

DESERT EVENING NEWS

TODAY'S WEATHER REPORT.

(Observations taken at 6 a. m. Mountain time.)
 Salt Lake City: Barometer 25.65; current temperature 32; maximum temperature 44; minimum temperature 22; mean temperature 33, which is 8 below normal.
 Accumulated excess of temperature since first of month 195.
 Accumulated deficiency of precipitation since first of month 1.50 inches.
 Accumulated excess of precipitation since January 1st 2.48 inches.
 FORECAST TILL 6 P. M. THURSDAY.
 Local forecast for Salt Lake City and vicinity:
 Fair tonight and Thursday; stationary temperature.
 Utah: (Forecast taken at San Francisco).
 Fair tonight and Thursday; stationary temperature.

WEATHER CONDITIONS.

The storm is now central over Texas, while the crest of an area of high pressure lies north of Montana and the Dakotas. Precipitation has fallen over Idaho, Montana, Wyoming, Colorado, South Dakota and Nebraska. The temperature went down to 24 degrees at Cedar City during the night and to 27 degrees at Salt Lake City shortly after 6 a. m.

L. H. MURDOCH,
 Section Director.

LOCAL BRIEFS.

John P. Wirtz, a native of Germany, but now of Tooele county, was admitted to citizenship by Judge Hiles. Judge R. N. Baskin was unable to be at his office today on account of a severe cold, on his lungs, with which he is now suffering.
 Thomas Kearns will have 1,200 tons of white oolite stone shipped from Sanpete county, for his mansion. Shipments will begin next week, from the quarry of E. L. Parry & Sons of Mantle.
 President Lovejoy and Secretary Fagg of the Utah Beekeepers Association announce that there will be a meeting of the state apiarists in the City and County Building on April 6th at 10 o'clock a. m.

The enterprising agent of the "News" at Orangeville is doing his share towards making the "News" reach 20,000 by the 20th century. The number of Salt Lake papers going to Orangeville is now as follows: Tribune, 3; Herald, 6; "News," 28.

Orswell Williams of the local civil service commission has received from Washington a schedule of examinations to be held in this city May 2nd to 4th, for junior architectural draftsmen, with salaries of \$900 and senior draftsmen, from \$1,200 to \$1,400.

Mayor Thompson is in receipt of a dispatch from Mayor Phelan of San Francisco, which states that the epidemic case of bubonic plague, reported a few days ago came over, and that there was no danger of any more cases being developed.

A meeting of the Utah Women's Press club will be held at the Exponent office on Saturday evening beginning at 8 o'clock. The program will consist of entertainment by the members. Mrs. Schiller will speak on current events. Mrs. Clark will read a poem and Mrs. Young a paper on Manila life.

William Wood died at the Holy Cross hospital yesterday afternoon of pneumonia. Mr. Wood has made his home in Alberta, Canada, for the past few years, and some time ago came here on a visit. He was soon taken down, however, with the disease that carried him off. The remains will not be disposed of until word is received from the young man's family.

A telephone message was received yesterday afternoon by the secretary of the state board of health announcing that a large consignment of rags was about to be shipped from Eureka to this city. The secretary immediately advised the Eureka health authorities to see that the shipment was not made, declaring that under no circumstances would it be permitted to come here.

Mr. Hugh Cannon, of Cannon & Sons' company, today said that his firm lost nothing through the visit and alleged peculations of the man Lühr who was here recently. He stated that while a check for ninety dollars had been stolen from the house and cashed by the bank on which it was drawn, that the loss had been made good by Walker Bros., where the unidentified passer of the paper secured the money upon a visit.

Cardston Record: Mr. L. C. Pixon, a well-known young man and a contractor on the canal who left here last December for Salt Lake with the intention of getting married while there, returned to Cardston last night a bachelor. The young lady's family intended removing to this country in the spring and Mr. Pixon having a contract on the canal to complete had the wedding postponed until some future time.

Cardston Record: Mr. John D. Park, of Ogden, Utah, one of the most successful farmers of that region, returned to Cardston last night, after an absence of a few months since his last visit. He will make this his permanent home, but will not have his family here until he gets everything cozy and comfortable to receive them. Mr. Park bought a half section of land while here last year and is infatuated with this country, as is evidenced by the fact that he is not on "strike."

The funeral services over the remains of Mrs. Susanah Spencer will be held in the Twentieth Ward meeting house on Saturday afternoon, beginning at 2 o'clock. Mr. E. H. Spencer one of the sons of the deceased who is in an employ of the Postal Union Telegraph company in New York where the family were endeavoring to locate yesterday, has responded to the painful message appraising him of his mother's death.

THE "NEWS" DURING CONFERENCE WEEK.

All indications point to an immense attendance at the coming Conference, the first week in April. ADVERTISERS DESIRING TO REACH THE PEOPLE IN THEIR HOMES can do so effectively by using the Semi-Weekly News (printed Tuesdays and Fridays) before the Conference season, and the Daily News DURING that week. All subscribers of the Semi-Weekly News who visit the city receive the DAILY FREE during their stay.

and will be here in time to attend the obsequies.

Articles of incorporation have been filed with the county clerk by the Salt Lake Christian Science institute. The incorporators are: Lewis B. Coates, David H. Tatham, Schuyler V. Shoop, D. Jennie Shoop, Kate H. Tatham, all of whom live in Salt Lake City. The stock is composed of 1,000 shares of the par value of \$1 each, all but four of which are owned by Lewis B. Coates, the president and treasurer of the company. David H. Tatham is vice-president. Schuyler V. Shoop, secretary, and those with the other two incorporators, make up the board of directors.

The bridge leading into the excavation for the new Deseret News building on the corner of East and South Temple streets gave way yesterday afternoon while a wagon heavily loaded with lime was going down it. A team was just passing under the bridge when the accident occurred, but happily were not severely injured, although they were knocked to the ground and pinned down by the fallen beams until they were removed by the workmen. A little damage was done to the horses, but aside from a few scratches the horses sustained no injuries. North of the teamsters was hurt, a fact that was apparently due more to luck than to anything else.

MINER COMES TO GRIEF.

James Mullard Says He Was Robbed of \$160.

In Helen Blazes' Maison De Jole—Claims He Was Drugged and Driven to the Road-house.

Another man has rent the air with a dismal wail because of being relieved of a burden of \$160 by a denizen of Victoria alley. The hard earnings of three months were waived to, no one knows whether in almost no time. It is the same old story, however, and this man will simply join the multitude of "farmers" that have been there before him. The latest victim is a miner from Park City who acknowledges, proudly or otherwise, the euphonious cognomen of James Mullard.

According to his tale the robbery occurred at the joint on State street called the road house, a place known only for its tough character. It was early Monday morning when Mullard went to the place and ever since he has been asking himself "Oh, why, why did I go there?" and echo answers "Oh!" It seems that Mullard and a friend went to Helen Blazes' place and from there to the road house, but he tells the story best as follows:

"I went in the house with my friend," said he, "and we were somewhat drunk. We bought some beer—three bottles—and there was some champagne. I don't know who paid for it or who ordered it. Then I was drugged by one of the women. My friend had gone away by this time. They hustled me into a hack and drove me down to the road house. One of them was named Rita and she kept her face heavily veiled all the time.

"I don't remember what I did, for I was stupor from the drug, but when I got down there I felt seized. I did not wake up till the next afternoon, and the women were gone. My empty pocketbook was near my head where I was lying. The bartender down there saw the women with it when I was asleep. He saw them handling it."

Of course when the man from Park regained his normal condition of mental clearness, which was last night, he "told his troubles" to a policeman. The assertion that the man was drugged in Helen Blazes' maison de jole, made Helen blaze and she at once entered a specific and conclusive denial, and added that Mullard spent over \$300 in the house, giving \$50 to three of the inmates and spending the balance in champagne.

"The girl who caused this trouble will have to get out of this just as soon as she is settled," said the policeman. Her statement is taken with several grains of salt, for complaints have been made before of robberies alleged to have been committed in the notorious "road house" and it is mourning the loss of \$300 in the same manner. It is almost impossible for the police to get a conviction in these cases because, as a rule, the "fleece" are not willing to have their names made public.

IN THE INTEREST OF ART.

A Sketch Club organized by Draftsmen, Architects and Artists.

A new club was organized last night in the office of Architect Ware, and it will be known as the Salt Lake Sketch club. Its membership is made up of artists, architects and draftsmen, and its object is to cultivate and promote a taste for the artistic. Those present at the meeting last evening were: W. E. Ware, Fred A. Hale, E. C. Dallas, R. Kletting, J. P. Hill, Mrs. J. L. Minor, Mrs. Carson and a score of draftsmen from the various architects' offices in this city. James P. Erskine and A. O. Treganza, of Mr. Ware's office, were made chairman and secretary respectively of the meeting. The following committee was appointed to draft a constitution: Mrs. Minor, H. A. Culmer, W. E. Ware, F. A. Hale, H. P. Lilley and J. S. Birch. As Mr. Culmer was absent, Prof. Harwood was chosen as his alternate. When the committee is ready to report a meeting will be called.

OPPOSITION TO THE NEW PIPE LINE

City Engineer Did Not Recommend Expenditure of So Much.

CLAIMS \$60,518 IS TOO HIGH.

Question Comes Up Before Council, but Action is Deferred—Crematory in Need of Repairs.

The contract awarded P. J. Moran by the board of public works for the construction of the City Creek pipe line is meeting with opposition from the city engineer.

In a communication addressed to the Council and read at last evening's meeting Mr. Kelsey said he did not recommend the expenditure of so large an amount as \$60,518 for the improvement. The contract, Mr. Kelsey further stated, was awarded for an independent cast-iron pipe, making two pipe lines from the brick tank. "The estimate submitted by me," the communication read, "was for taking up the present cast iron pipe, replacing it with a 20-inch wood stave pipe, and relaying the cast-iron at the lower end where it connects with the street mains. The estimated cost was \$24,000. The price of labor and materials has advanced about fifteen per cent since the estimate was made. This would make the amount \$27,600, which is a fair price for the work."

The communication was received and filed, and consideration of the Moran contract reported by the board of public works was laid over for one week.

CREMATORY NEEDS REPAIRS.

Health Commissioner King called attention to the condition of the city crematory which, he said, was in urgent need of repairs. The drafts, etc., he said, have apparently been changed, making the dampers inoperative, and the cost of the fuel consumed for the past three months exceed the cost for the same period a year ago \$190. Dr. King asked that some skillful person be employed to make the necessary repairs. Referred to sanitary committee with instructions to report in one week.

REQUEST POLICE POWERS.

City Treasurer Morris requested that police power be given him and his assistants in order to enforce a stricter observance of the law pertaining to licenses. Mr. Morris said that under the present system outside of the business district persons violate the law, but the only thing that can be done in such cases is to enter complaint and point out the offender. Mr. Morris said, before this can be done the party disappears and it may be a week or two before the inspector comes across them again; then an officer must again be located and by the time one is found the guilty party has once more disappeared. Referred to police and prison committee.

IN NEED OF A CLERK.
 The board of public works asked for authority to employ a clerk at a salary of \$75 per month. The communication, signed by John E. Dooley, chairman, stated that the board is required by ordinance to keep its office open during regular hours, issue permits and prepare contracts for various city improvements. The man so employed to act as inspector of certain classes of work. Referred to finance committee.

Superintendent of Waterworks Lines notified the Council that the supply of six inch and four inch cast-iron pipe was exhausted. He requested authority to purchase a carload of each. Granted.

NAYLOR ASKS \$15,000.

In response to the request of Mayor Thompson and the finance committee William Naylor submitted a proposition offering to sell his entire possessions and holdings in Montana and Idaho, consisting of lands and water rights, for the sum of \$15,000. The offer was declined, upon motion of Robertson, chairman of the finance committee.

Frank Hinz offered the city 160 acres of land near the head of Mountain Dell, Parley's canyon, for \$3,000. The property, he said, had a supply of water double the entire flow of Parley's creek, and also a reservoir site with a capacity of 2,000,000 gallons. He further stated that the property with water and reservoir site was worth \$70,000 to the city. Referred to the finance committee and the name.

J. C. Wade stated his desire to purchase from the city 320 rods of land in the northwest corner of block 23, plat A. Referred to committee on public grounds.

WATER FOR EAST SIDERS.

The report of the committee of the whole formulated last Wednesday evening that the board of public works request the city engineer to make provision for the enlargement and extension of water mains in the east and northeast parts of the city was adopted.

The contract let by the board of public works to the Blumner & Post company for three carloads of assorted sizes of sewer pipe was approved. On report of the committee on waterworks Superintendent of Waterworks Lines notified the city engineer to advertise for bids and purchase valves, hydrants and fittings at a cost of not exceeding \$2,500 to be used in putting the water system in good order.

HORSES FOR FIRE DEPARTMENT.

Whittemore offered a resolution authorizing the chief of the fire department to expend not to exceed \$300 in the purchase of four horses for use in the fire department. Referred to the fire committee.

Street Supervisor Condie submitted a list of unused railroad track in the city owned by the Oregon Short Line, Rio Grande Western railway, Salt Lake City and Rapid Transit railroad companies, and the recorder was instructed to notify the various companies to take up the tracks within ten days, otherwise that the city would proceed to do so at the expense of the companies.

Agent the proposition to raise funds to build a new city jail by the sale of city lands. Hewlett offered a resolution requiring Land and Water Commission to advertise for bids for a list of city lands which it would be profitable to sell at the present time with an estimate of their value. The report was adopted and Mr. Westerfield requested to confer with the committee on police and prison next Friday evening.

Preparatory to laying a cement sidewalk on the west side of Fourth East between First and Second South, Thomas Marshall and others petitioned the Council to establish a temporary grade. The petition was granted and the city engineer instructed to locate the grade.

The Salt Lake Brewing company, by Jacob Morris, general manager, petitioned the Council to establish the grade

both in the street and sidewalk on Sixth and Seventh South streets and Tenth East. Referred to committee on streets.

Mrs. Anne Dillon, in a communication addressed to the Mayor and City Council, conveyed her thanks for the resolutions of sympathy expressed on the death of her husband, Police Officer Dan Dillon.

Robert Erick asked the privilege of plating building in front of residence at 167 B street for a period of three months. Mr. Patrick informed the Council that he was about to build a house. Granted.

WANT BALANCE OF FUND.

Utah Volunteer Society Will Ask for Remainder of Reception Money.

A very interesting meeting of the Utah Society of the Army of the Philippines was held in L. O. O. F. hall last evening. The early part of the evening was taken up in discussing a permanent meeting place, and a few other matters connected with the organization. It was decided on motion to appoint a committee of the society to wait on the volunteer reception committee and ask to have the balance of the money which was acquired at the time of the batteries' return turned over to the treasurer of the society. The committee appointed for that purpose is composed of Maj. Grant, Thomas Holberg and C. R. Mabey. The balance amounts to \$2,400, a sum that would place the society on a very secure financial basis, and inasmuch as the fund was raised to defray the expenses of the reception, the members of the society argue that it should be returned to them.

The chair was occupied by First Vice President Grandview, in the absence of President Major F. A. Grant. The officers-elect were to have been installed, but several of them were absent and therefore the meeting was postponed to the next meeting. A committee was appointed to wait on Maj. Grant and inform him of his election as president of the society. Commander Bishop of James B. McKean post to be held for the boys to meet in the L. O. O. F. hall all the time, and the committee that was appointed to arrange for a hall, was instructed to choose arrangements for the L. O. O. F. hall. The proposition was submitted to give a hall during Conference week, and a committee was appointed to look into the matter and report at a special meeting to be held in the Grand Pacific hotel tomorrow evening.

The society accepted an invitation from the McKean post to unite with that body in observing Memorial day, and a committee was appointed to confer with the post. The annual meeting of the society will be held in the parlors of the Grand Pacific hotel on April 6th.

The following new names were added to the society last night: W. H. Farnes, Glenn Benson, Edwin Roberts, Jr., Joseph Winkler, James W. Connell, Charles Stout, Leonard Duffin, David J. Davis, Noah S. Dawson, George Harris, James E. Wonnacott, L. E. Lieut. George W. Gibbs and Robert Reid.

TEMPLE NOTICES.

The Salt Lake Temple will close on the evening of Thursday, April 5th, and reopen on the morning of Tuesday, April 10th, 1900.
