

# MINING, BUSINESS AND STOCKS.

## STOCKS WERE ACTIVE TODAY.

Prices in a Number of Cases are Stronger.

## SWANSEA JUMPS FORWARD.

Daily-West Strong—Mammoth Firm—Sacramento Advancing—Star Con. Weaker.

### TODAY'S METALS:

SILVER 60  
LEAD \$3.87 1/2  
CASTING COPPER 15 1/2

Stocks were very active on the exchange today, some 16 different stocks being traded in at good prices. A general strengthening seems to be the rule today with one or two exceptions.

Swansea was benefited by the declaration of a double dividend, and the stock sold up to \$4.14. The last sale went at \$4.12. It is probable that the stock will weaken, owing to the prevalent opinion that it is not the intention of the directors to pay \$10,000 per month regularly.

Mammoth sold up to \$2.24, and Lower Mammoth sold at 74 at the outset, but immediately weakened to 65.

Star Con., which has been climbing steadily for several days past, showed signs today of a strong reaction. From 45, the price of the first sale, the stock declined to 40.

Geyer-Marion was bought for three cents per share, while Four Aces sold up to 4 1/2.

Sacramento was firmer today at 2 1/2, as was Joe Bowers, which sold at 7. Yankee Con. was handed out at 10, while West Mountain Placer was released on a bid of 7.

Daily West was active at from \$17 to \$17.04. Daily dropped 100 a \$1.30 1/2. Dalton sold at 2, and Valco held up to \$5.

May Day was active at from \$1.05 to \$1.08 1/2.

## DIVIDEND FOR THE MAMMOTH

The Company Will Pay \$20,000 on the 7th Inst.

## LATEST FROM THE STAR CON

Strike Holding Out—Coal Company Dispute—Brooklyn to be Started Up—Highland Boy.

The announcement was made this afternoon by Secretary R. M. Wilkinson of the Mammoth Mining company that a dividend of 5 cents per share, or \$20,000, will be paid on June 7th, the books to close on the 4th inst. This agrees with the statement of Mr. McIntyre earlier in the month, that a dividend would be forthcoming.

The amount will prove a surprise to many people who believed that Mr. McIntyre would not depart from his usual custom of not paying less than \$40,000 or ten cents per share.

The proposition to pay 5 cents per share regularly each month has been mooted, but nothing definite can be learned regarding the decision of the directors in this matter. It has been suggested to Mr. McIntyre, but it is not known whether he favors it or not. It is stated on excellent authority, however, that in the present instance the treasury balance is such as to hardly warrant the payment of the usual amount at this time.

Very favorable reports come from the mine, especially on the 800 level, where ore was recently encountered which assays as high as 40 to 50 per cent gold. In Mr. McIntyre's opinion the new connection on the 800 level will prove a big thing for the company in the near future.

### AT THE STAR CON.

No Ore on 300 Level—Rich Streak on 200 Level is 8 Inches Wide.

President Milan Packard of the Star Con. came to town today from Springfield, after visiting the mine yesterday. In answer to questions Mr. Packard said no ore has yet been found on the 300 level, though the conditions look very favorable there for ore at an early day. On the 200 level the management is still following the vein which is holding out very well. The rich streak carries practically the same values as when first encountered, and is now from 8 to 10 inches wide. In addition to this there is also 3 or 4 feet of good shipping ore. About 4 or 5 cars of ore are in the bins ready for market, and some good ore is being extracted right along.

### BROOKLYN PROPERTY.

Work Will Shortly be Resumed on This Shifting Producer.

Preparations are now being made to resume work on the old Brooklyn property which lies northwest of the Star Con. in Tintic. This property is now practically owned by Milan Packard. It shipped some good ore a number of years ago. A 500-foot shaft is down in the property. The ore consists largely of pyrites of iron, in which is found silver and gold values. The ore is said to greatly resemble the Mammoth. The start on the property will be made some time during the present month, Mr. Packard says. The old workings were abandoned and the new shaft will be sunk. Afterwards the ore in the old workings may be reached by drifts and crosscuts.

### MANTI COAL COMPANY.

Charges Sterling Company With Taking 5,000 Tons of Coal.

In a letter dated May 31 the Manti correspondent of the "News" says: Some time ago your correspondent noted that trouble was brewing between the coal mining companies at Morrison and it has been pretty well established that the Manti Coal company charges the Sterling Coal and Coke company with taking out about 5,000 tons of coal from the former's ground. It does not appear that the latter denies the charge, though there seems to have been some misunderstanding, probably through lack of proper surveys.

Per invitation of Judge Johnson, a party of court people and others, on yesterday in a thorough inspection of the mines at Morrison, and the condition of things there was indeed an eye opener to most of the party, as few had any idea of the extensive development and improvement that has been made at Morrison. The well constructed drain tunnel of the Sterling Coal and Coke company, from which issues a great stream of water, extends for half a mile in a straight line eastward into the mountains, where it branches out and many rooms have been cut in the six-foot coal vein, which at this point produces most excellent fuel. The tunnel extends through ground belonging to the Manti Coal company, and the latter's workings are above the tunnel some 250 feet, so the mine is perfectly dry. Both companies are making extensive improvements. The Manti Coal company is building an easy grade roadway right up to the new dumps, which are being constructed. In stead of bringing the coal up a steep incline, as formerly, a new tunnel is being made, and is now almost completed, that will tap the lower region of the coal which will be brought to the surface on a level road. The new dumps are building just at the mouth of this lower shaft. Scales are being placed conveniently near, and new office buildings are now in progress. The company is handling the fall trade. This company is present, but they will soon have things in order so a hundred miners can be set to work. The president of the company says that no means is being spared in preparing for a great business the coming fall and winter. The supply of coal seems to be almost limitless, as the new workings show that the farther under the mountain they go, the greater the quantity and better the quality of fuel.

It is now likely that a compromise will be effected between the two companies, that will prove decidedly beneficial to both.

When asked concerning the above today, Manager Bruback of the Sterling Coal Co., said that it was true, as stated; that the Manti Coal company had said that its surveys showed that his company had taken out about 5,000 tons of coal. Upon this showing, Col. Bruback offered to allow the Manti company to mine the same amount through the Sterling company's tunnel, right up to the new dumps, which are being constructed. If this is not acceptable, the Sterling company has also offered to allow the Manti company to develop some of its

property through the big tunnel. Mr. Bruback does not desire to expect trouble, and Judge Johnson, who is largely interested in the Manti company, is said to be averse to anything but an amicable agreement. This, it is said, has been practically agreed to between the two companies, and about the only thing lacking is the signatures of the parties.

### MINING INCORPORATIONS.

The Savanite, Aztec and Salt Lake Companies Have Filed Articles.

The Savanite Mining company filed articles of incorporation yesterday afternoon. The capital stock is placed at \$200,000, divided into 200,000 shares of the par value of one cent each. The officers are: H. L. Pickett, president; John Miller, vice president; M. M. Miller, secretary and treasurer. These, with James Andrews Jr., and Alexander F. McDonald, comprise the directorate. The company owns the Blue Bird mining claim in the Bonanza Mining district, Mojave county, Arizona.

Articles of incorporation of the Aztec Mining company were filed yesterday afternoon in the county clerk's office. The capital stock is placed at \$200,000 shares of the par value of one cent each. Daniel H. Wells Jr. is president of the company; John Hines, vice president; William T. Foulger, treasurer, who, with Spencer Clendenen, constitute the board of directors. The property of the company consists of several claims in Bingham.

The Salt Lake Mining and Development company is organized in this city yesterday with a capital stock of \$25,000, in 25 cent shares, to operate up lease and bond the Strawberry, Keystone, Rustler, Old Joe, Cleveland and Bland mining claims, situated in Mineral Park, Madison county, Mont. M. S. Browning is president; Waldemar Van Cott, vice president; and R. H. Officer is secretary-treasurer.

### GOV. MARTINEZ RECALLED.

Charges Made Against Him by Superintendent Triunfo Silver Mine.

San Francisco, June 1.—News has reached this city from La Paz that Rafael Garcia Martinez, governor of the southern district of Lower California, will be recalled by President Diaz on account of complaints made against him by Rafael F. Grigby, superintendent of the Triunfo silver mine, 35 miles from La Paz. The Triunfo is the largest producer in Lower California. The nature of the trouble is not made public, but it is asserted that the operation of the mine has in some way been hampered by the governor. A complaint was made to President Diaz.

### CONGRESS GOLD MINE.

Big Arizona Producer Sold to New York Men for \$1,500,000.

Phoenix, Ariz., June 1.—The Congress gold mine, owned by the Congress Gold Mining company, and located 35 miles from La Paz, has been sold for \$1,500,000 to a New York syndicate, including Warner Miller and John Macdonald. The first payment, which amounted to \$250,000, was made today. According to the terms of the sale the balance will be made within one year. For several years the Congress mine has been regarded as the principal gold producer of Arizona, netting its owners as high as \$75,000 a month.

### TRUXILLO GOLD DUST.

Capt. Allen Jackson Wrongfully Accused of Stealing Precious Metal.

A Chicago dispatch today states that a special to the Tribune from New Orleans, La., says: A private letter from Porto Coriza, Honduras, says that Allen Jackson, captain of the American yacht Theresa, accused wrongfully of stealing gold dust from Truxillo, was put into prison there. His crew, without waiting to ask assistance of the American consul, broke open the jail and rescued him, taking him aboard the yacht. The yacht made for Ulla, where the commandant was informed of the occurrence and put out in a boat to rescue him. The commandant and his soldiers were warned off by the crew of the Theresa, but answered by firing shots. The Americans on the yacht then opened fire with rifle and two hand guns, killing two of the Honduran soldiers. The Theresa then put out to sea and subsequent events are unknown.

### The Highland Boy.

During the month just ended the Highland Boy Mining company shipped east from its smelter south of the city, 10 carloads of copper, each weighing something over 60,000 pounds. The output of pig copper for the month amounts, therefore, to more than 600,000 pounds. This is produced from the Highland Boy mine at Bingham which is now sending out 200 tons of ore per day on an average.

### Activity in Seven Devils.

A dispatch from Boise, Ida., states that the development of the Seven Devils copper region and surrounding territory under the stimulus of improved transportation facilities furnished by the building of the Pacific & Idaho Northern road, is reflected in the increasing freight shipments. Today the company moved twenty-three cars of material from Carey, a part of it being Seven Devils ore and part wood.

### MINING NOTES.

The Tesora shaft is now 50 feet below the 200 level.

The Swansea of Tintic had seven cars of ore on the market today.

The Horn Silver of Frisco had two cars of ore on the market today.

Four cars of ore were on the market today from the Mammoth of Tintic.

A car of high grade silver-lead ore was on the market today from the Utah mine at Fish Springs.

The Great Bonanza at Stockton reported on the market today with a car of ore.

The Taylor-Brunton sampler reported seven cars of ore from Tintic, one from Nevada and two from Frisco today.

A car of copper matte was marketed today from the Glasgow and Western Exploration company's Nevada mines.

Manager Elmer Hill of the Fortune mine was in town today. It is now expected that the mill will be started up early next week.

The water flow in the Shoebridge Bonanza at Tintic is 600 gals. per day less than it was at last report. Notwithstanding this encouraging state of affairs the pump just put in place is ready in an emergency to handle a flow of 200 gallons per minute.

### Insurance Companies Responsible.

London, June 1.—It is the judgment of Justice Matthews in the Queen's Bench division of the high court of justice today, that insurance companies are to pay their policies on the regulation by the Transvaal just prior to the outbreak of the war. Two claims each for \$100,000 have been decided in favor of the plaintiffs, mining companies. The judge held that no general war existed at the time of the seizure of gold.

## STOCKS AT LOWER PRICES.

Opening in Wall Street Was Disappointed With London.

### Prices Haunted a Little Later On—Live Stock Strong—Produce Steady.

New York, June 1.—Prices were shaded at the opening of the stock market on profit-taking by traders due to the disappointment that the London stock market failed to follow the late rise in New York yesterday. Losses were not confined to the international group, other stocks declining in sympathy. The only notable exception was among the steel industries, sugar rose 1/4 and then relapsed a point. Many of the leading stocks tended downward after the opening in sympathy with sugar and the steel group. An upward movement in the tobacco stocks and covering in sugar caused a firm tone toward 11 o'clock. Burlington rose to 12 1/2, and the grangers and Pacific were in demand. In many stocks notable gains were made before the advance ceased, conspicuous examples being these points in Northwest, 2 1/2 in Glacoe and 2 1/2 in Illinois Central. A drop in sugar to 11 1/2, caused a check to the advance, and the market became dull.

Bonds were in demand at improved prices.

### MONEY AND BONDS.

Noon: Money on call nominally 2 per cent. Prime mercantile paper 3 1/2 @ 4 1/2 per cent.

Sterling exchange steady, with actual business in bankers' bills at 4 1/2 for demand, and 4 3/4 @ 4 1/2 for 60 days; posted rates 4 1/2 @ 4 1/2; commercial bills 4 1/2 @ 4 1/2.

Silver certificates 60 @ 1/2.

Bar silver 69.

Mexican dollars 47 1/2.

Government bonds strong; refunding 2 1/2, when issued, registered, 1,02 1/2; 2 1/2 coupon, 1,04 1/2; 2 1/2 reg., 1,04 1/2; 2 1/2 coupon, 1,03 1/2; new 4 1/2 reg. and coupon, 1,04 1/2; old 4 1/2 coupon, 1,03 1/2; 4 1/2 reg. and coupon, 1,03 1/2.

### SUGAR.

New York, June 1.—Sugar—Raw strong; fair refined 14 1/2; centrifugal 9 1/2 test 4 1/2; molasses sugar 3 1/2.

Refined firm; crushed 5.90; powdered 5.60; granulated 5.50.

### CHICAGO MARKETS.

#### LIVE STOCK.

Chicago, June 1.—Cattle—Receipts, 1,300; steady, about steady; butchers' stock strong. Good to prime steers, 4.30 to 4.50; heavy, 4.20 to 4.30; mixed, 4.10 to 4.20; cows, 3.50 to 4.00; heifers, 3.25 to 3.50; canners, 2.50 to 3.00; bulls, 2.00 to 2.50; calves, 5.00 to 6.00; Texas fed steers, 4.00 to 4.50; Texas bulls, 3.50 to 4.00; Texas calves, 5.00 to 6.00.

Hogs—Receipts, 2,000; tomorrow, 20,000; left over, 2,120. Opened shade higher, closed weak; top, 5.20. Mixed and butchers, 4.95 to 5.15; good to choice heavy, 5.05 to 5.20; rough heavy, 4.80 to 5.00; light, 4.90 to 5.15; bulk of sales, 5.00 to 5.15.

Sheep—Receipts, 7,000. Slow to 10c lower. Choice spring lambs, steady; others 10c to 15c lower. Good to choice wethers, 5.10 to 5.40; fair to choice mixed wethers, 5.10 to 5.40; fair to choice mixed, 4.40 to 4.90; western sheep, 5.00 to 5.40; yearlings, 5.40 to 5.90; native lambs, 5.00 to 5.25; western lambs, 6.00 to 7.00; spring lambs, 5.75 to 6.00.

Chicago, June 1.—July wheat opened at 67 1/2 @ 68, sold to 67 1/2, declined to 66 1/2, and reacted to 66 1/2 @ 67.
