SOME SWEEPING CHANGES.

8t. Petersburg, Sept. 26, 1:03 p. m.-Interior Minister Prince Sylatopolk-Minsky's reception here today upon his anival from Vilna was in the nature of as ovation, both at the railroad station and at the ministry o fthe interior. great deal is expected of him by the public and the newspapers. While the liberal expressions contained in his interview with the correspondent of the Associated Press at Vilna on Friday were not published here, his statements to both the representatives of the Russian press and the deputation of Jews at Vilna Saturday have served to increase the favorable impression created by his appointment. The hope of much accomplishment is based on the knowledge that the prince comes into power enjoying to a peculiar de-gree the confidence of the emperor sweeping changes in the ministry of the interior are anticipated. Little of the Von Plehve regime is expected to survive. The police department, it is understood, will be entirely separate from the interior ministry and Count Shouvaloff, the former prefect of 10lice of Odessa, will become chief of the independent department. M. Sturmer, the under assistant, has already been promoted out of the ministry to the council of the empire, M. Vatazzi, former governor of Ekaterinoslav, it is new said, will succeed M. Durnovo as under secretary in charge of posts and telephaphs.

Upon assuming active direction of the ministry Prince Sviatopolk-Mirsky will deliver a speech which, while it will not be a definite statement of pol icy, in the American sense, is neverthe less expected to indicate the aims of the administration.

The prince will go shortly to Saratoff to toff to pray for strength and guidance at the shrine of St. Scraphim.

spector Sharp waited developments. He saw Smith take this letter from the bunch he was distributing and place it on the bottom of the pack, the letter being easily identified, as the postage stamp had been placed in the left hand instead of the right hand corner. When the other letters were disposed of he saw Smith tear this one slightly on the back along the lines where the strings around the package had been, and around the put it in his pocket when satisfied that it contained money. After securing this evidence inspector Sharp left the trusted clerk to finish his tour of duty, but waited for him in his office. As Smith passed out into the lobby on his way home he was stopped and told that he was wanted in Inspector that he was wanted in Inspector Sharp's private office. SMITH ARRAIGNED.

At 10 o'clock this morning Capt. Smith was brought before Commissioner Twomey for preliminary hearing. His attorney, P. P. Christensen, acked for two days in which to plead, on the grounds that he had as yet merely talked with the defendant a few moments at the city jail, and knew but little of the evidence and circumstances sur-rounding the theft. This delay was objected to by Inspector F. C. Sharp, who stated that he was due in Denver on the morning of 29th inst., and would have to leave Salt Lake at once to get there. A delay was then granted till there. A delay, was then granted the 2 o'clock this afternoon, to allow Mr. Christensen to talk with the prisoner, and to see his relatives, before deciding what plea to enter. No bond was fixed this morning, and Smith was turned over to the United States marshal's of-fine for sofe keeping, until the matter

fice for safe keeping, until the matter of bonds is finally settled. SMITH BOUND OVER.

When brought into court this afterpoon the defendant, by his attorney, waived preliminary examination, and was bound over to the United States district court in bonds of \$500.

BONDS DOUBLED. After the arraignment of Capi

Smith, charged with stealing from the mails, before Commissioner Twomey this afternoon his case appears much more serious than at first anticipated. He waved preliminary hearing and was bound over to await action of the United States district court, under bonds of \$500, this amount being regarded as sufficient by Commissioner Twomey in the light of evidence shown by the complaint. However Atty, Pennel Charrington, who appeared for the government had serious objections to the size of the bond, and after making a brief statement of the term of months in which thefts have been recorded and of the evidence pointing to Capt. Smith as the guilty party in all of them, he had no difficulty in having the bond doubled. He said in arguing for a larger bond

"The three dollars involved in this complaint is a mere item in the case against the defendant. Operations have been going on for months prior to the theft of the sum for which he was arrested, and there is no record of when a theft occurred when he was not on duty at the post office. The defendant confessed to stealing the \$3, for which he was arrested, and in addition he confesses to having removed \$15 from another letter. He says the total amount of his stealings is under \$20, but we have evidence against him to-tailing to a much greater amount. Under these circumstances I feel that the bond of \$500 is not sufficient protection for the government." Attorney Christensen stated after the

hearing that the boud would be covered immediately.

WILL INVITE NATIONS TO PEACE MEETING SOON

Washington, Sept. 26 .- President Roosevelt's announcement on Saturday to the delegates of the inter-parliamentary union that at an early date he would invite the nations of the world to send delegates to a second peace con-ference at The Hague is regarded as a historic advance toward the adjustment of international difficulties through the medium of arbitration. Quite naturally, the question arose as to how soon the president might call the conference. He did not indicate, in his address, the probable time of his issuance of the call

but it can be stated that he will not await the conclusion of peace between Japan and Russia, both signatories to The Hague convention, before issuing his call. It is his present intention, in about six weeks, to bring the matter to the attention of the nations of the world, with a view to ascertaining their desires as to the time and place of holding the second conference. These preliminary inquiries will be made through the department of state. As soon thereafter as the replies received shall warrant, the president will issue his formal call for the conference, which probably will be early in the coming vear.

RAILROAD ACCIDENTS.

Americans Are Causing Much Comment in England.

London, Sept. 26,-The recent rail-road accidents in the United States are attracting no little comment in England. The Pall Mall Gazette says: "They are far too common in Amer.

ica, especially of late. The fact that it is a large country with plenty of room for them to happen in is not suf-ficient to explain them. Probably the fundamental cause is the hasty and imperfect construction of the lines, the makeshift arrangements for saving time and the general rush of strenuous national life."

JAPANESE REPULSED.

St. Petersburg, Sept. 26.-Gen. Sak+ haroff, in a dispatch dated yesterday, telegraphs that the Japanese advance guard during the last few days attempted to occupy Kaoutou pass, command-ing the road to Fushun, but were repulsed by a detachment of the Russian ndvance guard.

On the south front all is quiet, though shots are exchanged daily and skirm-ishes occur between the advance posts.

WHY JAPANESE DELIBERATE.

St. Petersburg, Sept. 26, 5 p. m .- The cause of the extreme deliberation in the Japanese advance on Mukden was explained by a dispatch received from Gen. Kuropatkin this afternoon which indicates that Field Marshal Oyama has not yet concentrated his forces. Fresh troops are constantly arriving at Bentsiaputze, while others which recently reached Liao Yang are march-ing up the Taitse river to Sian Chan. These reinforcements presumably come from Japan. As soon as the fourth Japanese army at Sian Chan is suffi-clently strong, it is now evident, the Japanese intend to resort to their favorite flanking tactics, move a formid-able array against Kuropatkin's left and compel the evacuation of Sintsintin. They are evidently recondcitering

the graund over which the Sian Chan army will march up and cross the riv-er. Meanwhile Gen. Kuroki is trying to selze and cross the Hun river far east of Mukden. Thence he will move town the river and co-operate with the fourth from Sian Chan, while Gens. Oku and Nodzu engage Kuropatkin's attention south of Mukden. The attacks on Da Pass and Sanlungku, Sept. 20 were the first symptoms of this vast flanking movement.

Kuropatkin now reports that Japan. ese scouls have been encountered near the Hun river half way to Mukden trying to selze Kaoutou pass, 10 miles northeast of Bentslaputze, in order to clear the way to Fushun, and that Oku's and Nodzu's outposts have been engaged in skirmishing with Cossacks iear Inpu, between Bentslaputze and the railroad. After reviewing the troops at Odessa the emperor will go to Kishineff and bid farewell to the Four-teenth division, famous for its passage of the Danube under Gen. Dragonsiroff The latter probably will attend the eremony.

Gen. Dragomiroff is greatly enfeebled in health which may render impossible his going to the far east as chief of staff of the grand duke Nicholas.

EXTENSIVE TURNING MOVE-MENTS.

St. Petersburg, Sept. 26 .- A dispatch as been received from Gen. Kuropatkin announcing that the Japanese are preparing an extensive turning movement east of Mukden. A large force is advancing from L4ao Yang by way of Tai Che, to Tsianschan. Skirmishes have occurred in the valley of the Hun river, and at Inpu, between Bentslaputze and the rathroad. There were many casualties at Inpu.
