GOVERNOR CLEVELAND AND JAS. G. BLAINE IN NEW YORK.

THE SCOTT LIQUOR LAW—AN EMBARRASSING SITUATION.

DISASTROUS STORMS ON THE PACIFIC COAST.

FOURTEEN MEN KILLED IN A COAL MINE.

MURDERS, SUICIDE, ETC.

The Blaine Boom.

BINGHAMPTON, N. Y., 28.—The special train bearing Blaine and party left Elmira at 9 a. m. The first stop was at Waverley where there was a very large gathering. Blaine spoke briefly upon the illustration afforded by the State of New York of the benefits of a protective tariff. It was raining when the train reached Oswego.

Blaine spoke of the great growth in wealth of the State of New York from $18,000,000 in 1860 to $63,000,000 in 1880—an increase much greater relatively than the increase of population. It was due in a large degree to the influence of the protective tariff.

At Binghampton Blaine, in his speech paid a tribute to the memory of Daniel S. Dickinson as a patriot, which evoked great applause.

Deposit, N. Y., 28.—At Susquehanna, where the principal shops of the Erie road are located, Blaine spoke briefly of the benefits of the protective policy to American labor.

At Port Jarvis Blaine addressed the crowd assembled, it being a railroad town, on the growth of railroad interests, and protective tariff.

At Middleton Blaine, in the course of his remarks, said: "I have just returned from a long tour through the great and prosperous States of the West—of Ohio, Michican, Indiana, Illinois and Wisconsin—and everywhere I found the republican party united, strong and confident. I hope this is its condition in New York. If you have had any differences in your own ranks, if there have been any little dissensions, I trust you will forget them, and that there will be but one republican party in New York."

About 7 o'clock the train ran into the depot at Jersey City. The ferry company had provided a special boat, which carried the party to the foot of Twenty-third street, whence they were driven to the Fifth Avenue Hotel, where Elkins, Senator Hale and Mr. Blaine's wife and daughter was awaiting him. It is six weeks since Blaine left Augusta. In that time he has traveled by rail more than 9,000 miles, and made from ten to twenty-nine speeches per day.

At 10.30 to-morrow Blaine will receive a convention of ministers at the Fifth Avenue Hotel, witness a parade in the afternoon, and attend the Delmonico dinner in the evening.

Gov. Cleveland in New York.

NEW YORK, 28.—Gov. Cleveland rose at 8 o'clock this morning, despite the fatigue incident to his reception in Newark last night. From 9 a.m. until late in the afternoon, he was engaged receiving visitors. Besides W.H. Barnum and other members of the State and national committees, the callers included Rev. Thomas J. Ducey, of St. Lees Church, Senator McPherson, of New Jersey, Samuel J. Randall, of Pennsylvania, Silas W. Burt, of the Civil Service Commission, Thos. W. Hugginson, of Cambridge, Mass., State Comptroller Chapin, Silas M. Burt, Gen. Chaler, Gen. Farnsworth, Col. Joseph J. Jay, John C. Devlin, Dr. F. Leroy Satterlee, Congressman James C. Hassett, of Pennsylvania, Rev. G. Gotheil, Rabbi of the Temple Emanuel, Rev. John Auketell, chaplain of St. Barnard's Church, and Gen. M. D. Mercer.

The first and second division of the National Guard were reviewed this afternoon by Gov. Cleveland from a stand erected at Worth Monument on Madison Square. Notwithstanding the rain, the troops were in line promptly, the various commands turning out with full ranks. On the reviewing stand with the Governor were Generals Christianson, Shaler and Farnsworth, and their staffs, Major Stone and a number of other well known military men. The general appearance of the troops was commended. The following regiments paraded: Seventh, Eighth, Ninth, Eleventh, Twelfth, Twenty-second, Sixty-ninth, Seventy-first, and First and Second batteries of artillery. The Brooklyn organizations were: Third battery, Thirteenth and Fourteenth regiment, Seventeenth, separate company, and Twenty-third, Thirty-second and Forty-second regiments.

At 2 p.m. it was still uncertain whether the review would occur, Cleveland being unwilling to subject the officers and men to the discomforts of a public parade in a rainstorm. Adjutant General Farnsworth, General Shaler and other officers of the National Guard were in consultation with the Governor at the Hoffman House throughout the forenoon, and mounted orderlies were in attendance to convey the final orders to the various regiments. Those of the First Division, the Twenty-second, Eleventh, Ninth, Twelfth, Seventh, Eighth, Sixty-ninth and Seventy-first, with two batteries of artillery, were awaiting orders in their armories. The Second Division, comprising the Brooklyn regiments, the Thirteenth, of which Henry Ward Beecher is chaplain, the Fourteenth, Twenty-third, Thirty-second and Forty-ninth, with a battery of artillery, had arrived, and were held waiting orders while getting a thorough wetting. The vicinity of the reviewing stand—Worth monument—was crowded with spectators with umbrellas hoisted. The rain having somewhat moderated, definite orders were issued for the review. Notwithstanding the rain, both sides of the streets through which the procession passed were thickly lined with men and women, who stood until all the regiments had passed. For an hour before the time appointed for the march of the column the vicinity of the grand stand was packed with people.

It was ten minutes past four when the Governor, in an open barouche drawn by four white horses, reached the stand. He was accompanied by General Farnsworth, in full uniform. The stand was comfortably filled. The Governor was surrounded by his staff during the review. He stood from 4.15 until 5.10 p. m., without an umbrella, in the rain, lifting his soaked hat in response to salutes, and again as the colors of the respective regiments passed. After the column had passed a deafening volley of cheers was given for Governor Cleveland, and he returned to the Hoffman House.

Governor Cleveland and his staff were entertained after the review by Major General Shaler and staff in the Hoffman House. The Governor left the hotel in time to take the train for Albany, leaving the Grand Central depot at 9 p. m.

The Scott Law.

COLUMBUS, O., 28.—The decision, stripped of its verbiage, declares the entire law unconstitutional, and will not only do away with collection of tax this year, only a small portion of which has been paid, but will make it necessary for all corporations to pay back the amount which was collected under the law last year, together with interest. It will bankrupt nearly all the cities in the State, as the levies for the year were made on the supposition that the law was constitutional and would bring into the treasury of the counties and cities the stipulated amount of money. In Columbus, for example, between $45,000 and $50,000 were realized from the tax last year, and none of the amount has been paid this year. The consequence is, the departments are behind in the payment of salaries two and three months. Other cities of the State are similarly situated. The great question with municipal and county authorities is how they will secure immediate relief from the embarrassing situation, the Legislature not being in session to grant authority.

Another Coal Mine Horror.

UNIONTOWN, Pa., 28.—The worst fears touching the fate of the men imprisoned in the coal mine at Youngstown, four miles from this place, by the explosion of firedamp which took place there at 4 o'clock last evening, have been confirmed. Six of the miners were taken out last evening soon after the disaster. Two of them were dead, and two of the other four are so seriously injured that there is no hope of their recovery. This left from 14 to 18 men supposed to be still imprisoned in the mine. The exact number is not certainly known. The work of searching for these men was continued industriously throughout the entire night, and by this morning twelve of them had been brought out and delivered to their friends and relatives at the mouth of the pit. This makes 14 dead in all, and, together with the four injured, accounts for 18 of the whole number supposed to be in the mine. Whether there are any more remains yet to be discovered, is not known, but it is believed all have been found. At this writing a complete and accurate list of the dead cannot be given. The scene at the entrance to the pit, as the disfigured bodies were brought to the surface and given into the hands of wives and relatives, was distressing in the extreme.

Passenger's Baggage.

WASHINGTON, 28.—Secretary Gresham has written a letter to the collector of customs of New York in regard to the transportation, without examination, by bonded express companies, of passengers' baggage, in which he says: "The act of June 10th, 1880, was clearly intended to give to specified ports of destination the privileges accorded to ports on the seaboard. Construing the act of 1799 in connection with the act of 1880, and in harmony with its spirit, I am of the opinion that the phrase "with the collector of the district in which the articles are intended to be landed by the owner thereof" may be interpreted to mean the collector of the district to which the passenger and his baggage are destined. The baggage of a passenger destined for ports specified in the 7th section of the act of 1880, may, therefore, be forwarded, without examination, under locks and seals, by express companies bonded for the transportation of unappraised merchandise upon an entry based upon sworn declarations of the owner or his agent, and you are instructed to take action accordingly. This interpretation will greatly oblige a large portion of the traveling public by exempting them from vexatious delay at sea ports. It is clearly in harmony with the spirit of the statutes and does not endanger the revenues. If it be found that the contents of the packages do not agree with the sworn declaration, penalties can and will be enforced at interior ports of destination as well as at the seaboard.

Disastrous Storms.

SAN FRANCISCO, 28.—The steamer *Newbern* arrived from Guaymas today. She brings news of disastrous storms on the coast of Lower California. The steamer *Estado de Senora*, which left Mazatlan on Sept. 29th, with 19 passengers and a crew of 38, is believed to be lost with all on board. The steamer was a Mexican coaster, 700 tons, owned by Don Joaquin Redo and insured in this city for $70,000. The American steamer *Dora* is also believed to be lost.

Another storm occurred Oct. 7th, and continued three days. Twenty houses at Cape St. Lucas were destroyed, and a great number of cattle killed. Nine Mexican coasters were lost. Each had from three to five persons on board. All perished excepting one sailor and a boy. The storm was the most violent ever seen in these parts.

Strikers.

DENVER, 28.—The strike among the coal miners in this State, commenced some time ago in a small way, is becoming general. To-day reports swell the number of strikers to 3,000, causing a suspension of operations in nearly all the principal mines in the State. The supply of coal in this city is becoming short, and some apprehension is felt. Delegates, representing the miners of 29 of the leading mines are holding a meeting here, and a statement of their grievances and demands, which are varied, will be presented to the mine owners to-morrow, when, in all probability, their differences will be amicably adjusted and work resumed. The miners are everywhere peaceable.

Murdered by Her Mother-in-Law.

PALESTINE, Tex., 28.—Mrs. Parker, of Elkhart, was lodged in jail this evening for murdering her daughter-in-law. Her son Andrew left home in the evening to attend to his business, leaving his wife and two little children with his mother. As Parker neared home about 9 o'clock at night he heard his wife screaming. He entered the house just in time to see his wife fall and expire, while over her body stood his own mother holding a heavy club. Parker's wife would have become a mother in a few weeks. The poor victim was beaten black and blue across the shoulders and abdomen. The case is attracting great attention, by reason of the fact that the sole witness against Mrs. Parker is her own son.

Determined Suicide.

NEW YORK, 28.—The *World* has the following special: Lewisburg, Penn.—Prof. Grier, who committed suicide last night, was professor of Latin and Greek in the Lewisburg University. He had been sick a few days, but was perfectly rational. Yesterday a large number of visitors called, and the excitement was too much for the patient. Late in the evening his wife noticed a change and went out into the hall to get assistance. During her absence the delirious man obtained a pen-knife and cut his throat upon both sides, cut a deep gash across his abdomen, and finally plunged the knife into his breast over the heart, where it remained imbedded.

A Lynching Party Trailing a Murderer.

DENVER, Col., 28.—A *Republican* special from Goodhope, N. M., a mining camp, says: Joe Hickman, a well and favorably known miner, was shot dead here this afternoon. At his antemortem examination Hickman said his partners, Frank Beck and Tom Welsh, had determined to murder and rob another miner of $900, which they knew he possessed. They insisted upon Hickman's joining them, and upon his refusal, both drew revolvers and fired. The excitement among the miners runs high, and a large number are in hot pursuit. Lynching is inevitable, if caught.

BURNING STEAMER ABANDONED.

A SOCIALIST ELECTED BY 1,000 MAJORITY IN BERLIN.

AN IRONCLAD ORDERED FROM TOULON TO TANGIERS.

Burning Steamer.

LONDON, 28.—The North German Lloyd steamship *Oder*, Captain Sander, which arrived at Southampton this afternoon from New York, reports that she passed, Oct. 18th, at 11 a.m., in latitude 40 deg. 38 min. north, longitude 37 deg. 19 min. west, the Dutch steamship *Noordam*, burning and abandoned. Her masts were gone, but her funnel was standing. Dense smoke was issuing from her hold. The *Oder* kept a sharp lookout, but was unable to find any trace of the survivors, and proceeded on her voyage. The steamship *Noordam*, Captain Vanderzee, sailed from Rotterdam on the 15th inst. for New York and passed the Lizard on the 20th inst.

Socialist Elected.

Berlin, 28.—The election for members of the Reichstag has begun. In one district of this city a Socialist Democrat obtained one thousand majority over the combined vote of Liberals and Conservatives. This is the first time a Socialist Democrat has been elected in Berlin. One Liberal is elected to the Reichstag. The results in other districts are unknown.

French Hostility to England.

Paris, 28.—The English authorities of Morocco are accused of inciting Shere Ef against the French. French journals urge the government to take energetic measures. It is said an ironclad has been ordered to proceed from Toulon to Tangiers, to act for the protection of French interests.

BRIEF TELEGRAMS.

Mayor Edson of New York City has appointed General Fitz-John Porter police commissioner, in place of Sidney Nichols, deceased.

The schooner *Lucy*, loaded with 330 tons of coal, in tow of the steamship *Raleigh* from New Orleans to Galveston, is reported lost with three of her crew, off Sabine Pass. The *Raleigh* has arrived at Galveston with tidings of the disaster.

The President has appointed ex-Secretary Hugh McCulloch to be Secretary of the Treasury, and Secretary Walter J. Gresham to be Circuit Judge to succeed Judge Thomas Drummond, resigned. The appointment of Secretary McCulloch will take place to-morrow, and Judge Gresham will leave Washington to-morrow for Indiana.

In his annual report the Governor of Idaho says the funded debt of the Territory has been practically wiped out. The population is stated to be 88,000, which should entitle the Territory, in the Governor's opinion, to be admitted into the Union as a State. The value of the assessed property in the Territory has increased 50 per cent over last year, and is now placed at $9,380,000. The export of minerals for the last fiscal year was $7,000,000.

London, 28.—In The Commons Gladstone spoke in strong disapprobation of the Irish members for their strictures on Lord Spencer, Lord Lieutenant of Ireland. If the charges they make could be proved, Gladstone said that nothing less than the impeachment of his Lordship was necessary. The Irish members interrupted Gladstone constantly during his speech.

New York, 28.—Considerable dissatisfaction having been occasioned by the decision of the referee in the recent Burke-Mitchell glove fight, the two men met last night and signed an agreement to fight eight rounds, Marquis of Queensbury rules, with gloves, at Madison Square Garden, November 24th, the winner to receive 60 per cent of the receipts and the loser to get 40 per cent.

'Twas midnight in the Quaker City. The Buenos Ayres *Standard* says the saladeros of Uruguay have slaughtered about 800,000 head of cattle up to the end of June. This means $16,000,000 to the country on that item alone. To this has to be added half a million hides of animals slaughtered for consumption, and the wool and produce of about 15,000,000 sheep; all this in the hands of about 500,000 people.

In describing how Butler meetings at Albany were broken up by a mob Editor C. Ahitophel Dana says: "The Republicans were indignant at the outrageous conduct of the Democrats." Naturally. The Democrats were also "indignant at the outrageous conduct" of the Republicans. There is a large quantity of one-sided indignation afloat now in the United States.

STOP THAT COUGH.

By using Dr. Frazier's Throat and Lung Balsam—the only sure cure for Coughs, Colds, Hoarseness and Sore Throat, and all diseases of the throat and lungs. Do not neglect a cough. It may prove fatal. Scores and hundreds of grateful people owe their lives to Dr Frazier's Throat and Lung Balsam, and no family will ever be without it after once using it, and discovering its marvelous power. It is put up in large family bottles and sold for the small price of 75 cents per bottle. For sale by Z. C. M. I Drug Dept.

You no doubt have seen the line from Barton & Co., and observed in what positive terms they speak of the reliability of their firm, superior quality, not only of their clothing, hats, caps, etc., etc., but also of their furnishings of every description, and also the lowness of their prices.

We felt a little surprised on receiving their circular at the seeming boldness of their assertion, and decided to examine their stock thoroughly, and ascertain the correctness of their statements. On doing so we were happily surprised to find everything as stated.

They are certainly energetic and enterprising young men, and spare no pains in proving it to the public, that they are establishing their business, not on misrepresentation or deceit, but on thoroughly honorable business principles.

The quality of their clothing and furnishings is thoroughly first-class, and their reputation as neat fitters is extending far and wide; and as to their hats, it seems they display great tact in selecting them, for they are just what the public want. I happened to be in the other night just as they were opening a bill of the latest hats, and they thought that probably they had sufficient for the fall trade, but in less than half an hour they disposed so many that they had to order by express a fresh supply. We are happy to recommend them to any desiring anything in their line, and feel assured that they will fit you out as reasonable as any house in town. dlmslt
