

MUTINEERS ISSUE A PROCLAMATION

Formally Raise Standard of Rebellion—Decisive Struggle Against Russian Gov't Has Begun.

PROTECTION FOR FOREIGN SHIPS

Reported in St. Petersburg that No Effort Will be Made to Sink the Kniaz Potemkin.

Theodosia, July 5.—The mutineers of the Kniaz Potemkin today formally raised the standard of rebellion and issued the following declaration:

"The crew of the Kniaz Potemkin notify the foreign powers that the decisive struggle has begun against the Russian government. We consider it to be our duty to declare that we guarantee the complete inviolability of foreign ships navigating the Black sea, as well as the inviolability of foreign ports."

DOINGS OF THE KNAZ POTEMKIN.

St. Petersburg, July 6, 2:10 a.m.—While no official confirmation is obtainable, the Associated Press has been informed by an authority usually reliable that the admiral has received news that the Kniaz Potemkin, after shipwrecking at Batoum, has been laid up at large in the Black sea, and that her destination is unknown. Whether the report of the sailing of the battleship is true or not, the crew took a remarkable step yesterday when with all the solemnity of a provisional government, it issued a manifesto addressed to the people announcing that the civil war had been begun against the existing regime in Russia, and pledging the inviolability of foreign shipping and foreign ports.

This action doubtless was taken to quiet the apprehensions of foreign powers and to leave no excuse for the sending of warships through the Dardanelles to effect the capture of the battleship, which until now Russia's Black sea fleet has not dared to attempt. It is considered shrewd move on the part of the mutineers to stamp the commander of the crew as a leader far above the class of the ordinary sailor and strengthen the opinion that he is not a member of the revolutionaries who went on board at Odessa.

The issuance of the manifesto lends a certain dignity to the mutiny and proves that the crew and their commander have the desire that the world should know them to be mere outlaws, but that they should be looked upon as men seriously raising the standard of revolution.

Nothing has been received to confirm the supposition that the request for a doctor at the Theodosia indicated a struggle for supremacy on the way from Kustenji.

According to a rumor printed in an afternoon paper the ship's strong box contained \$45,000, and the mutineers would therefore be well supplied with money.

In circles closely in touch with the revolutionists it is regarded as a foregone conclusion that the commander of the Kniaz Potemkin, knowing the situation in the Caucasus will head for Port Batoum, where the revolutionists

TEA

The extravagant tea is the common stuff.

Try good!

In every package of Schilling's Best Tea is book "How To Make Good Tea."

Are You Ready for The Fourth?

We have nothing very loud in our large assortment of Merchandise, but every suit is conspicuous for the fashionable style of its cut, character of workmanship and beauty of fabric. If you are familiar with the best makes of Ready for Service Clothing, you will be interested to learn that our selection is of Superior Tailored Clothes, and are admitted by "men who know" to be equal in style and quality to the finest custom tailored work.

Suits of both single and double breasted styles are cut stylishly long and have the athletic shoulders, and other details of the season's smart fashions.

Straw Hats, Outing Suits, Fancy Hose, Neckwear, Underclothing.

A LOVELY COMPLEXION

New York Lady Proves That Every Woman May Have It By

USING CUTICURA SOAP

Mrs. R. Reichenberg, wife of the well-known jeweler of 146 Fulton St., New York, says: "I had a friend who was justly proud of her complexion. When asked what gave her such a brilliant and lovely complexion, she replied, 'A healthy woman can be sure of a fine skin if she will do as I do, use plenty of Cuticura Soap and water.' She insisted that I follow her example, which I did with speedy conviction. I find that Cuticura Soap keeps the skin soft, white, and clear, and prevents redness and roughness."

RUSSIAN THRONE IS TREMBLING.

If Japan Refuses an Armistice It May Result in Revolution and Downfall of the Romanoffs.

RUSSIA'S POSITION CRITICAL.

The Czar, Defeated in the Far East, Facing Civil War at Home, Bows To the Inevitable.

St. Petersburg, July 5.—The situation regarding the armistice is as follows: Russia has formally signified to President Roosevelt her desire for a lasting peace, not only by the appointment of plenipotentiaries who will be accompanied by eminent experts fully empowered to conclude a treaty subject only to the ratification of the respective governments, but as a final step has indicated her readiness to suspend hostilities. She has avoided formally asking for an armistice as a matter of pride, but under the circumstances Russia could hardly go further than she has.

GOT SUPPLIES.

Odessa, July 5.—It is reported that the battleship Kniaz Potemkin appeared today off Akkerman, 27 miles southwest of Odessa.

At 1 p.m. a torpedo boat entered the harbor of Akkerman and demanded coal and provisions. The authorities refused to furnish them, whereupon the torpedo boat fired two shots. The torpedo boat afterwards obtained all the supplies she required.

KNAZ POTEMKIN AT THEODOSIA.

St. Petersburg, July 5.—The battleship Kniaz Potemkin has arrived at Theodosia, a port on the eastern shore of the Crimean peninsula, without the loss of a single man. It is believed the battleship took the crew of the torpedo boat and abandoned her or sank her while on the way to Theodosia. The torpedo boat, destroyer Shmelitvich, which went in pursuit of the Kniaz Potemkin, evidently failed to overtake her, as she has not been reported.

All idea of trying to sink the Kniaz Potemkin has now been abandoned by the admiralty, as a report from the authorities states. Theodosia shows there are dissensions among the mutineers, a portion of the crew favoring the daring. Fighting is believed to have occurred on board the battleship during the voyage. This is supported by the demand for a doctor. The ship is short of provisions and coal, and the admiralty believes her career will soon be ended.

The ringleaders of the mutiny, however, realizing that they must have their heads in the noose and that they have nothing to lose, have demanded coal and provisions of Theodosia under the penalty of bombarding the town. They are trying to make for Port Batoum in the Caucasus, where they may get the support of the revolutionists. Batoum, which is fortified, is too dangerous a haven.

In the absence of supporting warships, it is doubtful whether the admiralty of Theodosia dare to resist the demands of the mutineers.

The American steamer Caronde, with refugees from Port Arthur on board, is at Theodosia.

All the foreign shipping in the Black sea has been warned against the Kniaz Potemkin, which, in view of the desperate situation of her crew, probably will not hesitate to hold the skull and crossbones.

BOMBARDMENT THREATENED.

Theodosia, Crimea, July 5.—Summons by the Kniaz Potemkin, representatives of the town council went on board the battleship and were received in audience by the admiral commanding her. The commission demanded the delivery of 300 tons of coal and provisions of various kinds within 24 hours, and threatened that in the event of non-compliance, after the warning to the inhabitants, the town would be bombarded. The commission also proposed that the mayor should transmit to the population a proclamation demanding the termination of the war, a convocation of a general assembly.

Learning of these demands, many inhabitants fled from the town. The workmen insisted that the demands be granted.

A special meeting of the municipal council was called, and the council consented to deliver the provisions, but refused to comply with the demand for coal for the reason that the town had none.

MUTINEERS IN PRISON.

Little Doubt that They Will All Be Shot.

Odessa, July 5.—Sixty-seven of the mutineers from the Georgi Pobedonosets, including the ringleaders, were imprisoned today. It is expected that all of them will be shot.

THE LENIN'S SAILORS.

Demand that They be Allowed To Return to Russia.

Gen. Amasa Cobb Dead.

Los Angeles, Cal., July 5.—Gen. Amasa Cobb, brigadier general of volunteers during the civil war, veteran of the Mexican war, ex-congressman and ex-justice of the supreme court of Nebraska, died today at the age of 72 years. Cobb was a personal friend of President Lincoln. His remains will be removed to Nebraska for interment.

Doctors said He would not Live.

Peter Fry, Woodruff Pa., writes: "After doctoring for two years with the best physicians in Waynesboro, and still getting worse, I decided to attend to it. I had been told to attend to it at once, as there was no cure for me. Foley's Kidney Cure was recommended to me, so I took it. I immediately sent my son to the store for it and after taking three bottles I began to get better and continued to improve until I was entirely well." Sold by F. J. Hill Drug Co.

knife, and two wounds were made in the abdomen. Blizard escaped to the hills.

ON THE Isthmus

Matters Are Very Bad, Many Diseases Almost Epidemic.

New York, July 5.—George G. Matlock, of Louisville, Ky., superintendent of a dock at Christobal, was among the passengers on the Advance, which left Matlock said.

"The supply of nurses," he said, "is beginning to fall off, and by fall the hospital at Panama will be very short-handed. None of those who are leaving now will return to Panama, and many others will leave as soon as possible. The pay, considering the conditions that prevail, is not sufficient. Sickness there is increasing and conditions generally are becoming worse."

Things are very bad at the isthmus. The diseases prevalent are measles, black measles, smallpox, yellow fever, chagres fever and malaria, and there was one case of bubonic plague. The dead trains run from Colon to Monkey Hill, a mile and a half south of Colon, always once and sometimes twice daily. There are 14 trains a day, and it sometimes has as many as four coaches aboard. In fact, there is no much yellow fever about that they keep 10 graves always ready for cases of emergency.

"The working clerical force on the isthmus is about 90 per cent. One district superintendent I know has work for 17 clerks and has so far

not been able to fill all the positions.

Miss A. A. Robinson of New York, who had been a hospital nurse on the isthmus, also returned on the Advance. She said she had been on the isthmus about a year and was very glad to be back again.

"The supply of nurses," she said, "is beginning to fall off, and by fall the hospital at Panama will be very short-handed. None of those who are leaving now will return to Panama, and many others will leave as soon as possible. The pay, considering the conditions that prevail, is not sufficient. Sickness there is increasing and conditions generally are becoming worse."

She Tried Five Doctors.

Mr. Francis L. Sales of Missouri Valley, Iowa, who was a patient at the hospital for five years, had never pain in my back and a frequent desire to urinate. When riding I experienced much pain over the region of the kidneys, but had no difficulty with the bowels, and when I consulted him to try Foley's Kidney Cure he told me to take three \$1.00 bottles. I was completely cured." Sold by F. J. Hill Drug Co.
