

vhen by their own admission the this paper he would despise himself as ch as he does those who resort to ich means to muzzle an oppo We have no quarrel with a fair an-

ist; we neither ask por expect differ with us to cease gate their warfare. We only com-n of wilful falsehood and intenat we expect to present the truth t the best of our ability, and we know of nothing that will deter us from per-forming what we believe to be our duty.

LOOK AFTER THE LITTLE

ONES.

THE care of young children is always an important consideration, but demands special attention at this season of the year. There is at present little ones in this city, the more aggravated cases being among those who are in the course of teething, always a critical time with inlants. Not a few eaths are occuring among them.

The persons and surroundings of the little ones should be kept perfectly clean, and they should be in the open air as much as practicable, without Land Office at Washington, D. C., a

Nights are occasionally quite cool ust now, requiring special watchfulclothes off their persons and ex-ing themselves to the danger of be-lug chilled, a fruitful source of ing chilled, a fruitful source of ase. Any gentus amount the many his community, or any other for matter of that, who would invent imple, inexpensive and effective trivance to prevent the liftle ones ing outside of the bedding would looked upon as a benefac cially by a host of anylous mothers ho are compelled to frequently leave their couches at night to "luck in" heir darlings.

Despite the most precise precaution pted by intelligence and par-solicitade, however, litchildren are frequently zed with sickness, and parents and ardians cannot be too guarded and se in the treatment of the little pa-Unfortunately for the more nt, simple and less discerains ng the people, there are a num uncks in the community who to be practicing medicine. But to be practicing medicine. But the of them are woefully uninformed clation to that important art. They more or less widely patronized, vever, and we are satisfied they do ch mischief and serve largely to in-use the death-roll of the city. These chariatans tamper with human health and life in their most delicate

hearing, the minority are entitled to ade as their own turn out to their choice just as mach as the majorbe founded on hearsay. If this is not cowardly and contemptible what words bers, have no right to prevent the will fitly describe such attempts at in-timidation? If they would have any effect upon the course of the editor of elves from the unwelcome visitor much more quickly and certainly than by any other method.

The policy advised by the Chronicle is wrong. It is un-American. It is impolitic. It is unlawful. It is mobimpolitic. It is unhawful. It is mob-ocratic and oppressive. It is the doc-trine of intolerance and tyranny. It is the thin end of the wedge of persecu-tion. It is a breath of the blast of mur-derous violence, and bears the musty odor of the dark ages and the fumes of Smithfield fagots and the Span-ish auto du fe. It does not belong to this age nor to this country, and will not be endorsed by any friend to liberty or be yielded to by any friend to liberty or be yielded to by any fight way to fight "Mormonism" is by lawful and ra-

"Mormonism" is by lawful and rational opposition or by letting its advocates alone. The more it is met by al of sickness among the violence of any kind the stronger and swifter it will grow and spread, and its advocacy cannot be hindered by shotguns nor stopped by "warnings to

air as much as practicable, without exposure, however, to the direct rays of the sun, which are very powerful in the heat of the day. Regularity should be observed in feeding. Everything in the shape of food that is not easy of digestion should be kept out of their reach and they should not be allowed to take anything beyond moderation the General Land Office at Washing

Americans. Some time I hope, the Mormon peo-ple will see their friends and their duty. Once seen clearly and laid well to heart. they dare to do it. I know one "Mormon" who, so help me God, will never speed a dollar will me God. will never speed a dollar will any one was sustains (by advertising or otherwise) the Sait Lake Tribund.

The two most favorable months of the year for rest and recreation, with a qualified exception in favor of June, are still ahead of us. September and October are spiendid in our climate for outdoor life and for travel. The for outdoor life and for travel., The heat and dust and depressing 'atmos-phere of the average July and August suggest repose more than activity, and it is bodily activity or travel that most of the brain-workers and harassed business men and home-wearled wo-men need. It is not yet too late for many of these to plan for an outing in he mid automn.

he mid autumn.
