Mal. Young Talks of Probable Course of Senators in Dealing With It.

FEELS MUCH ENCOURAGED.

Says the Situation Looks Brighter for Defeat of Measure Than it Did.

If it Passes, Will Induce Countervailing Duties by Parties to Brussels Compact and Threaten Sugar Industry.

(Special to the "News.")

Washington, D. C., Feb. 12 .- Major R. W. Young of Salt Lake, who is here in the interest of the sugar men of the west, has been making a careful canvass of the probable course of senators in dealing with the Philippine tariff bill. Mr. Young said to the "News" corre-"While it is of course imepondent: possible at this time to predict definitely what the outcome will be, at the same time I feel warranted in saying that the situation looks far brighter for The defeat of the bill than it did. In this connection the compromise on the Cuban sugar tariff will not be felt in this country until our own production approaches our annual consumption. If we permit the sugar of the Philippines to come in at 25, or even 40 per cent of the Dingley rate, the nations who are parties to the Brussels agreement will parties to the Brussels agreement will surely place a countervailing duty against Philippine sugars, with the re-suit that the entire surplus of those is-lands will come to the United States, and with all due deference to the yiews of Secy. Taft, I believe that with such a market in prospect the production of sugar in the Philippines will be in-creased to such a degree that it will threaten annihilation to this important industry within the limits of the United States. For this reason no compromise States. For this reason no compromise will be satisfactory."

#### HEARINGS ON BILL.

Washington. Feb. 12.-Hayward Leavitt, of Omaha, Neb., who is largely interested in Nebraska sugar factories, interested in Nebraska sugar factories, today declared before the senate com-mittee on the Philippines, that the pending tariff bill with the islands was a "knife in the vitals of the reclama-tion service and the development of the west." He said that the govern-ment has estimated that it will cost 15 an area to irritate large tracts of #35 an acre to irrigate large tracts of land. In order to support that value intensified farming will be necessary and this could be accomplished, he in-sisted, only by using the sugar beet as a rotary crop. He believed that sugar production in the Philippines would increase in two or three years if the tariff bill passes, sufficiently to destroy the market for American sugar, which costs so much more to produce. 135 an acre to irrigate large tracts of

Judge Grosscup said that his remedy would be, first, to have any body of men who proposed to form a corpora-tion show that they had the actual as-sets, the capital they pretended to have sets, the capital they pretended to have at the outset, then to place proper safeguards around the corporation to sate that it was legally managed, and to simplify the routine, the issuance of stock and so on, so the man in the ordinary walks of life could understand the conditions. ### PLEDGE NOT TO RESIGN.

New York, Feb. 12.-A Santo Domingo dispatch to the Herald, dated Sunday, says: "Gen. Caceres today positively re-fused to pledge himself not to resign Feb. 27, when the chamber of deputies

assembles. "Among the crowd of callers was a committee which formally requested him not to surrender the presidency for a month at least, until the Dominican chamber ratifles the treaty with the

United States, in order to avoid any possibility of complications. "Col, Colton, general receiver of cus-toms, as well as others pleaded with Gen, Caceres to retain office until the chamber had acted.

"Gen. Caceres' reply was that he could make no promise, and he did not wish people to believe his military achievement was due to ambition ra-the there is a minimize a bendier be ther than to patriotism. Besides, he feit that Americans, not properly un-derstanding the situation, would as-sume that he conspired to oust Gen, Morales.

"Today he told visitors that he could not agree to retain the presidency pending the consideration of the treaty by the chamber, as he feels it his duty to resign, though he may not do so the first day. He will give no promise how long he will refrain, and he will write Col. Colton tomorow to this effect.'

### FOLK ON SHIFTING BURDEN OF TAXATION.

Chicago, Feb. 12 .- A dispatch to the Record-Herald from Jefferson City, Mo.,

says: Gov. Folk last night issued an explicit statement of his convictions conplicit statement of his convictions con-cerning the abolition of personal taxes in Missouri, and the shifting of a large part of the burden upon the big cor-porations. He said: "It is asserted by some persons that the removal of states tax from personal property, thus placing upon real estate and corporate monopolies the burden of government would benefit the rich at the expense of the poor. "On the contrary, in proportion to

the expense of the poor. "On the contrary, in proportion to personal property tax (and by personal property is not meant corporate fran-chises and privileges), falls heaviest on the poor and the honest. "The abolition of this tax and put-ting it on corporate privileges cannot be to the advantage of the rich as against the poor, for the poor man has no monopoly privileges and no corpor-ate holdings.

RIGHT OF WAY FOR **IRRIGATING CANALS** Rep. Howell Urges Com'r of Indian Affairs to Grant it

In Uintah.

HE OBSTINATELY REFUSES IT.

It is Wanted Over the Lands That Are Reserved for the

Indians.

(Special to the "News,") Washington, D. C., Feb. 12 .- Representative Howell has been laboring with the commissioner of Indian affairs trying to induce him to grant a right of way for irrigating canals through the grazing lands reserved for Indians at the Uintah reservation but the commissioner, backed by the interior department, insists that refusal of the request is necessary to protect the water rights of the Indians, and in consequence is employed to adopt a course which may seem inimical to homesteaders who will soon settle upon the lands. Congressman Howell, however, will urge the commissioner of Indian affairs to include an appro-priation of \$600,000 in the Indian ap-propriation bill, \$125,000 of which is to be immediately available for the establishment of a comprehensive sys-tem of irrigation of the Uintah lands, Such an appropriation would solve the problem to the satisfaction of settlers as well as Indians, especially as 1 is proposed to safeguard the rights of the government as well as the Indians by providing for the payment of rea-sonable water rents.

During the consideration of a bill During the consideration of a bill to regulate the sale of poisons in the District of Columbia, the statement was made that the drug habit, partic-ularly the use of cocaine, had grown at an alarming rate during the past five years. Chairman Babcook said he had been called at all times of day and night by mothers and persons in-terested to plead for a law which would make it impossible to obtain this drug. A ripple of interest was manifested when Mr. Babcock at 2 o'clock called up the bill to punish with 30 lashes wife beaters in the District of Columbia. He said President Rossevelt and the Dis-trict of Columbia efficials were in sym-pathy with the bill and it was only those possessed with the character of "maudlin sentiment which sent flowers to the criminal's cell who opopsed it." The evil had grown, he said, to be decidedly greater than the liquor habit. The bill was passed. The chief of police of Washington, he said, has reported 50s wife beatings in the past two years. Adequate pun-ishment, he said, should be provided. Mr. Adams said he did not advocate the whippingpost as it existed in Dela-

Mr. Wachter (Md.) said that if the bill passed, the city of Baltimore had a very good whipping post in the Bal-timore city jail which the district could buy at a bargain. In fifty years, he said, it had been used but twice. "The women of Maryland don't want it used any more than the men."

MARCH OF THE UNEMPLOYED THROUGH LONDON STREETS

London, Feb. 12 .- There was another march of the "unemployed" through the streets of London today, with the object of impressing the new government and legislators, but the demon-stration fell flat. The procession was hardly half the length of the previous demonstrations, and the attitude of the public towards the subscription colors showed that interest in the "pover-ty parades" has been decidedly waning since they took on a distinctly politi-cal character. The men marched along the Victoria embankment to Hyde Park, where they listened to speeches delivered by labor party members of prominence, and adopted the usual resolution demanding that the government come to their aid.
