CURES ALL KINDS OF CATARRH.
—So successful has Dr. Pierce's
Golden Medical Discovery proven,
as a constitutional treatment for
Catarrh, when coupled with the
use of Dr. Sage's Catarrh Remedy,
applied locally by the use of Dr.
Pierce's Special Remedy (the only
one of reaching the upper and
back cavities of the head), that
the proprietor of these medicines has
long offered a standing reward of
\$500 for a case of Catarrh which he
can not cure. The two medicines,
with instrument, for \$2 by drug-
gists.

A SPECTACLE OF THOUSANDS.
Cortland, Ill., April 28, 1873.
Dr. Pierce, Buffalo, N. Y.:

Dear Sir—It is with pleasure I
make this statement to you that
after taking medicine for twenty
years for the Catarrh, I have
been cured by the use of Dr. Sage's
Catarrh Remedy and effected a
cure, so that it has not troubled me
for two years. S. WHEELER,
ST. ALBANS, N. Y.

People should beware of those
impostors who copy Dr. Pierce's
original style of advertising, by
offering various rewards for
cases of Catarrh and other diseases
which they can not cure. Those
who do not possess sufficient in-
telligence to write an original adver-
tisement are not likely to be
made great and valuable discover-
ies in Medicine.

Messages in the W. U. Office for

Kennedy.

The Sixth Quorum of Seventies
will meet at the residence of Elder
John B. Kelly, 7th Ward, Sunday
evening, 18th inst., at 6 o'clock p. m.
General attendance is requested.

Horticultural.—The Horticultur-
al Society meet to-morrow evening
at 7 o'clock at Mrs. Colebrook's
building up stairs. All that are in-
terested are invited to attend.

Improving.—We hear that the
little son of Mr. W. T. Ayland, of
the 11th Ward, who has been af-
fected with small-pox, is going
along gratifyingly, all danger being
considered passed, and he is recov-
ering rapidly.

Six of Them.—Now there are six
bills in Congress to aid Utah—Fre-
linghuysen's, Logan's, Wilson's,
McCoe's and these two by Sargent.
Who comes next?

Half a Loaf.—The Pledge Record
of January 5 is down to a half sheet,
but the hope is expressed that such
short news ration will not be a
necessity for more than a day or
two.

Police Court.—Two men were
brought before Justice Clinton, to-
day, for selling liquor without li-
cence. But on paying their licence,
they were discharged.

Evidence of Dull Times.—Several
saloons have suspended or about to
suspend; their credit having "give
out" with their stock of liquors.
This is considered by some people
as a sign of dull times; but if this
were the only evidence, it might
be regarded as a benefit rather than
otherwise, to the community.

Police Court.—There were six
drunks to-day in Jeter Clinton's
court, two paid the fine in cash,
the balance will work on the street,
under the direction of the super-
visor, for the amount assessed
against them.

Two dishwashers, named respec-
tively Charles Silver and John
Brown, are to be tried this after-
noon for trying to steal a hat
at Phelps' store last Saturday
night.

A soldier got on a spree last Sat-
urday night, and probably having for-
gotten that he had had no supper,
appropriated two ducks and some
herrings at a provision dealer's
store, without leave and without
paying, consequently he was
brought before the magistrate, and
Judge Clinton gave him a gentle
rebuke and assessed a small fine
against him.

Woman Suffrage.—Senator Sar-
gent has presented a petition in
the Senate from the Women's suf-
frage Association of California, ask-
ing for the adoption of an amend-
ment to the Constitution of the
United States, declaring that the
right to hold office shall not be
denied on account of sex, and that
the laws of the District of Columbia
and the Territories be so amended
that women shall have the right to
vote and hold office, and exercise
all rights under the laws as now
exercised by men.

Of course the petition will be re-
jected, wholly through an obstinate
refusal to consider the merits of
which kept the colored people so
long in bondage. But the man
does not live in the Senate, or else-
where, who can make a rational and
conclusive argument showing that
a female citizen may be rightfully
deprived of her voice in the Gov-
ernment of the Republic. If any
body in this quarter thinks he can
do this, let him propose to do so,
and let him print his argument, and
analyze it, as well as we can—

SALT LAKE CITY,
January 10th, 1874.
Editor Deseret News.

Noticing a query in a late issue of
the NEWS, asking the reason why
the codling moth had made such
havoc amongst the fruit in the city
while the orchards in the country
had, to a great extent, escaped in-
jury, I would like to say a few
words on the subject in defense of
a most useful insect.

The introduction of the codling
moth has been attributed to the
honey bee. There is not a single
insect in question of having useful-
ness to man, yet it is often accused,
by those ignorant of its nature, of
doing a great deal of mischief.

To one acquainted with the
bee, the idea of its harboring an in-
sect of any kind, especially the
codling moth, appears most prepos-
terous, as the one is a deadly enemy
to the other. It is barely possible,
but far from probable, that the
germ of the moth might have
found shelter in the cracks and crev-
ices of the beehive before they were
imported here.

It is well known that the moth
delights in such shelters as are af-
forded by the forest around the or-
chard, and in old lumber and trees,
partially decayed, and to the mind
of your correspondent it seems
most probable that the moth
has been imported in large quanti-
ties of lumber brought here in the
early part of Summer.

Again, considerable fruit has been
imported to this place from the
West, and it is highly probable that
some of it was infested.

This fruit has been consumed in
the city, by hotels, restaurants,
etc., and the refuse portions, con-
taining the moth eggs, have been
thrown out in the yard, instead of
being completely destroyed, and in
a few days the eggs hatched, and
in turn attack the nearest
fruit. Most of the lumber, too,
has been used in buildings in the
central part of town. Hence the
moth hatched from germs contain-
ed in it have not reached the out-
skirts in great numbers.

This would seem a plausible theo-
ry for their appearance here, at
least much more so than accusing
the bee of harboring them.

LEGISLATURE.—The members of
the Legislature were moving
about town this morning in num-
bers. They did not meet until
two o'clock this afternoon, but for
about an hour previous they were
seen about the Council Chamber
and Hall of Representatives, select-
ing their seats, and inspecting
the bills printed at the News Office.

George A. Black, had caused
to be placed upon the desks
for each member. It is presumed
that nothing will be done to-day,
except to organize, and that to-
morrow the Governor, Hon. George
L. Woods, will meet with the Leg-
islative Assembly and deliver his
message. This Legislature will
probably find much work to per-
form, owing to the changes in the
development of the Territory since
the last session, of which the mem-
bers are all aware, and therefore
must discharge their duties faith-
fully, in accordance with the wishes
and interests of the citizens of the
Territory at large.

Theatre.—On Saturday evening
"Kathleen Mavourneen" was per-
formed to a moderately large house.
It is one of the most beautiful
dramas in the language, the villi-
nary is a dream, and vanity and
ambition have a salutary lesson,
pathos and comedy and fun and
frolic are not wanting, nobody is
hurt, and all ends well at last.

Mr. Herne, though suffering from
a severe cold and great hoarseness,
played through in his usual quiet
and effective manner. Miss New-
ton played very well, in one or two
of the more serious scenes being
considerably in the estimation of
the audience. In lighter scenes
generally she manifested a slight ten-
dency towards over acting. The
other characters were respectively
sustained, though there was not a
great deal for them to do.

This evening "Kathleen Mau-
vorneen" will be repeated, fol-
lowed by "Hornet Shingle," in
which Mr. Herne will appear in
the title-role, Mr. Sewell as "Rob-
ert Howard," Mr. Thomas as "Hugh
Winslow," Messrs. Archer, For-
ster, Wilton and Rea, Misses Nap-
per and Davis and others will also
appear in various roles. This is an
excellent programme, and can
hardly fail of securing a good
house.

The Large Clock.—The large
clock on the Eagle Emporium cor-
ner is undergoing repairs. New
dials will be put in, and then peo-
ple can learn the time of day with-
out consulting their own time
pieces.

Legislature.—Nearly all the
members of the Legislature took
their seats in the Council
Chamber and Hall of Representa-
tives, in the City Hall this
afternoon at 2 o'clock. The fol-
lowing organization was effected—

COUNCIL.—President, Lorenzo
Snow; Chief Clerk, L. J. Nuttall;
Assistant Clerk, Patrick Lynch;
Enrolling Clerk, James Ferguson;
Engrossing Clerk, R. E. Wells; Ser-
geant-at-arms, J. D. T. McAllister;
Doorkeeper, Wm. Bell; Messenger,
D. K. Woodruff; Watchman, A. E.
Hinkley.

HOUSE.—Speaker, Orson Pratt;
Chief Clerk, Robert L. Campbell;
Assistant Clerk, R. J. Taylor; En-
rolling Clerk, J. M. Campbell; En-
grossing Clerk, E. W. East; Sergeant-
at-Arms, M. Pratt; Doorkeeper, S.
H. B. Smith; Messenger, A. C.
Young; Watchman, John Smith.

NEW YORK, 12.—Z. E. Pandorf,
editor of the Jersey City Evening
Journal, was knocked down and
badly injured with a club in his
mouth by a man named John
Daily, an internationalist, whom
Pandorf ordered out of his house
last week; two men who attempt-
ed to protect Pandorf were stab-
bed and arrested. He was occu-
sionally a number of men to join in
a parade of the so-called unemployed
in this city to-morrow.

Dr. T. E. Brown, of this city, has
been appointed surgeon of the Salt
Lake division of the Central Pacific
road.

A very useful and life preserving
invention has been made by an em-
ployee of the Union Pacific Com-
pany. It is a device for pulling a
car, and is a self-coupler and simple in
construction. It can be coupled with
the ordinary link and pin when
used on the road, and is equally
useful for pulling a car over in either
direction. It will uncouple itself
when the cars are pulled apart, and
one of the cars run over in either
direction it will uncouple itself.
This invention is a great benefit to
the road, as it is not obliged to go
between the cars and run the risk
of being crushed to death. It will
soon be practically tested, and will
be introduced on all the roads of the
country.

Provo Times, Jan. 9—
In the District Court in the case
of the People vs. Thomas Brown,
charged with the murder of an In-
dian, the jury returned a verdict of
guilty. The clerk read a bill of
indictment to which the prisoner
pleaded not guilty. The Court
then ordered the jury to go into the
custody of the sheriff until bonds
were given to the amount of one thou-
sand dollars, with two good and
sufficient sureties, to appear at the
next term of Court.

In the case of the People vs.
Epoch Davis and Thomas Davis,
charged with larceny, the clerk read
bill of indictment, to which the
prisoners pleaded not guilty. The
Court then ordered the jury to go
into the custody of the sheriff until
bonds were given to the amount of
one thousand dollars, with two good
and sufficient sureties, to appear at
the next term of Court.

The court then adjourned until
Monday the 14th day of February,
at 10 o'clock a. m.

Mr. John Green, a very enter-
prising and energetic man, has been

making and burning bricks, his
first and second attempts were rat-
her failures, but still persevering
he has now been successful with
success, and he has made and burn-
ed a small kiln of bricks, equal to
any in the Territory and of a good
quality. They are well made and
highly recommended by the
citizens. Mr. Green proposes mak-
ing this his business and will il-
lustrate his success and keep a supply
constantly on hand.

I HAVE in my possession
A dark red cow, about eight years old,
under half crop and all in left ear,
branded W. on left ear, and taken away
