

LOCAL AND OTHER MATTERS.

KOOSHAREM, Utah, Aug. 14.—Frank Wright's child, a boy 11 years old, died here August 12, from diphtheria. This makes four deaths in that family in less than four weeks.

J. C. ANDERSON.

The fire department was called out at 4 o'clock Monday to extinguish a blaze in a barn at 243 East Third South street. The structure was damaged to the amount of about \$25. It was the property of a Mrs. Wells.

At 1:18 p. m. Monday afternoon, Clarence Edward Jennings died in this city of Bright's disease of the kidneys. His father was the late Wm. Jennings and his mother Mrs. Priscilla P. Jennings. He was born Nov. 9, 1870.

Elder Louis G. Holter Sr. of Ogden, who left his home Nov. 3, 1894, to perform a mission in Scandinavia, returned on the 9th of August. He has been laboring in Norway during his absence and says he has enjoyed good health and fair success.

The quarterly conference of the Wayne Stake of Zion has been changed from Aug. 30th and 31st to Aug. 23rd and 24th.

WILLIS E. ROBINSON,
HANS M. HANSEN,
GERSEN S. BASTIAN,
Presidency of Stake.

Harold Lafont, seventeen years of age, was sunstruck last Wednesday while loading hay in the fields west of town. As he remained in an unconscious condition for three hours, grave fears were entertained; but a good constitution pulled him through and he is entirely out of danger.

Every window in the Parry school building in the Fifth ward has been broken, every hat hook broken and the stove and stove piping demolished. The board of Education has succeeded in obtaining the names of boys guilty of portions of the destruction, and have handed them to the city marshal.

County Superintendent of Schools Christensen and the trustees of the county met Wednesday and formulated rules for the government of the schools for the ensuing year. There will be two vacations, from December 24th to January 4th and from April 2nd to April 9th. The schools in the larger districts will commence September 7th, and in the smaller districts October 17th.

Miss Annie Samuelson's trunk which was disposed of in Butte, Montana, by Preacher Herman, has arrived in this city and is now, according to a statement made by County Attorney Whittemore this afternoon, at the Union Pacific freight office. Some of the personal effects of the missing girl which were recovered by the Butte police authorities have also arrived and are now in the possession of Miss Lena Larsen, Miss Samuelson's aunt.

Elder Orson Hewlett, of the Third ward of this city, who returned Tuesday from the Southern States, is at his home seriously ill with malarial fever. Six months ago he left on a mission and labored in Tennessee, where he became ill last month. For two weeks

he was at Nashville quite sick. His condition was such that it was deemed advisable for him to make the journey home, which he did alone. He was met by friends in this city, and is receiving every attention. It is hoped that in a short time he will show a marked improvement in his condition.

James Straw, of Springville, received information Wednesday, to the effect that his son, Hyrum, had been stabbed by a man named Henderson at Baggs, near Rawlins, Wyoming, last Tuesday. He was wounded in the back, on the shoulder blade and below the ribs on the left side. The doctor does not believe the wounds fatal. Young Straw and Henderson disagreed about some mining property, and the stabbing was the result. Two sons of Mr. Straw have died in the same locality in Wyoming, within the last few years.

While Mr. John Openshaw was Friday unloading a load of iron from some old works in the western part of town his horses became frightened and started off on a brisk run. In some way Mr. Openshaw's feet got tangled up in the lines and he fell, striking a pile of iron with his head. The shock rendered him unconscious and he was taken home in the ambulance. Dr. Behle, who was summoned to attend the injured man, found he was suffering from concussion of the brain, and grave doubts are entertained as to his recovery.

The following communication has been received from Chicago:

CHICAGO, July 18, 1896.

Would you kindly assist me in finding the address or information about a friend, Elling Dagsen, about 35 years old? He, together with his mother, was converted in the Mormon Church and left Drammed, Norway, I think between 1875-80 and came to this country.

Any information about him or his relatives would be very much appreciated.

Respectfully yours,

J. A. JORGENSEN.

24 Lill, Chicago, Ill.

FILLMORE, Utah, Aug. 17.—In attempting to ford the creek in town yesterday, Joseph Segwine, his son Robert, a daughter, Alta, and Miss Jennie Robison were all tossed into the water. Miss Robison's body was recovered three miles below town.

At Holden this morning, Joseph Turner, about forty years old, committed suicide by hanging.

Grandma McBride died last night at the home of Bishop Callister.

We just learn by telegram from Provo that one of our citizens, Henry Davis, aged 72, was found dead in his wagon. He is known as Sawyer Davis.

Friday morning the NEWS had a call from Elder Epbriam L. Saunders, of the Tenth ward of this city, who returned yesterday from a mission. He left this city Sept. 1, 1894, and for thirteen and a half months traveled and preached in the Choctaw and Cherokee nations in the Indian Territory. The succeeding nine months he

labored in Oklahoma. Elder Saunders says he was received in a very kindly manner by the people, and his labors were attended with success in finding many who were willing to investigate the principles of the Gospel. Brother Saunders returns in good health and spirit.

LOGAN, Utah, Aug. 18.—There was a head end collision at Cache Junction this morning between the Butte express and a freight. The freight was standing on the main line and the Butte express, three hours late, collided with it. The freight sent a flagman out, but the air brake of the express failed to work. The mail and express car was badly damaged, the platforms were torn off other cars and both pilots were off. One engine was partly off the track and a flat car on the freight was broken in two. Two squaws riding between the cars were hurt internally. One will die. The buck escaped. The train crews and passengers were not hurt.

The NEWS received a call Tuesday from Elder Hyrum Drake of Center, ville, Davis county, who returned a couple of weeks since from a mission in ill health. He feels greatly improved. He left on his mission March 28, 1896, and labored in Vermont, preaching the Gospel. He was kindly treated by the people and met with fair success. His health soon became bad, through a recurrence of a gripe, of which he had a severe attack in 1895 while at home, and which affected his throat and lungs. In addition to this the dampness of the locality where he was induced rheumatism, and the complication was such that it was deemed advisable for him to return home until he regained health.

Price, Carbon County, News: Tuesday Apostle Lyman held a meeting here at which Elder E. S. Horsley was ordained and set apart to act as Bishop of Price. Elders A. Bryner and H. G. Mathis were chosen as Bishop Horsley's counselors. The prize fighters are in active training. They take a dip in the river each day and run a few miles. The battle may have to be called off, but the principals claim they will fight somewhere in the mountains if interfered with here. Five ounce gloves have been decided upon. Razor Calloway is in the pink of condition and Slim Day shows good training. All the local sports are interested and a few from outside are here, watching the preparations. The "scrap" is still billed for August 24th, unless the date has to be changed.

At the Bluebell mine in the Paradise mining district, an immense deposit of rich copper ore has been uncovered to which apparently, there is neither beginning nor end. The company, which includes a number of Logan men, have over fifty tons on the dump, and thousands more are in sight. They intend to make a shipment to a Salt Lake or Sandy smelter to ascertain the actual reduction value. Their assays, made by a careful and competent assayer, show \$7 gold, 8 ounces silver and 25 per cent copper. Within a short distance from their mine is an abundance of wood, and sufficient water for power purposes. If the practical smelter test equals their expectations, they will have no difficulty in obtaining capital to erect re-
