THE DRIFTWOOD QUESTION.

WE give place to-day to a communication from the Superintendent of the Logan U. O. M. & B. Co., in reference to the driftwood question, on which we made some remarks a few days ago. We are still of the opinion that cast up driftwood, even if it be stranded in consequence of the labor expended on a 'boom," is public property unless it be cast on the land of the person or company constructing the boom, or unless that person or company has acsuch wood, by piling it, or in some equivalent manner giving public notice of such ownership.

The driftwood in dispute was taken from the river bank, on a school section above the company's land, and, as we understand, above their boom; and although men had been at work taking away the logs and wood claimed by the company, or the man to whom it had sold its claim, the driftwood that was hauled by the defendant had not been stacked or otherwise appropriated in a manner sufficient to establish ownership such as the public could understand and recognize.

If the defendant took anything with the driftwood that was clearly the property of the company, or of the person to whom that property was sold, knowing that it was such, he should rightfully have been punished according to the extent of his guilty knowledge and act.

The representative of the U. O. seems to be aggrieved because we stated that the interests of the U. O. appeared to be the paramount object to be protected in the proceedings. Here is our exact language, which does not fully bear out the inference that appears in his remarks:

"The complaint was lodged and the case went on, evidently for the pur-pose of protecting the interests of the U. O., more than the vindication of multicipation " public justice."

We were led to this conclusion by the report in the Logan Journal, by the fact of the Superintendent's presence and activity in the prosecution, and by the heavy fine considering the circumstances as detailed; and we are now confirmed in it by the Superintendent's letter. For no one can read it carefully without perceiving that the interests of the U.O. stand out in bold relief as the chief objects to be considered.

The question of the extent of company and individual rights to the monopolizing of that which is recog-nized as public property, and that be-comes incidentally mingled with pri-vate property but not handled as such. vate property but not handled as such. or is stranded on the public domain, is an important one to the public in many places besides Logan. And while we would not apologize for or condone any wilful infringement of company or personal rights, we desire to see public interests considered also, and think that the manifest intent has a great deal to do with the culpability of an any wilful infringement of company or individual accused of crime.

A JUDICIAL OUTRAGE. THE committal of Ole L. Hansen, on the filmsy evidence, or rather the lack

of evidence against him, is one of the udicial outrages of the times. We do case on for trials That the jury wenin a body to examine the said wood and found (as liwas afterwards told by not know or care whether the man has committed polygamy or unlawful co-mabitation, as a matter of fact. We do several of the jurymen) pieces of bridge plank, slabs, a log that ha? been in one of the abutments of the bridges, sticks that would make railroad ties and some driftwood. know that there has been nothing adluced in the shape of evidence of the greater, and scarcely a shadow of evidence of the lesser, alleged offence.

The preponderance of testimony is hargely against either charge. Nothing whatever that could be fairly called evidence was sdduced against the accused, except the testimony of a man who had clear-ly a splite against the woman said to be

ly a spite against the woman said to be Hansen's plural wife, and incidentally against the defendant. And this socalled testimony was fiatly contradicted by the evidence for the defence.

Therefore, we say that on the testinony presented in Commissioner Mc-Kay's court, there was nothing that would in any other case than one against a "Mormon," be counted quired and demonstrated ownership in in legal jeopardy. The object seems as sufficient to place a man to be to put "Mormons" against whom the slightest color of probable cause can be alleged, to as much trouble

and expense as possible. Under such a decision as that in the Hansen case, any man who has another lady staying in his house besides his wife, on who obeys, the scriptural injunction to "visit the widow and the fatherless"-which is said to be "pure and undefiled religion," is liable- if he is a "Mormon"-to be hauled up before a magistrate, subjected to the humiliation of having his wife and other members of his household down to little children eight years old, forced into court to be questioned about his

most private family relations, and then, on a mere breath of suspicion, or on the testimony of some spiteful neighbor even if contradicted by competent evidence, be incarcerated in the penitentiary among the vilest of criminals, pending indictment and trial if

unable to furnish excessive ball. If this is not in the nature of an outrage we do not know what would rightly be classed under that designation.

PRIESTHOOD MEETING.

The regular monthly meeting of the Priesthood of this Stake convened in the Assembly Hall on December 6th, 1884, at 11 a m.

There were present on the stand: Of the First Presidency, George Q. Can-non; of the Presidency of the Stake, Angus M. Gannon, Joseph E. Taylor and Charles W. Penrose: of the High Priest's Quorum, Counselor Snelgrove and Morris and others. Usual opening exercises

All the Quorums of Elders of the Stake were represented except the 4th, 6th, 7th, 8th, 10th, 12th, 14th and 16th. All the wards of the Stake were re-presented by the Bishopric. President Angus M. Cannon remark-

ed that in some instances the recomendations to ordination had not the The ordination of the following biethren as Elders, was sanctioned and sustained by the Priesthood meeting: John Siddoway, Jr., and William D. Powell of the 1st, Shepherd Crow-ther of the 4th, John Bionquist off the imany things that we have been told would come to pass. The same Gospel that was preached in ancient days, has been restored and is now being preach-cid by the Latter-day Saints. You are witnesses of the power of God. We are a body of living witnesses to the trath of what I am saying and to the outpouring of the Holy Ghost. What a host of witnesses, in all languages, could rise up if gathered to these mountains, to testify to the outpouring of the Spirit of God when they obeyed the Gospel. Wherever the plan of saiva-tion is preached and received a testi-mony of its truth is imparted, impelling the disciples to do what they never did before, forsake their homes, families and friends, sev-ering all connections that had tied them to their native lands and kin, and go to the place God has designated. People from all parts of the earth Buckston, of Union. President Joseph E. Taylor said that there was an element existing in our midst that demanded immediate attention, and that was hoodiumism, which had become an intolerable nuisance. some of the boys were in the habit of gathering together in little groups around out meeting-houses, and creataround out meeting-houses, and creat-ing a disturbance during our evening services. If such persons had a stand-ing in the Church they should be cited to appear before the Bishops' courts, and be tried for their fellowship and be dealt with as the law of the Church prescribes. President Charles W. Penrose suggested that the Bishops take this mat-ter specially in hand and detail some of ine brethren to see that order is preserved during our assemblies, not only on the outside but also on the inside. Where confusion is, the Spirit of God does not prevail. If we desire to have the Spirit of the Lord we must preserve order. President Angus M. Cannon said the Bishops should not give recommends to parties to receive the Priesthood who smoked, drank or used unbe-coming language. He thought the brethren tried in the main to be care-ful about this. LITTLE ROCK, Ark., 7.-Little Rock

LITTLE ROCK, Ark., 7.—Little Rock has been in a great excitement all day on account of the robbery of the Ar-kansas Valley route passenger train, on the outskirts of the city last night. Bloodhounds, early this morning, were put on the trail of the robbers and fol-lowed straight into the city. Before noon Joseph Cook, J. C. Jones, John Clifford, Charles Campbell and a boy named Parker, six in all, had been ar-rested. Jones will probably be re-leased. Three of those arrested have been identified as among the robbers. The State has offered one thousand dollars for the capture of the robbers, to which the railroad company has ad-ded a like sum. Circumstances are strong against Cook, Clifford and It was further shown that for sever find, had gone and loaded driftwood from this boom also. That Mr. Haws, the person in charge, had kindly com-pelled them to unload and leave the wood to those who had expended labor to bring it there and keep it there. All of the loregoing facts were shown at the trial, but most of which are not shown in any report that I have read. Twenty years ago "a flood" having brought a great deal of wood out of the then new cafion, into which no road had yet penetrated far, it was decided at a meeting that all this wood was public property. But I submit, Mr. Editor, whether the cases are at all parallel. There was then wood every-where along the stream. Now it is very

strong against Cook, Clifford and young Parker. In addition to being identified it is proven that they were away from their boarding house until 2 o'clock this morning.

where along the stream. Now it is very scarce, and even "a flood" would not bring any great amount. Now it is gathered, thrown into the water, brought down, "boomed"—labor ex-pended in numerous ways. But some driftwood would come down anyhow. Yes, without doubt. And some even think it would stop just below the toll-gate, so that those who want a load would have to pay no toll, but just go and load it on. Now as to the value of a little wood RACINE, Wis., 8.—The J. I. Case Plow Company, of this city, executed, this morning, an assignment for the benefit of its creditors. This course was rendered necessary owing to for-eign attachments being levied against but just go and load it on. Now as to the value of a little wood of any kind, that is but slight. During last spring the U. O. gave away scores of loads of drift and other wood. Some was taken without being given, and we have suffered much in the past eign attachments being levied against the company's property and because of similar actions being threatened at home. For these reasons there was no other way open to the directors to pro-tect the assets for the benefit of all the creditors alike. No preference made in the assignment except for wages ac-crued since November 1st. Normal raine of assets, \$668,000; total liabili-ties estimated at about \$750,000 to \$800,-000. It is hoped that arrangements may be made hereafter for discharging the assignment and allowing the com-pany to go on with its business and a meeting of its creditors is being had to-day to see what can be done. from those who are not willing to re-spect private rights. THE LAW OF THE CHURCH.

TO-DAY a case of excommunication from the Church, on account of a gross departure from the path of the Gospel as professed by the Latter-day Saints, is published. The Church can have no fellowship with the workers of iniquity. If it did it would be an evidence of a tendency to corruption.

The law of the Lord in relation to offenders has been give that the purity of the body-religious may be main-It is straightforward and clear, and should not be left as a dead letter upon the books of the law of God. The various crimes are enumerated, and the law in relation to offences is that "he who sinneth and repeateth not shall be cast out. And there are besides those sins that can be repented of, some that cannot in this life be repaired in that way to an extent that will entitle the perpetrator to re-admission into the Church.

As has been strongly stated by Pres dent John Taylor and others of the authorities of late in the fclearest and most unmistakeable terms, a great responsibility rests upon the duly authorized officers of the Church in selation to those who commit crimes against its requirements. Unless they deal with them and administer the law in meekness, impartiality, and in the spirit thereof, the sin will in part, rest upon their shoulders.

Owing to the importance that every true Latter-day Saint staches to a standing in the Church, there is a repugnance to taking any step that will eopardize the fellowship of any of the members. This sentiment, however, should not interfere with what God has expressed as His will concerning His people; feeling must always be subordinate to principle.

How comprehensive is the requirement-"He who sinneth and repenteth not shall be cast out." It this law were applied in its fullest scope, the complete purity of the community of Saints would be assured, for by such a process every unrepentant wroug-doer uld find his place outside of the pale of the Church.

No longer ago than yesterday Presi-dent George Q. Cannon spoke strongly on that subject, not only in the Taber-nacle, but also during a highly instructive discourse delivered in the 18th Ward Chapel in the evening. His re-marks on the subject carried with them a peculiar force. They are of great importance, and were directed as

cointedly to those officers of the Church whose duty it is to deal with offenders, as to those who are guilty of eaches of the law of the Lord.

The sentiments that have been exof late are not uttered for the purof inciting a "revival," in the of inciting a "revival," in the expended some thousands of de ary meaning of the term, in for land on which to build a boom matter of ridding the Church of members whose actions give

LOGAN, Dec. 6, 1884. Editor Deseret News :

In a recent issue of the DESERET In a recent issue of the DESERET NEWS, under the heading "Proprietor-ship in Driftwood," you proceed to re-view a case which had been decided in the justice's court (jury trial) at Logan, and from your review I can plainly see that you had but a very partial state-ment of the facts to work from. In that trial it was shown in the evi-dence that the U. O. M. & B. Co. had expended some thousands of dollars

We tried several medicines, none of which seemed to do her any good, but she continued to get worse, and finally raised large innounts of blood from her lungs. We called in a family physician, but he failed to do her any good. At this time a friend who had been cured by DR. WM. HALL'S BALSAM FOR THE LUNGS, advised me to give it a trial. We got a bottle, and she began to improve, and by the use of three bottles was entirely cured." "Ye shall be hated of all the nation of the earth for my sake."
