CHICAGO, Nov. 22.—Eugene V. Debs spoke in Central Music Hall tonight to an audience that taxed the seating and standing capacity of the hall. Most of the leading organizations were represented, and the reception accorded to the leader of the American Railway Union was enthusiastic in the extreme. Eight carloads of Debs's friends went down to Woodstock to greet him on his release from jail, and several thousand men were at the station of the Northwestern road when the train bearing Debs and his friends arrived at 7:30 o'clock.

KANSAS CITY, Nov. 22.—A special to the Star from Guthrie, Okla., says: A disastrous prairie fire has been raging in Pottawatomie county and the Seminole reservation for three days. A terrific blizzard from the north this morning is fanning the flames into a fiery torrent, sweeping everything. Horses and cattle are being burned to death. If the wind continues many lives will be lost.

NEW YORK, Nov. 22.—A dispatch to the World from Havana, Cuba, says:

The Spanish government could no longer hold back the news that General Maceo and General Gomez had crossed with their respective armies into Santa Clara province, and finally cabled the news officially.

Both Cuban generals have been in Santa Clara several days, hence the moving other insurgent troops further westward into Matanzas province.

General Antonio Maceo is west of Santa Espiritu, in the Sierrita mountains. There the Spanish gathered together 10,000 to 12,000 troops, including mountain artillery, with the intention of defeating the famous Cuban general, but they either did not meet him or were defeated themselves, for nothing is mentioned of what happened there.

The Spanish are concentrating all their forces around Santa Clara. It is expected that an important battle will soon be fought in that neighborhood.

General Jose Maceo has crossed over to Puerto Principe province, it is officially acknowledged, on his way west to Santa Clara. He is said to be at the head of 5,000 men.

Gen. Roloff in his last manifesto warned all farmers and country people generally that on and after Nov. 13 they must either take refuge in garrisoned cities or join the insurgent ranks.

WASHINGTON, Nov. 23.—Commissioner Browning said today that the decision of Judge Riner, upholding the hunting rights of the Badonca Indians, confirms the view of the interior department that it is not competent for the state of Wyoming to pass any law which would modify, limit, or in any way abridge the right of the Indians to hunt as guaranteed by the treaty, and the game laws of Wyoming as against the treaty rights of these Indians are absolutely null and void.

NEW YORK, Nov. 23.—A special to

the Herald from Vienna says information received from consuls in various parts of Turkey confirms the impression that the Armenian revolutionary committees are endeavoring to provoke further massacres, in order to bring about the armed intervention of the powers.

The sultan receives many threatening letters. His majesty has congratulated Baron Von der Goltz Pasha, organized the mobilization of the Turkish troops, in which the mob was dispersed.

The object now desired by the sultan is to float a large loan abroad, as there is a serious want of money.

The rough and haughty manner of Sir Philip Currie has not made a favorable impression here. He was not, as was reported, a bearer of any letter from Queen Victoria to the sultan.

The German emperor has expressed through Count Von Szogyeny-Marich, Austrian ambassador at Berlin, his firm belief that peace will be maintained.

OMAHA, Nov. 25.—The eight annual convention of the Transmississippi Commercial congress convened at 11 o'clock this morning. Though the terrific storm throughout the West delayed many delegates, three hundred are said to have been present when President George Q. Cannon, of Salt Lake, opened the convention. After prayer by Rev. Frank Crane, President Cannon introduced I. W. Carpenter, of Omaha, who welcomed the convention in behalf of the businessmen.

NEW YORK, Nov. 24.—A special to the Herald from St. Petersburg says: The Novoye Vremya publishes a special dispatch from Vladivostok, which, it true, will cause a stir in the world.

It says that Japan has entirely withdrawn from her continental policy in Asia and acknowledges the unconditional right of Russia to hold Korea and Manchuria within her sphere of political and economical influence.

A special agent of the liberal intentions of the Korean government is the permission which has been accorded its subjects to cut off their pigtails.

The Korean troops are being formed in two divisions on the European model, to replace the palace guards.

Mayne is well known in Salt Lake and Omaha.

OMAHA, Neb., Nov. 24.—One of the most representative bodies that Omaha has ever had the honor to entertain will be the Transmississippi congress, which will convene at Creighton hall tomorrow morning. The attendance of many of the most prominent business and professional men in the West is assured, and the convention will be composed entirely of men whose presence will be an honor to the city. Many of them are men whose names are most prominently connected with the subjects that they will discuss at

the convention, and they will afford the benefit of much valuable information that will be profitable, not only to the members of the convention, but to the general public as well.

Just how many delegates will be present when President Cannon calls the convention to order is largely a matter of speculation. Estimates vary all the way from 300 to 1,000, but it is expected that fully 500 men of the cream of Western business and professional circles will sit in the convention.

CONSTANTINOPLE, Nov. 24, via Sofia Bulgaria, Nov. 25.—There is no doubt that efforts are being made to maintain order in the districts where disturbances are threatened and to suppress disorders where outbreaks have occurred. All danger is now passed, however. The governor of Hadjin, who threatened to burn the convent there and set fire to the barley fields, has, owing to strong representations made to the Porte on the subject by Mr. Terrell, been recalled and his conduct will be inquired into.

WASHINGTON, Nov. 25.—The latest dispatch to the state department from United States Minister Terrell states that he is now officially assured of protection for the three ladies at Hadjin; that the province has been quiet the last three days and that the outlook is better. He adds that telegrams from Aintab and Harsovan report that missionaries are safe and that all our hundred and seventy-two missionaries are now protected.

The Porte, he says, gives assurances that tranquility will soon be restored.

CHICAGO, Nov. 25.—A local paper prints the following:

From 6,000,000 to 100,000 boxes is a big reduction, yet that represents the gap made by last winter's frosts between the output of the Florida orange crop two years ago and the one that will be harvested the present season, as estimated by F. A. Bailey, of this city who has grown oranges in Florida for twenty years.

PARIS, Tex., Nov. 25.—Fuller developments concerning the finding of a dead man on a trading boat below Arthur City reveal the fact that four men were murdered. About three weeks ago three men purchased a boat and with a boy moved two and a half miles below Arthur. For several days the boat had been observed anchored without a human being in sight. Several citizens concluded to investigate and the corpses of the three men and boy were all found lying in bed, undressed. A ferocious dog prevented the parties from entering for a time, but was finally overcome.

DENVER, Col., Nov. 25.—A special to the News from Ignacio, Col., says: Hatch, the renegade Ute, who murdered the two Indians near Mancos during the early part of the month, has been captured in San Juan county by Joe Smith, Chief Severo and others. The chase was attended with a rare hardship, as there are no settlements in the country traversed and storms have been frequent. The murderer confesses to killing the two Indians, but denies all knowledge of the whereabouts of the squaw.
