London, Nov. 4.—The Times, in a long editorial on the Presidential contest and Sackville matter, says there is not the slightest reason to retaliate on Minister Phelps and advises the government to show deliberation in coosing a successor to Lord Sackville. It adds that the election may involve a change in the government, that the matter is one of perfect indifference to Englishmen, but that March next will be fully time enough to appoint a successor to Lord Sackville.

Chicago, Nov. 4.—A Times special from Godfrey, ill., says the Moticelo Ladles' Seminary caught, fire at 10°clock this morning and by daylight was destroyed. Miss Haskill, the principal, aroused all the pupils ordered them to secure what effects they could and escape. Many failed to properly clothe themselves in the haste. Of all the proporty of the school only three organs were saved. The loss aggregated \$150,000, insurance \$75,000. The loss to the pupils and teachers in clothing, jewelry, etc., is not included in the estimate. The pupils are being cared for by citizens until tomorrow, when they will be sent to their homes.

Lock Haven, Nov. 4.—An explosion occurred last night in the Kettle Creek Coal Co's mine, 30 miles west of this city. The explosion occurred in the pew drift, in which 21 persons were atwork. explosion the mine was entered, and lifteen dead bodies were carried out. Four other men badly injured were found, one of whom has since died, and the others are likely to die. The cause of the explosion is unknown, but it is supposed to have been the striking of a fissure of gas. This afternoon the disfigured and naked body of a miner was found fifty feet from the mouth of the air shaft, through which it had been blown. The

three Cariston brothers, all of Lock liaven.

All but those named above were Hungarian or Italiaus whose names are not furnished. A driver named Farrell was entering the drift when the explesion occurred. He was thrown toward the mouth and killed. The force of the explosion is shown in that the bodies were blowa clear out of the mouth of the drift. Everything possible was done for the injured by nine physicians.

The bodies of the dead were taken charge of by the undertaker and prepared for interment.

The coroner of the county will hold an inquest tomorrow. The mine inspector of the district has been summoned.

Although the explosion occurred at Although the explosion occurred at dark yesterday, it was not given out by the officials of the county till today, they having been advised of it late at night. It is thought that in making the drift a gas feeder was struck, filling the chamber with gas, which coming in contact with the naked lamps produced the explosion. A "gas feeder" is a pocket of gas embedded in coal. The superintendent says the accident could not be foreseen and no blame attaches to anyone.

A special to the Press from Williamsport says it is rumored that the direct cause of the explosion was the inexperienced use of dynamite. In conversation with one of the drivers who escaped, it is learned that an Italian had gotten 100 sticks of dynamite from the store-keeper in the morning and had also gotten 100 caps and sent after fuse, and as there was none in the store it is supposed he tried to set it off some other way, this causing the explosion. In a blacksmith shop near the scene of the disaster lay the charred and unrecognized remains of August Parson, who was blown out of the air shaft 50 feet in the air, and some of his clothing can be seen hanging to the limb of a tree near by. Next comes, Mike Curran, who was blown 200 feet out of the mine and was found in a ditch dead, but still clinging to the handle of his shovel. He leaves a wife and seven small children. Beside him, P. F. Donnelly was also blown out of the moth of the mine. Donnelly leaves a wife and four children. John Farrell, a mule driver, Farrell, a mule driver,

TELLS THIS STORY:

"I was beside the pushing car and in sticking up my head saw a flash. I immediately dropped to the ground, moving as quickly as possible to the mouth of the drift and escaped unburt. My mule and a Swedish miner alongside of the animal were killed instantly, but I felt but little of the explosion, although the timbers at the mouth of the shaft were carried out 200 feet beyond the mouth of the drift."

surrounding property. Particulars are not yet known.

The magazine belonged to the Torpedo Company of Delaware. The explosion was terrific and felt 26 infles away. Houses and shanties were shattered in the vicinity. It was reported that a large number of persons had been killed or injured, but it is now believed that no one was nur, though nothing defluite is known. It is supposed to have been

caused by a tramp through ignorance. There were between three and four tons of glycerine in the magazine. The earth was torn up for a distance of 500 yards. Trees an eighth of a mile away were rent as under. Many houses were wrecked. The residences of George and Wm. Williamson and Thomas McCoy, half a mile away, were completely shattered ast the occupants thrown through a window, but not seriously injured. So far as learned no one was killed, except possibly the tramp.

MALAD CITY, Idabo, Nov. 4. [Special to the Deserret News.] The political pot is boiling and splashing here and exeitement runs high. Yesterday D. W. The sheriff of the county has ordered the arrest of every supposed Mormon attempting to vote on Tuesday. It is said there have been quite a number of arrests at Soda Springs and other places. There will be more developments by Monday evening. Lively times are expected at Rexburg and other places on Tuesday, election day, and there is no knowing what may transpire. Both sides seem determined. Matters seem to have cooled off a little this afternoon, but in some precincts the feeling is very high indeed. The sheriff of the county has ordered

OTHER QUARTERS.

OTHER QUARTERS.

The tone of the Idaho journals indicates the same condition as that spoken of in our dispatches. A Boise paper states that in Bingham County alone over three hundred Mormons withdrew from the Church in two days, this course being taken because, while they were in fellowship in the Cburch, they would not be allowed to vote. This path is represented as being the one pursued in all of the counties where there are tany number of "Mormons." The Eagle Rock Register and Boise Statesman are emphatic in their declarations that even those who have abandoned the Church because of the deprivation of citizenship to members, will not be allowed to vote under any consideration. Public opinion is wrought up to an intense pitch, and it is frequently declared that there will be serious trouble if the ex-Mormons attempt to deposit their ballots for the democratic nominee. All taken together the situation is a deplorable one, and it will be exceedingly fortunate if the election pusses off without violent demonstrations. This feeling of anxiety extends throughout Cassia, Oneida and Bingham countles. ham counties.

New Zealand, Sept. 28, 1888.

Editor Descret News:

Tainking perhaps a few items pertaining to the condition of this portion of the New Zealand missionary field, and of how the work of the Lord is progressing among the dusky tribes of the descendants of God's chosen and once favored people, would be of some interest to some of the many readers of the News, we will give a brief report of a semi-annual conference of this district held September 1st and 26.

power of the Lord made manifest and the purpose and schemes of Satan destroyed.

At 9 a. m. Saturday morning conference opened with President Paxman, Elder Sondra Sanders, president of the district, J. A. Sutton and J. S. Nve, traveling Elders, and one sister present from Zion, and a large congregation of native Saints, in a neatly built, meeting house erected by the Saints of the district. The services were opened by the congregation singing a Maori hymn; prayer by President Paxman and singing. President Sanders had been honorably released, and in his parting speech portrayed to the Saints the necessity of living in accordance with the teachings and instructions they had received from the servants of God who had labered in their midst, and of the importance of keeping the covenants they had made by entering into the Kingdom of God through the door of baptism, and of striving to live in faithfulness all their days, to enjoy the blessings promised to those who are true to the end.

President Paxmae spoke a few minutes, showing the blessings and comfort Elder Sanders would enjoy for bis diligent and untiring labors on the translation of the Book of Mormon. At the close of the meeting Elder Sanders left the Pah for Auckland, taking with him the MSS to leave with the printers there, President Paxman accompanying him to Napler, where he was to take steamer.

Theafterboom meeting was presided over by Elder Sutton and on Maori brothery, J. A. Jewery, who preached an excellent sermon on the prophet Daniel's interpretation of King Nebuchandezzar's dream, the downfall of the Rofan Empire and the setting up of the kingdom of God in the last days. Brother Jewery has a good knowledge of the English language, is well read in the world's history, and it was with eloquence and power he laid the principles of the Gospel and 'the establishment of the Church of God upon the earth in the last days, before his native brethren.

President Paxman returned in time for the evening meeting in which the

ples of the Gospel and the establishment of the Church of God upon the earth in the last days, before his native brethren.

President Paxman returned in time for the evening meeting in which the president of the branches of the district gave in reports of the condition of the people over whom they had been called to preside, all of which showed them to be gradually growing and advancing in the scale of intelligence and the aquisition of that knowledge of the principles of the Gospel that all Saints should possess.

President Paxman then spoke a short time, telling them of the pleasure and interest he had taken while he had been in their midst, in teaching to them the principles of life and salvation, and, inasmuch as he was going to leave them to go to other parts of the island, he desired that they should continue to so live to ever be in possession of the Spirit of truth to guide them in their attempts to serve Got and obey His commands. Meeting was closed by singing and prayer.

Sunday moreling was warm and pleasant, the storm clouds that bad for several days hung over us, and seemed to foretell the approach of one of those rain storms for which New Zeal d is so noted, had entirely passe away, and at 10 a.m. the Saints and Elders all met again, the meeting being opened by the usual exercises of the congressition singing a Maori hymn, prayer and singing. There was then presented to the people for their sanction sixteen names of brethren for ordination to the priesthood. Elder Satton occupied some time in laying before the people the position they occupied as members of the Church and the necessity of their living as such in their present circum stances. At a meeting held between the close of this and the opening of the afternoon service, the sixteen brethren whose names were presented in the original ordinal ordi

which the manifestations of the power, and presence of the Lord were very clearly shown, and much valued instruction given under the influence of the spirit of truth.

Among the Maori people as a race, although they now exist in a low and degraded condition, and in many cases weitering in vice and degradation of the darkest phase, there can be found many traces of the existence of a once intelligent people, and it is to be hoped that through the blessings of the Lord and the labors of the Elders of Israel, they may be placed in a condition to onjoy all the privileges and blessings of the Gospel of Christ.
