

## UTAH SENATOR DISCUSSES COTTON

Mr. Smoot Treated Question from Technical Standpoint, Showing Duties Not Increased.

### COMMITTEE NOT INFLUENCED

Dolliver Took Exception to Aldrich's Remark About Senators Who Hold "Importers' Briefs."

Washington, June 1.—After, in effect, receiving information from Chairman Aldrich that beginning with tomorrow night sessions for the consideration of the tariff bill would be held, the senate today began consideration of the cotton cloth schedule.

There were not many speeches, but those made were of considerable length. Senators Smoot and Lodge, both majority members of the finance committee, were the principal orators, and both spoke in support of committee provisions.

The Utah senator discussed the subject from a technical standpoint, concluding that the tariff bill does not, in reality, increase duties contemplated by the Dingley law. He undertook, however, to show that by various rulings of the customs authorities these duties had been reduced by an average of 20 per cent. It was the purpose of the committee to carry into effect the existing law. He declared that the committee had been influenced neither by manufacturers nor importers.

Senator Lodge gave special attention to the committee on schedules and incidentally spoke of the general policy of the Republican party with reference to tariff revision. He contended that there had been no intention of revising the tariff downward, but that the purpose of the party had been merely to reduce the tariff as to protect the American manufacturer against cheap foreign labor. He declared New England factories were returning only small dividends to their owners, and traced the general increase in the price of commodities to the enlarged volume of gold in the country, rather than to the advantages accruing from the protective system.

He explained at length the process of mercantilism in order to show that the protective rate allowed for this process was not excessive.

Senator Dolliver took exception to a remark by Senator Aldrich. The Iowa senator had offered an amendment to the cotton schedule providing for ad valorem rather than specific duties, whereupon Mr. Aldrich made incidental reference to senators "who come here with importers' briefs."

Mr. Dolliver replied sharply, but when Mr. Aldrich explained that he had not meant any reflection, business proceeded with serenity.

Later, the senator from Iowa said reflections upon his course had come from behind the doors of the finance committee. This was said in response to a defense by Senator Root of the board of general appraisers, to which reference had been made by Mr. Dolliver.

At 5:05 p. m. the senate adjourned until 10:30 a. m. tomorrow.

The house was in session only 13 minutes, adjourning until Thursday, without transacting any business.

## GOV. NOEL PRAISES JEFFERSON DAVIS

Biloxi, Miss., June 1.—With a ball, a banquet and several receptions exercises attendant upon the presentation of the silver service to the battleship Mississippi were closed here tonight.

Touching upon the matter of the portrait of Jefferson Davis engraved upon one of the principal pieces of the service Gov. Noel in his address of Pascagoula today said the valor of Jefferson Davis as a soldier of the United States army as well as his recognition as a defender of the south.

He stood only for what he thought was right. If the country condemns him, you must condemn us.

Gov. Noel declared that only one person of any consequence in the country, so far as he knew, condemned the placing of the picture on the service and this condemnation had failed to awaken sympathy among those who had thrown aside the bloody flag and stood united for the good of a common country.

## INSTRUCTIONS TO MOTHERS ON CARE OF BABIES

Chicago, June 2.—Weigh your baby every week.

Do not feed it with a nursery bottle. Do not let it touch it.

Do not give it a "nursing." Do not rock it and juggle it up and down.

Mother and babies in the Hull House district attend school in the Mary Crane nursery yesterday.

A trained nurse told the mothers just how to care for their babies properly and a real, live, sure-enough baby was demonstrated upon for the benefit of other babies.

The pacifier, an invention of the devil, to spoil your baby's mouth.

## IS YOUR BLOOD THIN AND POOR?

Then Read What This Wisconsin Woman Says About Her Own Case.

In no disease is delay or neglect more dangerous than in anaemia, or poverty of the blood. This disorder is common in persons who are overworked or confined within doors and makes its approach in so stealthy a manner that it is often well developed before its presence is recognized.

But taken in time the disease is readily curable, the specific being a tonic medicine which increases the number of red blood-corpuscles thus enabling the blood to carry the life-giving oxygen to all the tissues of the body. Such a tonic is Dr. Williams' Pink Pills. These pills have had unbounded success in curing the stubborn disease because of this wonderful property.

The following cure of anaemia by Dr. Williams' Pink Pills deserves a careful reading by every person whose blood is impure. Mrs. Ida Keller, of R. F. D. No. 6, Tomah, Wis., says:

"About ten years ago my health began to fail. I was all run down, could not do any work, had no appetite and was not able to sleep. I had night sweats, which were very weakening and my feet and limbs were cold. My stomach was in such a bad condition that I could not even retain the doctor's medicine. My head ached all of the time and I was subject to dizzy spells. I began to reduce in weight from 145 to 105 pounds and was confined to bed for days at a time."

"I was under the care of two doctors but they gave me relief only for the time being. One of the doctors told my husband that it would be only a short time before I would be in the first stages of consumption. My mother finally advised me to try Dr. Williams' Pink Pills and, while I didn't have any faith in them, did so to please her. Before I had taken the pills long I felt much better. I took several boxes and was able to do my work again. I gained rapidly in flesh, could eat without distress and soon felt like myself again. I always speak well of Dr. Williams' Pink Pills for I know that they saved my life."

Dr. Williams' Pink Pills are sold by all druggists or sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Co., Schenectady, N. Y.

and "nursery bottle, the lazy mother's baby killer," were definitions placed in the nursery, and it was further declared that pacifiers caused adenoids and often total deafness, enlarged tonsils and caused the baby's teeth to grow awry. Every nursery bottle except that devised by the milk commission was called insanitary and branded as impossible to keep clean.

"But what are we going to do to keep 'em still?" murmured one perplexed mother.

"Bathe your baby every day," was advised. "Keep it clean and cool and don't let the flies get at it. Then it will be so comfortable it won't want to cry. Weigh it every week. A normal, healthy baby gains all the weight it needs to show an increase at the end of each week something is wrong. Your diet or the baby's is not right. Then you must see a doctor at once."

The talk was the first of a series being given by the health department and a number of club women in cooperation.

## WON'T PAY BOOKING FEES.

Chicago, June 2.—A committee of the Western Theater Managers' association, headed by the president, Charles Kindt, left for New York today to notify Abraham Erlanger, the hereafter they will refuse to pay "booking fees" for their attractions.

J. J. Shubert, head of the "independents," who was in New York yesterday, announced that managers all over the country were preparing to join the "open door" movement.

In the past theater managers have been little else than "importers," said Mr. Shubert. "The independent movement will benefit not only the managers, but it will open up a greater field for the playwright. It means that there will be fewer unemployed actors and more work for musicians and stage hands."

## TO SEEK ISLANDS FOR GREAT BRITAIN

Victoria, B. C., June 2.—To look for islands believed to exist and to plant the British flag on each is the business on which the exploring steamer Nimrod, which took Lieut. Shackleton's expedition to the antarctic, has sailed from Sydney, according to a dispatch received by the steamer Makura.

Lieut. Shackleton says the present cruise is to complete the antarctic work by a search in the sub-antarctic for several islands, the existence of which is doubtful.

Man has never set foot on Emerald, Nimrod or Dorothy islands, which Capt. J. H. Davis, now commanding the Nimrod, is seeking. Prof. Davis, who accompanied the late Shackleton expedition, reports that analysis of specimens shows the existence of radium in the antarctic.

## HARRIMAN'S COMMENTS DON'T WORRY JUDGE LANDIS

Chicago, June 2.—"I am not at all concerned about what anybody says in opposition to the enforcement of the criminal law."

This is Judge K. M. Landis' only answer to the charge made by E. H. Harriman in a speech at New York Monday, in which he was blamed for the panic of 1907.

## ATTEMPT TO BURY TWO DETECTIVES ALIVE

New York, June 2.—An effort was made yesterday to bury two central office detectives alive in an excavation pit for a new building in the Bronx. The officers went to the place to arrest the contractor for discharging heavy dynamite blasts. They were attacked by several of the foreign workmen and were thrown into the excavation. At the same time a score of workmen tried to break down an embankment upon the detectives and did loosen so much of the earth that the officers were impeded in their attempts to escape. Had the whole embankment gone down the detectives would have been buried alive. After getting out the officers summoned the police reserves and a number of arrests were made.

Taft. It is not known what price C. P. Taft paid the artist to secure the picture, but it is said to be in five or six figures.

## TWO GIRLS DELAYED STEAMSHIP'S SAILING

New York, June 2.—Because of the traditional right of a woman to change her mind the steamship Kaiser Wilhelm II was delayed many minutes yesterday in sailing for Europe. The Misses Julia and Georgia Carson of Pittsburgh, had booked passage and early yesterday Miss Julia declared that she was indisposed and would not sail. Their trunks had then been sent aboard and Miss Georgia went to the pier a few minutes before sailing time and ordered the trunks taken from the ship. After four of them had been taken off it was discovered that the fifth was in the hold and this trunk contained about \$20,000 worth of jewelry. The captain ordered the hold opened and the sailing time of the vessel had passed when Miss Julia Carson arrived in a taxicab and announced that she had again changed her mind and would sail on the ship.

The sisters went aboard and several minutes more were lost in putting the trunks back on the vessel.

## AN OLD MAN'S SUICIDE.

Chicago, June 2.—Crowds of persons saw a gray-haired man climb over the south railing of the Clark street bridge last night, lower himself, then drop into the river and swim about 300 feet down the middle of the stream, then sink. The police and Bridge Tender officers who made an unsuccessful attempt to rescue the man, believe he deliberately committed suicide. The body has not been found.

## INSANE WOMAN'S HOBBY WAS PIANO PLAYING

New York, June 2.—The residents of Charleston, S. C., thought that Mrs. Anna Brohm of New York, was insane because she played the piano in the hotel at unreasonable hours and persisted in singing when she was requested to desist. Therefore, Supervisor of the County Poor William P. Cantwell, brought her to New York last night. He registered her at the Broadway Central hotel and after notifying the health department to call for her and confine her in an asylum he and the

nurse who accompanied them went out to see Broadway. They said that Mrs. Brohm had talked continuously for 24 hours and they needed rest. In their absence Mrs. Brohm found the piano in the Broadway Central hotel and played it in such manner as to lead the management to call for an ambulance and the police. When the South Carolina officer and the nurse returned to the hotel they found that their charge had already reached the psychopathic ward at Bellevue hospital.

## SECRET SERVICE MAN CREATED A DISTURBANCE

New York, June 2.—Scores of persons in the grill room of the Hotel Belmont last night were thrown into a state of panic by an argument between two men in which one of them drew a revolver. The armed man was arrested and at the police station where he was charged with intoxication, he said that his name was Oliver Jordan, and that he was a United States secret service agent. In his pocket was found a secret service identification card issued to Charles W. Schroeder on Feb. 10, 1908, and countersigned by Chief Wilkie.
