called after himself, twenty. The two eldest sons on; consequently the ball closed before the dance are the best educated men, Dr. Cottman says, that he has seen enywhere. The Grand Duke Constantine, who is the High Admiral of the flect, does not appear to take after his father in stature, as he is not more than five feet five inches. He is remarkably energetic, and performs an incre-In appearance he might be mistaken for a Yankee, and in many Richards.—I write to inform you that our brethdible amount of work daily. points of his character there is a great similarity. All the children of the Czarspeak English with as

much fluency as they do their own language.

The Czar has two daughters, both of whom are distinguished for their accomplishments and and baptisms have taken place to the number of surpassing beauty of person. The Grand Duchesse Marie is one of the most beautiful women in Europe, and is exceedingly affable and courteous in her manners. Altogether, the present Roman-off family may be placed among the ablest that has reigned in Europe.

the following letter, in reply to a communication from Mr. George N. Sanders, our Consul to London.

COLONEL GEORGE N. SANDERS-

they had been bomburded by the allied fleets. By the way, speaking of Ulleaborg, the greatest extraction of the present century was there committed. The account in the Dublin Post, from the journal of an officer on board of the Loopard, is as near the truth as any thing you have seen since near the truth as anything you have seen since where the commencement of the war, as there has been systematic perversion and suppression of truth in everything that has been delivered to the public since April last. It is true, as the Leopard's offidefences town of Ulleborg; but he does not tell you what was the fate of the women in that village, where he says 'No resistance was offered, and we landed the marines. I will tell you—they were all violated by the crews of twenty boats, pretending to be civilized and Christains. He tells ou we began the work of destruction on Thursday, and did not leave off until Friday morning, at 10 o'clock,1

After appropriating to themselves the property of the citizens, and violating the persons of their wives and daughters, he continues: It was near costing us our lives, for we got hemmed-in in the river, by the fire. Twice we attempted to burst through it—and twice failed. At the third time, the First Lientenant cried out, 'Pull, pull, for dear life—one more attempt.' For about one huadred yards I had to close my eyes and put my hands to my face; I was scorched and roosted. my heir was singed; we got out fainting and half grilled; we had a narrow escape, and lost one man; it was a dreadful night's work as ever I was at,

ans used sight to see the creatures, and that night was a rulned man. Thus you see Merry Old England, with all her vain glory and boasting, reduced in action to a level with a pagan Turk,

whose cause she espenses.

True there is some reason for jealousy of the French; they have not committed a dishouorable act since they have been in the Baltic. The presdominions. Fishing boats, nets, tar barrels, and deal boards have been burnt, simply because they trust to English profession of respecting private property. The much vaunted capture of prizes, reduced to the comprelionsions of ordinary individuals, consists in a few Finnish smale, laden with salt for curing fish on the coast of Finland, and these are the means employed for revolutionizing Finland. Wherever there is a cannon the allies have sluuk away like a sneaking dog from a tige of Briton's name has fled from the Russian dominions. Fishing boats, nets, tar barrels, and allies have slunk away like a sneaking dog from a sheepfold on the discovery of the shepherd. Wited too near, the fleet contented themselves by gions teleration. street, captu-ed by the floet so much vounted here, before I left for Russia. I think there is an axiom, or a proverb, or something of that kind, which runs, 'A merciful man is murciful to his beast.' England is freuzied with commisseration for the slaves of the United States of America, and The Luthernn Priests here are quite in favor for the slaves of the United States of America, and consequently devotes her whole time to ameliorate the condition of the collier, who rarely see the light of the sun from the first of January to the thirty-first of December. In a moment of few hovels on the mole, and the deal boards in the lumber yard, which were convenient for exercising the Congreve rockets upon.

the two thousand asphyxiant bombs thrown into it. The officers well knew that the aspyxizing this land, principle contanined in the homb would decom- and break pose the explosive principle in the capsule, and prevent the bursting of the shell, and as they were less they concluded to rid the fleet of them by pitching them into the Odessa. Old Admiral Na month to see the great combat, and have been over a disappointed, for the fleet all disappered on Monday. I have found out there is to be month to see the great combat, and have been disappointed, for the fleet all disappered on Monday. I have found out there is to be month to see the great combat, and have been disappointed, for the fleet all disappered on Monday. I have found out there is to be month to see the great combat, and have been over a batterior in the Danish longuage. Our meetings are interesting, and well attended; many strangers present themselves, and are, apparently for the first that I have I paid my money at the gate, got admission, find the principal actor sick—'can't come to the scratch,' and the play 'is given up.'

The finest fleet that ever floated passes by Rima. Revel, Sweaborg, and Cronstudt, and contents itself with a look. The days of Chivalry are gone, and I must be satisfied with cheerful, happy fa-ces and hospitable hearts, in lieu of great battles in Russia, British valor has sked out in gasconade, detraction and defamation of private character and destruction of private property. The ideas of terminuting a war by discord in the imperial household and jealousy between the elder brothers of the imperial family! There never existed a more nuited or harmoulous family. The Grand Duke Alexander is, according to the journals of in the office. the day, dying of hetic fever and night sweats, in reality he would pass freely for a beer drinking, athletic Englishman, and, I might almost say, with an exuberance of health; and, instead of jealousy and distrust, the most cordial sympathy and devotion to each other prevail. Brothers more devoted to each other cannot be found any where in the private walks of life. Michael, the chief of artillery, and Nicholas, of infantry, are both very intelligent, and the devotion to their father and the

ral palaces. He next visits the various departments, or gives audiences; and as this portion of the day's work is ended at six o'clock, he takes the day's work is ended at six o'clock, he takes peror's leadth and spirits have been very good for dinuer, after which he indulges in another ride or manner as the Emperor; but a stated times they have general requions of oil the members of the farmly, which, Dr. Cottam informs us, are the most farmly, which, Dr. Cottam informs us, are the most farmly, which, Dr. Cottam informs us, are the most centralizing social meetings that he has everatten edd.

Nicholas has four sons, the eldest of whom, Alexander, is thirty-four years of uge; the reconded eldest, Constantine, twenty-six; the third, Mi-lel, twenty-two; and the fourth, Nicholas, called slot, hisself, twenty-two; and the cases when the ball opened. But the same the most capture are retrogoted for the day's work is ended at six o'clock, he takes ment chay-land files are retrogoted for the day so work is ended at six o'clock, he takes peror's bleath and spirits have been very good for the day in the day's like this, she replied, and fornerly it was dish the time in the same peror's but at stated times they owned telay-land file water, is the manter of the state wo months, but they boil appeared to a distance of the farmly, which, Dr. Cottam informs us, are the most constant to cultivate it in a tilege crop, but since the two days, that the lifel home. The extent of its sea coast, exclusive of the tents, she replied, and fornerly it was dishibly the cultivate it in a tilege crop, but since the two days, that the lifel home is should the tents, and and rivers the had of title water, in the cultivate it in a tilege crop, but since the dust the cultivate it in a tilege crop, but since

For this reason it is right and proper to us to use suitable exertions to accommulate a sufficient to warrant an infraction of the romote the body wortchedness from society, and to diffuse joy and happiness into the hearts of the sorrowful. For this reason it is right and proper to us to use suitable exertions to accommulate a sufficient to warrant an infraction of their right to govern themselves. We say as regards Canada, because the abortive colonial church bills is good. It is good to use. But when it is sought only as an end and note as a means, the colony to the parent country, and that it is for the tast and proper to us to use suitable exertions to accommulate a sufficient to warrant an infraction of the tenders from society, and to diffuse proper for us to use suitable exertions to accommulate a sufficient to warrant the imperial parliament and that body would be cessaries, conveniences and comforts of life it

what they did not do, gives the following results. The bills passed and approved are:

The regular appropriation bills.

The Kansas and Mebraska bill.

The Kansas and Mebraska bill.

The did not do, gives the following and it follows inevitably that in according to the sendth part of what he had.

Property in such cases, is certainly not good.

Cow. 7 or 8 years old, tires of horns sawed off, branded J You one horn and on one hip.—Any instead of devoting so much time to accumulation.

But not only has parliament established a coeff-30-11.

Ve take the following very pleasing paragrals from the address of C. P. Holcomb, Esq. Justine the Maryland State Society, of which we have before given some notice:

As showing the interest English ladies take in agriculture, I cannot but relate a casual in-
