The property owners will not object to repairing the pavement, in fact, they have urged this. Great holes have been torn in the pavement for weeks and are still there. Property weeks and are still there. Property owners along Main street have been waiting for Pat Moran or some other duly appointed authority of the "Amer-ican" ring to come along and patch the holes. At this time they are still waiting. It is more than expected by many of the property owners in Main street that to punish them for defeating the resurfacing of the street, the Moran Americanites will delay the repairs as long as they possibly can. the Moran Americanites will delay the repairs as long as they possibly can. An interesting item which appeared concurrently with the project of re-surfacing of Main street was an editor-ial in the Italian paper published in this city, "Il Minitore,"—the Miner. What a link of fellowship that would be! The harmony in the scheme brings out admiration. The proposi-tion summed up is this: The "Americans" to win must get votes. The "Americans" to win do not care who votes, just so they vote. If it is necessary to have Pat Moran bring into this city a colony of low browed aliens, the refuse of their coun-tries, undesirable citizens in their na-tive land, let him do it. The "Ameri-can' ring will do the rest. The "Ameri-can' ring will do the rest.
