

CUBAN MODERATES WIN AT THE POLLS

So Complete is Victory That it is Generally Admitted to Mean Re-election of Palma as President.

COL. TERRARA IS ARRESTED.

Liberal Candidate is Charged With Seditious and Revolutionary Utterances.

Havana, Sept. 25.—Complete returns from the entire island, which have been delayed owing to the bad condition of the telegraph service, show that in the election last Saturday for members of the government were victorious in every province, not having lost one important place. The victory was so complete that it is now generally admitted to mean the re-election in December of President Palma and the election to the vice-presidency of Mendez Capote, the leader of the Moderate Party.

Col. Terrara, secretary to Gen. Gomez, the liberal candidate for the presidency, was arrested today charged with seditious and revolutionary utterances. This makes the sixth charge against him, the others being for sedition, treason, and other offenses.

Col. Terrara is a veteran of the Cuban war, and one of the most prominent leaders of the liberal movement in Havana. He has been charged with seditious and revolutionary utterances, and is now being held in prison. The government is determined to suppress the liberal movement, and to maintain the power of the Moderate Party.

WRECK AT HARNEY, NEV.

Caused by Criminal Carelessness On Part of Railroad Employees.

Reed, Nev., Sept. 25.—In the inquiry into the wreck at Harney, Nev., on the Southern Pacific, the jury found that the wreck was caused by criminal carelessness on the part of the railroad employees. The jury also found that the railroad was liable for the damages caused by the wreck.

Cashier Palmer Sentenced.

New York, Sept. 25.—Francis H. Palmer, the former cashier of the Peacock bank of Sag Harbor, who last week pleaded guilty to the charge of embezzlement of \$41,000, was today sentenced to not less than one year nor more than three years' imprisonment in state prison.

"Where the Clothes Fit"

RATES ARE FIXED BY THE

PACKERS, SAYS A. B. STICKNEY

President of Chicago, Great Western Declares Railways Don't Have Much Say in the Matter.

Chicago, Sept. 25.—"The packers fix the rates," declared A. B. Stickney, president of the Chicago, Great Western railway, testifying for the defense before the Interstate Commerce commission today regarding freight rates on live stock and live stock products from the Missouri river to Chicago. In answer to a question as to how the charges were made, President Stickney replied:

"On the rate on dressed meat we don't have very much to say. The packers generally make the rate. He comes to you and always makes you feel that he is your friend. Then he asks you how much you charge for certain shipments of dressed meats. The published tariff may be 21 cents per hundred, but he will not pay that. You say to him: 'I will carry your meat for 15 cents.'"

"He says: 'Oh, no, you won't. I won't pay that.' Then you say: 'Well, what will you pay for it?' He then replies: 'I can get it hauled for 16 cents.'"

"So you haul it for 16 cents per hundred. He generally tells you that if you want the business you must haul the meat for the price he names. President Stickney denied that his road had paid any claim for damages or rebates since the Grosscup injunction. This is particularly pleasing to the Swedes from a sentimental standpoint, as the rights of the Lapidars are looked upon as time-honored. The settlement of the transit question establishes a foundation for peaceful intercourse between the two countries.

NORWEGIANS ACCEPT IT.

Christiania, Norway, Sept. 25.—The agreement reached at Karlstad was published here this evening. The papers got out extras and crowds thronged the streets. The first impression formed was favorable to the agreement.

All indications point to the acceptance

SWEDES SATISFIED WITH PROTOCOL.

Not One Person Heard to Dissent From Agreement Reached At Karlstad.

PRINCIPAL OBJECTS ATTAINED.

Expressions of Pleasure Everywhere—In Norway Impression Formed of It is Favorable.

Stockholm, Sweden, Sept. 25.—Almost without a dissentient voice the people of Sweden, so far as can be judged by the expressions of the press here and elsewhere, received with satisfaction the terms between Norway and Sweden reached at Karlstad. The general opinion is voiced by the Social Democrat, which in its leading editorial this morning says:

"Our principal objects, arbitration and the demolition of the frontier fortifications, having been attained, we trust that everybody in both countries will recognize that the two Scandinavian peoples mutually need each other's friendship and that the agreement will bring more happiness to both."

In an interview with the Associated Press Christian Lundberg, 130 premier, who was one of the Swedish commissioners at Karlstad, said: "I am satisfied that the result of the conference will be satisfactory to Sweden, as with a few modifications we gained almost everything asked for by the riksdag. The result also ought to be satisfactory to Norway, as she gained the assurance of that independent position which has been the goal of all the efforts of the Norwegians. The concessions made by the Norwegian delegates at Karlstad were necessary. Considering everything and in the interests of peace it is to be hoped that the preliminary treaty will be ratified by both parties."

According to information received by the Associated Press the neutral zone provided for in the agreement includes an area varying from three to 12 miles on each side of the frontier. On the Norwegian side the zone runs from the northwestern point of Kirkenes to the point where the Ulan crosses the sixty-first meridian. The coast zone meets rather closely because of the possibility of having to fortify against a foreign enemy. The arrangement with regard to the fortresses, it is believed, will be satisfactory to all parties.

Expressions of pleasure are heard everywhere because both sides have recognized the humanitarian principle in permitting the Lapidars to enjoy pasturing for their reindeer undisturbed. This is particularly pleasing to the Swedes from a sentimental standpoint, as the rights of the Lapidars are looked upon as time-honored. The settlement of the transit question establishes a foundation for peaceful intercourse between the two countries.

INTERNATIONAL CONGRESS

OF ECONOMIC EXPANSION

Spends Day Discussing a Plan for Placing Polar Exploration Under International Direction.

Mons. Belgium, Sept. 25.—The International Congress of Economic Expansion at its session today discussed a plan for placing Polar exploration under international direction. A motion to this effect was signed by the Duke of Abruzzi, the Duke of Orleans, Dr. Charcot, the French Antarctic explorer, Lieut. Gerlach, the Belgian antarctic explorer, Dr. Nordenfjeld, the Swedish Arctic explorer, and many other explorers.

The signers are said to be certain to have the co-operation of Commander Peary and Dr. Nansen and practically all the Arctic explorers. Dr. Nordenfjeld, Lieut. Shackleton of the British navy, the Antarctic explorer, and W. S. Bruce, it was said, were ready to take part in an international expedition.

A motion was adopted approving the plan for international direction of Polar expedition and asking Belgium to take the initiative in inviting other nations. The congress also considered a proposition for the creation of an international committee for the purpose of gathering the information gathered by all scientific missions.

Frederick J. V. Skiff of Chicago was among the supporters of the proposal. The British section of the congress adopted. A committee was appointed to organize it.

The political section discussed trusts and tariffs without reaching a determination. Minister of State Bernart addressed the marine section upon the necessity for an international agreement upon maritime legislation.

EQUITABLE DIRECTORS.

Only One Answer Received in Suits Brought Against Them.

New York, Sept. 25.—State's Attorney Mayer announced today that thus far he had received but one individual answer from any of the directors of the Equitable Life Assurance society in the suits he has brought against the society and its directors for an accounting of the society's funds.

This director who answered took the ground that whatever wrong doing there might have been on the part of the other directors, he, as Jones, was ignorant of anything wrong.

Atty.-Gen. Mayer has extended the time in which the directors may answer the suits against them to Oct. 10.

German Evangelical Synod.

Roanoke, N. Y., Sept. 25.—The quadrennial conference of the German Evangelical synod of North America in session in this city sent greetings to President Roosevelt today.

Addressing on behalf of the general conference of the German Evangelical congress in quadrennial session to you, Mr. President: Ephesians 4, 3 to 6.

A declaration of the conference of divorce was made today as follows: "The synod supports the biblical view of the question. Both frivolous divorce and imprudent marriages are to be censured severely. The remarriage of divorced persons should be regulated logically."

Do You Know

why your children tire of most breakfast foods? It is because of the presence of indigestible matter and the absence of nutritious elements.

is digestible, because being free from fibre and thinly flaked, it is easily assimilated.

Is nutritious, because made of only the finest quality, sound, plump wheat.

In two pound packages. Sealed to protect purity and flavor. All good grocers.

Pacific Cereal Association

San Francisco, California

by Norwegian generally of the terms of the agreement reached at Karlstad, though at present some persons are inclined to severely criticize the Norwegian commissioners for conceding so much to Sweden. As far as the Associated Press has been able to ascertain, the result meets the approval of the great bulk of Norwegian opinion. The press as a whole accepts the situation, though a few Chauvinists continue to voice their opposition to the agreement. The provincial press appears to accept the result with equanimity.

The Verdens Gang this morning says: "We must acknowledge that our delegates obtained as much as possible and that a large majority of the people of the nation agree with the delegations that the question of fortifications was of secondary importance, considering the undoubted security obtained by Norway as the result of the convention."

The Morgenbladet, while having no doubts that the settlement reached at Karlstad will become binding, advocates a complete and definite settlement of all the conditions, as the present arrangement is only provisional.

That the convention will undoubtedly be ratified by the Norwegian storting and in all probability by the Swedish riksdag is the belief of the Aftenposten, which adds:

"The independence of Norway has been won at the cost of some sacrifices which all of us would like to have been spared, but the principal condition demanded by Norway, the dissolution of the union, has been obtained."

Yellow Fever Report.

New Orleans, Sept. 25.—Official report to U. S. N. M. Monday:

New cases, 37; total, 2,385.

Deaths, 21; total, 530.

New foci, 7.

Cases under treatment, 282.

Discharged, 2,126.

The great majority of the new cases being reported lately came from the Seventh and Eighth wards, which developed into the real battle ground of the fever campaign as soon as the situation in the originally infected district began to get under control. Today's report shows most of the new cases in that territory.

Nine from the country indicated two new points of infection, one in Avoyelles parish and another in Assumption parish.

Terrebonne parish (two days) reported 47 new cases, four deaths; Patterson, 29 new cases.

DISCRIMINATION CHARGED

Against the Burlington, U. P. and Other Railroads.

Washington, Sept. 25.—Complaint was filed with the interstate commerce commission today by the Marshall Oil company of Marshalltown, Ia., protesting against existing freight rates on oil shipping in less than carload lots. The complaints cover rates of the Burlington, U. P., Chicago & North Western, Missouri Pacific, Chicago, Rock Island & Pacific, Iowa Central, Chicago, Milwaukee & St. Paul, and Union Pacific railroads are the defendants.

JAPANESE ARE DISSATISFIED.

But Their Chagrin Will Not Vent Itself on Baron Komura.

Seattle, Wash., Sept. 25.—Kentarō Kayahara, editor of the Yoroichi Chuo, one of the leading papers published at Tokyo, is in Seattle, accompanied by Dr. Naomasa Ishihara, assistant of the Tokyo astronomical observatory, Tokyo Imperial university. Mr. Kayahara today stated that his personal observation led him to believe that practically all of the people of Japan are dissatisfied with the peace treaty, but their chagrin will not be manifested in acts of violence to Baron Komura and the other members of the peace mission when they return home.

"Baron Komura will not be received with funeral rites when he reaches Tokyo nor will he be received with shouts of glad acclaim. Whatever humiliation he is subjected to will be the humiliation that comes from not being received with cheers and welcoming banquets such as marked his departure from Japan on that important mission to Portsmouth," said Mr. Kayahara. "The people of Japan do not blame Baron Komura wholly for what they consider the humiliating conditions to which he subscribed, but they do feel that he was partially responsible along with the other members of the cabinet and other advisers of the emperor, and they resent the acceptance of the terms of peace. I believe that the present ministry will be dissolved soon, because the people are clamoring for the resignation of the cabinet and the emperor is giving personal attention to the memorials to the throne. The people of Japan demand a new cabinet, and I think they will win."

STANDARD OIL FINANCIERS

GET OHIO TRACTION SECURITIES

Cleveland, O., Sept. 25.—The Leader today says:

The Standard Oil group of New York financiers has obtained control of traction securities in Ohio and Indiana with a par value of \$50,000,000. Other similar transactions are known to be pending. The positive statement was made yesterday by a prominent Cleveland

EMPHATIC TALK

The Kind That Carries Conviction to Every Salt Lake Reader.

Conviction must follow such emphatic proof as is given here. The testimony of Salt Lake City residents should satisfy the most skeptical. Here is a Salt Lake City case. Read it and see if doubt can exist in the face of this evidence.

Mrs. Robert C. Kirkwood, wife of R. C. Kirkwood, engineer on the Oregon Short Line railroad, residence 42 West Fourth South, says: "An advertisement in a Salt Lake City paper about Dean's Kidney Pills so impressed me that I asked Mr. Kirkwood to call at the P. J. Hill Drug Co.'s store for a box, because I wanted to try the preparation to see if it would act as other medicines had acted in the past or perform what it promised. After an attack of the grip my kidneys were weakened and easily affected. The pain centered in the small of the back and was particularly severe, rendering sleeping or use of lifting anything but painful. My physician told me it was kidney trouble, so that I had not the slightest doubt but that a remedy for the kidneys, if a remedy at all, should have some effect upon those organs. Dean's Kidney Pills certainly did me a world of good. I will be only too pleased to recommend the medicine when opportunity presents themselves."

For sale by all dealers. Price 25 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Dean's—and take no other.

"SOME PEOPLE DON'T LIKE US."

CONTAGIOUS BLOOD POISON

HUMILIATING—VILE—DESTRUCTIVE

The very name, Contagious Blood Poison, suggests contamination and dread. It is the worst disease the world has ever known; responsible for more unhappiness and sorrow than all others combined. Nobody knows anything about the origin of this loathsome trouble, but as far back as history goes it has been regarded the greatest curse of mankind.

No part of the body is beyond the reach of this powerful poison. No matter how pure the blood may be, when the virus of Contagious Blood Poison enters, the entire circulation becomes corrupted, the humiliating symptoms begin to appear, and the sufferer finds himself diseased from head to foot with the vilest and most destructive of all poisons. Usually the first symptom is a small sore or ulcer, so insignificant that it rarely ever excites suspicion, but in a short while the skin breaks out in a red rash, the glands of the groin swell, the throat and mouth ulcerate, the hair and eye-brows come out, and often the body is covered with copper-colored spots, pustular eruptions and sores.

There is hardly any limit to the ravages of Contagious Blood Poison; if it is not driven from the blood it affects the nerves, attacks the bones, and in extreme cases causes tumors to form on the brain, producing insanity and death. No other disease is so highly contagious; many an innocent person has become infected by using the same toilet articles, handling the clothing, by a friendly handshake or the kiss of affection from one afflicted. But no matter how the disease is contracted, the sufferer feels the humiliation and degradation that accompany the vile disorder.

Mercury and Potash are commonly used in the treatment of Contagious Blood Poison, but these minerals cannot cure the disease—they merely mask it in the system. All external evidences may disappear for awhile, but the treacherous poison is at work on the internal members and tissues, and when these minerals are left off the disease returns worse than before, because the entire system has been weakened and damaged by the strong action of the Mercury and Potash. There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S., the great vegetable blood purifier. It attacks the disease in the right way by going down into the blood, neutralizing and forcing out every particle of the poison. It makes the blood pure and rich, strengthens the different parts of the body, tones up the system, and cures this humiliating and destructive disorder permanently.

The improvement commences as soon as the patient gets under the influence of S. S. S. and continues until every vestige of the poison is driven from the blood and the sufferer is completely restored to health. S. S. S. is not an experiment; it is a success. It has cured thousands of cases of Contagious Blood Poison, many of which had given the Mercury and Potash treatment, Hot Springs, etc., a thorough trial, and had almost despaired of ever being well again. S. S. S. is made entirely of roots, herbs and barks, and does not injure the system in the least. We offer a reward of \$1,000 for proof that it contains a particle of mineral of any kind. If you are suffering with this despicable and debasing disease, get it out of your blood with S. S. S. before it does further damage. We will gladly send our book with instructions for self-treatment and any medical advice, without charge, to all who write.
