TODAY'S METALS:

SILVER 63% LEAD, \$4.00 CASTING COPPER 1514

Business on the mining exchange closed today with the sale of 17,428 shares of stock for the sum of \$17,811.75. Daly West was the star stock in the pit today. Several other stocks were very interesting features also.

A very marked improvement is no ticed in the market as a whole, With the election settled, there are slight premonitions of an approaching boom in mining stocks. It is some time since such a firm tone was witnessed on the stock exchange. Daly West easily outdistanced any other stock by opening at \$22.62 and selling to \$23.20 before the call closed. Altogether, about 400 shares changed hands. Star Con. was also very actively

traded in Between 6,000 and 7,000 shares changed hands at prices ranging from 68% up to 72%. The advance was regular throughout, the only fluctuation being recorded on the last sale, when 1,400 shares changed hands at 72 flat. A decided improvement is also seen in Sacramento, which stood between 33 and 34 for some time past. To the surprise of a number of investors, it opened at 35 today and advanced to 37 with the sale of some 4,400 shares. May Day was firm at 25½, while faulton-Beck and Con. Mercur are both in evidence on the sales sheet at \$450 per dence on the sales sheet at \$4.50 per

Ben Butler of Bingham was also in much better form today, being traded in at 1%, while Yankee Con, dropped 4,000 shares between 3% and 5% per share. Ajax was also much firmer to-day. Rocco Homestake and South Swansea were also in better condition Closing quotations were posted as foi-

THE DIVIDEND DECLARED TODAY

The Stock Market Exhibits a Much | The Grand Central Directors Post One of 10 Cents Per Share.

Antimony Mines to be Opened Up Again-Eagle & Blue Bell Assays -The United States Property.

The directors of the Grand Central Mining company met in Provo today and declared dividend No. 16, of 19 cents per share, or \$25,000, payable Nov. 15th, the books to close on the 15th inst. The payment of the sum will, according to the records, increase, the total paid by this benanza to \$691,250. About 15 onths ago the company withdrew from the dividend column after paying for some time the handsome sum of \$37,500 nonthly. Its re-appearance in the dividend list again after so many months till be cheerful to those who have the refere of Utable greatest industry of velfare of Utah's greatest industry at

Since the company stopped the payment of dividends an immense amount of development work has been done, of development which has given the company a greater reserve than it had previously, when, after a great deal of hardship, the rich ore body on the 790 level was tapped. The stockholders who had put up means its development, felt then that they ded the wealth which had come with he sudden strike. Consequently the vas extracted from the magnificent \$1. was extracted from the magnification of one was such that the extraction of one was about all that could be done, and it was impossible to push development work, as the management would like to have done. The result was that a day came when it was necessary to reach shead with the explortion work in order to increase the contract. For the past 15 months The machinery was such the ore reserves, For the past 15 months the company has been doing this work, until the directors feel now that the big treasury surplus is not in danger of being reduced by the payment of divi-

WEALTH NEAR MARYSVALE. The Development of the Antimony Mines at Coyoto is Now Assured.

Special Correspondence. Special Correspondence,
Marysvale, Nov. 7.—After employing a force of men all summer
on the Sevier mine, Mr. Charles Lammersderf, who owns 242,000 shares
out of a total of 250,000, has closed
down the property for the winter and
placed a watchman in charge. The
main work has been the development
of the lower tunnel, which has runof the lower tunnel, which has run through an 18 foot body of ore, and is now within 75 feet of the back vein. The deal for the Sevier has been "called off." Mr. Lammersdorf says an exten-sion was asked for, which he would not live. The sampling of the property by give. The sampling of the property by E. P. Jennings is said to have showed an average valuation of \$15 per ton.
At the Annie Laurie the mill is be-

ing prepared for work as rapidly as possible. Nothing is now being done on the Electric power plant as it is the in-tention to use steam for the present at least. The machinery is being put in place and it looks as if the mill will be in commission earlier than was anticipated. Between thirty and forty men are at work in the mountains cutting wood, which will be used for fuel instead of coal.

EXCELLENT LOCATION.

The extension of the Rlo Grande Western raliway from Belknap station to Marysvale, makes this place the dis-tributing point for a large and rapidly growing part of our State. Marysvale, it may be said, is situated in a lovely valley at the junction of Marysvale creek and the Sevier river near to the latter's entrance into Belknap gorge, which is the dividing ridge between the vale" and the big Sevier or Gunnison valley. The location is an excellent one not only for its near proximity to the gold mines, but for the convenience of the teaming interests in the trans-fer of their traffic between the wagons and the railway. At present it is the distributing point for all of the south eastern portions of the State. Sixteen miles south from Marysvale is the tow: of Junction, not far from where the through thriving settlements and farms to Panguitch the county seat of Garfield county, thence south over the rim of the great basin and on to Kanab, and thence to the great Colorado river.

Mines of coal, iron and copper abound on this route, waiting development by the coming generations. And developed they certainly will be, for the nation needs this wealth in her increasing

THE RESERVOIR.

Taking the road from Junction up the East Fork, the route passes through town of Kingston, thence through Ten Mile canyon to the Otter Creek rever-voir, one of the largest if not the larg-est—artificial lake in the State. It was constructed by the combined efforts of the farmers of the several valleys brough which the Sevier river runs, and stands as a striking object lesson of co-operative industrial enterprise, of which its builders can well be proud. It will add millions to the wealth of those counties receiving its impounded

ANTIMONY MINES.

Passing the reservoir and always in sight of the river and the fields and meadows a few miles brings us to the little town of Coyoto, almost bidden by its stacks of lucerne, grain, etc. Near this town is the junction of Coyote Creek, one of the largest tributaries of the Sevier river. Up this creek a few miles very rich antimony mines are lo-cated. Speaking of them Professor W. P. Blake in his report in U. S. Mineral Resources, said they are "the most rearkable deposit of stibnite in the extensively worked about sixteen years ago, but owing to the excessive cost of a long wagon haul to and from Juab station on the Oregon Short Line Railway (the nearest railway point at that time), the mines were closed. However, since the extension of the Rio Grande Western system but that region and the location tem into that section, and the location of settlers upon the vacant lands, quite a change has come. Already a number

of car lots of selected antimony ore to the value of \$16,000, have been extract-ed by leasers and sent to New York and San Francisco. The miners are med by Utah people who will shortly ter the market again, and by the wly discovered methods of treatment ize the large quantities of second Continuing on south from Coyote assing the river farms and hay ranchto the towns of Tropic, Cannonville, very far from iron, coal and cop-sines. This road likewise leads to great Colorado river gold placer mines. Not many years will pass before the railway will take up its work, and the "fron horse" be kept busy day and night hauling out the wealth (Nocal, iron, copper, anilmony, not forgetting the timber, the long leafed yellow pine—the finest in the world.

The farmer and stockraisers have already prepared the way and it now remains for the railway to complete the great work of that part of our glorious

great work of that part of our giorious

THE WEST ARGENT.

A Party of Missouri Stockholders Will Visit the Mine Monday.

Several of the large Missouri stock-olders of the West Argent Mining ampany, reached town today from hillcothe. Among the party was R. S. all and wife, W. B. Leach and S. M. mith. The object of the gentlemen is visit the mine and witness the start with the new mill, and also to attend the annual meeting of the company which takes place on the 15th inst. At that time it is probable that Mr. Hall will be elected president of the company. The party will visit the mine on Monday, where a force of the place of gaged in enlarging the shaft and put-ting in a skip. It is expected that the mill be started up in good shape next

UNITED STATES MINES. Supt. A. P. Mayberry Reports Two

Shifts of Men Employed.

Supt. A. P. Mayberry of the United States mines was in town today from Bingham. Mr. Mayberry feels jubilant over the results of the election, which, he says, means much to Bingham, Regarding a rumor that the U.S. forces were to be cut down Mr. Mayberry said the usual number of men are being employed, but all of them are now employed on two shifts. Sufficient ore is present the interest of the present of the market was a support of the present. opened up in the property. Mr. May-berry says, to supply 200 tons per day to a smelter for 10 or 12 years. The ore-as is known, runs between \$8 and \$10 as is known, runs between \$5 and \$10 per ton. The last shift quits about 3 a.m., which makes about four hours that the compressor is stopped. This cuts off the air supply of the Silver Shield for that time, but as a 35-foot sump has been sunk in that property no difficulty is experienced with the water in that time.

THE PORTLAND MINE.

Big Cripple Creek Property Will Soon Pass to an English Syndicate.

A Denver dispatch says the reported sale of the Portland mine is denied at the offices of the company in Colorado Springs, but it is generally believed in mining circles that this big Cripple Creek property will pass into the hands of an English syndicate, consisting of Venture corporation, the Explora-n company, and Werner, Belt & Co. he South African diamond miners and nyesters in Mexico mines and railways. It is said that the price to be paid is about \$15,000,000. It is known that experts for the concerns in the deal have made thorough examination of the property, and from London the report omes that the deal is practically

Independence and to form a new com pany to control both of the great gold properties. Such a consolidation would create not only the greatest gold mining property in Colorado, but probably the greatest in the world.

THE EAGLE & BLUE BELL. Returns Received Today from Shipment from New Strike.

The Eagle and Blue Bell of Tintic setod for three cars of ore today on conrols showing I ounce gold. 35 ounces diver, 4 per cent lead and 1½ per cent copper, per ton. The ore, it will be en, runs a little below previous shipments, which have netted between \$39 and \$40 per ton. It is the first lot to appear on the market from the new atrike which is reported to be looking well. Two more cars will shortly appear on the market, Meantime some timbering is being done which will timbering is being done which will enable the management to further explore the new ore body.

South Dragon Assessment.

The South Dragon Gold Mining and Milling company has levied an assess-ment of one tenth of a cent per share which lie between the Tesora and Dragon Iron mines in Tintic, Some 200 or 300 feet of work has been done on the prop-erly and the prospects of its one day making a mine are said to be very good.

MINING NOTES.

The latest advices from the Lower Mammoth states that the property is looking about as usual.

C. F. Ercanbrack, of Silver City, has given up his lease and bond on the Sea Swan property in that camp.

With all the roaster material on the round, R. E. McConaughy says he exects the Sacramento to begin leaching its base ores within six weeks.

An eight-inch veln of ore is reported to have been recently uncovered in a drift off the 140-foot level of the Orient property in West Tintic, which shows as high as \$20 in gold with 15 per cent lead and from 6 to 40 ounces in sliver

made on the Tesora ore at the Dewey mill in Bingham. The object is to find made on the Tesora ore at the Dewey mill in Bingham. The object is to find out what kind of plant is best adapted to the ore, so that the mill may be erected at the mine next spring, which will be done if present plans do not

The Bingham Copper & Gold company intends removing the ore taken out in future development work, to the tracted in the drifts that will be driven preparatory to the introduction of the caving system, when the active the caving system, when the active mining of ore shall begin about the first

MARKET VERY ANIMATED.

Divergent Tendency Between Railroad and Industrial Stocks More Marked Today.

Price Movements Irregular - Buoyant Brift Shifted from One Point to Another of the List,

New York, Nov. 9,-The divergent endency between railroad and indusrial stocks was even more distinct this norning than yesterday. Practically without exception railroads were lower on selling to take profits which began in London before the opening here. Northern Pacific dropped 15, but railled a point. On the other hand People's Gas, the local traction stocks and sevdescription | eral of the steel stocks moved sharply

Falling Hair

If your hair is coming out by the handful, you are losing from 500 to 1000 hairs a day You are bound to have thin hair or no hair at all very soon at this rate, aren't you? Better stop this falling at once by using Ayer's Hair Vigor. It will make your hair grow, too, grow thick and long.

If you do not obtain the benefit you desire from use of the Vigor, write the Doctor about it. He will tell you just the right thing to do. Address, Dr. J. C. AYER, Lowell, Mass.

apwards but federal steel fell 1/4. The market was animated and dealings widely distributed. The market took on buoyant tone for some of the special les which were features yesterday, notably the local tractions, sugar, Peo-ple's Gas and leather. These stocks pie's Gas and leather. These stocks jumped about 1½ each. American Car and Tennessee Coal rose 2½ and the steel group was strong as a whole. Railroads did not participate to any noteworthy extent, large sales being made under cover of the movement in the industrials. Nevertheless the mater part of the Nevertheless the major part of the opening losses were recovered and a opening losses were recovered and a few stocks got above yesterday's close. Long Island jumped 10 points to 74 on one transaction and New York Air Brake was 4½ points better. At 11 o'clock the market was very irregular, the local tractions and industrial specialties showing weakness, while the steel group and some of the railroads forged strongly upwards. The market continued furiously active and price movements were irregular. The buoyant tendency shifted from one point to another of the list and earlier centers of strength gave way on realizing. The strength gave way on realizing. of strength gave way on realizing. The whole steel group was very strong, Tennessee Coal rising 3½ and American Hoop 3½. The coalers then took up the movement, Reading first preferred advancing 2½ and others of the group a point or two over. Meanwhile large blocks of standard railread stocks were dealt out on realizing, keeping prices from advancing and depressing them below last night.

Sugar came into prominence with an advance to 1.31%. The general market continued very active with the supply about equal to the demand, but with slight additional advances here and there, notably in the grangers and the Pacifics. Union Pacific got above 66, while sugar reacted a point. The closing was very animated but slightly unsteady with prices below the best. The bond market was active and

MURDER IN THE FIRST DECREE.

Jury Makes Its Finding Regarding Col. Prowse's Slayers.

KING AND LYNCH GUILTY.

Two Ballots in the Case of King-Appeal Will be Taken to the Supreme Court.

The trial in the case of the two men accused of murdering Colonel Prowse is over. For eight days judge and jury have sat listening to the evidence and to the arguments of the counsel for State and defense, and then, after two hours of deliberation the twelve men returned to the court room last evening and pronounced the verdict which meant death to the accused unless there is a reversal or the interposition of the reviewing power.

The charge of Judge Booth to the jury was given at 3 p. m. yesterday, and the jury immediately retired to their room, taking with them the various exhibits in the case. A few minutes later a ballot was taken on the case of Lynch which resulted in a straight vote for his conviction, and showing eleven jurors for the conviction of King. B. K. Anderson standing out for murder in the second degree in that case. A second ballot taken at 5:00 p. m. settled the fate of the other holdup and the jury returned to their places During the time the jury was out the

accused men showed a nervousness, they had never before evinced and at every footfall their eyes turned to the door, expecting to see the jurors returning. When they did make their appearance the accused eyed them with an intensity of gaze not before displayed. Chairman Allan Dorsey pronounced the words of doors. King sank back the words of doom, King sank back pale and nervous in his chair, while Lynch gave a sigh and settled back into his usual indifferent attitude.

Shortly after the verdict the prisoners were handcuffed together and were taken back to the county jall. When asked if they had anything to say Lynch shook his head. King, however, lowed anger and declared he had been

The counsel for defense was given until the 13th to move for a new trial. This motion will be made.

Mr. Lea, who has been associated with Mr.* Wanless in the case as assistant counsel, said to a "News" reporter last night that both he and Mr. Wanless were surprised at the verdict as they had expected at least a recommendation to mercy in the case of mendation to mercy in the case of Lynch and an acquittal for King. Mr Lea says they are not through with the case by any means, and that they will carry it to the court of last resort.

carrannon commence of the comm AMUSEMENTS. Lanna Mariana Mariana

A keen disappointment and a pleasant surprise awaited the audience at the Theater last night. The house was a big and brilliant one in every part, and the count up at the box office must have been superb. The great gathering had no sooner comfortably scated itself, than Frank Daniels' manager came in front of the curtain and announced that the star was unable to appear through having been attacked with a severe throat trouble compelled him to go to San Francisco for treatment. The wave of disappointment that swept over the house almost reached an audible groan, but when the tion had prevailed in Denver, where they played five nights to constantly increasing patronage without Mr. Daniels, very few people availed themselves of his offer to obtain their money back at the box office. The opera then went forward and the pleasant surprise occurred. The gentlemen who appeared in Mr. Daniels stead, Mr. Corany vaudeville house in the country is a very good second edition of that admirable comedian, and though of course he fell a long way short of the original, he won a good number of hearty encores and drew a big amount of laughter. It is easy to see that the part is one in which Mr. Daniels would fairly revel and it is a matter of regret that we shall not be able to see him, but it must be said that in furnishing Mr. Corliss as substitute, he has done the very next best thing possible production in other respects is on the dazzling order; nothing like the scenery and costumes have been seen here for many a long engagement. is the biggest, the prettiest and the most tuneful Daniels has ever presented, the male voices being especially fine. The music is bright and the story funny,

and the finale to ac 2 is very striking.

Helen Redmond is a beautiful women and a sweet singer. Miss Kopp and Miss Uart acted well. Mr. Danforth was an excellent brigand and the tenor. Mr. Thomas, was acceptable. The or-chestra was finely handled by Mr. Gott-All and all "The Amee without Daniels, is a treat to the eye and ear, and it will no doubt continue to do good business.

At the Grand last night, there was a fairly good audience in attendance to witness the rendition of "A Wise Guy" with the comedian Sellery in the central part, that of Spike Hennessy, who gets part, that of spike reinlessy, who gets into all sorts of complications at a summer hotel, where he goes as a planc tuner. Mr. Sellery fits his character closely and drew out any amount of laughter. He was well supported by a capable company principal. capable company, principal among whom were Anna Maitland, the actress, and Mr. Sandford the landlord. The same bill runs tonight and tomorrow

night with a Saturday matinee, Seats are now selling for the engage-ment of the famous Whitney-Knowles "Quo Vadis" company at the theater four nights and matinee commencing Monday. The company, numbering fifty reached Salt Lake today from Los Angeles, and will rest here over Sunday. The magnitude of the production does not permit appearances in the smaller

WILL CONTEST KENTUCKY. Chairman Coombs Says Yerkes Cer-

tainly Has a Plurality. Louisville, Ky., Nov. 3.-Republican hairman Leslie Combs, who was compelled by illness to quit his headquarters yesterday was somewhat better today and announced his purpose to con-

test the electoral vote of the State and

to see that congressional contests are

instituted by the defeated Republican

candidates in the Third, Ninth and Tenth districts.

Mr. Combs said:
"There is no question that Yerkes carried the State by a substantial plurality of the votes cast. It will take the official count to show how many ballots were not counted by the pre-arranged plans of the Democrats to reduce the Yerkes vote. When it is realized that ten votes to the precinct means over 18,000 votes in the State it can readily be seen that this number of votes could have been secured by the Democratic party in each precinct with Mr. Combs eaid: Democratic party in each precinct with-out affecting public opinion by the open

out affecting public opinion by the open rufflanism and disregard of appearances which controlled their action in 1879. The thefts this year are, in my opinion, greater than they were last year.

"I desire to make no factious contests, but if the facts are as we now believe we will contest the electoral vote."

As to congressmen Mr. Combs said: "We believe that Moss was elected over Rhea in the Third district: that N. L. Hopkins defeated J. B. Who in the tenth and that S. M. M. Pugh defeated J. N. Kehoe in the Ninth. We believe that their election will be shown on the face of the official returns but if the commissioners fail to count the ballots commissioners fail to count the ballots that were not counted by the officers of election we shall certainly contest."

Big Fire at Biloxi, Miss.

New Orleans, Nov. 9.-Biloxi, Miss., New Orleans, was swept by a terrific fire this morning, which destroyed upwards of one hundred buildings and rendered hundreds of people homeless. Blloxi is a town of seven thousand peo-ple and a well known summer resort for Mississippians and Louisianans and a winter resort for northern people. I has a small fire department and contains many frame buildings, and the fire simply burned until it had nothing further to feed on. The fire started shortly after midnight in a saloon near the Louisville & Nashville depot and after destroying the depot swept through to the beach, a distance of sev-eral squares. No lives were lost but many of the poorer people lost all their possessions. The Catholic church, possessions. The Catholic church school and convent, two newspaper of fices and several fine brick stores were among the buildings destroyed. The loss is estimated at \$300,000 with

\$125,000 of insurance. Killed Over Politics.

Hayden, Ky., Nov. 9.—News reached here today that on election day James Creech was shot and instantly killed at Woolen in a general fight over politics

Portions of a Body Found.

New York, Nov. 9 .- A portion of a man's body was found in the ruins of the Tarrant & Company building today The find consisted of a head, trunk, one hand and a foot. The body is believed to be that of Patrick Hennessey, of Ho-boken, N. J., who was employed as a porter for Eppens. Smith & Weimann company, coffee dealers, and who has been reported missing.

Hanged for Murder.

Washington, Nov. 9 .- Frank W. Funk was hanged at the district jail for the murder of William Brooks, on June 23 savings, about \$2,000, and also murder-ously assaulted the latter's wife. His victims were aged people.

Hearing in Gaynor Case.

New York, Nov. 9.—The hearing in the case of J. F., W. T. and E. H. Gay-nor and Benjamin D. Greene, alleged conspirators with Capt. Oberlin Carter, for their removal to Georgia for trial, was resumed today. Col. John Rutherford, formerly a contractor in Atlanta, was called by the defense as the first witness. He was excused at ter having been asked a number of techincal questions, and the bearing was adjourned until Monday.

The Olga Floated.

San Francsico, Nov. 9.—The steamer Olga was floated after a large amount of her cargo had been jettisoned. She is now being towed in the harbor by five tug boats. The extent of the five tug bonts, damage incurred cannot be stated at

Canadian Election Returns.

Ottawa, Ont., Nov. 9 .- Full returns in Canada will give the liberals about 49 and the conservatives 42. There is no change of consequence in the west. Of the 17 constituencies without Lake Superior, ten will support the govern ment and seven the opposition. In two of the constituencies, which are at heard from. So far the government, including independents, will have a majority of 58 over the conservatives.

Storm on Lake Erle.

Cleveland, O., Nov. 9 .- The terrific storm on Lake Erie continues today with unabated fury. The captain of the passenger steamer City of Erie, which arrived early to-

d the mast of a sunken vessel sticking out of the water about twenty-five
