The anti-trust Democratic state ticket was simply Democratic state ticket and presiden-tial electors, while the anti-trust Republican ticket was Democratic state ticket and Republican presidential electors. Court also ordered Secy. Hays by mandamus to file the nomination of Albert J. ## INTERVENTION NOT DISCUSSED.

Russia in No Mood to Accept It-Kuroki Has Borne the Brunt Of the Struggle.

ondon Oct. 18 .- The greatest admiration is expressed by the London news. papers today for the tenacity displayed

by Gen. Kuropatkin in protecting his retreat, but nowhere is the idea enter-tained that the Russians' first success on the Shakhe can change the broad character of their defeat, or hav: any effect beyond slightly retarding the Japanese advance to Mukden and prob-ably to Harbin, since the Japanese appear to be fully prepared for a winte. campaign. The question of intervention is hard-

ly discussed at all, because it is be lleved that the Russian government is in no mood to accept it. The Standard's correspondent with

Gen. Kuroki, telegraphing under date of Oct. 15, says: "Kuroki, as usual, has borne the brunt of the struggle and sustained a majority of the casual-We are now occupying the of Shankhe, with outposts near Muk-

Reports from Russian sources give a more hopeful view of the situation of Gen. Kuropatkin's army. That com-mander has re-occupied and holds the town of Shankhe, the possession of which for several days was first with one and then with another of the contending armies.

Reports from the Russian left wing, the safety of which there had been much anxiety about, are no later than the night of Oct. 13. They had been fighting for two days for the possession of Tumin pass, an important strategic point, but up to the point of sending the last dispatch the Japanese were still in possession of the pass. In order that this column may be

able to rejoin the main Russian army, it is necessary that Gen. Kuropatkin should hold the bridges over the Hun river and the possession he now occu-

pies on the Shankhe river. There is no indication that the and of the great battle is at hand. Estl-

been quite successful. The Japanese, after a terrificially stubborn resistance, were compelled to retire along their whole line, filled with the Japanese dead. In one noteworthy large trench there were counted 600 corpses of the Japanese. In spite of their losses, the Japanese were un-daunted. #### RUSSIANS MORE HOPEFUL.

St. Petersburg, Oct. 18, 3:15 a. m .-The news from the front tonight is more reassuring from the Russian standpoint. The situation is still regarded as being critical, but Gen Kuropatkin is apparently holding th Japanese firmly on his center and right wing, even having recrossed the Shakhe river, and while there are rumors of extensive Japanese flanking movements both on the west and on the east, there is no evidence that they are actually occurring. Gen. Kuropatkin's left has been heard from. The Associated Press has the first connected report of the gour days' fight in front of Tumen and Saltchoun passes, resulting in the final withdrawai of the strong Russian column, which had been sent to turn the Japanese right, though Gen. Mistchenko seems to have actually penetrated a considerable distance inside the Japanese line. The report of the oper-ations of the Russian left wing is still three days old, and since that time no news has been received from this col-The situation at this date may umb. be described as follows:

Gen. Kuropatkin has slightly advanced his center, re-occupying Shakhe, south of the Shakhe river. Directly behind him at a distance of nine miles iles the Hun river and across the bridg-es spanning this stream the Russians must retire in case they retreat on Muk-Gen. Kuropatkin must continue den. to firmly hold his center and right for him order to prevent the Japanese getting possession of the Hun river bridges. Thus he will cover the with-drawal of his apparently beaten west wing.

There is still considerable uncertainty as to the disposition of his left col-umn. Certainly, it has not returned to Mukden; whether it is again advanc-ing after its withdrawal is not known. It is no longer a question of a Russian ledan, although all hope of relieving Port Arthur must be apparently aband.

Little hope is expressed that Kuropat-kin will be able to continue to ad-

The four days' fight of the eastern column were of the same desperate character that marked the operations of the center and right wing. A heavy Russian column under such leaders an Ivanoff, Rennenkampff, Carngross and Kondratovitch repeatedly assaulted strongly en renched Japanese positions on heights commanding the passes. The assaults were largely night work. The cannonading was so powerful that it was impossible to advance in the

If was impossible to advance in the light of day. Finally on Oct. 13 when the passes had been actually occupied, came the order to withdraw, probably owing to a critical position at other parts of the front.
