St. Petersburg, May 14 .- A crisis over the question of granting amnesty already confronts the emperor, who will be compelled to yield or have to accept the gage of battle. Almost every family in Russia containing a member or relative who has suffered or is now suffering for his political opinions and their demand for the release of all nolitical offenders has fired the imagingtion of the country. The radicals in the lower house of parliament insist that a demand for amnesty should be presented to the emperor as an ultimatum. This the moderate leaders of the Constitutional Democrats have thus succeeded in preventing, but if the tide continues to rise they must bow to the will of the radicals or their leadership will be swept away.

It is extremely significant that strong faction in the upper house of parliament is advocating the necessit for meeting the popular demands. The members yesterday and today in con-ference under the presidency of Prince Eugene Troubetskoy, discussed this pol-icy. By a large majority and against the protest of the re-actionists under Prince Kassatkipe Rostkovski, it was decided to also make a reply to the speech from the throne at the opening of parliament. Count Witte immediof parliament. Count Witte immedi-ately aligned himself with the Liberals In a speech which made a deep im-pression he advocated the justice and necessity of annesty for political pris-oners. He favored, however, a com-promise, declaring it would be folly to open the doors of the prisons to all. Amnesty should be restricted to those who are not guilty of political murder

"If the prisons are opened," he observed sententiously, "my advice to people with property is to gather up what they can and get out of the country as soon as possible." Count Witte's speech indicates that he intends to make a bold bid for the Liberal leadership in the lower house, M. Shipoff of Moscow, who is the natural leader of the progressive ele-ment of the upper house, wanted the the speech from the throny wply to to go further and include a demand for the revision of the fundamental law, but the majority thought that ac-tion in this direction should be initiated by the lower house of parliament. The utterances of Interior Minister Stolypin and M. His public service did not come to an end at that time by any means. Many of the independent politic movements since have felt the weight of his influence and gained the benefit of his active co-operation.
