

STATE FUNDS GO TO STATE BANKS.

Idaho's Board of Deposits Decides To Place \$165,000 at Two and One-Half Per Cent.

WILL EARN \$4,125 PER ANNUM

Forty Bills Become Effective May 4— Busy Gathering Statistics—New Wagon Road.

Special Correspondence.

Boise, Idaho, May 1.—There was a meeting of the state board of deposits on Saturday, when it was decided that \$165,000 now in the state treasurer's hands belonging to the state, should be divided among the applying banks of the state. The rate of interest was fixed at two and a half per cent. On examination it was found that there were 22 banks who were offering to pay as high a rate of interest as this on daily balances, and it was decided that the state funds should be deposited in these banks, at this rate. Following are the names of the banks, and the amounts apportioned to each: Anderson Brothers, Idaho Falls, \$10,000; Bank of Camas Prairie, Grangeville, \$5,000; Caldwell Banking & Trust company, \$10,000; Commercial Bank of St. Anthony, \$10,000; First National of Lewiston, \$10,000; First National of Coeur d'Alene, \$5,000; First National of Emmet, \$5,000; First National of Grangeville, \$5,000; First National of Nez Perce, \$5,000; Genesee Exchange bank, \$5,000; Idaho Trust company, Lewiston, \$5,000; Lewiston National bank, \$5,000; Mackay State bank, \$10,000; Parma State bank, \$5,000; Rockwell & Co., Halley, \$5,000; Bannock National of Pocatello, \$10,000; State Bank of Commerce, Wallace, \$10,000; First National, Blackfoot, \$10,000; Farmers State of Nez Perce, \$5,000; Grangeville Savings & Trust company, \$5,000; First National, Rexburg, \$10,000; First National, St. Anthony, \$10,000. This makes a total of \$165,000. If the state has an average amount as large as this on deposit throughout the year, the earnings of the state's money on such account will hereafter average \$125 per annum, sufficient to pay the salary of the state treasurer. The state depository law was one of the things upon which Gov. Gooding most strongly dwelt throughout the campaign, and upon which he vigorously insisted in his message to the legislature.

NEW LAWS EFFECTIVE.

Forty of the bills passed by the last legislature become effective next Thursday, May 4. These are the bills passed on the last days of the legislative session, and to which no emergency clause was attached. Many of these laws are of much importance. Among the most important of these are the anti-polygamy and adultery bills, and the bills for the care and punishment of delinquent children, or juvenile offenders. Another of the important measures effective at that time is the bill providing for the location and erection of an insane asylum in some one of the northern counties. Under this law Gov. Gooding, in company with two commissioners, is to locate this asylum. The commission will be named in its entirety some time this week. It is expected that the governor and the members of this commission will start for north Idaho about next Monday, and will make a visit to every site offered. The commission will probably be gone at least 10 days.

GATHERING STATISTICS.

Reports received from Col. Allen Miller, the state immigration commissioner, who has been in the northern portion of the state during the past month, are very satisfactory. Col. Miller has succeeded in gathering a great deal in the way of valuable statistics. Besides this he has organized each of the northern counties for the purpose of publishing and circulating at the Portland fair of advertising matter relative to their sections of the country. He is now in Kootenai county, where he will probably be until the end of the week. Col. Miller has completed arrangements with Nez Perce, Latah and Idaho counties, for the publication of a descriptive pamphlet of these three counties, the expense to be borne by these counties, and the circulation of the books to be under the control of the immigration commission. He is also attempting the gathering of labor statistics. These will include wages of labor, wages paid, hours of labor, average day's employment, and conditions of life under which the laborer struggles. These it is felt are matters that have been neglected longer than they should have been. The state prison commissioners have decided to complete the north wing of the new prison building, work on which has been practically stopped during the past two years. The walls of this wing will be completed of cut sandstone, and from that will be put on. It has also been decided that the main tiers of cells will be of stone, with fronts and doors of heavy steel. There will be about 50 cells put in, the work being all done by

NEW WAGON ROAD.

Meers, M. E. Lewis and Joseph Wheeler of the wagon road commission returned on Friday from a 10 days' trip over the proposed wagon road from Boise to Atlanta. The proposed road, which is 41 miles long, starts from the present wagon road on the east fork of the Boise river, and runs to Atlanta. At present there is a horseback trail along the river, this trail in many places marking the site for the proposed wagon road. The road commission in about 10 days expects to make a trip over the proposed road from Kootenai to Springs in Idaho county, also from Grangeville to a junction with the road to Newsum and Elk City, but cutting out the necessity of crossing Bald summit, and also over the Big Creek road from Warren to Big Creek mining district. This task will take the commission at least two weeks of steady work.

MAY DAY GENERALLY QUIET THROUGHOUT RUSSIA

St. Petersburg, May 2. 2 a. m.—Aside from the expected May day disorders in Poland, where revolutionary parades led to sanguinary encounters with the police and troops in Warsaw, Lodz and other industrial centers, perfect order prevailed yesterday throughout Russia. There was no sign even of a desire to stir up trouble, indicating the baseness of rumors that had been current for some time of plans of rioting and pillage on the second day of the Easter holidays.

Associated Press correspondents at Moscow, Odessa, Kiev, Minsk, Kishineff and other points state that Russians of all political faiths devoted themselves to the customary holiday festivities with apparently no thought of disorder, and in St. Petersburg, even the industrial quarter, which had previously been throbbing with discontent, for the day took on the appearance of merrymaking and feasting.

BATTLE OF THE YALU.

Anniversary of It Celebrated by Gen. Kuroki's Army.

Headquarters Gen. Kuroki's Army via Pusan, May 1.—The anniversary of the battle at Yalu was celebrated by Gen. Kuroki's army today with spectacular fetes. Soldiers representing all military organizations managed the work with remarkable effect. The valley in which the headquarters is encamped was transformed into a park by utilizing streams, grass plots and hill sides for the reproduction of Japanese scenery. An altar with a tablet in memory of the army's dead was erected on the summit of a hill. The approach to the altar was a wide avenue through a grove of trees studded with artificial cherry blossoms and crossed by triumphal arches. Other features of the decorations were an equestrian statue, representing Gen. Kuroki and a reproduction of the Yalu battlefield. Shinto Buddhist services in memory of the dead soldiers were held at the altar with troops massed at the foot of the hill.

Race tracks, theaters and a profusion of unique decorations were laid out on the plain. Several hundred officers lunched at tables spread under the trees and amusements which followed included a procession representing the Samurai warriors, horse racing, theatricals and wrestling completed the day's program.

First Wireless on Coast.

San Francisco, Cal., May 2.—The first wireless telegraphic message from a coast port has been received here. The message was sent by Rear Admiral Goodrich on board the flagship Monterey, now at Monterey, to the Mare Island navy yard, asking if the Bennington had arrived here. The Bennington Island and Yerba Buena Island stations both caught the message and forwarded it to Mare Island, which replied to it that the Bennington had arrived on Sunday last.

Commodore Stockwell Dead.

New York, May 2.—Alden B. Stockwell, once one of the leading financiers of the country, is dead at his home here. He was 72 years old. "Commodore" Stockwell, as he was known, first came into prominence in 1871, when he became president of the Pacific Mail Steamship company. In 1872 he obtained a subsidy for the company which was followed by a congressional investigation. In 1873 while he was president of three sewing machine companies, two railroads and the Pacific Mail company, Stockwell attempted to "bull" the stock of the latter and became financially involved. He finally went into bankruptcy and disappeared from the financial arena. Stockwell was the son of a liveryman in Cleveland, O. He began his career as a purser on a Lake Erie steamboat, and while thus employed met and married a daughter of Elias Howe, the inventor. His wife inherited a fortune of \$2,000,000 on the death of her father, and the purser then became a financier. In his celebrated Pacific Mail operation, the stock was carried up from 40 to 160. When the crash came it fell back to the low point in two days.

THREE CROOKS CAUGHT.

All Bad, One Having an International Reputation.

Portland, Or., May 1.—Three crooks, one of whom at least has an international reputation, were captured today after having robbed the till of the cashier in the Hotel Portland of \$135. Two of the fellows were caught by

Nightwatchman Nicholson of the hotel on the fourth floor of the hotel after a lively chase the third was captured today to the Almsworth National bank. At the fall the men gave their names as G. H. Hanlon, J. S. Stafford and William Kane. The hotel recovered all the money stolen.

Kane's true name is said by the police to be William Barrett, and he is alleged by them to be a notorious bank robber and pickpocket. Chiefs of police of various large cities were immediately informed of his capture, and late today requests that he be held were received from Milwaukee, Wis., the message stating he is wanted for bank robbery, and from Baltimore, Md., the chief of police of that city saying he wanted him for assault and robbery.

William Barrett has a long criminal record, his principal crime having been the robbery of a bank messenger in Paris, France, of 400,000 francs, for which he served a long term in prison. J. S. Stafford the police claim to be a criminal known as "Fritzie" Blue, "Fritzie" Blue, according to the police, is a celebrated crook, who has served terms in various prisons for diamond stealing, bank robbery and for picking pockets.

The third of the trio, G. H. Hanlon, has not yet been identified by the police, but they say they believe he, too, is well known.

Hanlon and Stafford when caught were clad in full evening dress and wore considerable jewelry. Kane was finely but inconspicuously dressed in the height of fashion. When he was searched a magnificent set of tools for use in picking pockets was found on him.

Capt. of Police Moore, when shown an Associated Press dispatch from Milwaukee, stating that inquiry had been made of that city for the apprehension of William Barrett, responded by showing the following message on a Western Union form:

"Milwaukee, Wis., May 1, 1905.—Charles H. Hunt, chief of police, Portland, Or.—Hold William Barrett until sent officer at once.—J. T. Janssen, chief of police."

Arrested for Embezzlement.

Los Angeles, May 1.—Mars R. Davis, an employee of the Merchants' Trust company of this city, was arrested today by police detectives, assisted by the local police, on a charge of having embezzled a considerable sum of money from a bank at Davisboro, Ga., of which institution he was cashier. A reward of \$1,000 was offered by the Davisboro bank for the apprehension of Davis. The chief of police of the Georgia city has been notified and Davis will be held pending the arrival of an officer to take charge of him. Davis was working as a bookkeeper for the Merchants' Trust company under the name of J. M. Morley. When called into the office of the president of the company and placed under arrest, Davis admitted that he knew the authorities were looking for him, but stated that the charge against him was not embezzlement, but that he was wanted for receiving money from depositors after the bank for which he was cashier had been declared insolvent.

It is said that he appeared to be well supplied with funds, and frequently cashed drafts on banks in Georgia, although he drew but a small salary from his employers here. Davis is locked up in the city jail.

KILLED HER EMPLOYER.

Julia Craver Shoots Franklin Havens in Albany, N. Y.

Albany, N. Y., May 1.—Franklin Havens, secretary of the Albany board of fire insurance underwriters, was shot by Miss Julia Craver, a clerk in his employ today in his office and died soon afterward. Miss Craver, who is under arrest, asserts that the shooting was accidental. She says that she pointed the revolver which was the property of the Havens office for a long time, at him in a spirit of fun as he was entering the room. He had told her, she asserts, that the weapon was not loaded, and she declares that she pulled the trigger three times before the weapon exploded. An examination of the pistol confirms this statement. Mr. Havens was 35 years old, comes of a well known family, was married and the father of two children. Miss Craver, who is 22, is also well connected.

FRANCE'S NEUTRALITY.

Japanese Press Has Renewed Agitation Over It.

Paris, May 1.—The renewed agitation in the Japanese press relative to France's alleged non-observance of neutrality attracts attention here, but the foreign office says no further official consideration of the subject has occurred, and France has given ample assurances that she intends to observe neutrality and these are being fully carried out. Consequently, the government view is that the question is closed so far as France is concerned, as she has done everything within her power to secure the observance of neutrality. This doubtless will be the response if Japan makes further representations, which, however, has not been indicated by any action on the part of Dr. Motono, the Japanese minister.

Japanese From Hawaii.

Seattle, May 1.—The 400 Japanese laborers brought to this city on the steamship Olympia Sunday night were landed early this morning and placed aboard a train on the Great Northern road, by which they will be distributed over the various divisions in eastern and western Washington. The business agent of the Western Central Labor union attempted to have the men prevented from landing, but it was found the law considered them as having come from American territory Hawaii, and that nothing could be done to prevent their entrance.

RUSSIAN OLD BELIEVERS.

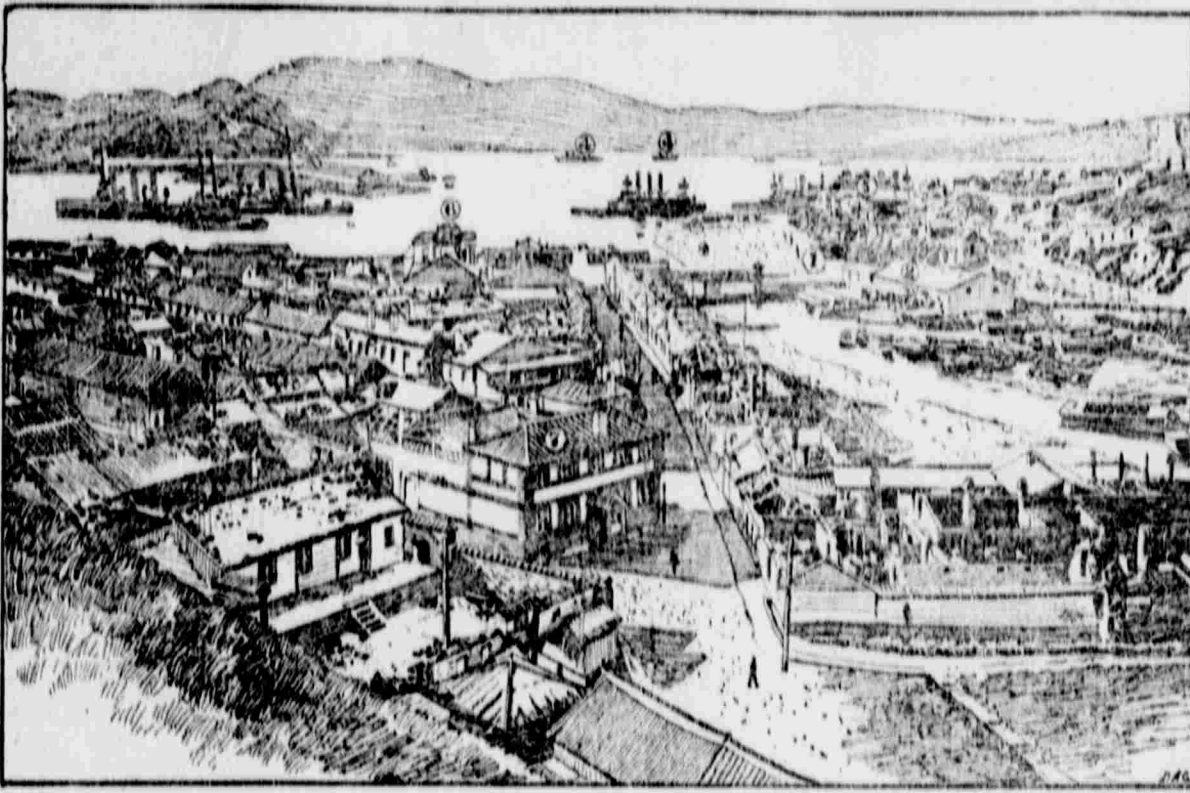

When Their Church Was Opened Was in Sad Plight

Moscow, May 1.—In accordance with the emperor's gift of religious freedom, the church in the Rogozhskiy cemetery, which is the Old Believer church, the Kremlin cathedral is to orthodox Russians, and which has been sealed up for 45 years, has been reopened with Easter services. A procession of Old Believers marched to the long silent temple, chanting hymns of joy and exaltation, but when the seals were broken from the doors of the church the condition of the interior which was disclosed caused the note of gladness to be changed to one of sadness. The liturgical books and sacred pictures after a half-century of seclusion, had gathered a deep coat of mold, and the interior hangings were only tattered threads of tapestry, while the floors and walls were damp and dusty. The rich members of the sect are contributing a fund for the restoration of the interior of the church to its original splendor.

Police After an Autoist.

Chicago, May 1.—An autoist whose machine last night crashed into a carriage driven by J. C. Clifford Loftis, wholesale jeweler, throwing him to the ground and causing a fracture of the spine and the base of the skull, is sought by the police. The accident—the chauffeur threw on full speed and escaped before the persons who went to the victim's assistance could observe the number or secure a good description of the car. Mr. Loftis was left lying senseless in a strike crowd. His injuries may be fatal.

A RECENT VIEW OF THE BATTERED TOWN AND SHIPS AT PORT ARTHUR.

1. Telegraph station. 2. Railway station. 3. Office of the Navy. 4. Kazan and Aurora, struck by shells. 5. Moulmein hospital. 6. Gunners' store. 7. Postoffice.

The picture herewith shown is a forcible illustration of the damage inflicted upon the harbor and lower town of Port Arthur by the huge shells from the Japanese fleet. Nearly every public building in the town was riddled by shells, and certain quarters were reduced to a shapeless mass of debris. One of the structures that remained intact to the last was the office of the Navy, the daily newspaper of Port Arthur. It continued to appear until the surrender. Toward the last it was printed on a single sheet of brown paper. It did everything it could to inspire the depressed garrison, but its editor confesses that it required a mighty effort on his part to appear cheerful under such unfavorable circumstances.
