

IN PRESENTING for your approval the following list of Furniture and House Furnishings, we have used the greatest care in selecting goods of first quality, and have placed thereon an extremely low price. Not only is the price low, but the terms are the most liberal ever offered to Salt Lake buyers. We are glad to be able to do this; and thus aid in the making of more happy homes.

THE HARRIS WAY, YOU KNOW.

# Make a Good Beginning.

Of course true love runs smoothly, because there isn't any other sort of love. Yes, there's love in a cottage. That's it—this cottage love. True love in a cottage is man's ideal. We're after the lovers in cottages and homes bigger than cottages, because we feel that we can materially aid in making cottages and homes more beautiful for lovers. The best beginning that young lovers can make, after the minister has had his way, is to let Harris have his way—that of furnishing the cottage complete from kitchen to parlor, at a price which will cause love and economy to walk hand in hand. The older lovers who've already furnished their home (unless Harris had his way) will read of the following low prices with genuine regret.

There is nearly always something needed which can improve the appearance and add to the family comfort. In this Big Furniture Store you can easily find the very thing you need at an extremely low price. Come in and let us prove this—you be the judge.

THOSE WHO have already furnished their home would do well to look around for a moment or two and see if there isn't something lacking which can be supplied from the list below.
