

and the machine shops of the Atchison and Nebraska railroad were burned here, this morning; loss \$100,000.

FOREIGN.

VERSAILLES, 14.—The chamber re-assembled to-day. The deputies re-elected M. Grevy, President, almost unanimously. Three of the vice-presidents elected are republicans and one is a conservative. It is said the right intends to follow the policy of abstention in all important internal questions. The Senate will elect a president to-morrow. The Left have nominated M. Kartel against M. Dandifred Pasquier.

BERLIN, 14.—The The North German Gazette says that Germany has complained at Vienna of the tone of the comments of the Austrian press on the Reichstag Discipline bill.

ST. PETERSBURG, 13.—Official reports state that there have been 292 cases of plague, of which 246 were fatal, in the village of Wittanka up to the 6th of January.

CONSTANTINOPLE, 14.—Horace Maynard, United States Minister to Turkey, has gone to America on a furlough.

The British attaches have returned from Rhodope district and report 40,000 people there suffering greatly.

PANAMA, 6.—The revolution has ended in Panama by a peaceful retirement of General Corroeso from the presidency of the State. J. R. Cassola succeeds him.

LONDON, 15.—A correspondent at Tashkend telegraphs, under date of January 13th, that General Kauffmann had invited the Ameer to come to Tashkend. The Ameer cannot arrive there before Feb. 5th. Credible advices indicate that Yakoub Khan will soon usurp the throne of Cabul.

The rise in the price of silver, yesterday, was in consequence of the demand for India and the further advance in Indian and Chinese exchange. Germany is not offering any of its stock of silver at present rates.

The arbitration of the differences between the employees and employers of the Cleveland and north of England iron trade, resulted in the decision of the men to accept the five per cent. reduction of wages.

The cotton mills at Nelson, near Burleigh, have given notice of a reduction. Some of the mills there have stopped altogether, also at Padiham Whitefield.

Eighty yards of the roof of the Dinas mine, at the shaft, has fell since the explosion, stopping ventilation. The explorers cannot enter the mines. There is no hope of rescue for the 60 men entombed.

BERLIN, 15.—The majority of the powers have assented to the Porte's proposal for a prolongation of the mandate of the Eastern Roumelian commission.

It is semi-officially announced that the parliamentary discipline bill was brought forward by the direct command of Emperor William.

A Geneva dispatch announced that the Aargau spinning and Weaving Co., one of the most important concerns in Switzerland, in which several banks and credit institutions are interested, has resolved to call a meeting of its shareholders with a view to dissolution.

ST. PETERSBURG, 15.—Sere Ali, before leaving Cabul, declared his readiness to become a vassal of the Czar.

The Ameer, in consequence of the refusal of Russia to mediate, has abandoned as hopeless the idea of interesting the European powers in his cause.

CONSTANTINOPLE, 15.—The signature of the Russo-Turkish treaty is expected on Thursday. Russia, it is understood, accepts a reduction of the indemnity by 100,000,000 roubles, and payment in paper roubles.

CORRESPONDENCE

ROME, Georgia, January 4, 1879.

Editors Evening News: I have but recently returned from a trip into the State of Alabama, where I went to confer with the elders laboring in that State, and who have but recently arrived from their homes. After a long, cold and tedious trip, across the roughest country it has ever been

my lot to travel through, I found Brothers Ralph Smith, George Watson and Edlef Edlefson, all in the enjoyment of good health and all ready and anxious to do their part in the mission work to which they had been assigned.

After consultation, Bro. George Watson was assigned to travel with Elder Asa W. Sabin, president of the Alabama conference, P. O. address, Saints' Store, Colbert County, Alabama.

Elder Ralph Smith was assigned to the presidency of the Georgia conference, to labor among the branches already organized. P. O. address, Rome, Georgia.

Elder Edlef Edlefson, to travel with Elder A. S. Johnson. P. O. address, Rock Mart, Polk County, Georgia.

Elders Jos. Standing and C. W. Hardy are traveling together; P. O., Varnells Station, Whitfield County, Georgia.

Elders W. H. Winn, and R. M. Kerr are travelling together; P. O., Kimball, Basque County, Texas.

Elders H. W. Barnett and Matthias Cowley are laboring in Virginia; P. O., Taylor's store, Franklin County, Georgia.

Elders John R. Holt and Jesse Vincent are laboring in Kentucky; P. O., Paintsville, Johnson County, Kentucky.

Elder Russel Rogers is laboring in Mississippi; P. O., Bankston, Choctaw County, Miss., the Elders called for that conference not having as yet reported to me, though I feel that Bro. Rogers needs assistance badly.

Elders Jonas Beck and Alexander Spence have passed through Virginia on their way to North Carolina, but as yet have not reported their whereabouts.

Elders P. P. Pratt, Jas. Argyle, Thomas H. Higham and — Stuart are laboring in middle and East Tennessee; P. O., Shady Grove, Hickman County, Tennessee.

Elders Jno. A. Groesbeck and D. C. Dunbar are reported to be in Kentucky, visiting relatives, but I am not informed as to their whereabouts.

This, I believe, includes the list of Elders laboring in the Southern States Mission, as far as I am acquainted, if there are any others they have not reported to me.

The weather for the winter has been very inclement and not at all suitable for traveling or missionary labor, and the weather-wise tell us that we shall have a hard winter, the frozen ground, cold wind, and mercury in the thermometer, all indicate an exceedingly cold spell for this latitude.

Our emigration will leave during the month of March for the settlement at Conejos, Colorado. Many of the saints are endeavoring to get ready to join the company, but in these bitter, hard times, it seems impossible to get even the small amount necessary to pay their fares, still they do not give up, but continue to work and strive, hoping in due time to gather up to Zion.

The feeling of inquiry, in regard to the principles of the gospel, is perceptibly growing among all classes of people throughout the south, almost every mail brings letters from some direction asking for information concerning invitations to come and preach, prejudice seems to be giving way before the information imparted by the traveling elders, in preaching, distributing tracts, etc. The people of the South are much more susceptible of teaching relative to our situation, than any class I have ever become acquainted with, from their experience in carpet-bag governments, and imported officials, though they may not agree with us religiously, they almost unanimously express the hope that we will soon be admitted into the Union on an equality with the other States, and the effort to obtain petitions to Congress against Utah becoming a State, would, in my opinion, prove abortive in this part of our common country, they have felt the iron heel of the oppressor, and "a fellow feeling makes us wondrous kind."

One very perceptible change that the most casual observer cannot but see, is fast gaining ground among the people, and that is, a lack of respect on their part for the old-established theories of religion so long extant. Edison does not make discoveries faster than these-called ministers of to-day's gospel, jump from one wild theory to another, and so utterly inconsistent are these changes that all thinking people are unwilling to follow in their wake. Bob Ingersoll's "Mistakes of Moses," Ed. Talmage's "Gates of

Hell," are mimicked and aped by their respective followers until one is left in doubt as to whether or no, truth, sobriety and sober judgment have not fled the land, and left the people to their own devices, in the midst of this jargon of confusion. So here and so there, the honest in heart hail the approach of truth with delight and accept it with joy. Order and system are things of the past with the mass of the human family, and no semblance of it can be found, only where force is used to produce it. Men often question me as to the remarkable degree of order among the Saints, oftenest attributing it to the influence of man, never dreaming that it is produced by the action of certain principles, known only to the world as "Mormonism," but which are the principles of truth and righteousness that will yet redeem the earth from its curse and regenerate the humanity of the future.

Yours,
J. MORGAN.

IMPORTANT LETTER From a Distinguished Physician.

NO single disease has entailed more suffering or hastened the breaking up of the constitution than Catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison it distributes throughout the system attacks every vital force, and breaks up the most robust of constitutions. Ignored because but little understood by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his RADICAL CURE has won my hearty approval. I believe it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz., the acidified blood, while it heals the ulcerated membrane by direct application to the nasal passages. Its action is based on certain fixed rules, and unless the vital forces are too far exhausted, must, in the great majority of cases, effect a cure.

GEO. BEARD, M. D. Nonescott Block, So. FRAMINGHAM, Oct. 1, 1874.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, who, in private, not only freely recommend it but use it in their families in preference to any of the preparations usually prescribed by physicians. "You are aware," said a distinguished city physician, "that my obligations to the Mass. Medical Society are such that I cannot publicly recommend or prescribe the Radical Cure; but since I received so much relief from the use of it myself, after a thorough trial of the usual remedies, I have privately advised its use, and presume I have sent to your store no less than one hundred of my patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN,—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly that we never sold a similar preparation that gave such universal satisfaction. We have to learn the first complaint yet. We are not in the habit of recommending patent medicines, but your preparation meets the wants of thousands, and we think those afflicted should be convinced of its great merits, that their suffering will be relieved. We have been in the drug business for the past twelve years constantly, and sold everything for Catarrh, but yours leads all the rest. If you see proper you can use this letter or any part of it that you wish. Very truly yours, BALDWIN & CO., Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 23, 1876.

Each package contains Dr. Sanford's Improved Chilling Tube, and full directions for use in all cases. Price, \$1.00. For sale by all wholesale and retail druggists and dealers throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicinal Strengthening Plaster, forming the best Plaster for pains and aches in the World of Medicine.

ELECTRICITY

As a grand curative and restorative agent is not equalled by any element or medicine in the history of the healing art. Unless the vital spark has fled the body, restoration by means of electricity is possible. It is the last resort of all physicians and surgeons, and has rescued thousands, apparently dead, from an untimely grave. When no other human agency could have succeeded. This is the leading curative element in this Plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam and pine and the gums of the East are too well known to require description. Their grateful, healing, soothing, and strengthening properties are known to thousands. When combined in accordance with late and important discoveries in pharmacy, their healing and strengthening properties are increased tenfold. In this respect our Plaster is the best in use without the aid of electricity.

TWO IN ONE.

This combined we have two grand medical agents in one, each of which performs its function and untiedly produce more cures than any liniment, lotion, wash, or plaster ever before compounded in the history of medicine. Try one. PRICE, 25 CENTS.

Sold by all Wholesale and Retail Druggists throughout the United States and Canada, and by WEEKS & POTTER, Proprietors, Boston, Mass.
