SHOCKING GUN ACCIDENT.

News has just reached here from Riverdale, thirty miles north, of a fa-tal gun accident. As a result Ronald, the 13-year-old son of John Farmes, who formerly lived here, is dead. The lad and an elder brother were hunting rabbits this afternoon and through the careless handling of the gun by the older brother it was accidentally dis-charged. The charge of shot struck Ronald in the face, tearing half his head off. Death was instantaneous. The body will be brought here for burial.

BIG WATER SUIT.

Judge Morse resumed the hearing in the case of the Richfield Irrigation company et al. vs. the Circleville Irrigation company et al. yesterday morning. This is the big water sult involving the waters of the Sevier river and its tribu-taries. The case has been before the court since the 11th day of last Decem-ber, but so far no testimony has been introduced. The time has been consumed by the various litigants in enleavors to compromise and stipulate their rights and in this they have been very successful, insomuch that it now appears that no trial of the case will be necessary.

SERIOUS CANYON ACCIDENT.

A sad accident occurred today as a result of which Arthur Poulsen of this city came near losing his life. The young man was hauling wood from the mountains west of here. He and his companion had just commenced to load when in some manner he lost his footing while trying to load a log upon his wagon. He was thrown to the ground, the log falling across his body. He was able to attract the attention of his companion, Thomas Larson, who placed him income his him upon his wagon and started for home. He had traversed but about half the distance when he concluded that Mr. Poulsen must be head, he having been unconscious the whole time and his body appeared stiff and cold. Mr. Larson therefore abandoned the wagon

to young chil-dren, because it is entirely free from the outer husk or irritating fibre. Contains all the life-giving the life-giving salts.

A correspondent who agrees with the writer that O'Brien won neither in the thirtenth or the fourteenth rounds, but ha the thirteen rounds, asks if Graney was not justified in rendering a decision in the thirteenth round. This is a point that is capable of argu-ment, I suppose, but my individual opin-ion is that a referee who discovers be-tween rounds that one of the principals is disabled or has collapsed and is un-able to continue, should hold his verdict in reserve until the bell rings for the next round. If this course had been followed in the O'Brien-Fitzsimmons match, O'Brien would have received credit for winning in the fourteenth round, and a great balance of discussion would have been avoided. TROUBLE AHEAD.

For Bowle's Over Weight of Ball to be Used at W. B. T.

For Bowle's Over Weight of Ball to be Used at W. B. T.
Spokane, Jan. 5.-It looks as though there would be some trouble in the Western Howing league over the weight of the ball the bowler is allowed to use. Secretary Jenkins asked the members of the executive committee to vote on limiting the weight of the bowling ball to is pounds and the vote was taken by mail. Jenkins has now informed President Martin that there was but one vote against limiting the ball to that weight. That vote was cast by the Spokane representative. According to the statement of President Martin, this means that the bowling ball used in the tournaments of the Western Bowling congress must not be over 18 pounds in weight.
There will be strong objections filed to this decision. In the inst place, the limiting of the weight of the ball was one of the reasons the Western Bowling consultion provided that these changes must be made at the general meeting of the constitution or rules.
This is the argument that will be astroned by the local bowlers, and they may light hard to carry their point. The matter is to be taken up at Salt Lake by the Spokane delegation and they may be able to reverse the ruling.
