

## NEWS OF THE WEST.

Blood Poisoning Through a Cut With a Piece of String.

## A ROUNDING-UP OF THIEVES.

Peculiar Accidents—Another Death of a California Frost-traveler.

Other Items.

H. E. True has purchased the Rose mine at Warren, Idaho, from Mr. George Miller, paying therefor \$2,000.

By an ordinance passed by the board of supervisors at Davis, Ark., all traps and snares in this locality are to be cleaned up and buried in the creek beds.

M. J. Shields & Co., the largest hardware implement house in the Pacific Northwest, Seattle, has been closed for the winter. Its inventories are already \$100,000, it is said, aggregating \$100,000.

One of the largest snowdrifts ever seen in the neighborhood of Crested Butte, Colo., came down the mountain just north of that city on Friday and struck with the force of an earthquake, part of its mass, were 100 feet in diameter, 100 feet deep and about 300 feet wide.

A few evenings ago Mr. McLean, a pioneer in the country, was attempting to drive cattle off the range made good his escape by cutting the way through the jail wall, under a scaffold. McLean is a bold man who made his greatest concentrations in Grand Junction during the stamping killing case. The sheriff is after him.

Just as the children at the French school at Denver were preparing to open the gates for the first recess on Friday a runaway horse attached to a mule wagon came dashing down Colfax avenue. Into the crowd of school children burst the horse and wagon, knocking down twelve or fifteen, but only one was seriously injured.

James H. Stearns, a well-known freightman of Yerville, Cal., died suddenly at an early hour on Saturday morning at the residence of his son-in-law, where he had been visiting. He died in the heat of battle on Friday night, having been missing about two hours, took with him a gun, and after minutes was dead. Neighbors of the deceased were the gurus.

A peculiar accident occurred to a freight train on the Colorado & Southern at Colorado Springs on Friday morning. The train was only a few miles east of Cascade and while crossing a track bridge the trucks under a central car slipped out, letting the car down on the track. The trucks then went east across the track and broke the coupling pin. Two head of cattle were killed and seven from a few hours, no person was hurt.

The Carson (Nevada) Appeal says that a mining company in Lassen county has assumed the entire of miners' Silver is scarce in the town and the miners are compelled to buy mostly the Dr. Lamer company has 100 tons of the decompositions of 125 cents, 50 cents, 30 cents and \$1. street. The miners think their fate that they will have to go to the other mining company. The miners say they are a great convenience for merchants, business men and the public generally. They are very light being made of aluminum, and pass as easily as if they were gold and silver.

A very peculiar case of blood-poisoning is that of Richard Henry, who has been sick at his home in Atlanta, Ga., for the past year. The year before New Year's day he was very busy in the copper mines, of which he is manager, welding and trying up pipes, and happened to cut his finger while trying to suddenly snap a piece of copper wire. He did not wound it so bad as to break the bone, but instead of breaking, the end cut through the skin and grew into the metal, becoming a great nuisance. After consulting a physician all the symptoms of blood-poisoning were manifested, and the doctor advised amputation and other measures resorted to. Mr. Henry is said to be in a very sick man.

A merchant in Hermosillo, Sonora, Mexico, entrusted to a news agent on the railroad, named Zamora, a bag of gold bullion valued at \$2,000, to be delivered to another party at Angelopolis. Last Saturday morning the news agent, Zamora brought it through to Naguisa and shipped it across the line without paying the Mexican duty, leaving it in the hands of his friends here. Zamora returned to Sonora on his regular route and never again came back. The news agent, however, the Mexican customs officials telegraphed down the road to have him arrested, which was done yesterday. The end of Zamora brought him to Nogales to get the bullion and to pay the Mexican duty, but he refused to do so, and was sent back to Mexico. Zamora was kept under arrest for the months also, but was taken back across the line. The owner finally succeeded in recovering their property, which he turned over to the news agent, and Zamora was taken back to Mexico trial against him for stealing the bullion.

A good place for the West. It is the popular belief that a man is more likely to succeed with his business here than in any other part of the country. In fact, it is the general opinion that a man who has been successful with his business in the East will succeed in the West, and in the West, he will succeed in the East. This is a decided difference in the character of the two countries. The man who is relatively independent, the man who is not fully equipped or sufficiently experienced to conduct a business, a man of average ability, will find it difficult to succeed in the West, and in the East, he will find it difficult to succeed in the West.
