

WEEK'S GOLD DUST RECEIPTS

Consignments Weighing About
1,300 Pounds Were Received.

BIG EXTRA DIVIDEND PAID.

Dividend of the Silver King Paying
\$75,000 a Month—An Old Story
of the Cariboo District.

The week's receipts at the Consolidated Kansas City Smelter and Refinery company foot up to something over 1,300 pounds of gold dust. The Mercur contributed 900 pounds of gold dust of average richness, while the Star of Pine Canyon, Bingham, reported with a 25 pound batch of its rich cyanide product. The breaking of a crusher has retarded the mill operations somewhat but things are moving serenely once more, it is stated. The Luck Boy near Custer, Idaho, also sent in a consignment, which tipped the beam at 150 pounds and 250 pounds was forwarded on Thursday by the Daisy of West Dip, which is reported to be looking well.

SILVER KING DIVIDEND.

Extra of \$50,000 Paid Today—Dividend of an Increase.

The extra dividend of \$50,000 declared a few days ago by the Silver King of Park City was paid today. This brings the total paid this month by the company to \$100,000. The total amount paid in dividends during the year amounts to \$550,000. Large as is this amount, it is rumored that the advisability of raising it to \$600,000 next year has been under consideration. The payment of so large a sum means an additional monthly distribution of \$25,000, which those informed say the mine is able to pay now that it has seemingly barred litigation forever by the purchase of large tracts of adjoining ground.

JERSEY BLUE OPERATIONS.

Breast of Ore Covered with Copper and Iron Pyrites.

A force of six men is now employed on Jersey Blue ground and the result of late work is highly satisfactory. Little Cottonwood tunnel at 500 feet shows breast covered with copper and iron pyrites and promises to soon be in a solid ore body. Superintendent J. C. Dugan, who came down to camp Wednesday, is more convinced than ever that the Jersey Blue will develop into a great mine. It is on a big ledge, and the locality is famed for its mineralization.—Bingham Bulletin.

A BIG INCREASE.

State Inspector's Report on Black Hills Gold Production.

A dispatch from Lead, S. D., says: The State Inspector of mines has completed his report. It shows the output of gold in the Black Hills for the year to be \$9,131,436. This is an increase of \$2,000,000 over the output of last year.

TWO NEW TRANSFORMERS.

Virtually Doubles the Power Capacity of the Mill.

The two new transformers at the transformer house of the Golden Gate mill were put in operation last week. This virtually doubles the power capacity of the mill. The two old transformers had a normal capacity of 510 horse power although they were often worked up to 1,000 horse power. A number of new motors were put in on the line and mill demanding the delivery of a still greater horse power. The two new transformers were put in to convey this additional power and brings the normal capacity up to over 1,000 horse power, which is more than will be likely to be used for some time to come.

AN OLD STORY RETOLD.

Robert Stevenson Tells of Early Days in British Columbia.

The story of Cariboo and its wonderful riches recalls the name of Cariboo Cameron, whose name is associated with a fairy-like story of wealth and woe. Intimately associated with him was Robert Stevenson, who passed through the excitement and hardships of those stirring times and has lived to tell quite recently of the rich mine that was found and lost for several years, but has now been rediscovered. Many versions of this fabulous find have been told, but the following is assumed to be correct, being given the Spokenman Review by Mr. Stevenson himself:

"In the fall of '61, McLean, a Hudson's Bay factor, overtook Cameron and me at Bonaparte river, and showed us a piece of quartz encrusted with free gold. The specimen was the richest I ever saw. My partner and I offered the officer \$10,000 if he would conduct us to the locality whence it came. McLean, who was killed in the Chillicothe Indian war in the following year, declined our offer, contenting himself with giving us general directions. For one reason or another I postponed the search for the El Dorado until 14 years had elapsed. I then started out with two Indians, and after a few weeks of continuous searching discovered what was the mother lode. The find consisted of a six-foot free milling quartz ledge. The mill free was traced over a high mountain peak for nearly 600 feet. I staked the claim and recorded it. The locality, roughly speaking, is about 50 or 55 miles east of the coast, and about 40 miles north of the boundary, in the heart of the Hope mountains. I brought out samples of the rock, and seven assays gave values ranging from \$19,000 down to \$3,750 in gold per ton. These assays can be verified at the government assay office in Victoria. I revisited the locality, but was unable to find my claim despite a most diligent search. Great was my disappointment, but I resolved on a second search the following year with the same success. This may seem strange, but it must be recollected that the district is covered with dense timber, and there is great uniformity about the mountains. This fall I made a third hunt for the claim, and after a month of ceaseless tramping over the summits rediscovered the ledge. I intend to work the property in the spring. There is no doubt about its richness, and I feel that I have another fortune within my grasp."

Mr. Stevenson exhibits some quartz that is literally bespattered with gold.

At the Bro Butler.
The drift started from Ben Butler lower tunnel at 475 feet from the mouth is now in 110 feet and will be pushed on to the high grade ore disclosed in upper workings. At present this drift is showing 4 feet 3 inches of milling ore similar to Montezuma product intersected by rich streaks. On the upper and lower dumps are nearly 200 tons of milling ore awaiting facilities for transportation.—Bingham Bulletin.

MINING NOTES.

The Mammoth marketed ten cars of ore today.

Two cars of Sunbeam ore were marketed today.

Seven cars of Day-West ore were on the market today.

Saved My Life.

Mr. P. W. Hebebrand, Pres. Ohio Pipe Covering Co., Cleveland, Ohio, says: "I am satisfied Dr. Miles' Nervine saved my life. I was a nervous wreck and unable to attend to my business. Doctors failed to benefit me and I decided to try Dr. Miles' Nervine. It gave me prompt relief and finally effected a complete cure. I am in good health now and have gained several pounds in flesh."

Dr. Miles' Nervine

is sold by all druggists on guarantee, first bottle benefits or money back. Book on heart and nerves sent free.

Dr. Miles Medical Company, Elkhart, Ind.

A car of Red Wing concentrates is expected today.

The Taylor Brunton sampler reported eleven cars of ore from Tintic today.

The Conklin sampler reported seven cars of ore from Park City, and twelve cars from Tintic today.

George St. Clair is back from Ophir and reports the camp in a very prosperous condition.

Manager Henry McCormick of the Lucky Boy mine at Custer, Idaho, is in the city for the holidays.

Some ore is reported to have been recently encountered in the south drift on the 230-foot level of the Alaska at Silver City.

D. C. Jackling has severed his connection with the Golden Gate mill and is a token of esteem the employees presented him with a handsome gold stop watch.

The copper production for 1899 will, it is estimated, show an increase of 10 per cent as compared with 1898. The increase comes largely from Arizona and Montana.

Mr. E. W. Young, one of the leading operators on the Colorado Springs Mining Stock Exchange, is in the city and will begin operations on the Salt Lake board next week.

It is stated that the purchase of the Morning Star group at Bingham has been consummated by Wm. J. S. Kennedy of Boston, who recently secured an option on the group for \$250,000.

Judge Clancy in the district court has dissolved the temporary restraining order issued in the suit of Burdette O'Connor against the Anaconda company, to prevent the company working certain portions of the 'Copper Trust' claim, which is alleged to overlap parts of the St. Lawrence and Anaconda claims. The judge finds that the restraining order would compel a cessation of work on parts of the St. Lawrence and Anaconda claims, that to continue work will not irreparably injure the claims of plaintiff, and there appears no good reason for stopping the operations of the mines named.

WALL STREET THIS WEEK.

New York, Dec. 23.—Wall street weekly review: Wall street has gone through a week of drastic liquidation, forced by the stringency of money and the spirit of distrust abroad by reason of the heavy declines in prices. Although the panic was checked on Monday by the joint action of the clearing house banks in contributing \$10,000,000 to be loaned on the exchange, the torrent of liquidation has gone on week practically without cessation. Prices declined below the low prices in Monday's slump, and the week's net losses are in many stocks greater than the extreme declines in Monday's wild session. The latest liquidation has proceeded in an orderly manner, free from panic, but at constantly increasing sacrifice in the prices realized. Pressure from London and from other domestic centers, notably Boston, has added to the burdens of the New York stock market during the week. All classes of securities have been acutely affected, but the industrial stocks the most so.

UTAH LITHOGRAPHING CO.

Growth of the Only Concern of the Kind in Utah.

A little over four years ago The Utah Lithographing Company started in a very humble manner. After two years they absorbed the enormous establishment of the Salt Lake Lithographing Company. This in connection with their own plant makes it one of the largest in the intermountain country, being larger than any one in Omaha, Kansas City or Denver. This institution gives employment to a large number of people. They do not confine themselves alone to Lithographing, but also do Printing and Binding on a very large scale. Their press room consists of seven Cylinder presses and three Gordons. Their Bindery is by far the largest in the State. The Church Bonds as well as the stationery used by almost all prominent business houses in the State are specimens of the excellent work done by them. The front page of the "News" is a sample of their handy work.

To their already extensive business they have added a complete Novelty Calendar and Art Advertising Department in charge of the well known Jas. H. Crockett, who also represents them on the road. Much credit is due the Manager, Gustave J. Barthel, while Thomas K. Stevens, the secretary, is ever present giving courteous attention to all.

A Carload of Pianos

Just received at the Young Bros. Co., an elegant present for the holidays. Call in and see the Pianos, Organs, Music Boxes, Instruments and supplies of all kinds, sheet music, etc., etc.

Christmas goods in great variety at Koltz Holiday Bazar.

The Young Bros. Co.

have an elegant line of Music Boxes in prices, would make a fine Xmas present.

Novelty Candy Boxes at Koltz.

Candies, nuts and toys at Koltz.

Bring the children to see the beautiful toys at Koltz Bazar.

CUBA INVADDED BY BASEBALL.

All American Club Leaves for Havana in a Few Days.

TEAM COMPOSED OF TALENT

Two of the Cincinnati Reds Booked to Go on the Expedition, Beckley and Steinfield.

A special to the Chicago Chronicle from New Orleans says:

Cuba is to be invaded by a baseball team from this country. An aggregation to be known as the All American Baseball club will leave this city for Havana soon for a stay of two months. With the exception of one person, Beecher, a local man, who is slated to play shortstop, the club will be made up of talent from the National and minor leagues.

Two of the Cincinnati Reds are booked to go on the expedition, Beckley and Steinfield. The others are Childs, Philadelphia, McAllister of Cleveland, Dan Pheasant, Jimmy Delaney and Nance of New Orleans, and Johnny Goding, a local boy, who caught for the Reading, Pa. club last year.

The All-Americans will be under the direction of Abner Powell, manager of the local Southern League club.

FORBES IS DEFEATED.

Terry McGovern Whipped Him in Two Rounds.

A New York dispatch says: Terry McGovern of this city defeated Harry Forbes of Chicago in the second round before the Broadway Athletic club last night. The men met for a twenty-five-round bout at 115 pounds, Marquis of Queensbury rules, but McGovern outclassed his opponent.

ANOTHER DRAW.

A Six Round Mill Between Joe Gans and Kid McPartland.

A Chicago dispatch of yesterday says Joe Gans of Baltimore and Kid McPartland of New York fought a six-round draw at the Fort Dearborn Athletic club tonight. Both men were fast, but very little damage was done.

CONTEST A DRAW.

Jack Steiner and Ed Dunkhorst Mix it for Twenty Rounds.

A dispatch from Hot Springs, Ark., yesterday says: Jack Steiner of St. Louis, and Ed Dunkhorst, of Syracuse, fought a twenty-round draw here in the arena of the Hot Springs Athletic club. Dunkhorst had the advantage of forty pounds. Steiner was clever, but entirely too light for his opponent, although the latter seemed unable to knock him out. Steiner was severely punished. Tom Sharkey was at the ring side.

PERSONAL.

Max H. Fisher of the New York Staats Zeitung is here.

W. W. McLaughlin and wife of Silver City, are registered at the Cullen.

Joe Bamberger and Oscar Jonasson came home last night from California.

S. A. Loud, of Butte, Mont., speaks well of the eastern part of that State as a cattle range.

H. J. Wilson and F. K. Wilson of Butte are at the Knutsford hotel. They are proprietors of the Butte house.

Harry King, of Calumet, Mich., is a musician who entertained guests of the Knutsford last night by the rendition of some euphonium solos.

J. O. Barlow, Pocatello; Mrs. J. Sternberger, San Francisco; and M. F. Savoy of Eureka, registered this morning at the Walker House.

Mr. and Mrs. E. W. Young, late of Colorado Springs, may now be counted among Salt Lake's citizens. Mr. Young proposes to enter business here and is

KIDNEY DISEASE KILLS.

Its Victims Are Numbered by the Hundreds of Thousands.

If you are suffering from Kidney or Bladder disease, the doctor asks: "Do you desire to urinate often, and are you compelled to get up frequently during the night? Does your back pain you? Does your urine stain linen? Is there a scalding pain in passing it, and is it difficult to hold the urine back? If so, your Kidneys or Bladder are diseased."

Try putting some of your urine in a glass tumbler, let it stand twenty-four hours. If there is a sediment, or a cloudy milky appearance, your Kidneys are sick.

Dr. David Kennedy's Favorite Remedy will surely relieve and cure even the most distressing cases of these dread diseases, and no physician can prescribe a medicine that equals it for diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia, and Chronic Constipation. It will promptly correct the bad effect of beer and whiskey. All drug stores sell it for one dollar a bottle.

By sending your address to the Dr. David Kennedy's Corporation, Rondout, N. Y., and mentioning this paper, a trial bottle, together with pamphlet of valuable medical advice, will be sent you free; postpaid by mail. Our readers can depend upon the genuineness of this offer.

The following are guests at the Knutsford: R. J. Park and wife, San Francisco; W. C. Pang, Milwaukee; J. E. Edwards, Hay Creek, Oregon; P. J. Onah, Kemmerer; D. B. Giluk, Robinson.

The Kenyon registered the following guests this morning: M. C. Jones, Omaha; V. H. McThesany, Omaha; M. A. Thomson, San Francisco; J. H. Greene, Houston, Texas; L. Watt, Mercur; E. P. Harty, Logan; J. W. Merrill and wife, Eureka.

Among this morning's arrivals in Salt Lake the following registered at the White House: Alex. Moze, Stockton; Frank Carson, Grovent; O. H. Dale and John Rusha, St. Paul, Minn.; C. L. Hawkins, Jr., Albion, Idaho; T. A. Ashmore, Albion, Idaho; J. B. Charles, Beaver; Miss Fallett, Eureka; W. B. DeFogall, Springfield; Mrs. W. W. Miles and S. J. Schlemmer and wife, Eureka.

A BIG ENTERPRISE.

Something Concerning the Growth of the Royal Bakery.

While we are speaking of Metropolitan Enterprises, it is just as well to mention a place in this city, that a casual observer would, perhaps, pass by without full consideration of the business transacted there.

Occupying but an ordinary space fronting on Main street, it has an extent of buildings running west half way in heart of the block on which it is situated, and the class of work and the large amount accomplished there daily, speaks not only for itself but for the endorsement of the goods turned out by this establishment.

THE ROYAL BAKERY.

There is manufactured daily the most perfect Bread and Rolls to be found in this Western Country.

The Bakery, together with the lunch department, brings it to the front as one of the leading places of that class of business in this city.

REFRESHING SLEEP.

Horsford's Acid Phosphate
