The heavy storms of the past month (and the immense body of mow now stored in the mountains gives the farmers great encourage-ment of another bountiful harvest, and the prudent ones are looking for the most improved machinery with which to secure their crops. In con-nection we are pleased to mention the Deering Twine Binder, which has the reputation of being, without question, far in advance of all ma-chines of that class. We learn that the "Deering" will be sold in Utah this year, and on most reasonable terms. Farmers and Dealers might find it to their advantage to see this machine before engaging, as the best is always the cheapest. dsd:w1 EVENING NEWS AN INTERESTING TRIP.
