INSANE CONVICTS. Dr. Young Swears Out Complaints Against Adams and Red.

Prison Physician A. C. Young has sworn to a complaint against two of the convicts in the State prison whom the doctor considers fitter subjects for the asylum than the penitentiary. Their names are John E. Adams and Gofoe Red. They will be examined as to their sanity at noon tomorrow in the district Adams was an inmate of the sylum once before, from September 11 to Nov. 28 last year. He is serving a ten years sentence for burglary in Cache county,

Syra and received from the telegraph station a batch of dispatches contain-ing definite instructions from the French government regarding carrying out the sealed orders which were hand-ed to the admiral previous to his leav-ing Toulon. These dispatches directed Admiral Calilard to proceed to the isl-and of Mythes, where he will seize the customs of Midilli and at another port. The foreign office here has not yet re-ceived the suitan's reply to the note presented by M. Baptiste, counsellor of the French legation at Constantinople, following the instructions of M. Del-casse, the foreign minister, under date of November 3. The correspondent here of the Associated Press is enable to make the following statement: "When the French government decid-ed to send a French squadron to Tur-key, it debated whether to Size the customs at Salonica, Beirut or Smyrna, as it was realized that the receipts of one of these three big ports would be required to produce a Mifficient sum to pay off the French claims without a iong occupation, which was considered inadvisable. The occupation of Saloni-ca was at once dismissed, because it might create the failse impression that France was alming to reopen the Mace-donian question. The occupation of Beirut was 'also set failde, ow-ing to the French position and interest in Syria, where the pop-ulation looks upon France as its protector. The occupation of Beirout, therefore, was certain to create effer-vescence, and perhaps even rebellion. The choice of M. Deicasse, consequent-ly, fell on Smyrna, which offers equal advantages to the other ports, without having their political drawbacks. Sat-urday, howaver, came the dispatch from M. Baptiste, announcing the issu-ing of the suitan's trade accepting the Lorando claim in its entirety, as France demanded. This dispatch slightly modified the aspect of the situ-ation, inasmide he aspect of the situ-stion, inasmide he aspect of the situ-stion, inasmide he aspect of the situ-sting ther money claims and would, within a few days, Mrs. Pinkham advises sick wo-Of Price Authorized to Begin Business

now settle the money claims and would, within a few days, produce the guaran-tees which France demanded for their payment. The necessity for selzing big customs, therefore, became less pressing, although the necessity for occupy-ing Turkish territory, in order to exering Turkish territory, in order to exer-cise pressure and compet the suitan to concede the demands respecting Tur-key's disregard of French tready rights, still remained urgent. The government, therefore, decided that Admiral Call-lard should occupy a couple of ports on the island of Mytllene, which is conthe island of Mytliene, which is con-veniently close to Smyrna. So, should the government's impression that the suitan will satisfactorily settle the monetary question without delay prove unjustified and the customs receipts at Mytliene not be sufficient to meet the French claims, Smyrna can yet be oc-cupied. Meanwhile the occupation of the ports on the island of Mytliene is more convenient from a military point more convenient from a military point of view as the French cannot be easily disturbed on that island, whereas Smyrna, being on the mainland, its oc-cupation might have more serious de-velopments than desired. The French government, however, trusts that the whole difficulty will very shortly be arranged to its satisfaction and hopes that the treaty stipulations-will be carried out by the issue of irades, such as giving certain French schools permisopen, which, thus far, has withheld, and also by giving official recognition, throughout the Turkish empire, to diplomas issued by the French medical faculty at Beirout,

Correct Estimate Obtainable.

London, Nov. 5 .- Lord Kitchener, in a report to the war office, under date of November 4, giving further details of the recent engagement near Brakch-hagte, eastern Transvaal, between Col. Benson's column and the Boers, says:

Benson's column and the Boers, says: "The Boers were unable to remove the guns they captured until a British ambulance went out, when, under cover of the ambulance, the burghers carried them off. The Boer losses were un-doubtedly heavy, but no correct esti-mate of them is obtainable. Command-ant Opperman was killed and Chris Botha was wounded. The Boers are re-ported to have behaved badly to the British wounded." Lord Kitchener further reports that Cape Colony to the eastward of the

Heretofore the Northwestern has

done its freight business in this terri-tory exclusively with the Union Pacific. It will still do its passenger business exclusively with the Union Pacific be-cause of through train service.

"So close has the big railroad com-bination drawn itself that all the big Western roads are now practically a unit on freight business. This move by the Northwestern, making traffic ar-rangements with all roads, shows the strength of the combination.

"The Northwestern now does an ex-change in freight with the Burlington and Misosuri Pacific in this territory. these being the two roads which have heretofore not taken nor given any Northwestern business. The Colorado roads have always done business with the Northwestern. Even more far-reaching has the combination been, for Northwestern, Rock Island and Santa Fe are no longer antagonistic, lthough no special efforts are made by these three roads for each other. But the Missouri Pacific, Burlington and Union Pacific are now on an equal footing so far as the Northwestern

footing so far as the Northwestern freight business is concerned. "The Northwestern is a Vanderbilt road: Hill controls the Burlington, Harriman the Union Pacific and Gould the Missouri Pacific. At Omaha, where heretofore the Union Pacific has dealt reductively with the Narthwestern (I is exclusively with the Northwestern, it is turning business over to the Illinois Central, and in this territory the Illi-nois Central and Northwestern, formerly bitter rivals, are exchanging busi-ness and working in unison and har-

The Union Pacific and Northwestern some ten years ago perfected a close traffic agreement. They had through service for passenger business train and exchanged treight business wher-ever possible exclusively with each other. Efforts have been made by competing lines time and again to break up this agreement, but they have been unsuccessful until now

"The lifting of the freight bars by the Northwestern shows that the big com-bination is not only a fact, but that it is in harmony, and that the magnates are working for each*other's interests. A few weeks ago evidence of the com-bination was shown by instructions to bination was shown by instructions to agents that free transportation to infuence business and rate cutting must violation.

"Reports of a close agreement between the magnates have been emphatically denied, but this action by the Northwestern in placing the Burlington and Missouri Pacific upon an equal footing with the Union Pacific is con-sidered conclusive evidence that the combination is a fact."

AN AGREEMENT.

Settlement of Northwestern Railroad Tangle Remains With Vanderbilt.

York, Nov. 4 .- It was officially stated tonight that an agreement had been made whereby the tangle in the Northwestern realroad situation resulting from the corner of Northern Pacific shares on the stock exchange early in the day, and which caused the panic on May 9, will be settled. Officials credfted with the various companies at interest absolutely refuse to give out any statement in regard to the rumared agreement. It was stated on good authority, however, that the settlement, involving the widespread interests of the Union Pacific, Great Northern and Union Pacific railroads will be based primarily on the retirement of the Northern Pacific preferred stock on a basis of 115 or above, and the issuance of 415 per cent bonds, one-third of which, it was stated, would be allotted

which, it was stated, would be allotted to the Union Pacific Interests. The crux of the reported agreement lay in the proposed division of territory whereby the railroads mentioned shall have complete traffic agreements re-sarding a certain territory in the coun-try tapped by those lines. It is general-by understood that this settlement awaits the approval of W. K. Vander-blit, who is expected to arrive from Eu-rope on Wednesday's steamer.

Matilda S. Smith Seeks a Legal Separation from Her Husband.

Matilda S. Smith filed a bill of di-corce against her husband, Sydney C. Smith late yesterday afternoon. The complaint is very brief, simply charg-ing that Smith "continuously ever since the date of his marriage with Miss Stanforth, at Ogden on October 13, 1900, and up to the present time has wilfully neglected to provide for her the com-mon necessaries of life."

Smith is a packer in the hardware department of the Z. C. M. I. and he and his wife have never lived together. In fact it has not been known in this city that the two were married. Smith lives at \$23 west First North, and his wife, who is still konwn as Tillie Stan-forth, is a domestic in the home of Mrs. Mary V. Hempstead, at 175 north Last Temple street.

New Liquid Air Company Succeeds the Old Tripler Organization.

Today's dispatches tell of the or-ganization in New York of the Con-solidated Liquid Air company. This new company is probably a successor to the Tripler Liquid Air company, which had offices in the Bowling Green building. Senator Frank J. Cannon was an officer in that company and devoted much time in promoting the interests of the concern and while his name does not appear in the directorate of the new organization it is quite likely that much of his time will be given to af-fairs of the company. The fact that Senator Pettigrew's name is now connected with liquid air interests is prob-ably due to Mr. Cannon, as the South abiy due to Mr. Cannon, as the South Dakota senator was very friendly with Utah's distinguished citizen. Charles E. Tripler is the inventor of the pro-cess of manufacturing liquid air which is the basis upon which the company is organized and wonderful strides have been made in the way of lessening the of promise in this agency and people who have seen its wonderful capabil-ties demonstrated usually become en-chusiastic supporters of its interests, and many of them are there who do

BIG DIAMOND THEFT.

Burglars Smash a Jeweler's Window and Get \$20,000 Worth.

Cincinnati, Nov. 5.-Early today burglars broke the big show window of the Duhme Jewelry company's store on Fourth street, between Vine and Race, and stole about \$20,000 worth of dia-monds. In their flight they left a trail of diamonds indicating the direction they took. The nightwatchman who was on the floor when the robbery took place, says he heard no noise and saw nothing of the robbers. The diamonds stolen were loose in a tray and the burglars are supposed to have taken advantage of the noise of a passing wagon or car to break the glasss and seize the tray and run, as they overlooked much valuable goods in the same window

Catarrh has become such Catarrh has become such a common disease that a person entirely free from this disgusting complaint is seldom met with. It is customary to speak of Catarrh as nothing more serious than a bad cold, a simple inflammation of the nose and throat. It is, in fact, a complicated and very dangerous disease; if not at first, it very soon becomes so.

The blood is quickly contaminated by the foul secretions, and the poison through the general circulation is carried to all parts of the system.

Salves, washes and sprays are unsatis factory and disappointing, because they do not reach the seat of the trouble. S.S.S does. It cleanses the blood of the poison and eliminates from the system all catarrhal secretions, and thus cures thoroughly and permanently the worst cases.

Mr. T. A. Williams, a leading dry-goods m chant of Spartauburg, S.
