

TRouble Over INdian TRouble.

Possibility of a Clash Between Wyoming and Federal Authorities.

AGENT WANTS THE RED MEN.

Gov. Chatterton Tells Him He Cannot Expect the State to Waive Its Rights in the Premises.

Cheyenne, Wyo., Nov. 4.—There is a prospect of a clash between the Wyoming authorities and the government over the Indian troubles. The Indian agent wishes Gov. Chatterton to order the release of nine bucks held at Edgemont, S. D. Gov. Chatterton tonight received the following telegram:

"Edgemont, S. D., Nov. 4.—Gov. Chatterton, Cheyenne: From best information I can get, the killing of seven Indians in Converse county on last Saturday was totally unjustifiable. Indians were traveling on road with their families in wagons when fired into by sheriff and posse. Ten Indians and their families under arrest here and held by order of sheriff of Converse county. To avoid any further trouble would recommend you order their release and allow them to return to agency. I will be responsible for them, and after an investigation, if any of them are wanted, will turn them over to proper authorities. They were arrested in Dakota by one of your sheriffs. J. R. BRENNAN, "United States Indian Agent."

In answer to this the governor wired as follows:

"J. R. Brennan, United States Indian Agent, Edgemont, S. D.: Your telegram received. You cannot expect Wyoming to waive right to conduct investigation as to violation of its laws. The supreme court of the United States, in the case horse case, passed upon those rights. I would advise, respect now, though late, for this state's rights. I must insist upon these Indians returning with our sheriff, just as I would for the return of a white man charged with crime. My information regarding killing differs from yours as stated. A legal investigation, in my judgment, is to the interest of your Indians. P. CHATTERTON, "Governor."

In his telegram to the governor of South Dakota, asking that the Indians be turned over to the sheriff of Converse county, Gov. Chatterton says: "The United States supreme court, in the case horse case, gives states the right to try and punish Indians violating state laws. I ask that these Indians be treated as any white man charged with crime."

No answer has up to this time been received from the governor of South Dakota.

MATTER WAS EXAGGERATED.

Washington, Nov. 4.—The commissioner of Indian affairs today received the following telegram from Agent Brennan, who is at Newcastle, Wyo.:

"Report of Indian trouble here exaggerated. From best information at hand, thirty-five miles north of Lusk a fight occurred between officers and some twenty Indians, some of them from Pine Ridge. Seven Indians, including one woman, killed, also sheriff and deputy. About ten Indian families under arrest here; will start them for agency tomorrow. In my opinion a mistake was made in precipitating fight. Would recommend that United States attorney of this district be directed to act on behalf of department, and make a thorough investigation. I am assured by officers of this county that no further trouble will occur."

The Indian office sympathizes with the view that the whites were the aggressors and will recommend to Secy. Hitchcock that he ask the attorney general to have the affair investigated as recommended by Mr. Brennan.

CHAMBERLAIN'S CAMPAIGN.

Quotes Cobden and Shows Where He Made a Big Mistake.

London, Nov. 4.—Joseph Chamberlain made a speech tonight to 3,000 of his fellow townsmen at Birmingham, which was by far the largest audience the former colonial secretary had faced during the fiscal campaign.

After dealing with conditions during the past 50 years under free trade and quoting figures to sustain his argument, Mr. Chamberlain commented on Cobden's position, quoting Cobden as saying that the United States would eventually abandon manufacturing and that "the workmen would go back to the land and dig and delve for us."

The American, however, said Mr. Chamberlain had not gone on to say that they were created by Providence to dig and delve and plow for the benefit of Great Britain. They knew that they had resources of their own, and behind the tariff wall they had built up their industries until they had reached a stage where, unsatisfied with the extent of their own markets, they were invading those of the United Kingdom. Mr. Chamberlain said that he did not blame the United States, but he appealed to Englishmen to say whether they would adhere to the old system or adopt another which would prevent the American invasion. Reverting to the question of a preferential tariff for the colonies, Mr. Chamberlain charged those opposed to his plans with being "little Englanders," lacking in the desire to bring the colonies closer to the mother country and preferring to do more for strangers than for their own flesh and blood. He said that the leaders of the opposition failed to appreciate the value of imperial unity and only valued the unity of the Liberal party. He instances the jewelry, brass, and button trades of Birmingham as suffering in the dumping process.

Farris Bribery Trial.

Jefferson City, Mo., Nov. 4.—In the trial of Senator Farris, charged with bribery, former Lieut. Gov. John A. Lee took the stand today. He said he asked Farris to help defeat the bill to repeal the law prohibiting the use of alum in baking powder. Farris, witness testified, said it could be easily done by holding the bill in committee, but that the bill was an important one to the Royal Baking Powder company and that the boys of the committee needed money. He wanted \$7,000, which \$1,000 was to go to each of six members of the committee on criminal jurisdiction of the senate and \$1,000 to the senators at large. Lee arranged, by telephone and telegram, he said, with Daniel J. Kelly to get the money. A check for \$3,500 was received by Lee and deposited in the American Exchange bank of St. Louis. The bill was defeated and he drew out \$7,000 of the money and gave it to Senator Farris in his room at the Laclede

Naturalization Frauds Trial.

St. Louis, Mo., Nov. 4.—At the trial today of Adolph Fein, Ferdinand Schwartz, second vice president of the Hebrew Jefferson club, told of the part he had played, he said at the investigation of Fein, first vice president of the club, in the naturalization frauds. Schwartz said he was one of about 600 men who were taken to the court of appeals room to be naturalized on Oct. 8, 1902, and that all of them were under instructions from Fein and other officers of the Hebrew Jefferson club to do as they did.

Schwartz said that he was not entitled to naturalization papers but that he was persuaded to apply for them at the instigation of Fein.

THE DREYFUS CASE.

War Minister Andre Thinks Sentence Should be Revised.

Paris, Nov. 4.—The Presse today says that War Minister Andre, as a result of the inquiry which he has made into the Dreyfus affair, has informed the cabinet in his opinion the sentence of the Rennes court martial should be revised. The war minister is also said to have asked for the views of his colleagues on the subject, but they were unable to come to an agreement.

Union Iron Works May Borrow.

San Francisco, Nov. 4.—United States Circuit Judge Morawetz today made a ruling that while the Union Iron Works must be considered part of the assets of the United States Shipbuilding trust and that the title to it is at present vested in Receiver James Smith Jr., the property must be held intact in order that it may carry out its government contracts. A further ruling was that the works may legally be permitted to borrow money. The order was made on the application of the Union Iron Works to borrow \$200,000 to pay its employees and to meet other expenses. The local banks declined to make the loan until a judicial ruling had been made in the matter.

Paris Workmen Protest.

Paris, Nov. 4.—The difficulties of the ministry have been further increased by a number of workmen's meetings held to protest against the vote in the chamber of deputies continuing the law of employment agencies, at which a general strike was threatened, and which broke up with cries against Premier Combes and M. Jaures, the Socialist leader.

Bank Safe Was Empty.

Oklahoma City, Okla., Nov. 4.—Upon opening the safe of the Bank of Chickasaw Nation at Chickasaw, which closed its doors last week, Receiver Foster found but \$20, which was in all. It is supposed that President Kirby, who disappeared at the time of the failure, took the funds with him. The bank was the official depository of the Chickasaw nation and had a general stock of \$500,000, with large private deposits. Gov. Moresley is one of the directors.

Drowned Herself and Child.

Emporia, Kan., Nov. 4.—Word reached this city today that Mrs. L. Farris, living in the north end of Lyon county, had drowned herself and her infant child. The woman bound the baby to her breast before jumping into the river. She is believed to have been depressed.

SCHOOL ATTENDANCE.

It Lacks a Little Less Than Eleven Millions.

Washington, Nov. 4.—The report of the commissioner of education for the last fiscal year places the total number of pupils enrolled in the common schools during the year at 13,525,837, or over 20 per cent of the entire population. The average daily attendance for 1902 was 10,998,273, being 80 per cent of the total number enrolled. This is the largest average attendance on record of the nation ever reported in the United States.

The school term for the first time in the history of the United States reached 145 days. The average monthly wages of teachers for 1902 was \$49 for males and about \$40 for females. Less than 25 per cent of the teachers were males, or 122,352 out of a total of 438,596.

STERILIZED BARBER SHOP.

A Famous Shop in the Carrollton Hotel, Baltimore, Maryland.

The barber shop in the Carrollton hotel, Baltimore, sterilizes everything it uses in the shop. The sterilizing is done by heat. The towels, the razors, the strops, the soap, the combs and brushes are all sterilized before being used on a customer. Where there is no sterilization, have the barber use Newbro's Herpicide. It kills the dandruff germ, and it is an antiseptic for the scalp, and for the face after shaving. All leading barbers everywhere appreciate these potent facts about Herpicide and they use it "destroy the cause, you remove the effect." Sold by leading druggists. cluding public and private, elementary, secondary and higher education, was 17,460,000 pupils, and to this there should be an addition made for evening schools, state schools for defectives, orphans, etc., 620,840, making a grand total of 18,080,840 in general and special schools. The value of the school property of high schools of the United States amount to \$125,000,000, and that of private schools of the same grade amounts to about \$65,000,000. About one-half of the private schools are controlled by religious denominations.

The total number of universities, colleges and technological schools is 538, of which 131 admit women. Only 134 universities and colleges admit only men to the undergraduate department and 330 admit both men and women. Of the 43 schools of technology 27 institutions report women among their undergraduates.

Booth-Tucker Goes to England.

New York, Nov. 4.—Commander Booth-Tucker of the Salvation Army sailed for England today on the Cedric in response to a cablegram from Gen. William Booth, the head of the army. It was said at Salvation Army headquarters that the commander had been so overcome by the sudden death of his wife that Gen. Booth wished him to take a few days of rest and to recover from the shock of his bereavement.

Commander Booth-Tucker was accompanied by his daughter Mole and his secretary. He said he was going over for a rest, and that most of his time in England would be passed with Gen. William Booth, the father of his late wife. Among Salvationists it is said that Gen. Booth is suffering greatly from the shock of his daughter's violent death, and on account of his advanced age it is feared the result may be serious.

A Woman Murdered.

Stroud, Okla., Nov. 4.—Nine miles southwest of Stroud an unknown man rode up to the house of Mrs. Ames, shot and killed Mrs. Ames and the hired man, Harry Jackson, and seriously wounded Miss Ames, aged 15, shooting her in the shoulder. The murderer escaped. No motive is known.

Political Fraud in Hawaii.

Honolulu, Nov. 4.—The Home Rules on the island of Oahu are making charges of fraud in connection with the count. It is estimated that of the 50,000 votes of the island were rejected by the judges of election. In one large Home Rule precinct it is alleged that one-third of the votes were thrown out on account of errors made in marking them. It is claimed that the Home Rules rejected the result and election would have been a clean sweep for their party if all the ballots cast had been counted.

Outrage by Ladrones.

Manila, Nov. 5.—Yesterday a party of ladrones captured the telegraph (municipal) office of Buena Vista, near Malabon, Manila. They cut the telegraph wires and left him on the roadway. This outrage was an act of vengeance because the telegraph had given information to the authorities regarding the movements of the ladrones.

To Reduce Price of Billets.

New York, Nov. 5.—At a meeting of leading steel and iron manufacturers of this country in this city, arrangements have been practically concluded, according to the Herald, for a reduction in the price of billets amounting to \$4 a ton, making the new price \$23 a ton. Sentiment expressed at the meeting was overwhelmingly in favor of a reduction. It is stated that next week the announcement of the reduction will be formally made to the trade. It is also learned that the members of the United States Steel corporation present at the meeting endorsed the step to lower the price of billets. This is generally considered the first step toward a complete readjustment of the prices of finished goods. It is explicitly stated, however, that there will be no cut in the price of steel rails.

Following upon the announcement that the United States Steel corporation had made a very heavy sale of steel in England, the decision to lower the prices of billets in this country is significant. The decision is looked upon as an effort to stimulate business at home and abroad, as well as to conform to pig iron market conditions. Inasmuch as billets form the raw commodity from which rods, bars, plates, angles, sheet steel, tin plate and scores of various finished forms are manufactured, a reduction in the price of other forms is expected.

David R. Nelson Detained.

San Francisco, Nov. 5.—David R. Nelson is detained in the city prison here on information furnished by the sheriff of Montgomery county, Kan. A reward of \$200 was offered for the arrest and delivery of Nelson in any jail in the United States and from a description of him in a circular he has been arrested here. He is wanted in Coffeyville, Kan. From information furnished the police, it appears that Nelson jumped a \$5,000 bond given for his appearance at the district court of Montgomery county, Kan., to show cause why he should not be prosecuted for having aided his brother, John C. Nelson, in avoiding arrest when wanted on a charge of manslaughter. The brother had been held for trial and while out on bail left the state of Kansas and was in hiding in Oklahoma.

Helmer Duncan Arrested.

New York, Nov. 5.—Helmer Duncan, secretary of a firm of nurserymen at Flushing, L. I., has been arrested on charges of arson and burglary. Duncan's father is said to have been one of the characters in "Innocents Abroad" and the young man moved in the best society of Flushing. His arrest grew out of a fire in the company's offices. A watchman managed to extinguish the flames and then it was discovered that ledgers and many valuable papers had been piled up in the middle of the room, soaked with kerosene and fired. The safe had been opened and a lot of valuable papers stolen. Duncan assisted in the search for the property and was finally arrested. An examination of the books is now being made.
