YANKTON, 18.—A soldier just in from the Sioux county reports finding the trail of the missing Cheyennes last week, crossing the Keyapaha river, 100 miles west from Fort Randall. The trail indicated a northward movement; it was fresh and well defined. This leads to the conclusion that the Indians have outflanked everything and are now well on their way towards the Yellowstone.

All hands were saved. The vessel came from Wellington, New Zealand, in ballast, consigned to James Laidlaw. She was an iron vessel, 814 tons register. There is probably no insurance on the vessel. The disaster is mainly attributable to the attempt of the master to cross the bar without a pilot. Loss \$60,000 to \$70,000.

CHICAGO, 19.—The *Post*, with a view of casting discredit upon the reports received from South Carolina regarding the Sumpter outrage, publishes a silly cock-and-bull story that the Sumpter affair was a put-up job; that it was "planned at the republican headquarters here by Representatives Hale and Gorham, who furnished money to buy arms for 2,000 or 3,000 negroes to murder innocent and helpless democrats," and that the plot "failed only because of the coolness exhibited by the democratic leaders and the cowardice of the negroes who were to lead in the massacre." This attempt to direct responsibility from the democrats for the Sumpter outrage is regarded as pitiful in the extreme.

CINCINNATI, 19.—At the wedding supper of Willis Peele and Alice Burdge, Azalia, Indiana, on Thursday night, ten of the party were poisoned, some unknown person having put strichnine in the food. It is surmised that some one of Miss Burdge's rejected suitors committed the deed.

BOSTON, 19.—The wool market is steady with a fair demand from manufacturers, and the sales of the week comprise 1,634,900 lbs. of all kinds. There is a good average business. The principal transactions during the week were in California and territorial wool and unwashed and unmerchantable fleeces. Sales of Ohio and Pennsylvania fleeces have not been to any considerable extent. There is a very quiet market for combing and delaine selections. Desirable lots of combing wool would command full previous prices, but fine delaines can only be crowded off at some concession and cannot be quoted at over 37 @ 38. California wool has attracted more attention, the business has been larger than any previous week for some time, comprising about 600,000 pounds. Pulled wools are in steady demand; sales include Ohio and Pennsylv-

ania fleeces, X, XX, and No. 1 at 34 @ 37½; Michigan, medium and X at 32 @ 35; New York fleeces at 31 @ 31½; Maine fleeces at 33½; combing and delaine at 37 @ 41; Kentucky combing at 31; unwashed combing at 27; Oregon, at 22 @ 29; Texas at 25 and 27; Territory at 20 @ 25; scoured at 24 @ 26; super and X pulled at 27 @ 40; spring California at 19 @ 28, and fall California at 12½ @ 18.

OMAHA, Neb., 19.—An attempt was made by a gang of masked men to rob the Kansas Pacific east bound express train some time before daylight to-day, on the Smoky Hill division, near Fort Harker, Kansas. The railroad company, having expected an attack of this kind for some days, were well prepared for it, and succeeded in capturing the leader of the gang, named Mike Rourke, and wounding another named Dan Demint, who escaped into the timber, but whose capture is almost certain. Rourke was securely ironed and brought to Brookville. This gang, consisting of eight or ten desperadoes has been camping near the scene of the attempted robbery for several days and has been closely watched by detectives. It is believed that Rourke and his crowd are the same ones that robbed the Kansas City, St. Joe and Council Bluffs Railway three months ago. The train which they attempted to rob on the Kansas Pacific carries a large amount of treasure from Colorado.

Sixteen physicians of the Howard medical corps report 40 new cases, 10 within the city limits and 30 in the suburbs. The funds now in the hands of the committees abroad might be retained until further advices are sent them that they are not needed.

Jackson, 19.—Total cases of yellow fever here to date, 257, of whom 98 are white; total deaths, 37, of whom 25 are white; now under treatment 320. The frost of the past two nights makes the prospect brighter, but is severe on those already sick.

John Klinck, messenger and clerk of the democratic house, has been arrested, charged with purloining letters addressed to employees and officials. Many letters, some containing checks in blank, which he had filled up and forged, were found in his possession.

At a late hour to-night the military headquarters received several interesting documents bearing on the Cheyenne Indian troubles. The first is from General Pope, who reports that the force of cavalry is too small to attend to the seceders and that all the military are poorly armed with carbines, as against the Indian rifles. The cavalry are kept busy at Fort Sill and Reno. He urges that more forces are essential to securing peace on the border. At the Cheyenne Indian agency he learns that there is an enormous deficiency in the Indian supplies, as shown by the report of John D. Miles, agent at the Cheyenne and Arapahoe agency. The latter says: The primary cause of the Cheyennes leaving their reservation is that the daily ration promised them of one-and-a-half pounds of beef, half-a-pound of flour or corn, and four pounds of coffee, eight pounds of sugar and three pounds of beans to each 100 rations, has only been partially carried out, the supplies received being insufficient. None of the stock and aid in building houses, which was promised, has been afforded them. Another cause of the defection was that they objected to the manner of serving their rations. The Northern Cheyennes first withdrew. All efforts to induce them to return peaceably have been unavailing. General Pope suggests that the Indian commissioner may, in the light of these facts, find it necessary to modify his views of the af-

fairs at the agency. Ben. Clarke, an old scout, reports that he has information that 15 Cheyennes have been killed in encounters with troops, and that the seceders intend to work north and to propose a peaceful settlement in Fort Kehoe, but if this is not permitted, they will join Sitting Bull.

OMAHA, Neb., 20.—Further information shows that the Kansas Pacific east-bound train, on Friday morning last, was not attacked by robbers, but that the robbers, who it was known were preparing to make the attack, were surprised in camp by officers, who arrested one man and wounded another, who escaped, but was being closely followed at last accounts. The rest of the gang also escaped. The affair happened south of Ellsworth, Kansas.

SAN FRANCISCO, 20.—Last night, near Nortonville, Contra Costa County, David H. Williams, a Welsh miner, killed his wife by beating, kicking, and stabbing her. Mrs. Williams has been guilty of intemperate and immoral conduct during the absence of her husband in Butte County. On his return, hearing the reports, he at once assaulted her at a neighbor's house, knocked her down, dragged her home by the hair, and there he completed his work. They were both under the influence of liquor at the time.

NEW YORK, 21.—The *Tribune's* editorial says: For Tilden to ignore these damning disclosures, and still pretend to believe that he has been defrauded by a corrupt canvassing board, is an exhibition of impudence which the people can hardly contemplate without irritation. The time has passed for keeping up appearances. The shameful truth is now exposed to the whole world. Tilden is not to imagine that he can hide it by simply turning his back upon it. He is not to flatter himself that having tossed the scandal aside with a careless remark that he knows nothing about it. He may go on as before, scolding the republicans, on the bold assumption that they committed the very crimes which are traced to his own house.

A *Times* Philadelphia special says: A person was recently admitted on board the Russian steamer *Europe*, formerly the *State of California*. He was examining everything minutely, and after he had concluded his investigation on deck, he went below and inspected the armament and quarters of the officers. While engaged in this business, one of the officers, who had been on the *Cambria* in Southwest Harbor, and who saw the British Admiral there, recognized that officer. There was a hurried consultation, and Cramp was sent for. William Cramp appeared, and he also recognized Admiral Gore Jones. He was asked for his permit, and when it was shown, it was at once declared to be a forgery, and the Admiral was politely requested to leave the ship and the yard. He did so amid the jeers of the Russian officers.

LONDON, 18.—The *Ruski Mir* says: That General Stoletoff, Russian en-

voy to Cabul, was accompanied when he returned to Tashkend, on the 15th of September, by an Afghan embassy under the Ameer's minister of the interior. General Stoletoff started for Swadia on the 22d of September, leaving the Afghans at Tashkend. He has probably returned thither by this time.

The *Daily News*, in its financial column, alluding to street rumors, says: As far as could be ascertained at the last moment yesterday, there was no foundation for the report that any London bank is in difficulty. On the contrary, accommodation was given more freely. These endeavors to create difficulties by concoctors of this species of intelligence are much to be deprecated. A similar report, which was started relative to a loan from the Bank of France to the Bank of England, may have served the ends of its inventors.

The *Times*, in its financial article, says: No fresh complications were announced yesterday or apprehended. A very imaginative story was started of an arrangement for the Bank of England to get fabulous amounts of gold from the Bank of France. The story was utterly without foundation.

The official report of the investigation into the affairs of the City of Glasgow Bank, just issued is worse than the most gloomy forebodings. The loss shown in the balance sheet is £5,190,983. This loss, with the addition of £1,000,000 capital, the shareholders will have to make good. The report shows the practice of systematic deception. Thus, since the commencement of the year, weekly returns of the amount of bullion in hand, which the bank was obliged to make to government so as to show that its funds were maintained in due proportion to its note issue, have been falsified by adding thereto imaginary sums varying from £60,000 to £300,000. The directors' reports to shareholders also overstated the amounts of securities or bullion held in reserve by £928,764 and £200,000 respectively, and understated the loans granted by £1,128,764. The directors, furthermore have been in the habit of ing, in the balance sheets, £7,345,357 of bad debts, over half of which is due by four debtors, as an available asset. The principal assets of the bank are bonds and shares of the Western Union Railway of the United States, and scrip of the Australian Land Company, the value of which is estimated at £358,450 and £973,845 respectively.

Crowds were assembled before the bank and exchange, awaiting the report which caused consternation. A call for £500 per share is anticipated, which it is thought half the shareholders will be unable to meet. The remainder of the shareholders will thus ultimately be compelled to pay double.

LONDON, 19.—The *Times*, in its finance article, commenting on the official report of the investigators into the bank of the City of Glasgow affairs, says: The shareholders now have some light thrown upon the condition of the bank's affairs, and a most sombre light it is. The bank has lost, on a favorable estimate \$6,200,000. That is a most disastrous statement for the unhappy shareholders, and we need hardly say that a loss of such magnitude could never have fallen on them but for the reckless mismanagement and deliberate and long-continued fraud practiced to hide that mismanagement.

PARIS, 19.—Minister Noyes has forwarded \$4,000 for the relief of the yellow fever sufferers.

BERLIN, 19.—The Reichstag has passed the remaining clauses of the anti-socialist bill.

LONDON, 20.—The whole management of the City of Glasgow Bank, namely: secretary, managing director and six directors, were arrested, on Saturday, on a charge of fraud. They are confined separately, and not allowed to communicate with

He protested against hoisting the yellow and black flag, which, he declared, symbolized a unity with Austria, and which was not recognized by the Hungarian constitution. He also claimed that, as members of the Diet were compelled to hear the royal speech standing, the emperor should read it standing, as the rights of the throne and Diet were equal. The royal speech, which was read to-day, is entirely colorless, as the ministry now acting is only provisional.

LONDON, 21.—A special from Darjceling says: It is reported, with considerable show of probability, that the Ameer of Afghanistan is strenuously endeavoring to effect a compromise. According to the reports of the natives; he is even perfectly ready to meet the viceroy at Peshwar. This disposition, however, is attributed to a desire to gain time. Government can afford to negotiate, as there is little doubt that all idea of a winter campaign has been abandoned; but only an unqualified and immediate submission will prevent a war, and it is almost hopeless to expect the Ameer to yield to the requirements of the government, one of which is that the command on the most important strategic routes shall be placed in its hand. The Afghans at Ali Musjid are now estimated to number 25,000.

A telegram from Agram states that armed insurgents are re-assembling in the mountains of Turkish Croatia and a fresh rising is expected.

Louis Potter is a member of a large shipping firm in Glasgow. Wright is a member of an East India firm in London and Glasgow. Robt. Salmon was manager of the City of Glasgow Bank when it stopped in 1857. Stewart is an Edinburgh merchant. The arrests created a great sensation, but meet with general approval.
