## POLICE COURT MATTERS.

### Dealers in Impure Tea are Again Discharged.

The following is today's police court business.

H. L. Mickey was arraigned for petit larceny. He plead not guilty and was allowed to go on his own recognizance. The complainant charges him with stealing a bucket of coal, the same being the property of Joel Hines. Mickey states that he was working for Hines' man, and was under the impression that the property belonged to his employer.

John Evans and Ale Hunter were arrested for an infraction of the ice ordinance. Prosecutor James stated that the case was similar to that of the city against Price which was discussed recently and believed that the ordinance would not reach the defendants. He therefore moved for a dismissal, and the order was made. He stated that the prosecution could prove that the defendants used ice contained in ice and gave it away. The court stated that the present ordinance would not hold the defendants, but if any infraction of it should be made the violators would receive the extent of the penalty that the law allows.

Lawrence Poole and S. Stelzer were charged with stealing a ride. They said that they had ridden down from Ogden on a passenger train, but with permission of the conductor. They seemed to be honest, and were discharged.

A number of letters were made. Wesley, residing at 600 east Seventh South, wrote in a complaint in the police court this afternoon, charging Charles Grimm, a neighbor, with assault and battery. It appears from the statement of Mr. Wesley as told Police Clerk James, that on Tuesday last, Wesley, having occasion to complain of the misbehavior of Brinton's boys who had that day broke Wesley's window, went to Brinton's place and told him he would have to pay the costs of putting the glass in. Brinton then, it is claimed, struck the old gentleman three times in the face. A warrant was issued for the defendant's arrest.

### Candidate for District Judge.

During the absence of Prosecutor Judge McNulty in the East recently it was openly stated that the gentleman was a candidate for the Federal judgeship of the new state. This, however, was emphatically denied by the judge on his return. But he did not at the time and does not now contradict the rumors that he is in the field for a district judgeship. On the contrary he says he is to the hands of his friends whom he naturally hopes are sufficiently numerous to secure him the nomination.

### Farewell Concert and Ball.

There will be a farewell concert and ball tomorrow evening, at 8 o'clock, in the Fourth Ward Assembly Rooms, in honor of Elder John A. Kardley, who has been called to fulfill a mission to the Indian Territory. All friends of the departing missionary are respectfully invited to attend and participate in an enjoyable time.

### THE VALUE OF MONEY.

AN IMPORTANT RULING FROM THE MINT.

The director of the mint has just promulgated an official estimate of the value of foreign coins "in terms of money of account of the United States."

The fluctuations of money values have often caused doubt and confusion at local banks and elsewhere, but they will now follow closely the official estimate which are as follows "in terms of the United States gold dollar:"

Argentine Republic, gold and silver standard, peso, 96.5; Austria-Hungary, gold standard, crown, 20.3; Belgium, gold and silver standard, franc, 19.3; Bolivia, silver standard, boliviano, 76.5; British possessions in North America, 1 gold dollar; Central American states of Costa Rica, Guatemala, Honduras, Nicaragua and Salvador, silver, peso, 76.5; China, silver, tael, or Shanghai, 71.3; Hankow, 69; Ningpo, 70.3; Canton, 72.1; Colombia, silver standard, peso, 76.5; Cuba, gold and silver standard, peso, 92.6; Denmark, gold standard, crown, 26.8; Ecuador, silver standard, sucre, 48.6; Egypt, gold standard, pound, 4.94 (100 piastres); Finland, silver standard, mark, 19.3; France, gold and silver standard, franc, 19.3; German Empire, gold standard, mark, 23.8; Great Britain, gold standard, pound sterling, 4.86 65; Greece, gold and silver standard, drachm, 19.3; India, silver standard, rupee, 32.9; Italy, gold and silver standard, lira, 19.3; Japan, gold and silver standard, yen, standard, dollar, 1.00; Mexico, silver standard, dollar, 47.5; Netherlands, gold and silver standard, florin, 40.2; Newfoundland, gold standard, dollar, 1.01 4; Norway, gold standard, crown, 26.8; Persia, silver standard, kran, 68.9; Peru, silver standard, sol, 48.6; Portugal, gold standard, milreis, 1.08; Russia, silver standard, ruble, gold, 77.2, silver 58.9; Spain, gold and silver standard, peseta, 19.3; Sweden, gold and silver standard, crown, 26.8; Switzerland, gold and silver standard, franc, 19.3; Tripoli, silver standard, medjidieh, 72 piastres, 45.3; Turkey, gold standard, piaster, 20.4; Venezuela, gold and silver standard, Bolivar, 19.3.

The Consideration of Cost

often prevents thoughtful housekeepers from adopting improvements which they very well know would add to their comfort and save their strength. No such obstacle however, stands in the way of the use of

GOLD DUST

### Chickens as Common Carriers.

A gentleman going to Montgomery county, says the Philadelphia Press, met one of a group of men who were discussing weather signs on the Central market. "I always have a chicken to tell me a weather story," he said, watching the hens and chickens going to roost each night. In order to get the fowls always on their perch they have learned something each night. In wet weather the Portuguese, and Mr. Stevenson, but it appears to be largely of the living person kind.

### Hatching Eggs.

The neighbor who thinks you are a fool for buying eggs of pure breeds will come along next spring and ask you to "exchange eggs" with him. He is smart enough to discourage your attempt to improve, and not smart enough to improve on you after you have done all the work. Why, basis, pure eggs are to hatching what yeast is to bread. Eggs can be had at market prices, but pure bred stock is not generally procured. A mere neighbor as well ask you to exchange a Berkshire pig for a long nosed lumberjack, as ask you to exchange eggs from pure bred fowls for those from heterogenous. When your neighbor asks you to exchange eggs, he really does not want the eggs, for he may have plenty of eggs. What he wants is better stock. Let him pay for his stock, as you did.—Poultry Keeper.

### Housekeeping at Sea.

Mrs. Robert Louis Stevenson says that housekeeping in Samoa has not as yet proved to be an easy matter. Her supplies came from New Zealand or Australia once a month, so that if she wanted a bottle of lemon or a bag of flour, for instance, she had to send half across the Pacific to get it. The native duck was all well enough, for a few weeks, but he is not considered almost solely of fruit and fish it begins to pall on European palates. Housekeeping in the South Sea paradise of romance and other drunkards, particularly in the matter of expense, which was fully six or seven times as great. Mrs. Stevenson says, as living on a corresponding scale in San Francisco. As for scenery, "there is more of it to the square inch in Samoa than in any other place I know," says Mrs. Stevenson, but it appears to be largely of the living person kind.
