QUA UN INTERNAZIONALIANA PROPRESENZA PROPR MINING, BUSINESS AND STOCKS

New York, April 9.- In response to

off within an eighth of Saturday's close

opening here. Gains were in sharp fractions. Union Pacific gained %, but felt

ket became feverish on the advance

on the open sales. A vigorous drive

specialties gave way rapidly. The Pa-

cities were the weakest spot in the rall-

roads, their losses averaging about a

point. Near 11 o'clock a rise in the

tractions checked the selling. The mar-

ket became feverished on the advance

and ultimately reacted on heavy sell-

ing of the tobaccos, sugar and the metal

stocks. Sugar sold below 109 compared

ons was better maintained

rather heavy.

tooks showed net losses.

ial bills, 4.83m 16

her departments. Railroads were quiet

The market made a further slow improvement in the final hour. Sugar moved up to 111%, as against 107% at the low point. The local tractions re-

sumed their upward tendency. Gains in

anticipated.

A Box of Samples Reached Town To-

day-Ore is Very Rich. fine looking samples of copper reached the city today from Vir-a. H. S. Joseph to whom the box samples came says the property which the ore was obtained is lol near Virgilina in that State, and the neighborhood of some big proris. A very choice sample of the will run close to 70 per cent in the metal, while samples of the vein er shows good ore intermixed with e quartz. Mr. Joseph says the rich ck runs from 1 to 4 feet wide, while coin is from 8 to 10 feet in width, samples are choice and lead one to

leve that big bodies of ore lie close where they were obtained. AT THE DALY-WEST.

Mine Showing Up Surprises - Vig orous Work on West Drift.

The Daly-West is still showing up isses of a very pleasant nature, the Park Record. The main drift on the 1,400 level is being vigorous-shed. The object of this drift is to inder the large ore bodies of the foot level, and the objective point is ahead of the present face of annel a distance of some 800 or 1,000. Three eight-hour shifts are being ed in this drift, and the work is od in this drift, and the work is pushed forward as rapidly as ble, and will be kept up until the for which it was started has achieved. The getting under the codies on the 1,200 means a great both in the way of valuable detent work and increase of output, in this drift, that the large ore sported some time ago was run h last month. The ore extracted this with in koing through, about five feet, was largely first class, as put through the mill without g. And now the face of the drift in in milling ore. This new body accountered Tuesday, and its exercise course, is not yet known. For atter, the extent of the former s not known, as it was not folup, though running on the strike vein. The distance between the tre body mentioned and the one in is about 150 feet. The new was in the nature of a surprise. more strikes were expected until int now headed for was reached. ver, these discoveries all go to that the immense ore bodies in operty go down, and add mater-o its reserves. This main drift in a distance of about 600 feet. it is going along at the rate of ten feet per day. On the various levels above the showings are iy good, and the entire property sally good, and the entire property looking first class. At present about o tons of crude ore passes through the ill daily, and were it not for the fact at the mill is slightly handicapped at each from the scarcity of water, this rount would be increased. Mill Forean Sherman wants the figures to ach 150 tons daily before he will be tirely satisfied with the present plant, more than holding her own now. Everything about the mill is running smoothly and satisfactorily,

ORE SHIPMENTS. Following are the shipments of ore from the Mackintosh sampler for the past week:

Daly-West ... 661,000 Archor concentrates 245,000

Total number of pounds .. 1.2,316,000 SMELTER CHARGES.

and the probability is that the mills and plants which were built to utilize the more modern methods, will continue to collect the toils mine owners have been compelled to pay during the last light months.
If there is a closing down of mines

refuse to submit to exorbitant treat-ment charges the blame will rest upon the shoulders of the capitalists con-trelling all the means of ore reduction available, and the resulting paralysis of the mining industry, be it large or small, cannot this time be ascribed to any alleged idiosysterasdes nor anarchi-istic manifestations of the laborine

istic manifestations of the laboring man nor to unwise legislation. Former Governor J. B. Grant, west-ern manager for the smelter trust, stated this morning that there was no chance of a reduction in smeller rates. The smelters are supplied with all the ores they need for full operation for several months.

"Anybody may go out and look at our plant," he added. "He will see that there are big stocks of eres now on hand. The tonnage of the State has increased marvelously during the last two years. The charges were advanced last October by the smellers, and the mills had advanced their charges prelously. No, the mills are not in the rust. The advance amounted, for instance, to \$2 per ton on ore worth \$40 On very rich shipments it amounted to more, of course, but very rich ores are exceptional. The Isabella's contract expired January 1st iast, and they have made any new contracts that I know of, but have been paying current rates for what they have been ship-

Mr. Grant's position was that as long as the plants in the trust can be operas the plants in the trust can be operated to full capacity at prevailing rates they need not reduce charges.

Under the rates which have prevailed during the year, notwithstanding the two months idleness which the strike for the eight-hour work day provoked last summer the trust.

voked last summer, the trust has been very prosperous. Its profits were hinted at by a telegram from New York this morning, which said that here was an excess over the amount required to pay dividends on both preerred and common stock, in addition o paying interest on an enormous onded debt of \$2,133,000.

LEASES AT CAPE NOME.

Proposition to Grant Them Reported on Adversely by Commissioner.

A dispatch from Washington says that several bills which have Leen introduced in Congress have been referred. to Commissioner Hermann of the general land office for his judgment as to their merits. One of these provides that exclusive leases for mining purposes may be granted to lands within the territory of the United States which lie below highwater mark. It is proposed to grant leases upon condition that a bond of \$5,000 be given to insure proper fulfillment of the agreement. Commissioner Hermann reports adversely on this bill for the reason that while Cape Nome is not specifically mentioned in it, the evident intent is to make it apply there. It is held to be contrary to the policy of the Unitned States government to grant exclusive leases of this character of gold fields, and the proviso in regard to a \$5,000 bond would operate to exclude poor miners from securing grants.

Another bill upon which adverse report is made provides for leasing public lands in the arid regions for grazeral land office for his judgment as to

ic lands in the arid regions for graz-ing purposes. Adverse report also has been made upon a somewhat similar been made upon a somewhat similar bill of a more general and far-reaching nature which provides for leasing any available public lands for grazing. The commissioner says that the courts have held such action to be contrary to the custom of a hundred years, which permits the free use of such lands by anyime has not come to overturn this

MINING NOTES.

Fred McGurrin expects to leave for Chicago tomorrow

The Carisa, of Tintic had a car of ore on the market today.

A car of ore was on the market today from the Erie, of Bingham. Six cars of ore were on the market today from the Mammoth, of Tintic. The assessment of ¼ of a cent levied by the Pacific Mining Company became delinquent today.

The Silver Queen assessment of 1 ent a share becomes delinquent to-

The North Star mine in American Fork canyon had a car of ore on the market today,

The Conklin Sampler reported six ears of ore from Tintic and one from American Fork today,

The Taylor-Brunton sampler reported car of ore from Bingham, one from Nevada and one from Tintle, The Glasgow and Western Explora-

tion Company marketed a car of ore today from its Nevada properties. A shipment of cyanides reached town today from the Chloride Point. The lot weighed something over 600 pounds. Capt. Egan spent yesterday in Tintic. He visited the Yankee Con. and reports plenty of hard rock but no ore in the

Assays were expected this afternoon rom samples of quartz from the R. G. V. group in Tintic which show specks

Checks in payment of the Ridge & Valley pay roll went out to Tintic to-lay. The operating expenses are about \$700 a month.

President Sam McIntyre of the Mamnoth reached town today and expects to leave tomorrow for his ranch at Hal-

lack, Nevada. The Knickerbocker Mining company, operating in Parley's canyon, is adver-tising for bids for 100 feet of shaft work

on its property. The annual meeting of the South Swansea Mining Company, which was to have taken place last week, has been postponed indefinitely.

David D. Erwin, president of the Crescent Mining company of Park City is in the city for the purpose of confer-ring with the directors of the company.

White Pine (Nev.) News: The Chainman company made another clean-up the first of the week, and the largest bar of bullion yet shipped by the present management went forward to the mint on Tuesday.

Rock Springs Miner: Old man Bentley, who washed out over \$1,000 last summer on a placer claim near South Pass, is in the city today from Ashley valley, Utah, where he wintered. He is to try his luck on the same claim this

George Moore of the Con. Kansas City melter and Refinery company carrie up from the South yesterday and reports material going south for the new 100-ton cyanide plant to be built at Deer Lodge by A. W. McCune. Mr. Moore also visited the Apex copper mine near St George, which is recorted to have turned out \$14,000 worth of bullion last

YOUR FACE

MayAffect Production, but NoChanges will Be Made in Present Rate.

Notwithstanding demands from miners and mine owners for reduction in the treatment of charges by smelters and mills, there is no prospect that there will be any compliance with such detrands on the part of the smelter trust, says the Denver Post.

Continuing the Post says: The trust smelting rates are not to be reduced,

GRAVEL TRAINS

Thirty or Forty, Cars Hauled from the South Daily.

ENGINEERS ENTERTAINED.

Hill Changes Mis Plans as to the Size of His Train-Pacific Vessels-Railroad Notes.

The Oregon Short Line railroad is doing some mighty filling and extensive comes up from the couth a long train of heavily-laden cars of gravel. Each. train, as a rule, consists of between thirty and forty of these care, and it is quite a sight to see the big engines laboring up Third West street with their heavy loads. The Short Line is preparing its tracks for the heavy business that is bound to come this summer, and in the meantime is making for itself some excellent road beds.

Making Progress.

The B. N. & O. railroad is being rap-idly out. It has even completed for some time from Namps south to Mur-phy, a distance of therey-one miles. Last winter work was begun in extending the road northward from Nampa. The grading is fine to to Bolse river, a distance of nine miles, and a bridge is now being put in across that river. Contracts have been let to Smit & Co., for the grading of nineteen males, extending more than a half mile beyond

The work of grading has begun. Sev eral teams and men are at work on the cut which is being made where the road enters the Payette valley about eight miles from town. This cut is the heaviest pleze of work to be done on the whole survey, being forty feet deep at its greatest depth, and 1,200 feet in length. length. Fifty thousand vards of dirt will be removed in the grading, but the grade work will be light in this val-

The intention, as often expressed by officials, is to complete the road to Horeshoe Bend by October. The road will then connect the timber at the north with the market for it in the Owyhee mining camps—Emmett Index.

U. P. Sells Much Land.

The Omaha World-Herald says There is now on with the Union Pacific land department one of the heavproposition made by a syndicate of Chicago capitalists to buy 140,000 acres

During the past month Union Pacific land cases aggregated 107,000 acres. In Nobraska the largest was to the Ware Custin Cattle company, 14,124 acres in Kelth county; the Rush Creek and and Live-Stock company, a new and and Live-Stock company, a new orporation of Chicago capitalists sough; 10,680 acres in Deuel county; Feuske has bought 1,000 acres in

Cheyenne county.

Further west, the largest sales were in Wyoming, to S. J. Howard and A. J. Holt, 5,882 acres, in Unital county; William H. Haight and Thomas Ga. Higelow, 4,585 acres in Uinte county George H. Haskins, 7,362 acres in Al-bany county; Henry A. Faulkner, 11,847 cres in Albany county; Walter E and in Utah to the Descret Live Stock company, 7,040 acres in Morgan county; the Farmington Land and Live-Stock company, 3,840 acres in Davis county, and in Colorado to Walter Clarke, 3,000 acres in Cheyence county. The Carbon County (Wyoming) Wool-Growers' aslation is also trying to lease from the fallway company its vacant hinds in Carbon county, offering 1 cent ar. acre for them. This is a move, not only to get the lands, but also to snort out rivals, the cartiemen. The first ut rivals, the castlemen. The first ommittee has been at headquarters No deal has yet been closed, but a second committee is coming next week.

As to Idaho Midland.

Hon. D. T. Miller, who is connected with the Midland railway, was in town a couple of hours Saturday, says the Mountainhome Republican. He came in by stage from Rocky Bar, and stated that he had for several days been working with surveyors along the Boise river and that the route of the proposed railroad will be up Boise river oming out near Neal, then on to June ion Bar and Pine, then on through to the Sawtooth range, making in all about 70 miles of roadbed in Elmore county. Mr. Miller was pleasantly sur-prised when he reached the timber country, pronouncing it the largest and best belt of timber in southern Idaho, During his brief stay in and around Rocky Bar and Pine he visited several mines and expressed the opinion that Elmors county shows the best undevel-oped base ore mines this side of the Sawtooth range. Dan Reber, he says, has the finest body of ore and his mine makes the best showing of any he has yet seen. It is well developed in depth and with cross cuts, and has at least 50,000 tons of high grade ore in sight. He also had a sample of cinnabar he found at the works. He did not have time to visit any great number of the mines, but from what he saw he was convinced that Elmore county had as good showing of mineral as any coun-

ty in the State.

Changed His Plans. President Hill of the Great Northern announces that his plans for a new line of American trans-Pacific steamers have been changed. Some time ago he had had plane prepared for several 10, 000 ton vessels. Further investigation has convinced him that the future carrying trade across the Pacific must be done at a small margin of profit and to be correctly this impression of profit and to be a second that the profit and the prof secure this immense cargo carriers wi be necessary. He has accordingly or lered two ships of 20,000 tons capacit each and intends ordering more. The steamers will be placed in commission in the fall of 1901.

Engineers Entertained.

The New York engineers arrived here ast night, the train being tweive hours ate. The excursionists were met by a committee consisting of Engineers bermer, McLean, Yeates, Preece, Bul Shermer, & Clean, Teates, Preece, Buil, Richards, Beless, Anderson, Hatch, Jen-kins and Estes, Mesdames Beless, Me-Lean, Preece, Built, Shermer, Russell, Hatch, Yeates and others who repre-sented Wasatch No. 212 of the Brother-hood and the G. A. McLean Ladies' a xiliary.
It had been the intention to show the

visitons the sights yesterday, but the ateness of arrival here prevented this. However, they were taken to the Tab-ernacle, where they heard the great or-gan. This morning a trolley ride about town was taken and this afternoon a visit to Saliair was made. The special carrying the excursionists will leave for Glenwood Springs tonight. Following is a list of members of the party:
W. W. Dancy and wife, Mrs. Cady,
Mrs. Cornell, Fred Lamphere and wife
Elmer Freeman and wife, Sam Albro and wife, John Baker and wife, Fred Johnson and wife, Miss Tattie Tager.

M. Boyle, Thomas Jackson, Frank Steele, John Chamdler, Thomas John-son, Walter Attridge, John Crane and wife, A. Myers and wife, W. J. Starley wife, A. Myers and wife, W. J. Hurl and wife, Miss Mamie Hurley, R., Leffen and wife, J. M. Watson a wife, Miss M. Watson, William Prax-and wife, Frank Hulbert and wi William Pellenz, and wife, Miss Pellenz, Miss E. Jacobs, Miss M. J cobs, A. M. Carroll and wife, E. Fran Martin Cahill and wife, Adam and wife, Edward Earon

RAILROAD NOTES.

Col. D. C. Dodge of the Rio Grande

here on April 39th.

General Passenger Agent E. W.
Thompson and General Agent Firth of Lock Island are coming west this Tomorrow the Oregon Short Line will

run a homeseekers' excursion to Idaho apper Snake river.

More people left Paris on Wednesday to attend conference in Salt Lake City than ever known before. The same is

true as to Bear Lake valley in general.
The Oregon Short Line is giving good service to the people, a fact that is greatly appreciated by conference visiors,--Paris (Ida.) Post. Here is an evidence that not all corporations are soulless. A few weeks since the agent of the Rock Island at a Kansas town died, leaving his wife and three children. The company gave the office to the dependent widow and alowed her an assistant until she care the duties of the position. Wha individual business man would hav shown a more charitable spirit than th

one displayed by that great railway corporation?-St. Louis Railway Jour

N. R. Adriance, commercial agent o the Wabash railroad for Colorado and Utah, has been offered and has accepted a situation in the fast freight service of the Wabash at St. Louis. It is not yet known who will be his successor in this territory. Mr. Adriance has been popular generally among railroad men and in business circles during his occupancy of the position of commercial agent, and is receiving congratulations upon his advancement.—Denver News. upon his advancement.-Denver News

THE MEALS ARE ALWAYS GOOD.

"The train is crowded with agreeable surprises, but it is in the dining car that one is most impressed with the Burlington's superiority. Now, with-out being too utterly dainty, I am exceedingly particular about my meals, and about the way they are served. For breakfast all I want is eggs, rolls, and coffee. In a Burlington dining car I am able to get just what I want, just what I would have at my own table, and for the small sum of fifty cents. The evolution of the venture of the service of the servi The exquisite neatness of the napery makes a good meal taste all the better." -Interview with a Denver merchant.
