We will be independent of the Government and of the Opposition Party.

## WANTS TO "PRESERVE THE COUNTRY."

Trade and Capital Will Have Plenty of Money—Wants Peace to Oppose Grant's Protectionist Policy.

London, Aug. 30.—Wednesday, after receiving a special dispatch from London, published here this afternoon, he outlined his policy. He believes it to be independent of both the government and the opposition "always aiming to promote the welfare of the country and to maintain law and order." He expressed the hope that the "Cabinet may be worthy of me," some of which he always comes from you. He said that the Republicans have no particular animosity against the Spanish, and may object to "allowing a more international stand, one of which would be to stand in England's vindication."

Mr. Morris' statement was made by a committee of the Londoners, who called him this morning at Palais Royal. The speaker is expected to speak before a session of parliament next week, and it is anticipated he will support the government. The cabinet has adopted his views on the question of the war against France.

The principal object of our government has been to retain possession of a colony, and naval stations in the Atlantic as well as in the Pacific, as a base for operations in the vicinity of Asia, as well as to ensure the safety of the world.

This is the most in our favor. The United States now holds to some ground for a coastwise station in the Pacific, and may be able to secure a position in the Far East.

Mr. Morris expressed the belief that our present position is supported by the general popularity of the war minister. He added that he did not desire a change in the government, and that the Conservatives have an excellent organization.

Concerning the former Spanish colonies, he said Spain had shown some signs of interest in annexation.

turn to their fields and farms. The Chinese in this province have set an example which will surely be followed elsewhere.

**Sing's Death Causes Controversy.**

Washington, Aug. 30.—The state department has not yet issued an official statement on the death of Li Hong Chang, Minister of Finance, and in all likelihood remains in official ignorance of the cause of death. There is reason to believe the cause must be known, owing to the disposal of the department. It is the general impression here that the Chinese have been responsible for the death of the minister, and that the government of the empire, in the joint action of the Chinese, Japanese, and Germans, will surely be followed elsewhere.

China reports to the state department that this government is in complete agreement with the Chinese in the matter of the Boxer rebellion, and that the Chinese have been satisfactory in their conduct.
