GIANT POWDER!

Proof of its Superiority for Blasting
Purposes!

GOLDEN CHARIOT MINING COMPANY,

Silver City, Idaho, Oct. 12, 1860.

Messrs. Remond, Nelson & Co.

Agents Giant Powder Co.

San Francisco, Cal.

DEAR SIR—In reply to your late favor I

give you the following result of my working here:

The cost of drilling, which cost under

the single hand system of working and Giant

Powder I have reduced to a cost of \$22 per foot,

and when under the old system but one foot

drilled and driven, my men are easily making

one and a half miles a day.

Under the old system working 5 feet square

cost \$30 per foot, same is now costing me \$12.75

per foot, with the same difference in time as

now shown in the table.

Under the old system, one mine could never

be made to yield exceeding 400 tons per month;

with Giant Powder and single hand drilling, I

can work 1,000 tons per month at a reduced

cost of at least 5% per cent less per ton than

the old system.

In conclusion will state that the neighboring

mines in the Gold and Oro Fino, influenced by

single hand drilling and Giant Powder, to the

utter exclusion of double hand work, large

drills and common blasting powder. In

I refer you to the President and Board of

Trustees, resident in your city.

Yours, respectfully,

JOHN P. CARMAN,

Superintendent G. C. M. Co.
