

not desire to provoke any further contention in the matter, he withdrew his resolution.

SAN FRANCISCO, Dec. 21.—A special from Albuquerque, N. M., says: The Mexican bandit, Bernal, reported to have been captured in Old-Town, is still at large, the report having proved to be untrue. A man was arrested who gave his name as Bernal, but was recognized as a cowboy who has worked on several ranches in the territory.

OROVILLE, Cal., Dec. 21.—The Butte County citrus fair opened here last night. The display of citrus from localities in the northern part of the state are very elaborate, about forty thousand oranges and lemons being on exhibition. The fair is being held in a large canvas pavilion which encloses a number of orange trees in full bearing. This is the first citrus fair held in any county north of Sacramento, and the exhibition is said to be on a more extensive scale than any yet attempted in the state. Governor Waterman and other prominent men in the state took part in the opening ceremonies.

BERLIN, Dec. 21.—It is reported that the Emperor will not accept the resignation of Count Perponcher.

LONDON, Dec. 21.—Taff Wall, the pugilist, will go to America in February.

DUBLIN, Dec. 21.—Editor Hooper, following O'Brien's example, refuses to wear prison clothes and remains in bed day and night.

BRUSSELS, Dec. 21.—In the chamber of deputies yesterday, the premier announced that 49 foreign governments had agreed to take part in the conference in Brussels in March next with the object of bringing about the establishment of an office of translation and the exchange of legislative documents of all countries.

CHICAGO, Dec. 21.—A cold wave struck Chicago last night, causing the thermometer to fall 35 degrees. At 7 o'clock this morning the signal service reported the temperature at 5 degrees above and indications are that a lower point will be reached during the next 24 hours. The blizzard is still raging throughout the northwest and a blockade on many of the roads is feared. The lowest point reached was 38 degrees below zero at Ft. Assinaboine.

LONDON, Dec. 21.—Advices from Zanzibar, under date of December 19, state that a messenger has arrived from central Africa who brings no direct news from Henry M. Stanley, but says it is rumored in the country on the eastern side of Lake Nyanza that Stanley, after many privations, reached Wadala in the early part of September. The principal difficulty he encountered was between the Madoodi country and Wadala.

NEW YORK, Dec. 21.—Kilrain's backer, Fox, received a cablegram from Referee Atkinson today, saying that Kilrain was ready and willing to fight Smith, and claims the championship of the world and the belt. Smith refuses to renew the fight. Fox replied that if Smith does not fight, he will claim the full stakes and championship of the world for Kilrain. Smith's back-down must be

PUBLICLY ANNOUNCED.

LONDON, Dec. 21.—In an interview today Kilrain said he would ignore Sullivan's challenge till the latter had fought Mitchell. Notice was posted in Fleet Street that Kilrain claims the championship. Smith is indignant at Kilrain's assumption of the title, and says he is willing to fight Kilrain tomorrow. Mr. Bull, of Windsor, offers to match Kilrain against Sullivan for £5,000 a side.

Sporting circles are excited over the quarrel between Lord Durham and Sir George Chetwynd. Durham, speaking at a dinner, suggested Jockey Wood was selling races and insinuated that the owners of the horses ridden by Wood were implicated. Chetwynd considered the insinuation upon himself and sent a message to Durham demanding an apology or a fight. Durham refused to do either. Chetwynd will appeal to the jockey club to take action in the matter.

THE BEST BILLIARD RECORD.

BOSTON, Dec. 21.—The first half of the three ball carom billiard match between Harvey McKenna, of Detroit, and Harry Eames, of this city, was played here tonight. McKenna was to make 5000 to Eames' 500, and only half of either score to be made in one night. McKenna won the string; took the spot ball and missed. Eames made one. McKenna slipped upon an easy masse after scoring three, and Eames duplicated the score, leaving the balls in splendid position in the upper left hand corner, and McKenna took them in hand, had them on the rail and never stopped playing except for a brief rest until he had completed his first 2500 points, making a remarkable run of 2479, beating the

WORLD'S RECORD

at this style of play. In making this play he carried the balls six and one-half times around the table, leaving them in as good position as at any time during the run, and apparently good for 2,500 more when the play is resumed tomorrow night. The whole run occupied an hour and thirty-five minutes. The best previous record to this evening was 1,531, made in Paris in two nights by Vignaux.

SAN FRANCISCO, Dec. 21.—A close game of ball was played this afternoon between the Chicagos and Philadelphia. It was won by the former club with a score of 4 to 2. The battery for the Chicagos was Ryan and Carroll. Foutz, pitcher for the St. Louis

Browns, was in the right field. Crane and McGuire were the battery for the Philadelphia.

CHICAGO, Dec. 21.—Reports from Leavenworth, Kansas, indicate much suffering in the west from lack of fuel. The demands on the mines are far greater than can be filled, and messages come in hourly demanding and appealing for fuel. The farmers are burning corn, furniture and parts of their houses to keep from freezing. Great distress is reported from Mead and Clark counties, where several persons have been frozen to death. At Dighton a mother and three children sought refuge at a neighbor's, and were frozen to death while crossing the prairie.

A HEAVY NORTHER.

NEW YORK, Dec. 21.—The steamer Zamana arrived here today from Cape Hayti, reports that a heavy norther swept over the West Indies on the 6th, 7th and 8th insts., causing much damage. In all some seventy vessels were wrecked. A coasting schooner, name unknown, capsized while making Cape Haytien and thirteen of the crew were drowned. The British steamer Victoria lost eight of her crew in the same storm. The British man-of-war Wrangler arrived at Turk's Island on the 7th inst, badly damaged by the storm. The French vessel Chasseur arrived at Cape Haytien on the 8th with her main and mizen masts gone.

AN EXPLOSION.

ROCHESTER, N. Y., Dec. 21.—Shortly before half-past three this afternoon a terrific explosion occurred in front of the Poole Flour Mills, which was felt for a long distance. A few seconds after other explosions followed in rapid succession. Instantly flames burst from the mill and the rear walls fell in. The fire burned with great fury, spreading to other buildings with great rapidity. The explosion was caused by naphtha gas in the sewers. Fourteen thousand gallons had been pumped through the pipe line from the oil works to the gas house and some breaks in the line had allowed a considerable quantity to escape into the adjoining sewers. When they became surcharged with the gas, it made its way into the mill and exploded and the fire then communicated through the mains to the middle of the street.

EXPLOSIONS CONTINUED

at such frequent intervals for the first half hour that people were deterred from going anywhere near the fire. Women and children were rushing about frantically, screaming for their relatives, who they supposed had been burned in the mill. It is not known how many persons were at work in the different buildings, or how many escaped. At midnight the fire was under control. Two men are known to have been killed and some are unaccounted for. The aggregate damage will probably exceed \$300,000. At midnight it is believed that four persons are killed. They are: Frederick K. Wilson, Edward A. Webster, Abram Rogers and John Lee. The injured will number at least twenty. Most of them are bruised and cut.

NOT TRUE.

KANSAS CITY, Dec. 21.—From certain sections of Kansas, especially in Meade and Clark counties, have come reports of distress from lack of fuel, and in some cases food; but the railroads are doing a good work to relieve whatever suffering may exist. A dispatch from Garden City tonight characterizes the recent dispatches about the alarming scarcity of food and fuel as falsehoods so far as the extreme western portion of the state is concerned.

STEAMER BURNED.

SAN FRANCISCO, Dec. 21.—The freight steamer, San Vicente, plying between this city and Santa Cruz, took fire last night off Pigeon Point, about forty miles south of the Golden Gate, and burned to the water's edge. The crew consisted of nineteen officers and men. The burning vessel was sighted by the Pacific Coast Signal Service Company's steamer Queen of the Pacific, which was bound from San Diego to this port. Several boats were lowered and went to the rescue of the San Vicente's crew. Captain Charles Lewis and the second mate were found on the deck of the steamer, preparing to jump into the sea, as the flames were rapidly surrounding them. The first mate and four sailors were

FOUND DRIFTING

in a small boat, in which they had escaped, and another sailor was discovered clinging to the bottom of an upturned boat. The men were all rescued and taken on board the Queen of the Pacific. Several of them have suffered severely from exposure, and one of the sailors died in a few hours. No trace could be found of the other eleven who composed the crew, and it is supposed they are lost. Captain Lewis stated that when the fire was discovered the men became panic-stricken. Most of them jumped into one of the boats and before it could be lowered, the tackle which held it burned away and the boat fell, throwing the men into the water. The San Vicente was a small steamer, owned by the Pacific Coast Steamship Company, and was valued at \$30,000. No insurance. Loss on cargo, light.

A HUGE WAVE.

HAVANA, Dec. 21.—The huge wave at Baracoa on the 4th inst, was the result of a three days' blow of a "norther." At 4 o'clock in the afternoon an immense wave was seen approaching, from which the people fled toward the hillside. The wave struck the beach, broke and flowed inland

about 400 feet. Nearly 300 hats and houses were destroyed. No lives were lost.

ANOTHER EXPLOSION.

WILKESBARRE, Penn., Dec. 21.—A terrible explosion of gas occurred in the Nottingham mine at Plymouth this evening. Six miners entered the breast, where the ventilation was defective. Their lamp caused the explosion. Four of them were fatally injured and two seriously burned.

PITTSBURG, Dec. 21.—Eishman & Co.'s dry goods establishment and Yeager & Co.'s toy store burned to night. Loss, \$75,000. Three firemen were badly injured.

ST. PETERSBURG, Dec. 21.—The Grashdanin, semi-official organ, condemns the British government for supporting the triple alliance against Russia. It believes, however, that the visit of Lord Randolph Churchill to Russia will influence England's policy. It says, Lord Randolph Churchill will, if possible, have an interview with the Czar.

PARIS, Dec. 21.—Le Temps says the Russian government has informed the allied powers that the movement of troops in Poland has ceased.

LONDON, Dec. 21.—A dispatch from Belgrade says: King Milan, in addressing the deputies at the recent Serbian celebration, said: "The horizon is dark and a fearful war seems to be impending. Serbia must be prepared to defend her interests."

NEW YORK, Dec. 21.—Representatives of the principal woolen and worsted manufacturers of the United States met this morning to discuss matters pertinent to their business and correct certain abuses that have crept in, principally those connected with the credit and discount systems. After considerable discussion rules were adopted providing that bills are to be settled at the end of thirty days, either by cash or notes to be charged for; reference samples only to be given to purchasers; all other samples charged for. A committee was appointed to decide when these rules should go into effect. The senior member of the firm of A. J. Guillard & Co. commented on the absence of any representatives of foreign houses. He said the tariff of 1883 was designed to afford

SUFFICIENT PROTECTION.

but we have been steadily losing ground, while the importation of foreign goods has increased in an alarming manner. A conspicuous example of the inequalities of the tariff is found in a discrimination in the rates of duty imposed upon woolen and worsted cloths. In some cases the duty on wool used in making worsted cloths, exceeds the duty imposed on the finished article. There is much reason to believe that the manufacture of worsted cloths must soon cease in this country unless the tariff law in this regard is amended.

Guillard presented an agreement, which called for a subscription of money to organize a fund for the payment of agents at the principal custom houses to keep the organization advised as to the importation of woolen and worsted fabrics; to assist in

THE DETECTION

of the evasion of the tariff laws and to generally assist in protecting home manufactures. Thirty-six firms agreed to contribute various annual amounts for three years. The organization adopted as a permanent name, "The Association of Woolen and Worsted Manufacturers and Commission Houses."

PITTSBURG, Dec. 21.—A Commercial Gazette New Castle, Pennsylvania, special says: At the meeting of the State Wool-Growers' Association here today, a platform of principles was adopted condemning as unstatesmanlike, uncalled for and unfair, that part of the recent message of President Cleveland practically recommending the placing of wool on the free list; also deprecating the train of evils to wool growing which have followed the tariff changes made four years ago; denouncing

AS DEMAGOGGERY

the recent efforts of Congress to reduce the tariff, and availing that without a measure of tariff protection sufficient to secure the American market, the business of wool-growing cannot be successfully carried on.

SAN DIEGO, Dec. 22.—A telegram has been received here which says Mrs. Maria Burton has established in the courts of the City of Mexico, her right to the lands in Lower California known as Ensenada de Todos Santos, under an old grant. The question involves a million dollars' worth of

property which it is now claimed has been sold to others by the International Company of Mexico and includes a portion of the town of Ensenada.

ALBANY, Dec. 22, 4:30 a.m.—Manning is gradually sinking. Death may be expected at any moment.

9 a.m.—Manning is in about the same condition he was at 4 o'clock this morning. He is gradually sinking.

AWAITING THE END.

10:20 a.m.—Manning continues to sink slowly and may survive until this afternoon but hardly until night. He is conscious when aroused, but for the most time appears to be in a drowse. The family are at the bedside awaiting the end.

CITY OF MEXICO, Dec. 22.—It is reported that the government, which has given notice to all mint contractors that they must turn over the mints in four months to duly appointed representatives of the treasury, will run the mints itself, thus effecting a large annual saving.

Mining circles are agitated over the rumor that a duty on exported ores will be levied in order to protect domestic reduction works, which, under the new plan, are to be aided by government with a cash capital, the government taking as security a mortgage on the reduction works.

The engineers who have been making the preliminary survey for an inter-oceanic railway from Vera Cruz to Acapulco report that practicable routes of not over-heavy grades have been found.

WASHINGTON, Dec. 22.—Representative Seta C. Moffitt, of Michigan, died at 7 o'clock this morning at Providence Hospital.

PITTSBURG, Dec. 22.—A fire broke out in the millinery and furnishing store of Flashman & Co. early this morning. The flames had gained considerable headway when discovered and before they could be controlled the double-story structure, together with an adjoining five-story building of Yeager & Co., toy dealers, were completely gutted. During the progress of the fire, two firemen were buried under a falling floor, and were severely burned and bruised. Ward, another fireman, was overcome by smoke and fell from a ladder. His condition is serious. Total loss, \$125,000. The fire is supposed to have caught from a lighted cigar stump.

VIENNA, Dec. 22.—A dispatch to the New Free Press from Milan says that on the advice of English physicians the German Crown Prince's neck has been cupped and Doctor Krouse is having the blood thus obtained analyzed at his laboratory in order to ascertain whether it contains an excess of sugar or whether it is in a healthy state. If it proves to contain too much sugar, the physicians will decide to adopt the treatment advised by Dr. Freund, of Vienna, which has in view the reduction of the sugar in the blood to its normal quantity.

ST. PETERSBURG, Dec. 22.—It is semi-officially denied that Russia has informed the powers that the movements of Russian troops in Poland have ceased. It is a fact, however, that a further disengagement of troops is expected during the present winter. Russian diplomats seriously suspect some action on the part of Germany, Austria and Italy to induce Prince Ferdinand to withdraw from Bulgaria.

CHICAGO, Dec. 22.—Dr. St. John, Levi Dell and Capt. Frier, who have been on trial for aiding Warden McGarlie to escape from jail, have been acquitted, the judge instructing the jury to bring in such a verdict.

LONDON, Dec. 22.—A warrant has been granted in the Bow Street police court for the arrest of Gen. Milten, head of the Clan-na-Gael Society, and Melville, formerly agent of the society in London, who are charged with being connected with a dynamite conspiracy in which Colian and Harklas are alleged to have been engaged.

LONDON, Dec. 22.—The Sportsman announces that it has received \$2,500 from John L. Sullivan to broadcast him in a match with either Smith or Kilrain, or both.

IT REMAINS A DRAW.

LONDON, Dec. 22.—Smith and Kilrain met in the office of Sporting Life and agreed to let their fight stand a draw.

The talk about Smith and Kilrain fighting Sullivan has no result thus far.

There is a general irritation among the leading newspapers against the endeavors made by Sporting Life to exclude reporters of other papers from the meeting of the fighters and their

backers and to keep them ignorant of their doings and intentions. Efforts are making to secure the selection of another sporting paper as stakeholder in future fights.

INFANTILE SKIN DISEASES

Our oldest child, now six years of age, when an infant six months old was attacked with a virulent, malignant skin disease. All ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with almost incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, blotched, and malicious. We had no rest at night, no peace by day. Finally, we were advised to try the CUTICURA REMEDIES. The effect was simply marvellous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion your valuable remedies saved his life, and to-day he is a strong, healthy child, perfectly well, no repetition of the disease having ever occurred.

GEO. B. SMITH, Atty at Law and Ex-Pros. Atty, Ashland, O. REFERENCE: J. G. Weist, Druggist, Ashland, O.

THOUSANDS OF CHILDREN

Are born into the world every day with some eczematous affection, such as milk crust, scall head, scurf, or dandruff, sure to develop into an agonizing eczema, the itching, burning, and disfigurement of which make life a prolonged torture unless properly treated.

A warm bath with CUTICURA SOAP, an exquisite Skin Beautifier, and a single application of CUTICURA, the Great Skin Cure, with a little CUTICURA RESOLVENT, the New Blood Purifier, are often sufficient to arrest the progress of the disease, and point to a speedy and permanent cure.

Hence, no mother who loves her children, who takes pride in their beauty, purity, and health, and in bestowing upon them a child's greatest inheritance—a skin without a blemish, and a body nourished by pure blood,—should fail to make trial of the CUTICURA REMEDIES.

Sold everywhere. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT \$1. Prepared by the POTTER DRUG AND CHEMICAL CO., Boston, Mass.

Send for "How to Cure Skin Diseases," 64 pages, 60 illustrations, and 100 testimonials.

HOW MY SIDE ACHES!

Aching Sides and Back, Hip, Kidney and Uterine Pains, Rheumatic, Sciatic, Neuralgic, Sharp and Shooting pains, relieved in one minute by the CUTICURA Anti-Pain Plaster. The first and only pain-killing plaster. 15 cents. d wdsat adw

A SURE CURE FOR THE PILES.

—You need not suffer from this most distressing disease again in all your life. Email's ointment acts as a poultice and lubricator, absorbs the tumors and allays the intense itching at once. No caustic, no acid, no pain. A. McGibbons Esq., 19 Poplar street, Allegheny, Pa., writes: "I had itching and bleeding piles so bad I could not sit, stand or walk without intense suffering. I doctored with many physicians, and tried all the (so called) cures that I ever heard of, in vain (paying out hundreds of dollars), until I used Email's Magic Ointment, or Ointment. After the first application I enjoyed the best night's sleep I had for ten years, and two boxes have cured me completely." Whenever introduced Dr. F. M. Balm takes the lead, and has the largest sale of any Pile remedy in the world. Sold by druggists everywhere or sent by mail, 50 cent boxes. Address Zion's Co-operative Mercantile Institution, Salt Lake City. d w (2)

CONSUMPTION CURED

AND LUNG AFFECTIONS. Some Treatment. Also discovery by celebrated German Physician. Is a POSITIVE remedy in Every Stage. Transcendent FREE to any sufferer. Dr. W. E. D. Soelling & Co., East Hampton, Ct.
