3-Although the ship was not damaged in either of the collisions, it was damaged in the collision with the tugboat.

active in process of being done. We collected every word we could get our hands on, and all were done that way. Now, you should be able to find out that we were doing a very good job. We were actually in the middle of the word, and we were actually in the middle of the word.

The officers said the crew is in a safe place, but they are not sure if the ship is still afloat. They are working to get the ship out of the water and back to the shore.

It was reported that the...
