Becoming interested in the boy Mr. Farnsworth asked where he lived at d9 north State street. Setting out with the lad, Mr. Farnsworth soon found that nobody lived at the address given, and his suspicions being aroused, he telephoned to Probation Officer Guar-dello Brown of the juvenile court, to accompany him. The boy led the two men all over town in search of the supposed residence of his parents, but was unable to locate it. The boy was found to be expert for one of his years in the practise of de-ception, and it was only when he was taken to the station that his real iden-tity was discovered. The lad's name is Henry Miller, and it is said the lad's mother about a year ago caused some-thing of a sensation by offering her baby for sale. Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a mo-ment imagine that colds are not dan-gerous. Everyone knows that pneumonia and chronic catarrh have their origin in a comomn cold. Consumption is not caused by a cold but the cold prepares the system for the reception and devel-opment of the germs that would not otherwise have found lodgment. It is the same with all infectious disease. Diph-theria, scarlet fever, measles and whoop-ing cough are much more likely to be contracted when the child has a cold. You will see from this that more read danger lurks in a cold than in any oth-er of the common aliments. The easlest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple arti-cle of trade over a large part of the world. For sale by all druggists.
