SESSION OF THE CITY COUNCIL

Solons Turn Down Claims for Damages From Recent High Waters.

AFFAIRS OF WEBER COUNTY.

Controversy Over Mental Hospital Patient—Remains of Dead Man Still Unidentified—Court Notes.

Ogden, March 12.—After a lengthy consideration of the claims which have been made by property owners for damages done by the recent high water, the city council last night decided not to allow the bills. Beside the bills for damages presented by the Ogden Canyon Sanitarium company and the Salt Lake & Ogden Railway company, aggregating \$30,000, J. T. Miller, 2642 Monroe avenue, presented a bill for \$500, also for damages from water.

The council decided to open Thirty-second street from Washington avenue to Porter avenue. This action was taken upon application made by the residents of Thirty-second street, who agree to stand the greater portion of the expense.

The improvement league petitioned the council to pave Wall avenue between Twenty-fifth and Twenty-sixth streets.

WEBER COUNTY AFFAIRS.

Controversy Over Insane Patient—Remains of Dead Man Still Unidentified—Court Notes.

Ogden, March 12.—A legal controversy is likely to arise between Weber county and the state mental hospital, unless the management of the hospital permits George Cox, an aged resident of Weber county, to re-enter the institution. Mr. Cox was committed to the asylum a few months ago by District Judge Howell, after being duly examined by two local physicians, who declared him insane. He was taken to the asylum and kept there but a short time when Dr. Caldwell, the managing physician, discharged him and sent him home. Since his return he has been acting just as quietly as before commitment and has been causing his children, who live at West Weber, great alarm. Several of his children appeared before the board of county commissioners yesterday afternoon and reported his queer actions. They say he will get up out of bed at 4 o'clock in the morning and want to go out into the field to work and when they object he will try to dash his brains out against the wall. They asked that he be recommitted. Dr. Caldwell was communicated with concerning the matter. He informed the board by telephone that he had received instructions from the state not to accept such patients as Cox is, and would not take him back. The board, on receiving this information, decided to present the matter to District Judge Howell and see if he will not enforce his order of commitment, which if done will no doubt cause a legal controversy, which will be hard to settle.

The board instructed the county clerk to communicate to Dr. Gordon, the county physician, their desire that in the future he act as one of the examining physicians of all insane persons without special compensation for such labors.

J. S. Brownell appeared before the board and stated that rats are causing the residents of certain parts of Weber county no end of trouble by damaging orchards, etc., and asked for an allowance of poison to kill them. The request was granted.

The board discussed road matters at some length and decided on some improvements in several districts.

man found dead in the Fashion rooming house Saturday is not George Luby of Seattle, Washington, as was first thought. Several gentlemen who knew him have viewed the body at the morgue and say it is not him, but declare the face of the dead man is familiar, but none can give his name. Sheriff Sebring has found out that a woman did occupy the room part of the time with the man, but that Friday morning she left him, and was assisted to the depot by one of the rooming house help and left town. The whereabouts of this woman is now being diligently sought by the officers, who believe she can tell who the man is, and can perhaps throw some light on the cause of his death. A picture of the dead man was taken yesterday and sent to Goldfield, Leadville and Seattle by Sheriff Sebring who hopes to get some information that will lead to his identity. The inquest has been postponed until the officers get some more evidence they need.

DEATH OF MRS. BERTHA GALL.

Mrs. Bertha Gall, a well known Holland lady, died yesterday at the family residence west Twenty-fourth street, of apoplexy, aged 55 years, 3 months and 10 days. Two years ago she moved to Ogden from Holland and soon after towards her husband died, two months later her oldest son was called from mortality and now she has been relieved of life's sorrows. Nine weeks ago she slipped and fell breaking her left leg but she was recovering quite rapidly from that injury, when apoplexy came, resulting in her death. She was a faithful member of the Latter-day Saints' Church, and a kind hearted woman. Two daughters and a number of grandchildren survive her. The funeral services will be held Wednesday at 3 o'clock at the Wilson ward meeting-house. The casket will be open at the home on date of funeral between the hours of 10 a. m. and 12 noon. Interment will take place in the Ogden city cemetery.

HAMER APPOINTED.

At a session of the federal court held here today by Judge John A. Marshall, Daniel Hamer was appointed referee in the case of Thomas England and 56 others, the owners of the Ogden Waterworks company. The court suggested and counsel on both sides concurred that a referee be named to take testimony, and that the duties of the court be made in accordance therewith. As the case is complicated and more than \$20,000 is involved, much time would have been consumed in the case.

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs or some old blood taint which has corrupted and polluted the circulation. Those most usually afflicted with old sores are persons who have reached or passed middle-life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisonous germs which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and eats into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion; the same germ-producing cancerous ulcers is back of every old sore, and especially is this true if the trouble is an inherited one. Washes, salves, nor indeed anything else, applied directly to the sore, can do any permanent good; neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If every particle of the diseased flesh were taken away another sore would come, because the trouble is in the blood, and the blood cannot be cut away. The cure must come by a thorough cleansing of the blood. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities it nourishes the purified, inflamed flesh with healthy blood.

Then the sore begins to heal, new flesh is formed, all pain and inflammation leaves, the place scabs over, and when S. S. S. has purified the blood the sore is permanently cured. S. S. S. is for sale at all first class drug stores. Write for our special book on sores and ulcers and any other medical advice you desire. We make no charge for the book or advice.
