FITZGERALD OBJECTS TO IT.

Failure to Resist Trivial Executive Encroachments Leads to Greater One.

Washington, April 4 .- The house during its session today listened to a criticism of the president on the part of Mr. Fitzgerald of New York, for the failure of the chief executive properly to advise the house as to the objections he had to the bill opening 505,000 acres of land for grazing purposes in Oklahoma Territory, instead of advising the members of the Indian affairs committee as to the weakness of the measure so that it might be amended to meet the wishes of the commissioner of Indian affairs.

Mr. Fitzgerald, in the course of the Mr. Fitzgeraid, in the course of the strictures on the president, said: "This is not Russia. The president is not fike the czar, who originates and enacts legislation. The president may recommend, but he can neither origi-

London, April 4.-Trouble has broken out between James Bryce, chief score tary for Ireland, and the Nationalist party. The latter wanted the dismissal of 27 temporary assistant land of 27 temporary assistant land commissioners appointed in 1963 for a term of three years, which has just ex-pired.

They almost all were obnexious to the Nationalists because of belonging to the great land-owing class, and the Nation-alists hoped Chief Secy. Bryce would replace them with commissioners more inclined to the Irish wishes in the ad-ministration of the land act. Chief Secy. Bryce, however, accepted the res-ignations of only eight of these men and reappointed the others. John Redmond presided at a meeting of 60 members of his party today, which adopted resolutions condemning Chief Secy. Bryce's action and calling for the removal of the objectionable com-missioners.

The fact that S. S. S. is a purely vegetable preparation, containing not the slightest trace of mineral in any form, has been one of the strongest points in its favor during its forty years of existence. It is recognized everywhere not only as the best of all blood purifiers, but the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family. Next in importance to removing the cause of any disease is the condition in which the system is left after a course of medical treatment. Medicines containing mercury, potash or other strong mineral ingredients often do permanent injury by eating out the delicate lining and tissues of the stomach, producing chronic dyspepsia, unfavorably affecting the bowels and so damaging the system that even if the original cause of the disease has been removed, it is left in such a deranged and weakened condition that \$1,000 REWARD
