

ture. When asked for an opiniot about the Fremont factory, which is to be started up this week, he said was expressed in a one word "magnifi-cent." Others of the party said that the visit had no special significance, and was taken merely to look over the field which they had so much money in vested. Mr. Palmer was particularly interested in Sait Lake, as his father, the late Chester Palmer, was an old resident of Kirtland, O., and an acquaintance of President Brigham Young. Mr. Palmer himself has paid several visits to Utah and is deeply interested in the history and progress of her people

OF INTEREST TO UTAH.

The visit of Mr. Havemeyer and his business confrees to the beet sugar fields and factories of the west, is an event of decided interest, not only to them, but to the various local concerns with which they are connected. It is now over two years since these gentlemen become interested in beet sugar atterprises of this section and this is the first visit of inspectio they have made. Without doubt thei trip will be full of enjoyment. It i only of very recent years that Mr. Hav-emeyer and his associates began to turn their attention to the possibilities of American made beet sugar; for many years they had been refiners of raw sugar, produced from cane in this country. Cuba, and Hawaii and from beets grown in Europe and shipped here in the crude state; the vast ness of the business carried on by company, the American Suga Refining company, for years past, is too well known to need describing. The steady growth of the beet sugar in dustry in Utah, California, Colorado d Michigan attracted the attentio of the gentlement comprising this com-pany, and convincing themselves that the industry in western America had passed the xperimental stage, and was planted on a permanent and solid basis, they made overtures to the exsting companies and arrangements be ing satisfactorily concluded, they in vested large sums in the various fac tories. In Utah the partnership-fe such it amounted to-was entirely fel feltous, and has proved a fortunate one on both sides. The advent of new capital was welcomed by the owners of the Utah factories, for with a wid letd for developement open before them, the scarcity of capital cramped their endeavors, and made their pr gress, steady as it was, very slow com-pared with the extent of the oppor-unities that existed. With the enrance of the eastern capitalists int the industry, it went forward by eaps and bounds. The of actories were enlarged, ne siants were constructed in Utah an Idaho, the waters of the Bear river were harnessed and made to furnish slectrical energy and light to Salt Lak-and Ogden, and thousands of farmer were put on the road to independe by having a ready cash market fur-sished at their doors, for an agricul-lural product few of them had ever thought of growing before. To instance, in a brief way, what the beet sugar in lustry means for this section since th sastern capitalists joined hands with the local people for its extension, may be stated that the amount noncy the factories at Lehl, Garland, Jgden, Logan, Idaho Falls, and Sugar City will pay to the farmers during the present month, November and Desember, will considerably exceed a mil don and a half dollars, and this is ex slusive of the large amounts paid fac tory employes, the railroads for freight he coal companies, and the merchant for the numberless supplies needed for factory operation. Add to this the savng to the community of the great sums litherto sent away for sugar, and the pringing in of the money for sugar sold in other states, and it can be seen what ) vast factor the beet sugar industry ounts to in the commercial life of he state

"News" bids Mr. Havemever ind his associates a hearty welcome to Utah on this, their first official visit, and trusts it may prove the precursor of nany others to come.

Against Southern Pacific.

In the United States district court this morning Judge Marshall assessed damages against the Southern Pacific company aggregating \$12,772, and representing the claims of three parties. Stief Laskovich received \$1,422, James C. Fenton, \$350, and Earnest L. Birch received \$7,000 for the death of Thomas W. Birch, and \$4,000 for the death of

W. mirch, and \$4,000 for the death in William J. Birch. In the case of Annie A. Scott vs D. F. Reynolds, of Odgen, an order was tendered approving the findings of the referee, dismissing the plea, and direct-ing that the property ce turned over to the instea in backungtry.

TODAY'S SNOWFALL.

#### The Current Storm Was Heaviest in North Portion of the State.

The heaviest snowfall of the season in this city came this morning, bright and early, and while the fall was not heavy, flakes kept flying intermittently all day. The precipitation was about a quarter of an inch as recorded at the government station. The storm did not extend much to the south of this city, and was heavlest to the north. Poentello catching 36 of an inch. Fair weather and freezing are predicted for weather and freezing are predicted for tonight and tomorrow.

# Pain in Stomach

It has been said that a healthy person doesn't know he has a stomach.

How unhealthy the dyspeptic must bel

He feels as if he were all stomach, and one thing that makes him feel so is that pain at the pit of the stomach--sometimes an "all-gone feeling"; sometimes a "burning sensation.

"I suffered from pains in my stomach and could not eat. An old gentleman told me to take Hood's Sarsaparilla, which I did, and after the use of four bottles I gained my appetite, and I was soon completely cured, so that now I feel like a new man. On no account would I be without Hood's Sarsaparilla in my house." HENRY CALLAN, 71 Commercial St., Portland, Me.

"I had to be careful what I ate or I would suffer terrible pains from indigestion. Since taking Hood's Sarsuparilla I can eat anything that anyone can and without pain. My son, who was run down, and had no appetite, was cured by this medicine." MBS. AMY A. WHITE, North Harrison St., Council Bluffs, Iowa.

## A NATURAL SANITARIUM.

What a Scientific Observer Has to Say About California.

Lieut, John P. Findley, while in charge of the United States weather bureau at San Francisco, contributed an article to a prominent magazine on the climatic conditions of California, in which the following statement appeared:

the Oregon Short Line is once more back at his desk. "Theoretically, California should furaish the best and most varied health resort and sanitariums in the United States. Within her borders almost ev-Assistant General Passenger Agent D. S. Spencer of the Oregon Short Line is expected to return from his vacation ery form of wasting disease should and the means of temporary, if not permanent, relief." This theoretical statement, from an The Rio Grande has five through

trains to Ogden today. All of which would indicate that there is consideraunbiased, scientific standpoint, is abur-dantly confirmed by experience. The cool and bracing coast climate, devoid The Judson Tourist agency, after usof any trace of malaria, extends from ing the Chicago & Alton, on its person-ally conducted California excursions the northern part of the state to the extreme south. There is the choice be-tween this cool, humid atmosphere and or the past 10 years, has just made a contract with the Chicago, Milwaukee & St. Paul. The route is now Milwau-kee, Missouri Pacific, Rio Grande and the dry, warm atmosphere of the in-land valleys.

Of altitude there is yet a greater dif-ference. From Plain Valley, 200 feet below sea level, to the upper Sierras, 7,000 or 8,000 above, any altitude can be selected, and comfortable homes be The following circular was received at Rock Island local headquarters to-day: Mr. E.
