These letters, which are said to be of an incriminating nature, vary little in their terms, and, it is asserted, show that Hossey charged \$100 for every case. Some of the letters point to payment of the fee in installments.

Mr. Morrissey dictated the following statement:

"The report sent our from Chicago that the trainme nof the Chicago & Alton have decided to go on a strike unless their demand for an increase of wages is agreed to by the officials of the road has no foundation in fact There has been no proposition to strike submitted to the employes of the system, and there can be no strike unless the employes authorize It by a two thirds vote. The committee represent-ing the conductors and trainmen are conferring with the officers of the railroad company as to wages and rules governing their employment and there is every reason to believe they will reach an amicable agreement. The fact that an officer of each organization conferred with the committees in Chicago yesterday has no particular significance.
