Newark, N. J., July 2.-The most im-portant work of the German-American gymnastic alliance in session here this morning was the selection of Chreinnan as the place of meeting two years hence and the abrogation of a rule by which in-dianapolis remains the headquarters of the executive board. St. Louis was a strong competitor for the next conven-tion. When a delegates' voice in the rear of the hall said: "There is danger of a bishop's bill in St. Louis," everybody laughed at the jocular reference to New-ark's dry Sunday yesterday, and a chorus responded "Cincinnati, Cincinnati." A resolution fuvoring the army canteen olution favoring

COPPER BELT ROAD.

Two Switches for Use of Utah Copper Being Constructed.

Two side switches are in the course of construction for the Utah Copper company, and the west side of Main canyon, says the Press of Bingham. They are to be connected with the Copper Belt railroad and will be used for ore cars. The switches are 400 feet long and are being built under a contract which calls for completion by July 20.

Six new dump cars for the dinkey engines auxiliary to the steam shovel, were received during the past week by the Utah Copper.

Grading is going on rapidly at the Yampa smelter for five new McDon-gall roasters. It will probably be some time before the latter are finally constructed but work will be pushed as fast as possible. The establishment of these reasters will in all probability necessitate another reveaberatory fur-

MILL AT COPPERTON.

Changes Belog Made in Plant of Utab Copper in Bingham.

Preparations are being made for considerable change in the equipment of the big mill at Copperton, hays the Eingham Press. All but four or five of the 42 shaking tables that are now in use, are to be torn out and replaced by vanners of the Jordan type. It has been decided that the latter do better work and the change is to be made for that reason. The Johnston vanners dif-fer from the Frue in style of feed and in length of stroke. Smooth belt vanners are to be used hereafter for all slimes, the carrugat-

ed belts treating the coarser grades. The mill is at present putting in as an experiment a jig of new type, Wood-bury by name. The machine is merely or trial on trial.

The Fairwiew News states that Ben D. Luce has returned to that camp af-ter having completed the work of surveying the Ida May group of claims at Westgate, Nevada, and that he is preparing to come on to Salt Lake. The Ida May group is about seven

miles from Fairview, on the first range east of Chalk Mountain. The locations ere made on strong ledges, and extending about a mile in length, giving a great acreage, and taking in several contact veins, in time and porphyry, The values are lead, silver and copper, and run from \$10 to \$128. The ore taken from the veins that have been opened is a very fine fluxing ore.

This group was located by Mr. Luce early in April, and has received a great part of his attention since that
