
in the east drift on the tunnel level.
On striking fifteen feet it has been
found that these streaks have merged
in a solid streak of ore nearly a foot
wide. The management is still sinking
on this and it is improving rapidly. In
the past eight or ten days the man-
agement has extracted about three
tons of ore valued at \$250 per ton. Mr.
Hoock says about two tons of ore is
being extracted per week, which is
valued at about \$500. In the last ship-
ment the high grade ore sold for \$50
per ton while the low grade netted \$100
per ton.

NEPTUNE TUNNEL CASE.

Supt. Mayberry Says He Did Not
Know Restraining Order Was Issued.

The injunction suit of Senator
Kearns, Governor Wells, Col. Wall and
others against the United States
Mining company, for interfering with
the Neptune tunnel at Bingham, came
up for hearing in the district court to-
day. It was remanded to the U. S. dis-
trict court for hearing, subject to the
contempt proceedings which have been
instituted against A. F. Holden. It
transpired at the hearing this morning
that Superintendent Mayberry of the
United States Mining company had
blown up a great deal of Neptune tun-
nel after the order restraining the com-
pany had been issued. Mr. Mayberry
said he did not know anything of the
injunction suit until after he had
said the work assigned him by Mr.
Holden. Mr. Mayberry was there-
fore discharged and Mr. Holden is
held responsible for ordering the further
destruction of the tunnel after the re-
straining order had been issued. He
will be examined on the charge of con-
tempt when he returns to the state.

Century Bullion Arrives.

The result of the October run at the
Century Mining company's shaft has
just reached town in the shape of
a bar of gold bullion valued at about
\$2,000. The clean-up is the result of
a two weeks' run, though on account of
the various adjustments which were
made in the new mill the bullion does
not really represent more than 5 to 6
days' run with the whole battery. After
a number of small but annoying
accidents the full battery of sixteen
stamps is now dropping and the mill
is expected to establish a new record
during November. Superintendent
Percy Williams arrived in the city on
Saturday evening and he expects to
remain a few days to make some tests
on the ores of the mine, with the view
probably of securing still better re-
sults with the mill.

Glasgow and Western Plans.

Joe Farren, the well known mining
man, returned yesterday from the Glas-
gow and Western Exploration company's
property at Golconda, Nevada.
Mr. Farren reports the company's
mines to be looking splendidly. Plans
for the enlargement of the 100-ton
smelting plant at Golconda are now
well in hand, and by the 10th of De-
cember it is expected that the esti-
mated will have been received and ap-
proved by the directors of the company
in Glasgow, Scotland. As soon as this
is done the enlargement of the smelter
to 300 tons a day will begin. At the
same time the company will start to
bore for artesian water, in order to
secure a steady supply. The canal from
the Humboldt river has been very un-
certain in the past, but an artesian well
is expected to overcome all trouble in
this respect.

Dexter Bullion Arrives.

The bullion and cyanide shipments
from the Dexter-Tuscarora property at
Tuscarora, Nev., now at hand show
that the company has turned out over
\$14,000 worth of gold and silver during
the month of October. Secretary Alris
says the bullion amounts to \$5,700, while
the cyanides is valued at \$5,500, the lat-
ter half of the month. Early in the
month a shipment of \$3,300 was made,
which places the total output for the
month at \$14,000.

Return of the Excursionists.

A great number of mining men
availed themselves of the opportunity
of seeing the mines of Tintic afforded
by yesterday's excursion. The visitors

to the May Day numbered upwards of
twenty, who were escorted through by
F. W. Muhlenbruch.
The rail was in motion and it came
up not all of those who saw it went
away pleased with its operation. The
Uncle Sam was likewise a center of at-
traction to a number of investors. The
Lower Mammoth was also visited as
well as the Grand Central, Yankee Con.,
Snowflake, and other properties includ-
ing the Tetra and Manhattan. The ex-
cursionists filled five coaches and all
who were seen today were much pleased
with their visit.

Elkton Sold For \$8,875,000.

Colorado Springs, Colo., Nov. 4.—The
control of the Elkton Consolidated Gold
Mining company, on the property of
which a remarkably rich strike was
made recently, has passed into the
hands of eastern capitalists for a con-
sideration based on a valuation of \$6-
875,000 for the entire capitalization. The
names of the buyers are withheld for
the present by E. M. Delavergne, their
local agent, himself a prominent stock-
holder.

The deal is perhaps the largest in- volving Colorado mining property since Stanton's Independence was sold in April, 1899, for \$10,000,000.

In local mining circles it is thought
that the purchasers are New York cap-
italists who represent Wehner, Belt
& Co., of London, who have sought to
buy the mine.

Golden Queen Assays.

Provo, Utah, Nov. 4.—The assays
from three samples of the Golden
Queen, obtained by Messrs. Singleton
and Darger yesterday, were \$5, \$11 and
\$56. The \$5 assay was from ore near the
mouth of the tunnel and the \$56 from
ore fifty feet from the mouth; the \$11
assay being from ore between these two
points. As the samples were not picked
and there is a three-foot vein where the
\$56 ore came from, the owners of the
Golden Queen have great reason to feel
justified.

Goodsell Mining Company.

Provo, Utah, Nov. 4.—Articles of in-
corporation of the Goodsell Mining and
Milling company have been filed with
the county clerk. The corporation will
conduct a general mining and milling
business, with its principal office in
American Fork.

The capital stock is \$350,000, in shares
of the par value of \$1 each. One hun-
dred and fifty thousand shares of the
stock is treasury, and the stock of the
company is non-assessable until the en-
tire amount of the treasury stock shall
have been sold and the amount re-
ceived from the sale of the same used
for the benefit of the company. The cap-
ital stock is based on the Hot Stuff
mining claim, situated in American
Fork mining district.

The following are the directors and
officers of the company: B. W. Good-
sell, president; C. W. Earl, vice presi-
dent; W. L. Goodsell, treasurer; John
H. Woodson, secretary; L. W. Nielsen
and Otto M. Nielsen.

Final Payment of \$100,000 Made.

The Boise Statesman says the final
payment of \$100,000 was to be
made Saturday afternoon on the
fourteen claims bought in the
Thunder Mountain mining district by
T. N. Barnard and Colonel W. H.
Dewey from the Canswell brothers.
It was probably the largest spot
cash mining transaction ever made
in southern Idaho. Since taking
over the property on a bond the two
gentlemen named have become asso-
ciated with S. B. Longfellow.

Tintic Shipments.

The Miner reports the following ship-
ments from Tintic district during the
past week:

	Cars of Ore.
Ajax	3
Bullion-Beck	2
Carisa	18
Golden Hill	1
Glimmer	4
Godiva	4
Grand Central	5
Mammoth	7
Lower Mammoth	3
May Day	3
Star Con.	3
South Swansea	3
Tesora	2
Yankee Con.	4

Total..... 60

CONCENTRATES.

Cars.

Tesora	2
--------	---

Park City Shipments.

The Park Record gives the following
shipments of ore from the Mackintosh
sampler during the past week:

	Pounds.
Ontario	1,647,000
Daily West	1,421,000
Quincy	1,400,000
Anchor	370,000
California	60,000
Daily	24,000

Total..... 4,922,000

Silver King..... 3,189,820

Gran total..... 7,111,820

MINING NOTES.

The Dalton & Lark tunnel is now in
1,520 feet.

A car of ore was on the market today
from the South Swansea of Tintic.

The Tiewaukee of Bingham had a car
of concentrates on the market today.

A couple of new boilers are being in-
stalled in the Grand Central of Tintic.

California released 1,800 shares on the
cure this morning from \$1.06 to \$1.00 1/2.

The Red Wing of Bingham has six
cars of concentrates on the way to mar-
ket.

Joe Jennings and W. H. Clive re-
turned yesterday from Cherry Creek
district in Nevada, where they have
just up a big group of claims.

Treasurer O. E. Weller of the Bingham
Consolidated company is now in the hospi-
tal after being laid up in the hospi-
tal for some time.

The Park Record says Park City
mining men are very much stirred up
over renewed rumors of a conflict be-
tween the Daly-West and Quincy min-
ing companies.

Bingham Bulletin: Last Tuesday
twenty-two ironclads loaded with ore
left Bingham. The total tonnage was
about 1,100 tons, constituting the largest
single day's shipment yet made.

Wells (Salt Lake) State Herald: P. J.
Donohue, a Salt Lake mining expert,
arrived Wednesday, and in company
with R. C. O'Neil, went out to Spruce-
mont to inspect some mining prop-
erties.

Some very fine looking stringers of
ore are being encountered in the Jef-
ferson company's property at the mouth
of Little Cottonwood canyon. The
face of the tunnel where the ore occurs
is in 375 feet and the near approach to
the vein is indicated.

Will Griffiths, who was underground
at the Grand Central, yesterday, re-
ports a great deal of ore in sight in the
mine. The discovery was made in the King
William are said to be very encourag-
ing.

DON'T MAKE A MISTAKE.

Vote, put your cross in the circle
under the flag. (Advertisement.)

A VERY FEVERISH MARKET

Amalgamated Copper and Sugar Noticeably
Heavy, No Other Defined Tendency.

Shorts Covered in Union Pacific, Lift-
ing That Stock—Prices Were
Rather Sluggish.

New York, Nov. 4.—There were heavy
blocks of some of the prominent stocks
transferred in the opening dealings.
Amalgamated Copper and Sugar were
noticeably heavy. Otherwise there was
no well defined tendency.
Speculation was very feverish. Sugar,
People's Gas, and Union Pacific were
sold down about a point and the U. S.
Steel stocks were heavy. When the
shorts covered in Union Pacific, lifting
that stock slightly above Saturday's
close traders bought St. Paul and it
rose to 17 1/2. These improvements were
not long held, as renewed selling of
Sugar and People's Gas sent them down
lower than before, the last mentioned
touching par.

Stocks of local municipal corporations
were pressed for sale and Delaware &
Hudson dropped 2 points but their
weakness was offset by recoveries in
the county clerk, Pacifics and Industrials.
There was in addition a demand for
the Southern railway issues and Illi-
nois Central, the last named gaining a
point. Buffalo, Rochester and Pitts-
burgh common and preferred, advanced
5 1/2 to 7 points respectively. The market
was dull and heavy in tone.
Bonds were irregular.

Prices moved very sluggishly for a
few wide declines. St. Paul reacted a
point, and Great Northern preferred
and Northwestern and North American
lost 1 to 1 1/2. Distilling stocks were
strong, the preferred rising 1 1/2 and the
common 1.

Michigan Central advanced 8 points,
Union Pacific, Missouri Pacific, Atchafal-
son and Baltimore & Ohio were lifted
over Saturday's closing level and Peo-
ple's Gas and Metropolitan Street Rail-
way rallied 1 1/4 each. Pacific Mail rose
1 1/4, selling at U. S. Steel preferred,
which carried it a point under Satur-
day, checked the advance in the above
mentioned stocks. Union Pacific was
marked up again to 108 1/2, but the mar-
ket failed to respond. The closing was
dull and heavy.

MONEY AND BONDS.

Money on call nominal at 3 1/2% per
cent. Prime mercantile paper 4 1/2% per
cent. Sterling exchange steady, with
actual business in bankers' bills at
4.8 1/2% for demand, and at 4.8 1/2% for
30 days. Posted rates 4.8 1/2% for
demand and 4.8 1/2% for 30 days.
Commercial bills 4.8 1/2% for 30 days.
Bar silver 57 1/2.
Mexican dollars 45 1/2.
Government bonds steady; refunding
2 1/2 registered 108; 2 1/2 coupon 109; 3 1/2
registered 108; 3 1/2 coupon 108; new 4 1/2
registered 112 1/2; old 4 1/2 coupon 112 1/2; 5 1/2
registered 107; 5 1/2 coupon 107.

SUGAR.

Sugar, raw quiet; fair refining 2 1/2%
3 1/2; centrifugal, 96 test, 3 1/2; molasses
sugar 3. Refined quiet, crushed 5.60;
powdered 5.20; granulated 5.10.
